TABLE OF CONTENTS

1. 01-Mgr/00 Academic English Language Preparation (1).....	4
2. 02-Mgr/00 Academic English Language Preparation (2).....	6
3. 03-Mgr/00 Academic English Language Preparation (3).....	8
4. 04-Mgr/00 Academic English Language Preparation (4).....	10
5. 15-Mgr/17 Academic English Language Preparation (5).....	12
6. 11-Mgr/15 Academic German Language Preparation (1).....	13
7. 12-Mgr/15 Academic German Language Preparation (2).....	14
8. 13-Mgr/15 Academic German Language Preparation (3).....	15
9. 14-Mgr/15 Academic German Language Preparation (4).....	16
10. 16-Mgr/17 Academic German Language Preparation (5).....	17
11. 03-Mgr/00 Analysis of Substances in Biological Systems.....	18
12. 01-Mgr/00 Analytical Chemistry (1).....	19
13. 02-Mgr/00 Analytical Chemistry (2).....	20
14. 01-Mgr/00 Anatomy and Physiology.....	21
15. 01-Mgr/00 Applied Statistics for Pharmacists.....	22
16. 22-Mgr/14 Basics of Regulatory Pharmacy.....	23
17. 03-Mgr/00 Biochemistry.....	24
18. 01-Mgr/00 Bioorganic Chemistry.....	25
19. 02-Mgr/00 Biophysics.....	26
20. 03-Mgr/00 Biophysics of voltage dependent membrane channels.....	27
21. 04-Mgr/00 Biotechnology.....	28
22. 11-Mgr/00 Clinical Pharmacology and Pharmacotherapy (1).....	29
23. 12-Mgr/00 Clinical Pharmacology and Pharmacotherapy (2).....	30
24. 14-Mgr/00 Computer Data Processing.....	31
25. 08-Mgr/00 Cosmetic Formulations.....	32
26. 300-Mgr/15 Defense of Diploma Thesis (state exam).....	33
27. 05-Mgr/16 Diploma Thesis Preparation KBML (1).....	34
28. 06-Mgr/16 Diploma Thesis Preparation KBML (2).....	35
29. 02-Mgr/16 Diploma Thesis Preparation KCCTL (1).....	36
30. 03-Mgr/16 Diploma Thesis Preparation KCCTL (2).....	37
31. 04-Mgr/16 Diploma Thesis Preparation KFANF (1).....	38
32. 05-Mgr/16 Diploma Thesis Preparation KFANF (2).....	39
33. 01-Mgr/16 Diploma Thesis Preparation KFB (1).....	40
34. 02-Mgr/16 Diploma Thesis Preparation KFB (2).....	41
35. 03-Mgr/16 Diploma Thesis Preparation KFCH (1).....	42
36. 04-Mgr/16 Diploma Thesis Preparation KFCH (2).....	43
37. 04-Mgr/16 Diploma Thesis Preparation KFCHL (1).....	44
38. 05-Mgr/16 Diploma Thesis Preparation KFCHL (2).....	45
39. 06-Mgr/16 Diploma Thesis Preparation KFT (1).....	46
40. 07-Mgr/16 Diploma Thesis Preparation KFT (2).....	47
41. 03-Mgr/16 Diploma Thesis Preparation KGF (1).....	48
42. 04-Mgr/16 Diploma Thesis Preparation KGF (2).....	49
43. 02-Mgr/16 Diploma Thesis Preparation KORF (1).....	50
44. 03-Mgr/16 Diploma Thesis Preparation KORF (2).....	51
45. 01-Mgr/00 Drug Analysis.....	52
46. 15-Mgr/00 First Aid.....	54
47. 19-Mgr/00 General Biology.....	55

48. 06-Mgr/00	General and Inorganic Chemistry.....	56
49. 09-Mgr/00	Good Manufacturing Drugs Practice.....	57
50. 22-Mgr/00	Health Psychology.....	59
51. 28-Mgr/15	Health Technology Assessment.....	60
52. 24-Mgr/00	History of Pharmacy.....	61
53. 07-Mgr/00	Homeopaties.....	62
54. 24-Mgr/10	Hospital Pharmacy.....	63
55. 07-Mgr/00	Hygiene of Pharmaceutical Facilities.....	64
56. 08-Mgr/10	Immunodiagnostics.....	65
57. 09-Mgr/00	Immunology.....	66
58. 23-Mgr/17	Innovative Medicines in Pharmacotherapy.....	67
59. 09-Mgr/15	Latin Language for Pharmacists (1).....	68
60. 10-Mgr/15	Latin Language for Pharmacists (2).....	69
61. 27-Mgr/15	Legal Rudiments for Pharmacists.....	70
62. 18-Mgr/00	Management Basics in Pharmacy.....	71
63. 09-Mgr/00	Mathematics.....	72
64. 10-Mgr/00	Medical Devices.....	73
65. 06-Mgr/00	Medicinal Plants.....	74
66. 11-Mgr/00	Microbiology.....	75
67. 08-Mgr/00	Molecular Basis of Drug Development.....	76
68. 12-Mgr/00	Molecular Biology of Drug Effects.....	77
69. 07-Mgr/00	Natural Remedies.....	78
70. 08-Mgr/00	New Trends in Analytical Chemistry.....	79
71. 04-Mgr/00	Organic Chemistry (1).....	80
72. 05-Mgr/00	Organic Chemistry (2).....	81
73. 13-Mgr/00	Pathobiochemistry.....	82
74. 13-Mgr/00	Pathology.....	83
75. 14-Mgr/00	Pathophysiology.....	84
76. 03-Mgr/00	Pharmaceutical Botany.....	85
77. 500-Mgr./15	Pharmaceutical Chemistry (state exam).....	86
78. 05-Mgr/00	Pharmaceutical Chemistry (1).....	87
79. 06-Mgr/00	Pharmaceutical Chemistry (2).....	89
80. 06-Mgr/00	Pharmaceutical Informatics.....	91
81. 07-Mgr/00	Pharmaceutical Propedeutics.....	92
82. 600-Mgr/15	Pharmaceutical Technology (state exam).....	93
83. 05-Mgr/00	Pharmaceutical Technology (1).....	94
84. 06-Mgr/00	Pharmaceutical Technology (2).....	96
85. 700-Mgr/15	Pharmacognosy (state exam).....	98
86. 04-Mgr/00	Pharmacognosy (1).....	99
87. 05-Mgr/00	Pharmacognosy (2).....	100
88. 16-Mgr/16	Pharmacokinetic modelling and drug development.....	101
89. 800-Mgr/15	Pharmacology (state exam).....	103
90. 08-Mgr/00	Pharmacology and Toxicology (1).....	104
91. 09-Mgr/00	Pharmacology and Toxicology (2).....	105
92. 08-Mgr/00	Physical Chemistry.....	106
93. 01-Mgr/00	Physical Education and Sport (1).....	107
94. 02-Mgr/00	Physical Education and Sport (2).....	108
95. 03-Mgr/00	Physical Education and Sport (3).....	109
96. 04-Mgr/00	Physical Education and Sport (4).....	110

97. 06-Mgr/00 Physics.....	111
98. 08-Mgr/00 Practice in Community Pharmacy (1).....	112
99. 09-Mgr/15 Practice in Community Pharmacy (2).....	113
100. 10-Mgr/00 Principles of Molecular Modelling.....	114
101. 11-Mgr/00 Problem Solving in Physical Chemistry.....	115
102. 12-Mgr/00 Problem Solving in Physics.....	116
103. 25-Mgr/14 Promoting Public Health.....	117
104. 09-Mgr/00 Radiopharmaceuticals.....	118
105. 10-Mgr/15 Retail Pharmacy, Legislation and Ethics.....	119
106. 07-Mgr/00 Selected Chapters in Inorganic Chemistry.....	120
107. 08-Mgr/00 Selected Chapters in Organic Chemistry.....	121
108. 12-Mgr/00 Social Pharmacy and Pharmacoeconomics.....	122
109. 900-Mgr/15 Social Pharmacy and Retail Pharmacy (state exam).....	123
110. 08-Mgr/00 Technology of Natural Drugs.....	124
111. 10-Mgr/00 Tissues Functional Morphology.....	125
112. 16-Mgr/00 Toxicology of Xenobiotics.....	126
113. 999/Eplus/16 Trends in the European pharmaceutical education.....	127
114. 17-Mgr/00 Veterinary Pharmacology.....	129
115. 14-Mgr/00 Xenobiochemistry.....	130

COURSE DESCRIPTION

University: Comenius University in Bratislava	
Faculty: Faculty of Pharmacy	
Course ID: FaF.KJ/01-Mgr/00	Course title: Academic English Language Preparation (1)
Educational activities:	
Type of activities: practicals / lecture / seminar	
Number of hours:	
per week: 0 / 0 / 2 per level/semester: 0 / 0 / 28	
Form of the course: on-site learning	
Number of credits: 2	
Recommended semester: 2.	
Educational level: I.II.	
Prerequisites:	
Recommended prerequisites: intermediate level of English	
Course requirements:	
- active presence at seminars - midterm test (15%) - final test (85%)	
To complete the course successfully a student must achieve at least 60%.	
Scale of assessment (preliminary/final): 15% / 85%	
Learning outcomes:	
After completing the seminars a student is able to understand professional texts, reproduce their content orally and in writing, using English professional terminology from the field of human body and the profession of a pharmacist. Thanks to professional texts a student can use English professional terminology in both professional and non-professional environments.	
Class syllabus:	
The lessons concentrate on the following topics: the human body, the body systems and their functions, pharmaceutical care, the role of a pharmacist, services available in a pharmacy, laboratory equipment.	
Recommended literature:	
Bates, M., Dudley, T.: Nucleus: General Science. London: Longman, 1992	
James, V.D.: Medicine.: London: Prentice Hall, 1989	
Course Reader I, Grammar Workbook I	
Languages necessary to complete the course:	
English language	
Notes:	
Academic English Language Preparation (1-4) within Master Study Programme is obligatory elective and is carried out in Slovak study programme in four semesters. The contents of these specialized professional courses closely follow the contents of other professional courses taught in the relevant semesters. It is therefore highly recommended to take the courses gradually from	

the 2nd to the 5th semester (including) of the study, i.e. Academic English Language Preparation (1) in the 2nd (summer) semester of study.

Past grade distribution

Total number of evaluated students: 2225

COURSE DESCRIPTION

University: Comenius University in Bratislava	
Faculty: Faculty of Pharmacy	
Course ID: FaF.KJ/02-Mgr/00	Course title: Academic English Language Preparation (2)
Educational activities:	
Type of activities: practicals / lecture / seminar	
Number of hours:	
per week: 0 / 0 / 2 per level/semester: 0 / 0 / 28	
Form of the course: on-site learning	
Number of credits: 2	
Recommended semester: 3.	
Educational level: I.II.	
Prerequisites:	
Recommended prerequisites: intermediate level of English	
Course requirements:	
- active presence at seminars - midterm test (15%) - final test (85%)	
To complete the course successfully a student must achieve at least 60%.	
Scale of assessment (preliminary/final): 15% / 85%	
Learning outcomes:	
After completing the seminars a student is able to understand professional texts, reproduce their content orally and in writing, using English professional terminology from the field of factors influencing health condition. Thanks to professional texts a student can use English professional terminology in both professional and non-professional environments.	
Class syllabus:	
The lessons concentrate on the following topics: factors influencing our health, pollution of environment, drug abuse and drug addiction, health care, disease transmission.	
Recommended literature:	
Bates, M., Dudley, T.: Nucleus: General Science. London: Longman, 1992	
James, V.D.: Medicine.: London: Prentice Hall, 1989	
Course Reader II, Grammar Workbook II

Prerequisites:	
Recommended prerequisites: intermediate level of English	
Course requirements:	
- active presence at seminars - midterm test (15%) - final test (85%)	
To complete the course successfully a student must achieve at least 60%.	
Scale of assessment (preliminary/final): 15% / 85%	
Learning outcomes:	
After completing the seminars a student is able to understand professional texts, reproduce their content orally and in writing, using English professional terminology from the field of basic chemical terminology and disease prevention. Thanks to professional texts a student can use English professional terminology in both professional and non-professional environments.	
Class syllabus:	
The lessons concentrate on the following topics: disease prevention, healthy way of life, balanced diet, vitamins, minerals, cosmetics, first aid, treatment in various situations and emergencies.	
Recommended literature:	
Bates, M., Dudley, T.: Nucleus: General Science. London: Longman, 1992	
James, V.D.: Medicine.: London: Prentice Hall, 1989	
Course Reader III, Grammar Workbook III	
Languages necessary to complete the course:	
English language	
Notes:	
Academic English Language Preparation (1-4) within Master Study Programme is obligatory elective and is carried out in Slovak study programme in four semesters. The contents of these specialized professional courses closely follow the contents of other professional courses taught in the relevant semesters. COURSE DESCRIPTION

University: Comenius University in Bratislava

Faculty: Faculty of Pharmacy

Course ID:
FaF.KJ/04-Mgr/00

Course title:
Academic English Language Preparation (4)

Educational activities:

Type of activities: practicals / lecture / seminar

Number of hours:

per week: 0 / 0 / 2 **per level/semester:** 0 / 0 / 28

Form of the course: on-site learning

Number of credits: 2

Recommended semester: 5.

Educational level: I.II.

Prerequisites:

Recommended prerequisites:

intermediate level of English

Course requirements:

- active presence at seminars
- midterm test (15%)
- final test (85%)

To complete the course successfully a student must achieve at least 60%.

Scale of assessment (preliminary/final): 15% / 85%

Learning outcomes:

After completing the seminars a student is able to understand professional texts, reproduce their content orally and in writing, using English professional terminology from the field of pharmacology. Thanks to professional texts a student can use English professional terminology in both professional and non-professional environments.

Class syllabus:

The lessons concentrate on the following topics: common disorders, home medicine cabinet, drug classification, frequently prescribed drugs, their sources, composition and effects, alternative medicine, healing herbs - their structure and functions.

Recommended literature:

Bates, M., Dudley, T.: Nucleus: General Science. London: Longman, 1992

James, V.D.: Medicine.: London: Prentice Hall, 1989

Course Reader IV, Grammar Workbook IV

Languages necessary to complete the course:

English language

Notes:

Academic English Language Preparation (1-4) within Master Study Programme is obligatory elective and is carried out in Slovak study programme in four semesters. The contents of these specialized professional courses closely follow the contents of other professional courses taught in the relevant semesters. It is therefore highly recommended to take the courses gradually from

the 2nd to the 5th semester (including) of the study, i.e. Academic English Language Preparation (4) in the 5th (winter) semester of study.

COURSE DESCRIPTION

University: Comenius University in Bratislava										
Faculty: Faculty of Pharmacy										
Course ID: FaF.KFT/01-Mgr/00	Course title: Anatomy and Physiology									
Educational activities:										
Type of activities: lecture / laboratory practicals / seminar										
Number of hours:										
per week: 2 / 3 / 0 per level/semester: 28 / 42 / 0										
Form of the course: on-site learning										
Number of credits: 6										
Recommended semester: 2.										
Educational level: I.II.										
Prerequisites:										
Course requirements:										
Learning outcomes:										
Class syllabus:										
Recommended literature:										
Languages necessary to complete the course:										
Notes:										
Past grade distribution										
Total number of evaluated students: 2660										
A	B	C	D	E	FX

COURSE DESCRIPTION

University: Comenius University in Bratislava

Faculty: Faculty of Pharmacy

Course ID:
FaF.KFCh/01-Mgr/00

Course title:
Drug Analysis

Educational activities:

Type of activities: lecture / laboratory practicals / seminar

Number of hours:

per week: 3 / 3 / 0 **per level/semester:** 42 / 42 / 0

Form of the course: on-site learning

Number of credits: 7

Recommended semester: 7.

Educational level: I.II.

Prerequisites:

Course requirements:

Conditions for Course Completion:

Obligatory participation in all forms of teaching.

To pass two semestral tests, each minimally 60 % rate, personal attendance at all laboratory exercises (practises). Those tests consist of questions related to the lectures and laboratory practices of subject Drug analysis. After only a successful passing of those two tests, a final (written) exam will be allowed. The exam will consist of 20 questions, in which all the content of Drug analysis lectures and laboratory practices will be represented. Each of the questions will be evaluated by two (3) points. For the final exam, an unlimited number of students can be registered, however, two (2) days before the exam date at the latest. The exam (the written test) will last 120 minutes. The evaluation of the exam is as follows: 100–93 % (evaluation level A), 92–85 % (evaluation level B), 84–77 % (evaluation level C), 76–69 % (evaluation level D), 68–60 % (evaluation level E), less than 60 points (not passed).

Scale of assessment (preliminary/final): 0/100

Learning outcomes:

Course content is based on the requirements of The European Pharmacopoeia (Ph.Eur. 9th) and the Slovak Pharmacopoeia Codex 2015, 2nd Ed as the legal norm, containing a set of technical requirements for evaluation of quality of drugs, which has to be followed by anyone who manipulates with medicines, uses them in providing health care, or carries out state supervision in the field of pharmacy.

Specifications (requirements) for quality of drugs, in accordance with the principles of GLP and GMP, are integrated into the course. The aim of practical courses is to improve the ability of student to orientate in large amount of factographic data in Pharmacopoeia.

Class syllabus:

Chemical structure of the drug is the starting point for the determination of the suitable procedure for analytical utilization of its physical, physicochemical and chemical properties for identification, purity tests, stability and assay of the drug.

Syllabus of lectures and laboratory practicals are designed to cover all important areas of the field.

The student will acquire theoretical knowledge of the control of drugs and medicines, work with the European Pharmacopoeia and the Slovak Pharmacopoeia Code. He adheres to the rules of good laboratory, pharmaceutical and manufacturing practice.

The knowledge and experience obtained after passing the subject Drug Analysis are utilized by students in their pregraduate and postgraduate study.

COURSE DESCRIPTION

University: Comenius University in Bratislava	
Faculty: Faculty of Pharmacy	
Course ID: FaF.KFCh/05-Mgr/00	Course title: Pharmaceutical Chemistry (1)
Educational activities: Type of activities: lecture / laboratory practicals / seminar Number of hours: per week: 2 / 0 / 1 per level/semester: 28 / 0 / 14 Form of the course: on-site learning	
Number of credits: 5	
Recommended semester: 5.	
Educational level: I.II.	
Prerequisites: Recommended prerequisites: Pharmaceutical Chemistry is interdisciplinary science filled with a certain connecting function between chemical and biological disciplines; it builds on the knowledge from Organic Chemistry, Analytical Chemistry, Physical Chemistry, Biochemistry and Pharmacology.	
Course requirements:	
Learning outcomes:	
Class syllabus: The curse content of Pharmaceutical Chemistry I consists of teaching of theoretical principles of pharmaceutical chemistry and drugs (as well as excipients) systematics. The theoretical principles deal with a definition and a conception of pharmaceutical chemistry; a development of drugs (history, current approach, perspectives); a classification, an activity site of drugs (receptor theories); molecular mechanisms of an activity; a strategy of drugs' research and development; chemical structure – physicochemical properties – biological activity relationships studies; physicochemical properties of drugs (acidity and basicity, lipophilicity, stereochemical aspects); analytical properties of drugs and their biotransformation. After theoretical principles understanding, students are continuously familiarized with the drugs affecting central and peripheral nervous system, endocrine system; with vitamins and antineoplastics.

Educational activities:	
Type of activities: lecture / laboratory practicals / seminar	
Number of hours:	
per week: 2 / 5 / 0 per level/semester: 28 / 70 / 0	
Form of the course: on-site learning	
Number of credits: 7	
Recommended semester: 6.	
Educational level: I.II.	
Prerequisites:	
Recommended prerequisites: Pharmaceutical Chemistry is interdisciplinary science filled with a certain connecting function between chemical and biological disciplines; it builds on the knowledge from Organic Chemistry, Analytical Chemistry, Physical Chemistry, Biochemistry, Pharmacology and Pharmaceutical Chemistry I.	
Course requirements:	
Learning outcomes:	
Class syllabus: The curse content of Pharmaceutical Chemistry II consists of teaching of theoretical and methodical procedures which are applied in the process of the drug synthesis (laboratory practice) and drugs (as well as excipients) systematics (lectures). The curse of laboratory practice consists of synthesis and physicochemical parameters determination for selected drugs; the study of structural features modification considering the physicochemical descriptors and the biological activity of such derivatives; the study of stability of selected structures. After theoretical principles understanding, students are continuously familiarized (lectures) with the drugs affecting cardiovascular system, peripheral nervous system, respiratory, digestive and excretory system; anti-infective drugs; diagnostic and protective compounds and excipients.

COURSE DESCRIPTION

University: Comenius University in Bratislava	
Faculty: Faculty of Pharmacy	
Course ID: FaF.KFChL/16-Mgr/16	Course title: Pharmacokinetic modelling and drug development
Educational activities:	
Type of activities: lecture / seminar	
Number of hours:	
per week: 2 / 1 per level/semester: 28 / 14	
Form of the course: on-site learning	
Number of credits: 4	
Recommended semester: 8.	
Educational level: I.II.	
Prerequisites:	
Course requirements: During semester students will pass 2 written tests worth 15 points each. During the examination another written test worth 50 points will be given, followed by an oral examination. Points from seminar tests and current examination test will be added together. To obtain the grade A students need to collect a total of at least 65 test points, to obtain grade B at least 60 points, to obtain grade C at least 55 points, to obtain grade D at least 50 points. To obtain grade E a total of at least 40 points is needed.	
Learning outcomes: The course is suitable for students of Pharmacy program who are aiming to pursue a research carrier. Students will hear about mathematical models of disposition kinetics of chemicals in the body and will master physicochemical principles of relationships between pharmacokinetic profile and molecular structure of potential drugs. After passing the course the students will be familiar with methods of determination and in silico prediction of transport properties of drugs. They will obtain a broader picture of the complex issue of research and optimization of properties of compounds undergoing pharmaceutical development. The student will be able to use the acquired skills in drug discovery programs.	
Class syllabus: Phenomenological approach to transport and fate of a drug in the organism. Principles and mathematical models of kinetics of absorption, disposition and biological effect of a drug. Pharmacokinetic compartmental models of distribution based on the physiology of human body. Kinetic parameters and their significance in drug design. Methods for prediction of physicochemical properties and kinetic parameters of bioactive compounds from their molecular structure. Optimization of biological screening tests and interpretation of experimental data.

COURSE DESCRIPTION

University: Comenius University in Bratislava					
Faculty: Faculty of Pharmacy					
Course ID: FaF/999/Eplus/16	Course title: Trends in the European pharmaceutical education				
Educational activities:					
Type of activities: Number of hours: per week: per level/semester: Form of the course: on-site learning					
Number of credits: 4					
Recommended semester:					
Educational level: I.II.					
Prerequisites:					
Course requirements: After the production of evidence about completing the course at the foreign university (Transcript of Records), a student graduating ERASMUS plus is graduated with the credit assessment of the imported subject to the faculty, according to academic results at the host university / institution (Table E) and to protocol of the recognition of studies by Faculty / University - recognition of the results at the home institution (Table F).					
Learning outcomes: The Erasmus plus student gets obtained knowledges from the selected course offered from the curriculum of the host university / institution that belongs to the so-called educational component of the study program student. The student by the studying abroad obtains the knowledges in the indispensable subjects that are not in the curriculum at the home university / institution.					
Class syllabus: The student of Erasmus plus graduate under the Learning Agreement for Studies intended subject at another faculty of a university on which has not be completed undergraduate courses of - according to the current curriculum of subject.					
Recommended literature: the recommended reading for the student to the subject at the host university / institution - the topical source for present problems					
Languages necessary to complete the course: the language or combination of languages, knowledge of which is necessary to pass the subject at the host university / institution					
Notes: subject is provided, according to interest, only students who are sent to the host university / institution participating in foreign ERASMUS mobility plus					
Past grade distribution Total number of evaluated students: 3
