| <b>Learning outcomes:</b><br>The aim of the course is to deepen the knowledge in selected aspects of procedural and substantive law of the EU, which have particular importance for legal practice as well as for awareness about advantages stemming from EU membership to the citizens. The teaching method shall entail case-law studies and elaborating simulated cases to support creative thinking.                                                                                                                                                                                                                                                                                                                                                 |                                  |
| <b>Class syllabus:</b><br>Enforcement of EU Law before the Court of Justice and national courts (focus on Slovak proceedings)<br>Free Movement of Workers and EU Citizenship<br>Freedom of Establishment and Free Movement of the Goods<br>Enforcement of EU Competition law (decentralisation of antitrust proceedings, concentration control and state aid control)<br>Borderline between lawful conduct and a prohibited agreement or an abuse of dominant position<br>EU Competition rules in relation to other EU policies and norms<br>Selected EU policies (commercial, energy, environmental etc.)<br>Implementation of EU Law, Commitology<br>Economic crisis in the context of EU Law and its limits, the future of Economic and Monetary Union |                                  |
