| <b>Course requirements:</b><br>The Department of Languages determines the number of acceptable absences as follows: two absences (four in the case of a 4-hour subsidy if the two two-hour-sessions are taught continuously in one week) are acceptable without the obligation to submit the proof of non-attendance. In case of another (i.e. third/fifth) absence, a notice of conditional exclusion from the course follows. A subsequent absence (i.e. the fourth/sixth absence) means the final exclusion from the course. In case of serious health problems, representation abroad, or other unforeseen circumstances or serious circumstances not listed here, it is necessary to discuss this in advance with the teacher and agree on appropriate an course of action.<br>tests, written and oral assignments<br>Assessment:<br>100 % - 91 % - A, 90 % - 81 % - B, 80 % - 73 % - C, 72 % - 66 % - D, 65 %-60 % - E, 59 % and less – FX |     |                                                        |       |       |       |      |

| <b>Learning outcomes:</b><br>Upon completion of the course, the student will acquire knowledge about the development of ethnology in Slovakia. The history of one's own scientific discipline is a tool of cognition within it. The history of the discipline also helps to understand the current place of ethnology in the system of humanities, resp. social sciences. Students have the opportunity to realize the parallels between the development of ethnology in Slovakia with the development of ethnology and cultural anthropology in the world.                                                                                                                                                                                                                                                                                                                                                                                   |                                                     |
