## COURSE DESCRIPTION

**University:** Comenius University in Bratislava

**Faculty:** Jessenius Faculty of Medicine in Martin

**Course ID:** Course title:

JLF.ÚPAs/J-2-PA-004/17 Midwifery III. (1)

**Educational activities:**

Type of activities: practicals

Number of hours:

per week: ,93 per level/semester: 13,95

Form of the course: on-site learning

**Number of credits:** 5

**Recommended semester:** 1.

**Educational level:** II.

**Prerequisites:**

**Recommended prerequisites:**

---

**Course requirements:**

Writing test min. 60%

Checked individual study

Evaluation: A: 91 – 100%, B: 81 – 90 %, C: 73-80 %, D: 66 – 72 %, E: 60 – 65%, FX: 59% and less

Scale of assessment (preliminary/final): Continuous evaluation: 40%Concluding evaluation: 60%

**Learning outcomes:**

Students define chosen nursing models and characterize their use in midwifery. It is possible to apply some ethical theories to midwifery.

**Class syllabus:**

The importance of legislation directives by midwifery in the SR.

Some ethical theories in terms of solving moral dilemmas in midwifery (utilitarianism, deontology).

Ethical dimensions in midwifery (midwife as a practitioner, educator, counselor, advocate, researcher ...).

Selected ethical problems in midwifery (normal delivery versus imperial rupture, confidentiality and privacy, application of the basic principles of health care ethics in community care of midwifery ...)

Some nursing models and their use in midwifery: Roy's adaptation model.

Some nursing models and their use in midwifery: Gordon's functional and dysfunctional health patterns, their utility in midwifery for the individual, the family, and the community.

Principles of midwifery in the transcultural context, Leininger's theory of traumcultural nursing and its use in midwifery.

## COURSE DESCRIPTION

**University:** Comenius University in Bratislava

**Faculty:** Jessenius Faculty of Medicine in Martin

<b>Course ID:</b> JLF.ÚPAs/J-2-PA-023/18	<b>Course title:</b> Prenatal Psychology
---	---

**Educational activities:**

**Type of activities:** practicals

**Number of hours:**

**per week:** ,8 **per level/semester:** 12

**Form of the course:** on-site learning

**Number of credits:** 3

**Recommended semester:** 4.

**Educational level:** II.

**Prerequisites:**

**Course requirements:**

Student assessment takes the form of a written test and oral examination, minimum limit for success: 60%. Rating:

A: 91–100 %, B: 81–90 %, C: 73–80 %, D: 66–72 %, E: 60–65 %, FX: 59 % or less

Scale of assessment (preliminary/final): 50/50

**Learning outcomes:**

The aim of the subject is to explain prenatal development with an emphasis on the development of brain functions, the importance of psychosocial factors in prenatal development and childbirth, the psychological experiences of women during pregnancy and childbirth, and the importance of the attachment to the development of the child.

**Class syllabus:**

Prenatal development, importance of prenatal development factors in the etiopathogenesis of later psychiatric illnesses, possibilities of mother- fetus communication in the prenatal period.

Psychosocial factors affecting prenatal development: stress, emotional state of the mother.

Psychosocial maturity for pregnancy.

Perinatal loss: Impact on mother, father, role of medical staff, coping and defensive mechanisms.

The process of childbirth in terms of mother's psychological experience, communication between midwife and woman during childbirth.

Attachment - relationship between mother and child: Definition of meaning, influence on the child's further cognitive, emotional and social development. Possibilities to support the optimal development of attachment in the early post-natal period from the point of view of the midwife.

## COURSE DESCRIPTION

<b>University:</b> Comenius University in Bratislava	
<b>Faculty:</b> Jessenius Faculty of Medicine in Martin	
<b>Course ID:</b> JLF.ÚPAs/J-2-PA-012/18	<b>Course title:</b> Research in Nursing and Midwifery II-2
<b>Educational activities:</b>	
<b>Type of activities:</b> practicals	
<b>Number of hours:</b>	
per week: ,5 per level/semester: 7,5	
<b>Form of the course:</b> on-site learning	
<b>Number of credits:</b> 2	
<b>Recommended semester:</b> 3.	
<b>Educational level:</b> II.	
<b>Prerequisites:</b>	
<b>Recommended prerequisites:</b>	
Research in midwifery II-1	
<b>Course requirements:</b>	
Student assessment takes the form of a written test, minimum limit for success: 60%. Rating: A: 91–100 %, B: 81–90 %, C: 73–80 %, D: 66–72 %, E: 60–65 %, FX: 59 % or less Scale of assessment (preliminary/final): 100/0	
<b>Learning outcomes:</b>	
Successfull passing of the subject creates the prerequisites for acquiring the principles of the data collection process in the context of midwifery research. The subject also informs students of the most frequently used data collection instruments - questionnaires, interviews, assessment scales and psychometric properties of the data collection instrument.	
<b>Class syllabus:</b>	
Scientific project of the bachelor thesis. Operationalization of concepts in research, scientific hypothesis, principles of formulation and hypothesis verification. Data collection methods - questionnaire, standardized vs. non-standardized questionnaire, process of the validation. Psychometric properties of the instrument, validity, reliability, cut-of score. Observation in research, assessment scales, interview, analysis of interviews.	
<b>Recommended literature:</b>

## COURSE DESCRIPTION

**University:** Comenius University in Bratislava

**Faculty:** Jessenius Faculty of Medicine in Martin

**Course ID:**  
JLF.ÚPAs/J-2-PA-030/17

**Course title:**  
Summer Practice (1)

**Educational activities:**

**Type of activities:** practice

**Number of hours:**

per week: 21,33 per level/semester: 319,95

**Form of the course:** on-site learning

**Number of credits:** 5

**Recommended semester:** 2.

**Educational level:** II.

**Prerequisites:**

**Course requirements:**

the student handed over to a teacher responsible for Summer Practice 1:

- 1 nursing documentation from a neonatal workplace
- 1 nursing documentation from the gynecological department
- 1 nursing documentation from the nursing home

The student in the Midwifery Practitioner's Notebook must have confirmed:

- Confirmation of passing the practice
- A list of practical exercises

**Learning outcomes:**

The subject synthesizes the knowledge of midwifery, prenatal care management, psychology of a woman in clinical practice.

In providing care to women / mothers, newborns and infants, the student works with the nursing process. After completing the subject, the student should be able to provide individualized care in maternity assistance to women / mothers and their families in health and illness in primary, secondary and follow-up healthcare as well as in community care

**Class syllabus:**

- The student performs the prescribed tasks and improves their performance. Performs the results recorded in the Practice Log.
- The student is involved in the department's work schedule.
- The student works with the nursing process
- The student provides individualized nursing care to pregnant women / parents / sixteen / newborn babies at the appropriate department.
- The student provides individualized care to women in outpatient care.
- The student keeps the nursing documentation used in the workplace.
- The student carries out the education of pregnant women, pregnant women, six-year-olds.
- The patient caregiver applies the knowledge gained in the individual subjects during the study.
