COURSE DESCRIPTION

Academic year: 2021/2022	
University: Comenius University Bratislava	
Faculty: Faculty of Arts	
Course ID: FiF.KSD/A-boHI-582/17	Course title: HS: Viticulture and Enology in the Slovak History
Educational activities: Type of activities: seminar Number of hours: per week: 2 per level/semester: 28 Form of the course: on-site learning	
Number of credits: 3	
Recommended semester: 4.	
Educational level: I.	
Prerequisites:	
Course requirements: The students' results are evaluated exclusively by continuously checking their performance during the teaching part of the semester. During the first two teaching weeks, students choose a research area – a wine-growing district (according to the current list of wine-growing areas in Slovakia). In the following weeks, students research this area on their own and present their results at the beginning of the lesson, following the teacher's explanation. Students present their results verbally (without any written support) or in the form of a PPT presentation - depending on the number of registered students). To successfully complete the course, students need to work systematically, regularly informing the teacher about the progress they have achieved in their research. The deadline of their tasks cannot be postponed as they are connected to specifically scheduled lessons. Likewise, the teacher may not consider every research report by the student to be satisfactorily completed. To successfully meet their tasks, students need to successfully complete at least 6 out of 10 assignments. They are evaluated in the credit week according to the following scale: 10 adequately completed tasks adequately completed tasks A, 9 adequately completed tasks B, 8 adequately completed tasks C, 7 adequately completed tasks D, 6 adequately completed tasks E, 5 and less adequately completed tasks. To successfully meet their term tasks, students can have no more than 2 absences. Violation of academic ethics will be punished, and the student will lose all the received points in the relevant assessment. Scale of assessment (preliminary/final): Scale of assessment preliminary/final: 100/0	
Learning outcomes: At the end of the course, students are familiar with the subject of research in a specific discipline of agrarian history - the history of viticulture and winemaking. During the seminar, students get acquainted with the cultivation of vineyards and wine production in the territory of today's Slovakia in a wider Central European framework from the earliest times to the 20th century. An advantage of the course is that it is connected with the practice of historians in the field of museology (through excursions to wine museums) and points out the interdisciplinary character of research in an international framework.	
Class syllabus:	

1. History of grapevine cultivation in the world and in the Kingdom of Hungary.
2. – 3. An outline of the history of viticulture in Slovakia until the end of the 19th century.
4. An outline of the history of viticulture in Slovakia in the 20th century.
5. Agricultural engineering and vine varieties.
6. Wine production and types of wines (including sparkling wines).
7. From the winegrower, through the vineyard mayor (Pereg) to the innkeeper.
8. Viticultural law, viticultural and winemaking legislation.
9. Material monuments of viticulture and winemaking, viticultural museums in Slovakia.
10. Vineyards and wine in written sources (literature, correspondence, oral tradition).
11. Personalities in the history of viticulture and winemaking (oenology, ampelography, education).
12. Vineyards as historical landscape structures.

Number of credits: 3	
Recommended semester: 3.	
Educational level: I.	
Prerequisites:	
Course requirements: The students are assessed during the examination period in two phases as follows. The main part is the oral exam. Students can take it only after passing a short factual test consisting of 10 questions (at least 60% of the answers need to be correct, i.e. 6 correct answers out of 10). With these questions the teacher asks them to describe facts, without analyzing or generalizing them. The aim of the test is to make sure the students have the knowledge necessary to answer the questions in the oral exam, at which they will need to discuss interactively, dynamically and thoroughly with the examiner (the results of the test do not influence final grade). At the beginning of the exam, the students draw two random questions whose the exact wording is unknown to them in advance. From the first lesson, however, students will be given more extensive theses on the required (lectured and self-study) topics the questions will be based on. They have 10 minutes to prepare the answers to the questions and 20 minutes for answering. The students take the test and the oral exam on the same day and the final evaluation in the form of a test and an oral exam must be completed not only in regular date, but also in the retake dates. The exact regular and retake dates will be published in the AIS during the credit week. Grading scale: A = 100% – 92% B = 91% – 84% C = 83% – 76% D = 75% – 68% E = 67% – 60% Fx = 59% – 0% Violation of academic ethics will be punished, and the student will lose all the received points in the relevant assessment.
