University: Comenius University Bratislava

Course ID: FiF.KSD/A-boHI-580/14	Course title: HS: Land Owners' Unions and Their Regulation in Slovakia
Educational activities: Type of activities: seminar Number of hours: per week: 2 per level/semester: 28 Form of the course: on-site learning	
Number of credits: 3	
Recommended semester: 4., 6.	
Educational level: I.	
Prerequisites:	
Course requirements: To successfully complete the course, students are required to take active part in class during the lesson period of the term (in the form of questions and colloquial discussions, inquiries about the state of completion of their seminar paper) and to submit a seminar paper by the end of the credit week. During the first two teaching weeks, students choose a research area – a feudal lordship in the Kingdom of Hungary, on whose example they will study the characteristics of the serfs in specific areas and in the rural environment. The seminar paper must have at least 10 standard pages and, from the formal viewpoint, it needs to have the relevant footnotes, include an introduction, a core, the conclusions, the bibliography and optional illustrative pictures. In order to complete the course successfully and submit their seminar paper, students need to work systematically during the lesson period of the term. Maximum number of possible absences: 2. Students with more absences, resulting from objectively justifiable and documented reasons, can complete the course under the following conditions: for each absence beyond the set framework, students need to submit a paper of around 5 standard pages on a pre-assigned and consulted topic. The paper must include an introduction, the main part (without footnotes), conclusions and the bibliography. Grading scale: A = 100% – 92% B = 91% – 84% C = 83% – 76% D = 75% – 68% E = 67% – 60% Fx = 59% – 0% Violation of academic ethics will be punished, and the student will lose all the received points in the relevant assessment. Scale of assessment (preliminary/final): Scale of assessment preliminary/final: 100/0	
Learning outcomes: At the end of the course, students understand the necessity of linking research in agrarian and social history in order to understand the position of serfs - the majoritarian social class in the	

Kingdom of Hungary. By analysing and interpreting specific historical sources - urbaria, students get familiar with the relationship between serfs and landowners in the 16th - 18th century, when enlightened rulers developed this originally private legal relationship—defined primarily in the urbaria of the different estates—into a common land regulation. This way, and by means of further serf regulations, they shaped the public legal order and stabilized the social order up to 1848 in the form of new legislation. Students are familiar with the methodology of working with economic administration sources of feudal lordships and are able to assess their informative methodological limits.

Class syllabus:

1. Social and legal status of serfs in the Kingdom of Hungary from the establishment of the monarchy until the end of the 18th century. State legislation regulating the urbarial obligations of serfs and special regulations in estates.
2. Urbaria and their importance for economic and social history. Origin and development of urbaria. Definition of urbarium as a written source, its formal and content side. The language of urbaria.
3. Overview of the preserved urbaria of castle estates, church institutions, individual municipalities and estates property in Slovakia.
4. Urbaria as a source of demographic and genealogical data, the social stratification of serfs according to the urbaria, the mobility of serfs.
5. Order and administration of estates, municipalities.
6. Serf settlement and duties of serfs (in kind, money and labor).
7. Urbaria as mirrors of the level of economic production in Slovakia in the modern age (grange, crop and domestic animal husbandry, fish farming, viticulture, crafts, used measures and weights).
8. Urbaria as a source of historical geography and topography (settlement location, toponymy, natural conditions of specific regions).
9. The economic policy of the Vienna court and its approach to serf issues in the 18th century.
10. Maria Theresa's urbarial regulation, basic features, significance.
11. Analysis of the country urbarium.
12. Consequences of the urbarial regulation and the legal status of serfs before the abolition of serfdom.

Academic year: 2021/2022	
University: Comenius University Bratislava	
Faculty: Faculty of Arts	
Course ID: FiF.KSD/A-boHI-582/17	Course title: HS: Viticulture and Enology in the Slovak History
Educational activities: Type of activities: seminar Number of hours: per week: 2 per level/semester: 28 Form of the course: on-site learning	
Number of credits: 3	
Recommended semester: 4., 6.	
Educational level: I.	
Prerequisites:	
Course requirements: <p>The students' results are evaluated exclusively by continuously checking their performance during the teaching part of the semester. During the first two teaching weeks, students choose a research area – a wine-growing district (according to the current list of wine-growing areas in Slovakia). In the following weeks, students research this area on their own and present their results at the beginning of the lesson, following the teacher's explanation. Students present their results verbally (without any written support) or in the form of a PPT presentation - depending on the number of registered students). To successfully complete the course, students need to work systematically, regularly informing the teacher about the progress they have achieved in their research. The deadline of their tasks cannot be postponed as they are connected to specifically scheduled lessons. Likewise, the teacher may not consider every research report by the student to be satisfactorily completed. To successfully meet their tasks, students need to successfully complete at least 6 out of 10 assignments. They are evaluated in the credit week according to the following scale: 10 adequately completed tasks adequately completed tasks A, 9 adequately completed tasks B, 8 adequately completed tasks C, 7 adequately completed tasks D, 6 adequately completed tasks E, 5 and less adequately completed tasks.</p> <p>To successfully meet their term tasks, students can have no more than 2 absences.</p> <p>Violation of academic ethics will be punished, and the student will lose all the received points in the relevant assessment.</p> <p>Scale of assessment (preliminary/final): Scale of assessment preliminary/final: 100/0</p>	
Learning outcomes: <p>At the end of the course, students are familiar with the subject of research in a specific discipline of agrarian history - the history of viticulture and winemaking. During the seminar, students get acquainted with the cultivation of vineyards and wine production in the territory of today's Slovakia in a wider Central European framework from the earliest times to the 20th century. An advantage of the course is that it is connected with the practice of historians in the field of museology (through excursions to wine museums) and points out the interdisciplinary character of research in an international framework.</p>

1. History of grapevine cultivation in the world and in the Kingdom of Hungary.
2. – 3. An outline of the history of viticulture in Slovakia until the end of the 19th century.

Prerequisites:	
Course requirements: <p>The students are assessed during the examination period in two phases as follows. The main part is the oral exam. Students can take it only after passing a short factual test consisting of 10 questions (at least 60% of the answers need to be correct, i.e. 6 correct answers out of 10). With these questions the teacher asks them to describe facts, without analyzing or generalizing them. The aim of the test is to make sure the students have the knowledge necessary to answer the questions in the oral exam, at which they will need to discuss interactively, dynamically and thoroughly with the examiner (the results of the test do not influence final grade). At the beginning of the exam, the students draw two random questions whose the exact wording is unknown to them in advance. From the first lesson, however, students will be given more extensive theses on the required (lectured and self-study) topics the questions will be based on. They have 10 minutes to prepare the answers to the questions and 20 minutes for answering. The students take the test and the oral exam on the same day and the final evaluation in the form of a test and an oral exam must be completed not only in regular date, but also in the retake dates. The exact regular and retake dates will be published in the AIS during the credit week.</p> <p>Grading scale: A = 100% – 92% B = 91% – 84% C = 83% – 76% D = 75% – 68% E = 67% – 60% Fx = 59% – 0%</p> <p>Violation of academic ethics will be punished, and the student will lose all the received points in the relevant assessment.
