COURSE DESCRIPTION

Academic year: 2021/2022	
University: Comenius University Bratislava	
Faculty: Faculty of Arts	
Course ID: FiF.KSJ/A-AboSL-62/15	Course title: Grammatical Interpretation of Texts
Educational activities: Type of activities: seminar Number of hours: per week: 2 per level/semester: 28 Form of the course: on-site learning	
Number of credits: 3	
Recommended semester: 3., 5.	
Educational level: I.	
Prerequisites:	
Course requirements: a. Systematic preparation for classes that is student's individual preparation for the class discussion on a selected topic according to the course programme (e. g. creation of an opinion on a topic discussed in selected paper, searching for the linguistic material, searching for the examples of a grammatical phenomenon in use, ...). b. Final test or colloquium in the 12th or 13th week of semester (the exact date will be announced at the beginning of the semester) Outcomes during the semester are not possible to evaluate more than once. The teacher will accept a maximum of two absences with documentation. Grading scale: A (100 % - 92 %), B (91 % - 84 %), C (83 % - 76 %), D (75 % - 68 %), E (67 % - 60 %). Credits will be given only to student who gets a minimum of the evaluation E (60 %). Infringement of academic policy will result in annulment of the evaluation. Scale of assessment (preliminary/final): 100 % preliminary	
Learning outcomes: After completing the course, a student has broadened the knowledge in the field of Slovak language grammar that previously gained in courses dealing with morphosyntax of the language. The student has learned how to analyse functionality of some language phenomena in actual context and according to the need of members of the communication besides correctness of grammatical aspect of the text. Moreover, he is capable to search for linguistic material and follow the communication behaviour of the engaged parties. The students manage to apply the gained knowledge in teaching experience, science, language counselling and own creative work.	
Class syllabus: Grammatical analysis and interpretation. Markedness and unmarkedness of grammatical categories in selected context. Grammatical forms to refer to deixis of a specific person, place, and time. Word order, Sentence order, text coherence. Current problems of the Slovak language speakers (to be set according to preferences of a study group e. g.: declension of foreign words, feminine noun formation, the use of verb tenses in communication, transposition of verb categories of person and number).

Number of credits: 4	
Recommended semester: 3.	
Educational level: I.	
Prerequisites:	
Course requirements: The output of the completed course is during the teaching part (continuously): - Elaboration of continuous tasks and assignments max. 10 b. - Continuous test of knowledge and skills max. 20 b. - Development of a quantitatively oriented research project max. 30 b. In the trial period (at the end): - Final test of knowledge and skills max. 40 b. TOTAL max. 100 points A minimum of 60% pass is required to successfully complete the course. CLASSIFICATION: A - 91 - 100 (excellent - excellent results), B - 80 - 90 (very good - above average standard), C - 70 - 80 (good - normal reliable work), D - 60 - 70 (satisfactory - acceptable results), E - 50 - 60 (sufficient - the results meet the minimum criteria), Fx - 0 - 50 (insufficient). The teacher accepts max. 2 absences with proven documents. The exact date of the mid-term evaluation will be announced at the beginning of the semester. Exam dates will be published via AIS no later than the last week of the semester. Scale of assessment (preliminary/final): = 60/40.	
Learning outcomes: Upon successful completion of the course, students are able to explain in their own words the basic methodological concepts, methods of collecting research data, stages and principles of quantitative and qualitative pedagogical research. They are able to name and describe individual procedures of collection and empirically correct analysis of research data and procedures of their statistical evaluation. They can explain the methodological consequences of individual methods of compiling a research sample. They are able to design their own quantitatively oriented educational research, survey, or teacher action research and describe the procedures of independent research efforts. They can apply the acquired knowledge in the independent development of a research project.	

Class syllabus:

1. Pedagogical research - definition of basic terms: cognition, science in human cognition, scientific theory, research, pedagogical research, theory, practice, method, methodology. Relation of pedagogical research to practice (R&D). Research - action research - evaluation.
2. Planning, organization and implementation of field pedagogical research: Stages of research work. Research plan and diary of a pedagogical researcher. Research information preparation. Ethics in research work.
3. Thinking about a research problem: The difference between a topic and a research problem. Thinking and judgment of a researcher. Selecting the essential and distinguishing partial phenomena from the general background. Preparation of a research project.
4. Qualitative and quantitative research design: Comparison of qualitative and quantitative research, their philosophical background, goals, focus and procedures in the collection and processing of research data.
5. Quantitative oriented pedagogical research and its main phases: Determining the research problem. Variables and hypotheses and their place in pedagogical research. Hypothesis testing in scientific research. Measurement and quantification in pedagogical research.
6. Methods of research sample selection and determination of research data collection methods: research method, research tool, validity, reliability and correlation coefficient of research tool. Selection, study and preparation, or creation of tools for collecting research data.
7. Methods of research data collection: Observation, questionnaire, assessment scales, interviews, tests of knowledge and skills, sociometry, semantic differential and pedagogical experiment
8. Processing of obtained research data: Preparation for analysis, Analysis and interpretation of obtained research data (verbal or numerical). Discussion of research conclusions. Making recommendations for practice.
9. Computer data analysis: MS Excel, Statistics and others.
