The course ends with a test, which consists of the translation of 1 standard page of text in translation software from Slovak into the language of the student. The test does not evaluate the translation aspect, but only the technical ability to work with the software. The test usually takes place in the last week of the semester and is available on-site and online. The final test makes up 70% of the evaluation. Classification scale: 100% - 91% - A 90% - 81% - B 80% - 71% - C 70% - 61% - D 60% - 51% - E 50% - 0% - FX Teachers accept a maximum of 2 absences with proven documents . Scale of assessment (preliminary/final): 30% continuous evaluation, 70% final evaluation	
Learning outcomes: After completing the course, the student is able to work with translation software and can apply the acquired knowledge and principles not only on one, but also on several translation softwares. Skills include basic software skills - creating and working with translation memories, project and glossary management as well as advanced knowledge, including working with parallel texts, conversions of various input document formats, and project management of translation teams. Students will be able to identify and overcome potential technical difficulties and solve compatibility problems on their own. The graduate masters the basic principles of post-editing and working with machine translation from various providers.	
Class syllabus: 1. Working with a license and school VPN 2. Creating a project, the principle of operation of the translation memory 3. Number of credits: 4	
Recommended semester: 4.	
Educational level: I.	
Prerequisites:	
Course requirements: The course is assessed by a combination of continuous assessment (short tests during the semester, always after the lecture: 50% of the final grade) and a final test (50% of the final grade). The questions in the short tests are aimed at recapitulating the basic concepts covered in the lecture, and the tests are administered through an electronic interface (moodle). The questions in the final test are aimed at verifying the extent to which students have mastered and understood basic concepts in the field of interpreting theory and practice. The date of the final test will be announced by the instructor at least two weeks before the deadline, and usually two dates are offered to students, via AIS. Grading Scale: 100% - 91% - A 90% - 81% - B 80% - 71% - C 70% - 61% - D 60% - 51% - E 50% - 0% - FX The instructor will accept a maximum of 2 absences with documented evidence. Scale of assessment (preliminary/final): 50/50 (%)	
Learning outcomes: Upon completion of the course, students will have a basic understanding of key theoretical and practical concepts in the field of interpreting. The body of knowledge builds on, develops, and adds to the basic translational concepts and specifics in the field of interpreting. Students have a clear understanding of the types, genres, and techniques of interpreting, their applications, and the basic models that describe them. They also understand what the basic cognitive and communicative models of interpreting are, know the specifics of both simultaneous and consecutive interpreting, and know their history and prerequisites for successful implementation. They shall have a basic understanding of the deontology of interpreting and the development of the competences necessary for interpreting.	
Class syllabus:	

1. Basic introduction to interpreting, the lecturer and the content of the courses, explanation of the assessment methodology 2. Basic concepts in the theory and practice of interpreting 3. History of interpreting 4. Communication situations in interpreting and their models 5. Cognitive processes in interpreting and their models 6. Consecutive interpreting - theory and practice 7. Simultaneous interpreting - theory and practice 8. The interpreter's personality and the development of interpreting competences 9. Deontology of interpreting (short film and discussion) 10.
