COURSE DESCRIPTION

Academic year: 2022/2023	
University: Comenius University Bratislava	
Faculty: Faculty of Arts	
Course ID: FiF.KGNŠ/BNE-360/20	Course title: Effective Reading in a Foreign Language - German
Educational activities: Type of activities: seminar Number of hours: per week: 2 per level/semester: 28 Form of the course: on-site learning	
Number of credits: 3	
Recommended semester: 4., 6.	
Educational level: I.	
Prerequisites:	
Course requirements: The seminar is designed as an exercise, so there is feedback on the homework, but without a grade. During the exam period: Writing a reading log (7-10 pages) or a literary or scientific text of approximately 10-15 pages, assigned by the teacher. This reading log will be assessed. The assessment criteria are: Does the reading diary provide information about whether and how the text has been read and understood? Has the knowledge gained from the reading been documented in such a way that it can be recalled without re-reading the text? Is there evidence of deeper engagement with what has been read? Were useful reading strategies chosen and used effectively to achieve the reading goals? Students will be admitted to the examination only if at least 60% of the homework assignments have been satisfactorily completed during the course. Violation of academic ethics will result in the cancellation of points earned in the relevant area. Grading scale: A: 100-91%, B: 90-81%, C: 80-73%, D: 72-66%, E: 65-60%, Fx: 59-0% The instructor will accept a maximum of 2 absences with documented evidence. Scale of assessment (preliminary/final): Weighting of midterm/final grades: 10/90	
Learning outcomes: Graduates of the course know what is meant by reading competence in didactically oriented reading research. They know the different reading goals and have a repertoire of reading strategies. They are able to select and use reading strategies in a targeted way in order to solve problems in reading authentic foreign language texts of a higher level of difficulty (literary texts, scientific texts). They can read without a dictionary and use dictionaries without wasting time. They can record the results of reading and prepare them for further use (e.g. visualisation, summarising, listing). They can engage in reading by asking questions about the text and reading in a reflective way.	
Class syllabus: The seminar is designed to "read through" the topics covered by developing excerpts from texts or short articles (in individual, partner, group work, or collaborative plenary) using appropriate reading strategies. Thus, the acquisition of knowledge about the complex, active process of reading should go hand-in-hand with the practice of reading methods and problem-solving strategies, in order to	

combine reading with reflective reading. The topics are: reading competence, academic reading, reading strategies (non-fiction texts, literary texts, professional texts), reading in a foreign language.
