Course ID: FiF.KSD/A-boHI-580/14	Course title: HS: Land Owners' Unions and Their Regulation in Slovakia
Educational activities: Type of activities: seminar Number of hours: per week: 2 per level/semester: 28 Form of the course: on-site learning	
Number of credits: 3	
Recommended semester: 4., 6.	
Educational level: I.	
Prerequisites:	
Course requirements: To successfully complete the course, students are required to take active part in class during the lesson period of the term (in the form of questions and colloquial discussions, inquiries about the state of completion of their seminar paper) and to submit a seminar paper by the end of the credit week. During the first two teaching weeks, students choose a research area – a feudal lordship in the Kingdom of Hungary, on whose example they will study the characteristics of the serfs in specific areas and in the rural environment. The seminar paper must have at least 10 standard pages and, from the formal viewpoint, it needs to have the relevant footnotes, include an introduction, a core, the conclusions, the bibliography and optional illustrative pictures. In order to complete the course successfully and submit their seminar paper, students need to work systematically during the lesson period of the term. Maximum number of possible absences: 2. Students with more absences, resulting from objectively justifiable and documented reasons, can complete the course under the following conditions: for each absence beyond the set framework, students need to submit a paper of around 5 standard pages on a pre-assigned and consulted topic. The paper must include an introduction, the main part (without footnotes), conclusions and the bibliography. Grading scale: A = 100% – 92% B = 91% – 84% C = 83% – 76% D = 75% – 68% E = 67% – 60% Fx = 59% – 0% Violation of academic ethics will be punished, and the student will lose all the received points in the relevant assessment. Scale of assessment (preliminary/final): Scale of assessment preliminary/final: 100/0	
Learning outcomes: At the end of the course, students understand the necessity of linking research in agrarian and social history in order to understand the position of serfs - the majoritarian social class in the	

Kingdom of Hungary. By analysing and interpreting specific historical sources - urbaria, students get familiar with the relationship between serfs and landowners in the 16th - 18th century, when enlightened rulers developed this originally private legal relationship—defined primarily in the urbaria of the different estates—into a common land regulation. This way, and by means of further serf regulations, they shaped the public legal order and stabilized the social order up to 1848 in the form of new legislation. Students are familiar with the methodology of working with economic administration sources of feudal lordships and are able to assess their informative methodological limits.
Class syllabus: 1. Social and legal status of serfs in the Kingdom of Hungary from the establishment of the monarchy until the end of the 18th century. State legislation regulating the urbarial obligations of serfs and special regulations in estates. 2. Urbaria and their importance for economic and social history. Origin and development of urbaria. Definition of urbarium as a written source, its formal and content side. The language of urbaria. 3. Overview of the preserved urbaria of castle estates, church institutions, individual municipalities and estates property in Slovakia. 4. Urbaria as a source of demographic and genealogical data, the social stratification of serfs according to the urbaria, the mobility of serfs. 5. Order and administration of estates, municipalities. 6. Serf settlement and duties of serfs (in kind, money and labor). 7. Urbaria as mirrors of the level of economic production in Slovakia in the modern age (grange, crop and domestic animal husbandry, fish farming, viticulture, crafts, used measures and weights). 8. Urbaria as a source of historical geography and topography (settlement location, toponymy, natural conditions of specific regions). 9. The economic policy of the Vienna court and its approach to serf issues in the 18th century. 10. Maria Theresa's urbarial regulation, basic features, significance. 11. Analysis of the country urbarium. 12. Consequences of the urbarial regulation and the legal status of serfs before the abolition of serfdom.

COURSE DESCRIPTION

Academic year: 2022/2023	
University: Comenius University Bratislava	
Faculty: Faculty of Arts	
Course ID: FiF.KSD/A-boHI-592/22	Course title: HS: Latin practicum 1
Educational activities: Type of activities: practicals Number of hours: per week: 2 per level/semester: 28 Form of the course: on-site learning	
Number of credits: 3	
Recommended semester: 2.	
Educational level: I.	
Prerequisites:	
Course requirements: During the lesson period of the term, students are required to actively engage in practical exercises associated with reading and translating a pre-selected and prepared source (provided by the teacher in photocopy or digital form). In order to register the students's involvement in the lessons and to ignite their interest in taking interactive and dynamic part in the different sessions, the teacher gives them the possibility to freely engage (in the form of suggestions or comments) or calling out students to answer or discuss a specific question the teacher or a student has asked. During the lesson period of the term, students need to pass two short tests consisting of ten questions / points covered during the second half of the term (the second takes place during the lesson in the credit week. Students are notified of the date of the first test with two weeks notice). The tests aim not only at grading students, but also to provide the teacher with feedback and to test their knowledge of the specific linguistic characteristics of medieval Latin. Example illustrating the form of the tests: Topic "Abbreviations in Latin medieval texts:" to identify and name the abbreviations used in writing practice in 10 sentences selected from the sources analyzed in the previous lessons. After taking the second test, the points from both tests are added up and students are evaluated according to the following scale 100 - 92 %: A; 91 - 84 %: B; 83 - 76 %: C; 75 - 68 %: D; 67 - 60 %, E; 59 - 0 %. Violation of academic ethics will be punished, and the student will lose all the received points in the relevant assessment. The maximum number of possible absences is 2. Students with more absences, resulting from objectively justifiable and documented reasons, can complete the course under the following conditions: for each absence beyond the set framework, students need to submit a paper of around 5 standard pages on a pre-assigned and consulted topic. The paper must include an introduction, the main part (without footnotes), conclusions and the bibliography. Scale of assessment (preliminary/final): Scale of assessment preliminary/final: 100/0	
Learning outcomes: At the end of the course, students have a general overview of various types of sources in Neo-Latin focusing on the territory of Central Europe. They are also skilled in working with databases of early modern sources. As the course aims to take students "ad fontes" (to the sources) and make them familiar with the practical side of Neo-Latin research, students are able to characterize narrative	

and diplomatic sources. Having worked with original period texts (autographs and transcripts), students understand the lexicon used in early modern texts and can name the linguistic specifics of contemporary Latin. After going through this intensive training course, students understand—of course using a Latin-Slovak dictionary—simple word/sentence constructions, can find their way within the text and are able to look up specific information.

Class syllabus:

1. Introduction to the subject: students get familiar with the content of the course, its goals, requirements and the relevant bibliography.
2. The position and function of Latin (from a socio-linguistic perspective) in the Middle Ages in continental Europe, focusing mainly on Central Europe / the Kingdom of Hungary.

COURSE DESCRIPTION

Academic year: 2022/2023	
University: Comenius University Bratislava	
Faculty: Faculty of Arts	
Course ID: FiF.KSD/A-boHI-593/22	Course title: HS: Latin practicum 2
Educational activities: Type of activities: practicals Number of hours: per week: 2 per level/semester: 28 Form of the course: on-site learning	
Number of credits: 3	
Recommended semester: 3.	
Educational level: I.	
Prerequisites:	
Course requirements: During the lesson period of the term, students are required to actively engage in practical exercises associated with reading and translating a pre-selected and prepared source (provided by the teacher in photocopy or digital form). In order to register the students's involvement in the lessons and to ignite their interest in taking interactive and dynamic part in the different sessions, the teacher gives them the possibility to freely engage (in the form of suggestions or comments) or by calling out students to answer or discuss a specific question either the teacher or a student has asked. During the lesson period of the term, students need to pass two short tests consisting of ten questions / points covered during the second half of the term (the second takes place during the lesson in the credit week. Students are notified of the date of the first test with two weeks notice). The tests aim not only to grade students, but also to provide the teacher with feedback and to test their knowledge of the specific linguistic characteristics of medieval Latin. Example illustrating the form of the tests: Topic "Abbreviations in Latin medieval texts:" to identify and name the abbreviations used in writing practice in 10 sentences selected from the sources analyzed in the previous lessons. After taking the second test, the points from both tests are added up and students are evaluated according to the following scale 100 - 92 %: A; 91 - 84 %: B; 83 - 76 %: C; 75 - 68 %: D; 67 - 60 %, E; 59 - 0 %. Violation of academic ethics will be punished, and the student will lose all the received points in the relevant assessment. The maximum number of possible absences is 2. Students with more absences, resulting from objectively justifiable and documented reasons, can complete the course under the following conditions: for each absence beyond the set framework, students need to submit a paper of around 5 standard pages on a pre-assigned and consulted topic. The paper must include an introduction, the main part (without footnotes), conclusions and the bibliography. Scale of assessment (preliminary/final): Scale of assessment preliminary/final: 100/0	
Learning outcomes: At the end of the course, students have a general overview of various types of sources in Neo-Latin focusing on the territory of Central Europe. They are also skilled in working with databases of early modern sources. As the course aims to take students "ad fontes" (to the sources) and make them familiar with the practical side of Neo-Latin research, students are able to characterize narrative	

and diplomatic sources. Having worked with original period texts (autographs and transcripts), students understand the lexicon used in early modern texts and can name the linguistic specifics of contemporary Latin. After going through this intensive training course, students understand—of course using a Latin-Slovak dictionary— simple word/sentence constructions, can find their way within the text and are able to look up certain information.

Class syllabus:

1. Introduction to the subject: students get familiar with the content of the course, its goals, requirements and the relevant bibliography.
2. The position and function of Latin in the Middle Ages in European culture, focusing mainly on Central Europe / the Kingdom of Hungary.

Learning outcomes: The student can prepare a portrait of a key figure in the social, political, and cultural life of 19th-century European history according to his/her own choice. The student can work with biographies of historical figures in both subjective and objectivist contexts. Great emphasis is placed on social, cultural, and political contextualization. Furthermore, students can work with methodological texts which enable them to gain a deeper understanding of the approaches by which we are able to analyse the agency of individuals in a predominantly modern, historical period. At the same time, students have skills related to the presentation of acquired knowledge. They possess the skills of speech and presentation, the ability to adhere to time frames of presentation, as well as habits of public speaking. The 19th Century Personalities course is a sensitively balanced course that combines several aspects that students need to successfully carry out not only scholarly but also any socially beneficial systematic activity.	
Class syllabus: 1.-6. Work with concepts, acquiring the basic methodological prerequisites for the elaboration of a historical biography of a personality of the 19th century 7.-13. Individual presentations, critical reflection, and discussion.

Educational activities: Type of activities: seminar Number of hours: per week: 2 per level/semester: 28 Form of the course: on-site learning	
Number of credits: 3	
Recommended semester: 4., 6.	
Educational level: I.	
Prerequisites:	
Course requirements: The students' results are evaluated exclusively by continuously checking their performance during the teaching part of the semester. During the first two teaching weeks, students choose a research area – a wine-growing district (according to the current list of wine-growing areas in Slovakia). In the following weeks, students research this area on their own and present their results at the beginning of the lesson, following the teacher's explanation. Students present their results verbally (without any written support) or in the form of a PPT presentation - depending on the number of registered students). To successfully complete the course, students need to work systematically, regularly informing the teacher about the progress they have achieved in their research. The deadline of their tasks cannot be postponed as they are connected to specifically scheduled lessons. Likewise, the teacher may not consider every research report by the student to be satisfactorily completed. To successfully meet their tasks, students need to successfully complete at least 6 out of 10 assignments. They are evaluated in the credit week according to the following scale: 10 adequately completed tasks adequately completed tasks A, 9 adequately completed tasks B, 8 adequately completed tasks C, 7 adequately completed tasks D, 6 adequately completed tasks E, 5 and less adequately completed tasks. To successfully meet their term tasks, students can have no more than 2 absences. Violation of academic ethics will be punished, and the student will lose all the received points in the relevant assessment. Scale of assessment (preliminary/final): Scale of assessment preliminary/final: 100/0

During the seminar, students get acquainted with the cultivation of vineyards and wine production in the territory of today's Slovakia in a wider Central European framework from the earliest times to the 20th century. An advantage of the course is that it is connected with the practice of historians in the field of museology (through excursions to wine museums) and points out the interdisciplinary character of research in an international framework.

1. History of grapevine cultivation in the world and in the Kingdom of Hungary.
2. – 3. An outline of the history of viticulture in Slovakia until the end of the 19th century.

Educational activities: Type of activities: lecture Number of hours: per week: 2 per level/semester: 28 Form of the course: on-site learning	
Number of credits: 3	
Recommended semester: 3.	
Educational level: I.	
Prerequisites:	
Course requirements: The students are assessed during the examination period in two phases as follows. The main part is the oral exam. Students can take it only after passing a short factual test consisting of 10 questions (at least 60% of the answers need to be correct, i.e. 6 correct answers out of 10). With these questions the teacher asks them to describe facts, without analyzing or generalizing them. The aim of the test is to make sure the students have the knowledge necessary to answer the questions in the oral exam, at which they will need to discuss interactively, dynamically and thoroughly with the examiner (the results of the test do not influence final grade). At the beginning of the exam, the students draw two random questions whose the exact wording is unknown to them in advance. From the first lesson, however, students will be given more extensive theses on the required (lectured and self-study) topics the questions will be based on. They have 10 minutes to prepare the answers to the questions and 20 minutes for answering. The students take the test and the oral exam on the same day and the final evaluation in the form of a test and an oral exam must be completed not only in regular date, but also in the retake dates. The exact regular and retake dates will be published in the AIS during the credit week. Grading scale: A = 100% – 92% B = 91% – 84% C = 83% – 76% D = 75% – 68% E = 67% – 60% Fx = 59% – 0% Violation of academic ethics will be punished, and the student will lose all the received points in the relevant assessment.
