STATE EXAM DESCRIPTION

Academic year: 2022/2023	
University: Comenius University Bratislava	
Faculty: Faculty of Arts	
Course ID: FiF.KEM/A-boET-990/15	Course title: Bachelor's Degree Thesis Defence
Number of credits: 12	
Educational level: I.	
Course requirements: The student must submit the bachelor's thesis within the deadline specified in the schedule of the current academic year for the relevant date of the state exam. The bachelor thesis is submitted in electronic form via AIS. The work must meet the parameters determined by the internal quality system of Comenius University. The provisions of Article 14 of Internal Regulation no. 5/2020 (Study Regulations of the Faculty of Arts of Comenius University) apply to the evaluation of the bachelor's thesis. The supervisor of the final thesis and its opponent will prepare evaluations of the bachelor's thesis and propose a grade in the A-FX grading scale, which the student receives a minimum of three working days before the defence. Bachelor thesis evaluation criteria: 1. The contribution of the bachelor's thesis, the fulfilment of the goals of the thesis in its assignment, and the requirements for the content of the bachelor's thesis given by the internal quality system of Comenius University. The following is assessed: demonstration of knowledge and skills, ability to work creatively in the study program, ability applied in the collection, interpretation, and processing of basic scientific literature; in the case of an empirically oriented bachelor's thesis also mastering the application of theoretical principles in practice and verifiability of hypotheses. 2. Originality of the work (bachelor thesis must not be plagiarized, must not infringe the copyrights of other authors); the documentation for the defence of the bachelor's thesis also includes protocols of originality from the CRZP and Theses systems, to the results of which the thesis supervisor and the opponent express their opinions in their evaluations. 3. Correctness and accuracy of citation of used information sources, research results of other authors and group authors, correctness of the description of methods and working procedures of other authors or group authors. 4. Compliance of the structure of the bachelor's thesis with the prescribed composition defined by the internal quality system of Comenius University. 5. Respecting the recommended length of the bachelor's thesis (the recommended length of the bachelor's thesis is usually 30 – 40 standard pages = 54,000 to 72,000 characters, including spaces), the adequacy of the length of the thesis is assessed by the thesis supervisor. 6. Linguistic and stylistic level of work and formal adjustments. The student orally presents the content, achieved goals, and conclusions of the bachelor's thesis, and answers the questions and comments of the thesis supervisor, opponent, or members of the examination committee. The committee will comprehensively evaluate the quality of the bachelor's thesis, assess the method and form of defence, and the student's ability to adequately respond to comments and questions from the evaluations of the thesis supervisor and the opponent. The student receives their final grade based on the average of the assessment of the thesis supervisor and opponent from their evaluations, and the assessment of the examination committee. Scale of assessment (preliminary/final): 0/100	

Learning outcomes: The student has mastered the basic requirements of writing a scientific text in compliance with the rules of academic ethics, is able to work creatively in the field of study in which he completed the study program, and has adequate knowledge and understanding of the relevant issues. The student can apply his skills in the collection, interpretation, and processing of basic scientific literature, or even in its application in practice, or has the ability to solve a partial task related to the focus of the bachelor's thesis. After a successful defence of the bachelor's thesis, the student is able to logically deal with the theoretical background of the bachelor's thesis and respond to questions relating to the relevant issues.
Class syllabus: 1. The student presents the bachelor's thesis in front of the committee for state exams, the opponent of the bachelor's thesis, and those present. 2. The student responds to comments and questions in the evaluations. 3. The student responds to the questions of the committee for state exams or the questions in a broader debate.

COURSE DESCRIPTION

Academic year: 2022/2023	
University: Comenius University Bratislava	
Faculty: Faculty of Arts	
Course ID: FiF.KEM/A-boET-008/22	Course title: Fieldwork Practice
Educational activities: Type of activities: fieldwork Number of hours: per week: per level/semester: 10d Form of the course: on-site learning	
Number of credits: 5	
Recommended semester: 2.	
Educational level: I.	
Prerequisites:	
Recommended prerequisites: Course on Fieldwork Methods	
Antirequisites: FiF.KEM/A-boET-008/15	
Course requirements: Students will participate in a 10-day (possibly collective) field research at the end of the summer term in a selected location. They will conduct ethnographic interviews with at least 20 respondents (or a minimum of 20 hours) according to the chosen topic, using participant observation and visual documentation methods. Participants will demonstrate compliance with the requirements by active participation in consultations during the research, audio recordings of the interviews, a structured ethnographic field diary (according to the syllabus of the course Fieldwork Methods) and photo documentation. The overall grade is then summed up to 100 % and evaluated according to the ECTS A = 100-91% B = 90 – 81 % C = 80 – 73 % D = 72 – 66 % E = 65 – 60 % FX = 59 – 0 %. Violation of academic ethics will be punished, and the student will lose all the received percentage in the relevant assessment. Scale of assessment (preliminary/final): 100% in the exam period: practice	
Learning outcomes: Students acquire the skills necessary for long-term ethnographic field research, increase their sensitivity to observation, listening, and semi-structured interviewing, and practice practical ethnographic field note-taking. After the practicum, students will classify the collected data professionally and submit it in the form of a Fieldwork Data in the following semester. Students will acquire the skills necessary to be able to adequately observe, recognize, and describe a social situation, while being interested in the perspectives of the participants in the social situation and the ethnographic context.

University: Comenius University Bratislava	
Faculty: Faculty of Arts	
Course ID: FiF.KHV/A-boHV-029/16	Course title: Mathematical Methods in Music Studies
Educational activities: Type of activities: lecture / seminar Number of hours: per week: 1 / 1 per level/semester: 14 / 14 Form of the course: on-site learning	
Number of credits: 3	
Recommended semester: 4.	
Educational level: I.	
Prerequisites:	
Course requirements: Continuously during the semester: active participation, continuous tests for exercises (50%) Final evaluation: final test (50%) Classification scale: 100-92%: A 91-84%: B 83-76%: C 75-68%: D 67-60%: E 59-0%: FX. Violation of academic ethics results in the cancellation of the obtained points in the relevant evaluation item. Scale of assessment (preliminary/final): 50/50	
Learning outcomes: Upon successful completion of the course, students know various areas of research combining mathematical and musicological methods. We have found the connections between mathematics and music in the cultural history of mankind since time immemorial. In recent decades, these connections have intensified and mathematical practices have become an integral part of modern music theory and musicology. The student has an overview of historical and recent results achieved in this interdisciplinary area.	
Class syllabus: The harmony as an "exact" discipline. Harmony as one of the Pythagorean mathematics and also part of the medieval quadrivium. Harmony of spheres and Kepler astronomy. Tuning. Development, theory and problems of tuning. Pythagorean, natural, extended natural, uneven and even tempered tunings. Sounding coincidence. From Mozart's dice plays to Markov's strings, Xenakis' "musique stochastique" and algorithmic composition. Sounding algebra. From Mersenn's music combinatorics to Schoenberg's dodecaphony and integral serialism. Fundamentals of American set theory. Mathematics in music analysis and music theory of the 20th century. Lewin's transformation theory, Clough-Douthett's theory of maximum uniformity, Cohn's neo-Riemannism, the latest geometrizing theories.

COURSE DESCRIPTION

Academic year: 2022/2023	
University: Comenius University Bratislava	
Faculty: Faculty of Arts	
Course ID: FiF.KEM/A-boET-019/22	Course title: Methodological Foundations of Ethnographic Research
Educational activities: Type of activities: seminar Number of hours: per week: 2 per level/semester: 28 Form of the course: on-site learning	
Number of credits: 4	
Recommended semester: 4., 6.	
Educational level: I.	
Prerequisites:	
Antirequisites: FiF.KEM/A-boET-019/20	
Course requirements: Upon the successful completion of the course the students will have knowledge regarding the basic concepts of social science research and its methodological approaches with emphasis on the specifics of ethnographic research. Students will be required to read selected texts every week. They will prepare five questions regarding the theoretical and methodological aspects of the paper or prepare another assignment on a specific topic. They are obliged to submit the assignment in the e-learning system moodle.uniba.sk on a due date. Active participation in discussions is required during the seminar. The materials for the course, including the syllabus, will be accessible in the moodle.uniba.sk and in the MS Teams. Credits will not be awarded if at least three assignments are not submitted. Violation of academic ethics will be punished, and the student will lose all the received points in the relevant assessment. The exact date of the mid-term evaluation will be announced at the beginning of the semester. During the exam period, students take a written test. The dates of the exam will be announced via AIS no later than in the last week of the teaching part of the semester. Absences in class are assessed according to the Study Regulations of Comenius University in Bratislava, Faculty of Arts, Art. 4.9. (https://fphil.uniba.sk/fileadmin/fif/o_fakulte/dokumenty_vnutorne_predpisy/vnutorne_predpisy/vp_5_2020.pdf) A maximum of two absences is tolerated. Three to five absences may be accepted upon presentation of a doctor's certificate or relevant explanation recognized by the teacher. More than five absences are not accepted. The student is obliged to read the information sheet of the course and should ask for any clarification regarding the course during the first classes. The student is solely responsible for any consequences resulting from failure to read the requirements for successful completion of the course. Scale of assessment (preliminary/final): Evaluation during semester (assignments and participation in discussions) makes up 50% of the final mark, The written test makes up 50%	

of the final mark. The final evaluation is the result of the ongoing evaluation and evaluation test. Grading scale 0-59%=FX, 60-67%=E, 68-75%=D, 76-83%=C, 84-91%=B, 92-100%=A.

Learning outcomes:

Upon the successful completion of the course the students will gain the ability to correctly define basic theoretical concepts of ethnographic research and will be able to choose appropriate methods in terms of the objectives of qualitative field research. They will get acquainted with the principles of designing ethnographic research and with the types of scientific records. They will learn to identify ethical issues and their corresponding methodological solutions.

Class syllabus:

Fundamental principles of research in social science. Theory and methodology.
Research problem. Conceptualization and operationalization.
Qualitative and quantitative research. Research design. Qualitative research strategies.
Scientific explanation. Research questions. Variables.
Scientific prediction. Creating hypotheses.
Research sample and research environment.
Research methods and techniques. Combination of qualitative and quantitative methods.
Types of records made during ethnographic field research. Scientific protocol.
Participant observation and ethnographic interview.
Research ethics: methodological and practical issues.
