26. A-boMU-100/15 Topical Issues in Museums And Monuments Studies.....	44

COURSE DESCRIPTION

Academic year: 2022/2023	
University: Comenius University Bratislava	
Faculty: Faculty of Arts	
Course ID: FiF.KAM/A-boMU-006/15	Course title: Applied Sciences in Museums
Educational activities: Type of activities: lecture / seminar Number of hours: per week: 2 / 1 per level/semester: 28 / 14 Form of the course: on-site learning	
Number of credits: 6	
Recommended semester: 1.	
Educational level: I., II.	
Prerequisites:	
Antirequisites: FiF.KEKA/A-boMU-037/11 FiF.KAM/A-boMU-006/15	
Course requirements: The student is obliged to attend regular classes during the teaching part of the semester (two unjustified absences are allowed, each additional one must be replaced by a substitute assignment) - if he / she successfully completes the attendance, the student may take the exam. Within the set deadline (by 31 December of the current year), he / she submits in electronic form (in MS Word and PDF format) and then presents and defends the submitted seminar paper in the exam period. The seminar paper must be formally completed in accordance with the provisions of the Rector's Directive of Charles University no. 12/2013 t.j. in basic formal as well as content requirements as a final work. Extent of own seminar work (from introduction to conclusion) 15 to 20 standard pages (1 standard page = 1800 characters). The topic of the thesis is chosen by each student individually after joint consultation with the subject teacher. As a topic it is possible to choose: Analysis and approach of the selected auxiliary historical science together with the analysis of one selected representative source. Subsequently, the student will take part in an oral exam, which will consist of lectured topics and issues as well as self-study of literature in terms published through the academic information system. Attendance: 10 points Seminar work: 90 points Final oral exam: 100 points Rating scale: "A" - 200 - 185 points "B" - 184 - 170 points "C" - 169 - 155 points "D" - 154 - 140 points "E" - 139 - 120 points "Fx" - 119 - 0 points	

Exam dates will be published via AIS no later than the last week of the course parts. Violation of academic ethics results in the cancellation of earned points in the relevant item evaluation. Weight of the intermediate / final evaluation: 50/50																	
Learning outcomes: The result of the educational activity is primarily the preparation of students for everyday work in museums and the use of selected applied scientific disciplines in the museum environment. Students have learned and acquired knowledge and skills about traditional and modern auxiliary historical sciences as well as other applied sciences that can be used in the museum.																	
Class syllabus: 1. System of applied sciences in museums, classification and characteristics 2. Introduction to auxiliary historical sciences, classification, subject, goals and possibilities of use in museums 3. Introduction to archiving 4. Introduction to librarianship 5. Selected historical sciences and their development in domestic and foreign museums (epigraphy, numismatics, faleristics, historical metrology) 6. Medieval and modern diplomacy 7. Reading and interpretation of selected historical documents 8. Natural and technical sciences in museum work in connection with the typology of museums and the nature of their collections 9. Excursion to the selected museum 10. Excursion to the selected archive

The topic of the thesis is chosen by each student individually after joint consultation with the subject teacher. As a topic it is possible to choose: Processing of a selected topic from a specific field using archival documents. Subsequently, the student will take part in an oral exam, which will consist of lectured topics and issues as well as self-study of literature in terms published through the academic information system. Attendance: 10 points Seminar work: 90 points Final oral exam: 100 points Rating scale: "A" - 200 - 185 points "B" - 184 - 170 points "C" - 169 - 155 points "D" - 154 - 140 points "E" - 139 - 120 points "Fx" - 119 - 0 points Exam dates will be published via AIS no later than the last week of the course parts.	

Violation of academic ethics results in the cancellation of earned points in the relevant item evaluation.

Weight of the intermediate / final evaluation: 50/50

Learning outcomes:

Students have general and especially practical knowledge and skills about Slovak and European archiving in the context of studying the study program. They have mastered the basics of studying in the archive, gained an overview of current archival legislation, they know how to orient themselves in the archival information system.

Class syllabus:

1. Introduction to the issue - archiving, archiving and their relationship to other disciplines
2. Basic concepts and orientation in them
3. History of archiving in the European area
4. History of archiving in Slovakia
5. Basics of archival theory
6. Archival practice
7. Archiving and relation to other departments
8. Use of archival documents
9. Excursion to the archive - State Archive in Bratislava
10. Excursion to the archive - Archive of the Slovak Academy of Sciences
11. Excursion to the archive - Archive of the city of Bratislava

Recommended literature:

STATE EXAM DESCRIPTION

Academic year: 2022/2023	
University: Comenius University Bratislava	
Faculty: Faculty of Arts	
Course ID: FiF.KAM/A-boAM-900/21	Course title: Bachelor's Degree Thesis Defence
Number of credits: 12	
Educational level: I.	
Course requirements: The student must submit the bachelor's thesis within the deadline specified in the schedule of the current academic year for the relevant date of the state exam. The bachelor thesis is submitted in electronic form via AIS. The work must meet the parameters determined by the internal quality system of Comenius University. The provisions of Article 14 of Internal Regulation no. 5/2020 (Study Regulations of the Faculty of Arts of Comenius University) apply to the evaluation of the bachelor's thesis. The supervisor of the final thesis and its opponent will prepare evaluations of the bachelor's thesis and propose a grade in the A-FX grading scale, which the student receives a minimum of three working days before the defence. Grading scale: 0-59% -FX, 60-67% -E, 68-75% -D, 76-83% -C, 84-91% -B, 92-100% -A	
Learning outcomes: The student has mastered the basic requirements of writing a scientific text in compliance with the rules of academic ethics, is able to work creatively in the field of study in which he completed the study program, and has adequate knowledge and understanding of the relevant issues. The student can apply his skills in the collection, interpretation, and processing of basic scientific literature, or even in its application in practice, or has the ability to solve a partial task related to the focus of the bachelor's thesis. After a successful defence of the bachelor's thesis, the student is able to logically deal with the theoretical background of the bachelor's thesis and respond to questions relating to the relevant issues.	
Class syllabus: 1. The contribution of the bachelor's thesis, the fulfilment of the goals of the thesis in its assignment, and the requirements for the content of the bachelor's thesis given by the internal quality system of Comenius University. The following is assessed: demonstration of knowledge and skills, ability to work creatively in the study program, ability applied in the collection, interpretation, and processing of basic scientific literature; in the case of an empirically oriented bachelor's thesis also mastering the application of theoretical principles in practice and verifiability of hypotheses. 2. Originality of the work (bachelor thesis must not be plagiarized, must not infringe the copyrights of other authors); the documentation for the defence of the bachelor's thesis also includes protocols of originality from the CRZP and Theses systems, to the results of which the thesis supervisor and the opponent express their opinions in their evaluations. 3. Correctness and accuracy of citation of used information sources, research results of other authors and group authors, correctness of the description of methods and working procedures of other authors or group authors. 4. Compliance of the structure of the bachelor's thesis with the prescribed composition defined by the internal quality system of Comenius University.	

5. Respecting the recommended length of the bachelor's thesis (the recommended length of the bachelor's thesis is usually 30 – 40 standard pages = 54,000 to 72,000 characters, including spaces), the adequacy of the length of the thesis is assessed by the thesis supervisor. 6. Linguistic and stylistic level of work and formal adjustments. The student orally presents the content, achieved goals, and conclusions of the bachelor's thesis, and answers the questions and comments of the thesis supervisor, opponent, or members of the examination committee. The committee will comprehensively evaluate the quality of the bachelor's thesis, assess the method and form of defence, and the student's ability to adequately respond to comments and questions from the evaluations of the thesis supervisor and the opponent. The student receives their final grade based on the average of the assessment of the thesis supervisor and opponent from their evaluations, and the assessment of the examination committee.
State exam syllabus:

COURSE DESCRIPTION

Academic year: 2022/2023	
University: Comenius University Bratislava	
Faculty: Faculty of Arts	
Course ID: FiF.KAM/A-boAMD-038/21	Course title: Bachelor's Degree Thesis Seminar 1
Educational activities: Type of activities: seminar Number of hours: per week: 2 per level/semester: 28 Form of the course: on-site learning	
Number of credits: 2	
Recommended semester: 5.	
Educational level: I.	
Prerequisites:	
Course requirements: Active work during the semester (definition and gradual narrowing of the research subject, mastery of work methodology, gradual submission of individual chapters of the future bachelor thesis). The range of bachelor thesis chapters (from the introduction to the agreed part) is approximately 15 to 25 standard pages. Attendance: 10 points Active work at seminars: 90 points Elaboration and submission of a bachelor's thesis: 100 points Evaluation scale: "A" - 200 - 185 points "B" - 184 - 170 points "C" - 169 - 155 points "D" - 154 - 140 points "E" - 139 - 120 points "Fx" - 119 - 0 points The student is required to achieve at least 60 percent overall success in order to complete the course. Violation of academic ethics results in the cancellation of the obtained points in the relevant evaluation item. Scale of assessment (preliminary/final): 100%/0%	
Learning outcomes: Student in cooperation with the teacher will be able to choose a relevant topic, define its content, chronologically and geographically, assess the informative value of relevant historical sources, critically evaluate the literature, get acquainted with the appropriate structure of work, master technical procedures in preparing a bachelor's thesis and gain experience. analysis and critique of sources and literature.	
Class syllabus: - Selection of the topic of the bachelor thesis, its definition - Heuristics of sources and literature - Critical evaluation of literature on the chosen topic - Evaluation of relevant historical sources - Structuring and formulating first chapters of the bachelor thesis	
Recommended literature: ECO, Umberto. Jak napsat diplomovou práci. Praha : Votobia 1997. KATUŠČÁK, Dušan. Ako písať vysokoškolské a kvalifikačné práce. Bratislava : Stimul 1998. Other literature according to the topic of the bachelor thesis.

Educational activities: Type of activities: lecture / seminar Number of hours: per week: 1 / 1 per level/semester: 14 / 14 Form of the course: on-site learning	
Number of credits: 4	
Recommended semester: 2.	
Educational level: I.	
Prerequisites:	
Course requirements: CONDITIONS: - Regular active participation in courses (2 absences possible, each additional one must be replaced by elaboration of a substitute work) + seminar work in the range of 10 to 20 standard pages (1 standard page = 1800 characters) on a topic chosen by the student in consultation with the teacher(s). It must relate to the digitization of the selected archival or museal sources/entities. + oral examination of lectured topics as well as self-study of the recommended literature. RATING: Attendance: 10 points Seminar work: 90 points Final oral exam: 90 points Student is required to achieve at least a 60 percent overall success rate to complete the course. Violation of academic ethics results in the cancellation of the obtained points in the relevant evaluation item. Scale of assessment (preliminary/final): 50/50	
Learning outcomes: - knowledge and skills about digitization as such, especially about digitization of archival and other historical cultural heritage in Slovakia and abroad, - basic practical skills with the preparation as well as the digitization, processing and making available of archival, museal and other historical cultural heritage to the general public.	
Class syllabus: 1. Introduction to digitization (its development and basic terms) 2. Digitization of historical sources 3. Examples of successful digitization projects 4. Methodology of digitization: a) preparation of inventory units for digitization, b) Methods of digitization and technical requirements, c) Postprocessing - editing and processing of digitisates 5. Metadata	

6. Presentation of digitisates and metadata to the public
7. Memory portals and their use
8. Practical examples
9. Excursion to a selected museum and / or archive

COURSE DESCRIPTION

Academic year: 2022/2023	
University: Comenius University Bratislava	
Faculty: Faculty of Arts	
Course ID: FiF.KAPVH/A- boAMD-020/21	Course title: Information systems for archivists and museologists
Educational activities: Type of activities: seminar Number of hours: per week: 3 per level/semester: 42 Form of the course: on-site learning	
Number of credits: 4	
Recommended semester: 3.	
Educational level: I.	
Prerequisites:	
Course requirements: The student is obliged to attend regular classes during the teaching part of the semester (two unjustified absences are allowed, each additional one must be replaced by a substitute assignment) - if he / she successfully completes the attendance, the student may take the exam. Within the set deadline (by 31 December of the current year), he / she submits in electronic form (in MS Word and PDF format) and then presents and defends the submitted seminar paper in the exam period. The seminar paper must be formally completed in accordance with the provisions of the Rector's Directive of Charles University no. 12/2013 t.j. in basic formal as well as content requirements as a final work. Extent of own seminar work (from introduction to conclusion) 15 to 20 standard pages (1 standard page = 1800 characters). The topic of the thesis is chosen by each student individually after joint consultation with the subject teacher. As a topic you can choose: Processing of the selected information system or database. Subsequently, the student will take part in an oral exam, which will consist of lectured topics and issues as well as self-study of literature in terms published through the academic information system. Attendance: 10 points Seminar work: 90 points Final oral exam: 100 points Rating scale: "A" - 200 - 185 points "B" - 184 - 170 points "C" - 169 - 155 points "D" - 154 - 140 points "E" - 139 - 120 points "Fx" - 119 - 0 points Exam dates will be published via AIS no later than the last week of the training section. Violation of academic ethics results in the cancellation of the obtained points in the relevant evaluation item. Weight of the intermediate / final evaluation: 50/50	
Learning outcomes: Students have knowledge of the basics of informatics, information on the use of information technology, computer technology, digitization and digitization projects in archives as well as in museums, intranet application of the central register of archives and collections of the Slovak A-Funds, as well as knowledge and skills with museum registration tools (CEMUZ), as well as the use of application software used mainly in Slovak museums and archives or. Electronic archive of Slovakia.	
Class syllabus: 1. Archive (electronic) information system and Museum information system	

2. Central records of the archival heritage of the Slovak Republic and the Records of the Monument Fund 3. Analogue vs. digital form of information 4. What is digitization? 5. Digitization in archives 6. Digitization in museums and galleries 7. Archival standards and Museological standards 8. Metadata and Types of carriers 9. Long-term archiving of digital copies 10. Legislation and internal acts of management in archives and museology 11. Requirements for electronic registry management systems 12. Electronic archival documents 13. Application software 14. Excursions to selected memory and fund institutions

COURSE DESCRIPTION

Academic year: 2022/2023	
University: Comenius University Bratislava	
Faculty: Faculty of Arts	
Course ID: FiF.KAPVH/A- boAMD-003/21	Course title: Latin Palaeography of the Gothic Period
Educational activities: Type of activities: lecture / seminar Number of hours: per week: 1 / 1 per level/semester: 14 / 14 Form of the course: on-site learning	
Number of credits: 4	
Recommended semester: 2.	
Educational level: I.	
Prerequisites:	
Course requirements: Regular attendance (2 hours can be missed + 1 extra for "A" from the continuous test) + fulfillment of continuous activities = 30% of the evaluation (consists of the student's activity, his / her continuous home preparation for reading digitised sources, a shorter test in the middle of the semester) final evaluation during the examination period = 70% (evaluation of the student's theoretical and practical knowledge in the form of a written test). Student is required to achieve at least 60 percent success in the individual components of the evaluation in order to successfully complete the course. Scale of assessment (preliminary/final): 30/70	
Learning outcomes: The course extends chronologically the course on Latin paleography of the earliest period without the necessary need to complete the course Latin paleography of Antiquity and Early Middle Ages. The focus is on the development of medieval Latin script in book and charters from cca 12th C. to early 16th C. Theoretical lectures are connected with practical reading of the historical texts in copies at each lesson. The students will gain theoretical knowledge about the development of writing in the Gothic period, be able to practically read the sources of that time and gain the ability to critically assess it (eg, date and / or locate them).	
Class syllabus: - A brief overview of the development of the Latin script until the end of the Carolingian period - The beginnings of the Gothic style in written culture and historical background - Gothic book scripts (development of Gothic minuscule, semi-cursiva, cursiva and bastarda / process of gothisation, coursivisation and hybridisation) - Gothic book scripts (development of Gothic book minuscule, semi-coursiva, cursiva and bastarda) - Specifics of documents in vernacular languages (especially in German and Czech/Slovak) - New elements at the end of the Middle Ages (penetration of italianisms and renaissance elements).	

Recommended literature: Obligatory: ŠEDIVÝ, Juraj. Úvod do latinskej paleografie II (CD-Rom), Bratislava 2019. Only recommended titles: PÁTKOVÁ, Hana. Česká středověká paleografie. Praha 2008. BISCHOFF, Bernhard – LIEFTINCK, Gerard Isaac – BATTELI, Giulio. Nomenclature des écritures livresques du IXe au XVIe siècle. Paris 1954.					
Languages necessary to complete the course: Slovak language (if necessary - then individual consultations in German or English). Basic Latin is welcome.

COURSE DESCRIPTION

Academic year: 2022/2023	
University: Comenius University Bratislava	
Faculty: Faculty of Arts	
Course ID: FiF.KEM/A-boAMD-017/21	Course title: Museography
Educational activities: Type of activities: lecture / seminar Number of hours: per week: 2 / 1 per level/semester: 28 / 14 Form of the course: on-site learning	
Number of credits: 4	
Recommended semester: 1.	
Educational level: I.	
Prerequisites:	
Course requirements: 1) During the semester: Presentation and seminar paper (together 30 points), thematically focused on the field of applied museology set in a selected museum. The seminar paper is submitted in the last week of regular semester. Plus small tasks as preparation for classes. 2) In the examination period: Final test (70 points) in which the student needs to obtain at least 60% success. Grading scale: 0-59%-FX, 60-67%-E, 68-75%-D, 76-83%-C, 84-91%-B, 92-100%-A The exact date for continuous evaluation will be announced at the beginning of the semester. The dates for the final test will be announced through AIS no later than in the last week of the instruction period. Active participation in lectures (max. 2 absences) - A maximum of two unjustified absences is tolerated. Three to five absences may be accepted upon presentation of a note from the physician, or a relevant explanation that the teacher will recognize, but additional tasks will be required. More than five absences are not accepted. Violation of academic ethics will be punished, and the student will lose all the received points in the relevant assessment. Scale of assessment (preliminary/final): 30%/70%	
Learning outcomes: Students will master the application of theoretical principles of museology in the practice of museums, as defined by legislative standards. At the same time, they will learn the basics of registration of collections and cultural monuments in accordance with applicable legal standards, including the use of computer technology and information systems.	
Class syllabus: 1. Museography in the system of museology, its definition and components 2. Legislative norms governing museum practice 3. Registration, documentation and cataloging in the museum 4. Collection fund management - depository regime, loans, exports, imports 5. Conservation, preparation and restoration - introduction to the issue	

6. Museum exhibitions and work with the public (visitor research) - introduction to the issue
7. Museum marketing, presentation and promotion of museums
8. Technology in the museum, information systems and multimedia
9. Museum buildings, architecture, operation, security
10. Information system of the monument fund
11. Categorization of collections and cultural monuments
