TABLE OF CONTENTS

1. B-VUZde027/22 Abuse prevention.....	5
2. B-VUZde027/22 Abuse prevention.....	8
3. B-VU-de026/15 Applied graphics.....	11
4. B-VU-de026/15 Applied graphics.....	12
5. B-VU-de029/20 Artefiletics.....	13
6. B-VUZde008/22 Bachelor thesis seminar.....	14
7. B-VUZde008/22 Bachelor thesis seminar.....	16
8. B-VUZšt011/15 Bachelor's thesis defence (state exam).....	18
9. B-HISde007/22 Basics of Modern Didactics of History#Teaching.....	21
10. B-VU-de016/22 Basics of art therapy.....	24
11. B-VU-de018/22 Basics of ceramics.....	26
12. B-VU-de003/22 Basics of drawing.....	28
13. B-VU-de005/22 Basics of graphics.....	30
14. B-VU-de006/22 Basics of painting.....	33
15. B-VUZde029/22 Basics of the first aid.....	36
16. B-VUZde029/22 Basics of the first aid.....	39
17. B-VU-de008/22 Basics of visual communication.....	42
18. B-VUZde031/22 Child biological development and school hygiene.....	45
19. B-VUZde031/22 Child biological development and school hygiene.....	49
20. B-VUZde005/22 Communication in education.....	53
21. B-VUZde005/22 Communication in education.....	56
22. B-VU-de027/15 Computer graphics.....	59
23. B-VU-de027/15 Computer graphics.....	60
24. B-VUZde025/15 Constructivism in education.....	61
25. B-VUZde025/15 Constructivism in education.....	62
26. B-VU-de013/22 Contexts of visual arts.....	63
27. B-VU-de012/22 Course of drawing and spatial creation in landscape.....	65
28. B-VUZde035/22 Developing critical thinking.....	67
29. B-VUZde035/22 Developing critical thinking.....	69
30. B-VU-de009/22 Didactics of art education 1.....	71
31. B-VU-de010/22 Didactics of art education 2.....	73
32. B-HISde035/22 Didactics of non-formal History Education.....	75
33. B-VUZde002/22 Digital technologies 1.....	78
34. B-VUZde002/22 Digital technologies 1.....	87
35. B-VUZde012/22 Digital technologies 2.....	96
36. B-VUZde012/22 Digital technologies 2.....	104
37. B-VUZde013/22 Digital technologies 3.....	112
38. B-VUZde013/22 Digital technologies 3.....	113
39. B-VU-de017/22 Drawing.....	114
40. B-VUZde037/22 Educational counselling.....	117
41. B-VUZde037/22 Educational counselling.....	120
42. B-HISde032/20 Empirical Research.....	123
43. B-VUZde030/22 Environmetal education.....	124
44. B-VUZde030/22 Environmetal education.....	127
45. B-VUZde016/22 Ethics and professional ethics.....	130
46. B-VUZde016/22 Ethics and professional ethics.....	133
47. B-HISde031/20 Excursion.....	136

48. B-HISde027/16	Excursion I.....	137
49. B-VUZde024/22	Family education.....	138
50. B-VUZde024/22	Family education.....	141
51. B-VU-de030/15	Fine art and art institutions.....	144
52. B-VU-de023/15	Forms of drawing.....	145
53. B-VU-de025/15	Forms of painting.....	146
54. B-VU-de025/15	Forms of painting.....	147
55. B-VUZde018/22	Gender aspects of education.....	148
56. B-VUZde018/22	Gender aspects of education.....	151
57. B-HISde010/22	General history I.....	154
58. B-HISde002/22	General history II.....	157
59. B-HISde004/22	General history III.....	160
60. B-HISde006/22	General history IV.....	163
61. B-HISde009/22	General history V.....	166
62. B-VUZde004/22	General didactics.....	169
63. B-VUZde004/22	General didactics.....	173
64. B-VU-de022/22	Graphic design.....	177
65. B-VU-de022/22	Graphic design.....	180
66. B-VU-de019/22	Graphics.....	183
67. B-HISde034/22	Historic proseminar.....	186
68. B-HISde019/22	Historical geography.....	188
69. B-HISde029/20	History Olympiad.....	191
70. B-HISde001/22	History of Slovakia I.....	192
71. B-HISde003/22	History of Slovakia II.....	195
72. B-HISde005/22	History of Slovakia III.....	198
73. B-HISde008/22	History of Slovakia IV.....	201
74. B-VUZde022/22	History of education.....	204
75. B-VUZde022/22	History of education.....	206
76. B-VU-de001/22	History of fine arts 1.....	208
77. B-VU-de002/22	History of fine arts 2.....	211
78. B-VUZde014/22	History of philosophy 1.....	214
79. B-VUZde014/22	History of philosophy 1.....	217
80. B-VUZde015/15	History of philosophy 2.....	220
81. B-VUZde015/15	History of philosophy 2.....	221
82. B-VUZde017/15	Introduction to gender studies.....	222
83. B-VUZde017/15	Introduction to gender studies.....	223
84. B-HISde011/22	Introduction to the study of history.....	224

COURSE DESCRIPTION

Academic year: 2023/2024	
University: Comenius University Bratislava	
Faculty: Faculty of Education	
Course ID: PdF.KPg/B-VUZde027/22	Course title: Abuse prevention
Educational activities: Type of activities: seminar Number of hours: per week: 2 per level/semester: 26 Form of the course: on-site learning	
Number of credits: 3	
Recommended semester: 2., 4., 6.	
Educational level: I.	
Prerequisites:	
Course requirements: Prerequisite subjects: none Prerequisites for successful completion of the course: The course is completed with an assessment, the ratio of the midterm and final assessment is 100/0. The task of the students is to prepare a midterm paper for 40 points and to pass a midterm test for 60 points, a total of 100 points. A minimum of 60% of the maximum possible course grade is required for successful completion of the course. The rating is awarded on a scale: A (100-91%, excellent - excellent results with only minimal errors), B (90-81%, very good - above average results with minor errors), C (80-73%, good - normal reliable work, average results), D (72-66%, satisfactory - acceptable results, but significant errors occur), E (65-60%, sufficient - results meet minimum criteria), Fx (59-0%, insufficient - extra work required). A minimum of 91 points is required for a final grade of A. For this grade, the student should demonstrate: a creative and original approach in the development of intermediate assignments, excellent professional knowledge and its application in problem solving, excellent orientation in the subject matter, excellent communication skills, responsibility and timely completion of assignments, exceptional activity in the classroom during the semester. A score of at least 81 points is required for a final grade of B. For this grade, the student should demonstrate: a creative approach in developing ongoing assignments using a model, above average expertise and application of that expertise in problem solving using tutorials, above average orientation to the problem, above average communication skills, responsibility and timely completion of assignments, above average activity in class during the semester. A minimum of 73 points is required for a final grade of C. For this grade, the student should demonstrate: the ability to develop intermediate assignments using the given template, good professional knowledge and its application in solving problem problems in a group or with the help of the instructor, good orientation in the subject matter, good communication skills, completion of the assigned tasks, average activity in class during the semester when prompted by the instructor.	

A minimum of 66 points is required for a final grade of D. For this grade, the student is expected to demonstrate: the ability to develop intermediate assignments using the assigned template and with the assistance of the instructor, average proficiency and application in problem solving in a group setting or with the assistance of the instructor, average orientation to the subject matter, average communication skills, completion of assignments, and basic activity in the classroom during the semester in collaboration with the instructor or other students.

A score of at least 60 points is required for a final grade of E. For this assessment, the student should demonstrate: the ability to develop continuous assignments and with the help of the instructor, basic/minimal professional knowledge, basic/minimal orientation to the subject matter, basic communication skills, completion of assigned tasks.

Scale of assessment (preliminary/final): 100/0

Learning outcomes:

Learning objectives and outcomes and transferable competences:

The aim of the course is to provide basic knowledge about the problems of drug consumption, their effects, the etiology of drug addiction. The course pays special attention to the issues of the drug scene, drug policy development and criminal sanctions, or drug crime. Students will be able to identify the internal and external causes of addiction, summarize the manifestations of different types of addiction, indicate and propose specific forms of addiction prevention. They will deepen their knowledge and competences in working with people with addiction, they will learn to apply preventive practices through examples and concrete activities in school practice.

Students and learners will develop communication skills using professional terminology in the field of substance and non-substance addictions. They will improve their skills in working with professional literature and producing professional texts. Students will be able to apply knowledge creatively to problem-based assignments.

Class syllabus:

Brief outline of the course:

1. Basic terminology (social pathology, drug, addiction, abstinence, codependence, prevention, etc.).
2. Classification and characteristics of selected groups of psychotropic substances.
3. Specifics and classification of substance addictions.
4. Causes and factors of drug use.
5. The emergence of addiction and its symptoms.
6. Non-substance addictions (classification, characteristics).
7. Prevention of addiction and its forms.
8. Options for help in the field of addiction (basic psychotherapeutic approaches in addiction treatment, pharmacotherapeutic help, family accompaniment).
9. National Drug Control Programme. The roles of the Departments of Education, Culture, Health, Justice, Home Affairs and Labour, Social Affairs and Family.

COURSE DESCRIPTION

Academic year: 2023/2024	
University: Comenius University Bratislava	
Faculty: Faculty of Education	
Course ID: PdF.KP/B-VUZde008/22	Course title: Bachelor thesis seminar
Educational activities: Type of activities: seminar Number of hours: per week: 2 per level/semester: 26 Form of the course: on-site learning	
Number of credits: 2	
Recommended semester: 6.	
Educational level: I.	
Prerequisites:	
Course requirements: Prerequisite subjects: none Prerequisites for successful completion of the course: The course is completed by assessment (100% of the interim assessment). The student's task is to solve the assignments given continuously during the semester and to hand in the final thesis project at the end of the midterm evaluation. The student actively participates in presenting and discussing solutions to the interim assignments in seminars, for which he/she receives points (20%). The solution of each interim assignment that is handed in on the due date is evaluated with points (40%). The student receives points (40%) for the final thesis project at the end of the interim assessment. All points will be added together at the end of the interim assessment. For successful completion of the course it is necessary to obtain at least 60% of the points. The rating is awarded on a scale: A (100-91%, excellent - outstanding results), the student actively works on continuous assignments, participates in the presentation and discussion of the assignments in seminars. Reflects both critically and creatively on interim assignments. He/she is able to produce a final thesis project at an excellent level. B (90-81%, very good - above average standard), the student actively works adequately on the continuous assignments, participates in the presentation and discussion of the given assignments in seminars. He/she reflects adequately on the intermediate assignments and is able to produce a final thesis project at a very good level. C (80-73%, good - normal reliable work), the student has performed standardly well during the semester, their theoretical knowledge is at a good level, but they lack the ability to critically apply this knowledge. The final thesis project is done at a good level. D (72-66%, satisfactory - acceptable results), the student was less prepared during the semester, has slight deficiencies in theoretical knowledge. Cannot critically analyze information. He/she prepared the final thesis project at a satisfactory level. E (66-60%, sufficient - the results meet the minimum criteria), the student has limited theoretical knowledge, is unable to critically analyze this knowledge, is only minimally able to apply the knowledge. Intermediate tasks meet the minimum criteria, as well as the development of the final thesis project.	

Fx (59-0%, insufficient - extra work required).

Learning outcomes:

Learning outcomes:

Learning objectives and outcomes and transferable competences:

The aim of the course is to familiarize students theoretically and practically with the principles and procedures that need to be mastered for the successful preparation of a bachelor's thesis.

The student is able to define the topic of his/her own bachelor thesis, is able to correctly determine the methods of its processing, acquires the ability to work selectively and correctly with the professional literature on the chosen topic. He/she knows the individual parts of the final thesis. Is able to prepare and present the results of the thesis and is able to respond to questions on the thesis in discussion.

Class syllabus:

Brief outline of the course:

Types of bachelor theses. The timetable of thesis processing. Definition of the topic and goal of the thesis. Study of literature. Excerpting of material. Theoretical and methodological conception of the thesis. Methodology of problem processing. Methodology of elaboration of the thesis.

Formal-compositional requisites of the final thesis. How to prepare for the defence of the thesis.

Recommended literature:

Recommended reading:

STATE EXAM DESCRIPTION

Academic year: 2023/2024	
University: Comenius University Bratislava	
Faculty: Faculty of Education	
Course ID: PdF.KPg/B-VUZšt011/15	Course title: Bachelor's thesis defence
Number of credits: 12	
Educational level: I.	
Course requirements: Prerequisite subjects: none Prerequisites for successful completion of the course: The state examination of the defence of the thesis, its conditions and procedural aspects are regulated by the Internal Regulation No.1/2020 Study Regulations of the Faculty of Arts of Charles University, as well as by the Internal Regulation No. 5/2021 Study Regulations of the Charles University. A student may take the state examination a) after obtaining at least such number of credits that after obtaining credits for successful completion of the last state examination he/she achieves the necessary number of credits for proper completion of studies and b) after successful completion of compulsory courses, compulsory elective courses and elective courses in the composition determined by the study programme except for the state examination and c) no disciplinary proceedings are conducted against him/her. In the bachelor's degree, the student receives 12 credits for the successful defence of the bachelor's thesis (credits included in the UZ study plan). According to the VP 23/2021 Internal Quality Assurance System for Higher Education of the Charles University in Bratislava, the student is evaluated in particular: - Demonstration of the student's ability to collect and interpret relevant data (facts), usually within the field of study in which the student has completed the programme of study, with the possibility of interdisciplinary overlap into other fields if necessary; - Demonstrate the ability to make informed decisions that also take into account social, scientific and ethical considerations; - Ability to communicate information, concepts, problems and solutions to both professional and lay audiences. - the ability to think and work creatively in the field of study in which they have completed their degree programme. - knowledge and understanding of the problem/issue addressed. - Applying their skills in collecting, interpreting and processing basic literature, which may include its application in practice, or solving a sub-task related to the student's future field of study/ assignment. The rating is awarded on a scale: A 100 - 91% (excellent - outstanding results), B 90 - 81% (very good - above average standard), C 80 - 73% (good - normal reliable operation), D 72 - 66% (satisfactory - acceptable results), E 65 - 60% (sufficient - results meet minimum criteria), Fx 59% or less (insufficient).	

A student is evaluated with the FX grade if he/she has fulfilled the requirements for the grade only at a level not exceeding 60% of the total highest possible level of fulfilment of the requirements for the completion of the subject of the state examination - the defence of the bachelor thesis. In the same way, a student shall be assessed with an FX grade if he/she has submitted a thesis in violation of paragraph 7 of Article 56 of the UK Internal Regulation 23/2021 or has submitted a thesis that does not substantially meet the requirements under paragraph 1(d), paragraph 2(d) or paragraph 3(d) of Article 56 of the UK Internal Regulation 23/2021 Internal Quality Assurance System for Higher Education at the University of Bratislava.

The details and specifications of the requirements of the final theses for the individual teacher study programmes in combination (approbation) will be specified in the respective Study Programme Descriptions.

Learning outcomes:

Learning outcomes:

The learning outcome is in accordance with the Long-Term Plan of the Charles University/PdF, the mission and strategic goals of the Charles University/PdF, in accordance with the description of the field of study, in accordance with the NKR/SKR/DD, in accordance with the profile of the graduate, in accordance with the learning objectives and learning outcomes in the individual subjects of the study programme curriculum, and other relevant documents.

The student is able to demonstrate his/her ability to work creatively in the field of study in which he/she has completed the study programme when conceiving his/her bachelor thesis. The student is able to demonstrate adequate knowledge of the subject matter and to apply his/her skills in collecting, interpreting and processing the basic literature, or its application in practice, or is able to solve a sub-task related to the focus of the student's bachelor's thesis.

Class syllabus:

Brief outline of the course:

1. Contribution of the thesis to the field of study. The evaluation of the bachelor thesis assesses whether the student has adequately demonstrated the ability to work creatively in the field of study in which he/she has completed the study programme, reflects the degree of demonstration of knowledge and knowledge of the issue, assesses the skills applied in collecting, interpreting and processing the basic literature, or the extent to which the student has mastered the application of theoretical assumptions in practice or how he/she is able to solve a subtask that is related to the focus of the student's bachelor thesis;
2. Originality of the thesis (the thesis must not be plagiarized, must not infringe the copyrights of other authors), the documentation for the defence of the thesis as a subject of the state examination includes originality protocols: from the Central Register and Theses, the results of which are commented on by the supervisor and the opponent in their opinions;
3. Correctness and correctness of citation of used information sources, research results of other authors and author teams, correctness of description of methods and working procedures of other authors or author teams;
4. Compliance of the structure of the thesis with the prescribed structure defined by the Internal Regulation No. 2/2018 Directive of the Rector of Charles University in Bratislava;
5. Respecting the recommended scope of the final thesis (the recommended scope of a bachelor's thesis is usually 30 - 40 standard pages - 54 000 to 72 000 characters including spaces), the adequacy of the scope of the thesis is assessed by the supervisor of the thesis;
6. Linguistic and stylistic level of the work and formal editing;
7. The manner and form of defending the thesis and the student's ability to respond adequately to the comments and questions in the supervisor's and opponent's evaluations.

8. In the study programme focused on the teaching of art-educational subjects, the presentation of artistic outputs and performances may be part of the final thesis and its defence.
State exam syllabus:
Recommended literature: Recommended reading: according to the focus of the bachelor thesis topic
Languages necessary to complete the course: Slovak language, in the case of language approbations also the language of the respective subject approbation
Notes: Examination committee approved by the Scientific Council of PdF UK. State examination: the defence of the bachelor thesis is carried out only from one approbation. Credits are counted towards "UZ".

COURSE DESCRIPTION

Academic year: 2023/2024	
University: Comenius University Bratislava	
Faculty: Faculty of Education	
Course ID: PdF.KH/B-HISde007/22	Course title: Basics of Modern Didactics of History#Teaching
Educational activities: Type of activities: lecture + seminar Number of hours: per week: 2 per level/semester: 26 Form of the course: on-site learning	
Type, volume, methods and workload of the student - additional information 1-hour lecture + 1-hour seminar/week; 22 hours total per semester, combined; (primarily full-time) Student workload: 2PS (3 credits): 11 x 2 hours of direct instruction = 22 hours; 48 hours of portfolio development and reflection on lecture topics; 15 hours of preparation for midterm discussion; 15 hours of practice for the final colloquium. Total 90 hours of student work. Educational methods: E-U-R (evocation-awareness-reflection); analysis of texts, iconic texts, and educational materials; explanation; discussion/colloquium on the subject; problem-solving on the theoretical and practical level of school history; evaluation by SWOT analysis	
Number of credits: 3	
Recommended semester: 4.	
Educational level: I.	
Prerequisites:	
Course requirements: 100% of the continuous verbal and written assessment. During the semester, the student analyses, reflects and elaborates in writing the content of the lectured and discussed topics and formulates his/her solutions to the presented problems (applies the E-U-R method). Students are evaluated continuously by discussion/colloquium and defence of written reflection on the lectured topics. SWOT analysis is applied in the overall assessment. The quality of the student outcomes is assessed by SWOT analysis. A minimum of 91 points is required for a final grade of A, a minimum of 81 points for a grade of B, a minimum of 73 points for a grade of C, a minimum of 66 points for a grade of D and a minimum of 60 points for a grade of E. Credit will not be awarded to students who score less than 15 points on any of the four written examinations. A score of at least 60% is required to pass the course. The grade is awarded on a scale: A (100-91%, excellent - excellent results, the student has a broad, compact knowledge in the specialised field of the discipline and can apply it in theoretical and practical contexts, is oriented in the current state of knowledge of borderline scientific disciplines, thinks conceptually, can actively acquire information and creatively apply it in solving problems, actively expands his knowledge and critically reviews it and considers the suitability of its application for pedagogical and historical practice), B (90-81%, very good - above average standard, the student is oriented in the issue, knows it, can independently acquire new knowledge, and solve professional tasks, but his critical, constructive	

thinking is borderline when analysing and assessing the planes of normative and reflective didactics),

C (80-73%, good - normal reliable work, although the student can orient himself in the problem, independently search and analyse information, can learn, but he cannot think critically and constructively enough, evaluate the issues solved, and apply the acquired knowledge creatively and conceptually in broader theoretical and practical contexts),

D (72-66%, satisfactory - acceptable results, the student is able to orientate himself in the problem at a basic level, his knowledge is fragmented and incomplete, and at a lower level of satisfaction, he also applies transferable understanding of the field and related disciplines, in the area of factual, conceptual, procedural and metacognitive knowledge he shows more serious deficiencies),

E (65-60%, sufficient - the results meet the minimum criteria, the student is able to orient himself in the problem only with great difficulty, he knows only the most basic knowledge, he does not demonstrate the ability to think critically and does not apply the acquired knowledge in a systematic way to the solution of practical tasks),

Fx (59-0%, insufficient - additional work is required, the student is unable to orient himself/herself in the problem, does not master the most basic knowledge, does not demonstrate the ability to argue and think critically)

Learning outcomes:

The student will gain theoretical knowledge of modern didactics of history, European trends, and recommendations for contemporary history by completing the course. The student will gain an overview of the modernisation of history teaching in Slovakia and the functionality of the didactic system of history. Analyse partial problems of modern history didactics and the results of empirical research in contemporary school practice. He is also oriented in the creation of teaching media and the process of critical assessment of educational materials and programmes.

Class syllabus:

Students will become familiar with selected problems of modern didactics of History Teaching, identify the requirements placed on teacher education and gain knowledge about the application of methods and strategies recommended for teaching and learning pupils in primary and secondary schools. They will gain an overview of the modernisation of history teaching in Slovakia and the requirements for the functionality of the didactic system in educational practice.

The content focus of the course concentrates on the following key topics:

- Basic concepts of didactics: "modern" didactics of History Teaching, methodology, historical consciousness, historical culture, historical knowledge, historical education, historical awareness, historical memory, functional literacy, and the functionality of factuality.

- The relationship between historical science and history, their interconnectedness and autonomous position, popularisation of historical knowledge, and specifics of the work of historians and history teachers.

- Designing (conceptualisation) history as a school subject, visions and perspectives, requirements, and recommendations of RE and expert commissions for teaching history in the 21st century, updating the selection of history curriculum in the educational field: Human and society.

- Didactic system, its components and functionality. The formula of functioning of the didactic system in History Teaching.

- The role of History Teaching Didactics in contemporary modern teaching, application of the three essential functions of history.

- Goals and tasks of history. Taxonomies of goals and tasks, "operationalisation" of objectives in contemporary history teaching and learning. What is the theory, and what is practice?

- The processual aspect of history teaching, conclusions of empirical research on the state of school history practice.

- Modern (activating) methods and techniques of teaching and learning, the importance of "neurodidactics" in the educational process.
- Diversity of educational media and their functionality in history education, history textbooks as the most widespread type of historical literature, functions, and practical applicability of their structural components.
- History in a more entertaining form (didactic games, comics, cartoons, collages, graphic schemes, etc.).

COURSE DESCRIPTION

Academic year: 2023/2024	
University: Comenius University Bratislava	
Faculty: Faculty of Education	
Course ID: PdF.KVV/B-VU-de016/22	Course title: Basics of art therapy
Educational activities: Type of activities: lecture + seminar Number of hours: per week: 2 per level/semester: 26 Form of the course: on-site learning	
Type, volume, methods and workload of the student - additional information Type of activities, scope (number of hours) and methods of educational activities: 2 hours per week, 1 hour lecture, 1 hour seminar, 22 hours total per semester; combined method (primarily face-to-face). Student workload: 2 PS (2credits): 11 x 2 hours of direct instruction is 22 hours, 14 hours of intermediate assignments, 14 hours of test preparation. Teaching methods: discussion and brainstorming on selected topics, work in small groups, application of theoretical knowledge to practical examples, creation of mind maps, practical art work.	
Number of credits: 2	
Recommended semester: 3., 5.	
Educational level: I.	
Prerequisites:	
Course requirements: The course culminates in an assessment consisting of a written test during the semester and interim artwork on assigned topics. A minimum of 91 points is required for a final grade A, a minimum of 81 points for a grade B, a minimum of 73 points for a grade C, a minimum of 66 points for a grade D and a minimum of 60 points for a grade E. Credit will not be awarded to a student who fails to complete any of the assigned topics and assignments. 100% of the interim assessment. Interim assignments represent 50% and the test 50% of the total course grade.	
Learning outcomes: Learning objectives and outcomes: The aim of education within the respective subject is to develop a basic orientation in the fundamentals of art therapy and its application in art education. Upon completion of the course, the student will: • knows and understands the basic theoretical background of art therapy, • has basic knowledge of the historical and intermedia context and the psychological and psychotherapeutic background of art therapy in relation to the professional competences of an art educator, • knows the principles of creating and designing art therapy methods,	

- strengthens communication and organizational skills in the direct implementation of art therapy activities.

Class syllabus:

The course is aimed at acquiring basic knowledge of art therapy. The student will gain an overview of the history of art therapy, art therapy goals, psychological and psychoanalytic (Freud, Jung, Adler) foundations of art therapy. The student will become familiar with the humanistic approach in art therapy (Rogers) as well as current trends in art therapy. By completing the course, the student will acquire the competence to lead art activities related to the principles of art therapy in individual or group implementation in the field of educational activities in relation to the content focus of the study programme.

COURSE DESCRIPTION

Academic year: 2023/2024	
University: Comenius University Bratislava	
Faculty: Faculty of Education	
Course ID: PdF.KVV/B-VU-de018/22	Course title: Basics of ceramics
Educational activities: Type of activities: seminar Number of hours: per week: 3 per level/semester: 39 Form of the course: on-site learning	
Type, volume, methods and workload of the student - additional information Type of activities, scope (number of hours) and methods of educational activities: 3 hours per week seminar, 33 hours total per semester, combined; (primarily full-time). Student workload: 3S, (3 credits): 11x3 hours of direct instruction = 33 hours; 20 hours of lecture, instruction on the subject; 9 hours of study of theoretical knowledge on the subject; 50 hours of work on assignments; 10 hours of consultation and discussion on the work produced; 1 defense and reflection of a set of term papers; Total of 90 hours of student work. Teaching methods: combination of monological, dialogical and practical methods: lecturing, interpretation, explanation, practical instruction on the topic; discussion, polemics on the topic; application of the knowledge from the interpretation to the student's works on the assigned topics, which are continuously consulted by the teacher.	
Number of credits: 3	
Recommended semester: 2., 4., 6.	
Educational level: I.	
Prerequisites: PdF.KVV/B-VU-de004/22 - Modelling	
Course requirements: The course culminates in an assessment consisting of a portfolio, a debate and term papers on assigned topics. A minimum of 91 points is required for an A grade, a minimum of 81 points for a B grade, a minimum of 73 points for a C grade, a minimum of 66 points for a D grade and a minimum of 60 points for an E grade. Credit will not be awarded to a student who fails to complete any of the assigned topics or who scores less than 60 points. Grades are awarded on a scale of: A (100-91%, excellent - outstanding), B (90-81%, very good - above average standard), C (80-73%, good - normal reliable work), D (72-66%, satisfactory - acceptable results), E (65-60%, satisfactory - results meet minimum criteria), Fx (59-0%, inadequate - extra work required).	
Learning outcomes: Learning objectives and outcomes:	

The aim of education within this subject is to acquire basic practical and theoretical knowledge in the field of ceramics. Upon completion of the course, the student will: • has basic practical skills in ceramics, • is able to creatively approach assigned topics for application in educational practice, • knows the basic structure and content in terms of theoretical and practical knowledge, • is oriented in the field, able to analyze and reflect on the issues of ceramic creation in the historical context, • knows the possibilities and specific ways of application of standard technological procedures related to the process of creation, especially in its reproduction programme.																				
Class syllabus: The course offers students to acquire the basics of ceramic creation in its utilitarian and decorative form by solving specific assignments. The individual tasks have their framework sequence, they will allow to get acquainted with the basic principles of ceramic technology and the possibilities of creation in the reproduction program.

COURSE DESCRIPTION

Academic year: 2023/2024	
University: Comenius University Bratislava	
Faculty: Faculty of Education	
Course ID: PdF.KVV/B-VU-de003/22	Course title: Basics of drawing
Educational activities: Type of activities: seminar Number of hours: per week: 3 per level/semester: 39 Form of the course: on-site learning	
Type, volume, methods and workload of the student - additional information Scope, type/method of teaching and organizational form: 3 hours per week seminar, total 33 hours per semester, combined form; (primarily by attendance). Student workload: 3S, (3 credits): 11x3 hours of direct instruction = 33 hours; 12 hours studying theoretical knowledge on the subject; 35 hours working on assignments (applying knowledge from instruction to the creation of a set of term papers); 9 documentation, digitization, archiving of the set of term papers and preparation for defense; 1 defense and reflection of the set of term papers. Total 90 hours of student work. Teaching methods: Combination of monological, dialogical and practical methods: lecturing, interpretation, explanation, narration, briefing on the subject; interview, discussion, polemic on the given topic; application of knowledge from the interpretation into student's works on the assigned topics, which are continuously consulted by the teacher.	
Number of credits: 3	
Recommended semester: 1.	
Educational level: I.	
Prerequisites:	
Course requirements: The course is completed with an evaluation by the 13th week of the semester, a final presentation and defense of a set of completed term papers demonstrating the fulfillment of the basic requirements for their proper implementation in the field of the art medium of drawing. Theoretical knowledge of the medium of drawing with emphasis on the issues of format, composition, proportion, construction, line and surface 0-10 points; ability to apply theoretical knowledge to the realization of a set of drawings on the assigned topics 0-80 points; documentation, digitization, archiving of a set of semester works, their defense and the level of commenting on the evaluated works 0-10 points. A minimum of 91 points is required for a final grade of A, a minimum of 81 points for a grade of B, a minimum of 73 points for a grade of C, a minimum of 66 points for a grade of D, and a minimum of 60 points for a grade of E. To pass the course you must obtain a minimum of 60% of the marks. Credit will not be awarded to a student who fails to complete any of the assigned topics, fails to attend a minimum number of midterm tutorials, or fails to submit the required documentation of a set of term papers.	

Grades are awarded on a scale of: A (100-91%, excellent - outstanding), B (90-81%, very good - above average standard), C (80-73%, good - normal reliable work), D (72-66%, satisfactory - acceptable results), E (65-60%, satisfactory - results meet minimum criteria), Fx (59-0%, inadequate - extra work required).																				
Learning outcomes: Learning objectives and outcomes: The aim of education within the above course is to acquire basic professional theoretical knowledge and practical experience in the field of the art medium of drawing with emphasis on the issues of format, composition, proportion, construction, line and surface. Upon completion of the course, the student will: - Possesses the basic structural competencies (whether intellectual, motor creative-sensory) in his/her subject specialization, - is able to collaborate in solving professional projects in the field of subject specialization focused on drawing, - is able to analyse and reflect on the general-pedagogical characteristics of education and training in school practice, - has basic practical skills in the field of the artistic medium of drawing.																				
Class syllabus: Course outcomes of subject (content): This course focuses on the acquisition of theoretical and practical knowledge of basic drawing processes and techniques with which the student can express himself. The aim of the course is to offer the student a concise skill and knowledge in working with the medium of drawing and its artistic elements such as line, surface, composition, proportion, format, light and shape.

COURSE DESCRIPTION

Academic year: 2023/2024	
University: Comenius University Bratislava	
Faculty: Faculty of Education	
Course ID: PdF.KVV/B-VU-de005/22	Course title: Basics of graphics
Educational activities: Type of activities: lecture + seminar Number of hours: per week: 3 per level/semester: 39 Form of the course: on-site learning	
Type, volume, methods and workload of the student - additional information Type of activities, scope (number of hours) and methods of educational activities: 1 hour lecture, 2 hours seminar; total of 33 hours per semester, combined; (primarily full-time). Student workload: 1P + 2S, (3 credits): 11x3 hours of direct teaching = 33 hours; 27 hours of theoretical study on the subject; 40 hours of work on the set of term papers; 9 documentation, digitization, archiving of the set of term papers; 10 preparation for the examination and defence; 1 defence and reflection of the set of term papers. Total 120 hours of student work. Teaching methods: combination of monological, dialogical and practical methods: lecturing, interpretation, explanation, narration, instruction on the topic; conversation, discussion, polemic on the topic; application of the knowledge from the interpretation to the student's works on the assigned topics, which are continuously consulted by the teacher.	
Number of credits: 4	
Recommended semester: 2.	
Educational level: I.	
Prerequisites:	
Course requirements: The course is completed by an examination, which consists of a final presentation and defence of a set of completed term papers demonstrating the fulfilment of the basic requirements for their correct implementation in the field of graphic media, with emphasis on classical graphic techniques used in printing from height. Participation in ongoing consultations of the completed works is also a prerequisite. Theoretical knowledge in the field of graphic media with an emphasis on classical graphic techniques used in printing from 0-10 points; the ability to apply theoretical knowledge to the implementation of graphic sheets on the assigned topics using the graphic techniques 0-80 points; documentation, digitization, archiving of a set of semester works, their defense and the level of commenting on the evaluated works 0-10 points. A minimum of 91 points is required for a final grade A, a minimum of 81 points for a grade B, a minimum of 73 points for a grade C, a minimum of 66 points for a grade D and a minimum of 60 points for a grade E. To pass the course you must obtain a minimum of 60% of the marks. Credit will not be awarded to a student who fails to complete any of the assigned topics, fails to produce the required number of graphic worksheets at the required level, fails to participate in a	

minimum number of interim consultations, or fails to submit the required documentation of a set of term papers. Grades are awarded on a scale of: A (100-91%, excellent - outstanding), B (90-81%, very good - above average standard), C (80-73%, good - normal reliable work), D (72-66%, satisfactory - acceptable results), E (65-60%, satisfactory - results meet minimum criteria), Fx (59-0%, inadequate - extra work required).																				
Learning outcomes: Learning objectives and outcomes: The aim of education within this course is to gain theoretical knowledge of the basic characteristics and concepts and practical experience in the field of graphic media, with an emphasis on classical graphic techniques used in printing from height. Upon completion of the course, the student will: • possesses the basic structural competences (whether in the intellectual-motor, creative-sensory plane) in his/her subject specialisation, • possesses basic theoretical and practical skills in the visual medium of printmaking with an emphasis on letterpress printing, • can present his/her abilities and skills in his/her subject specialisation.																				
Class syllabus: The course defines the basic characteristics and concepts of artistic graphic art and its means of artistic expression and its differences from other forms of graphic expression, a historical overview of the development within individual graphic techniques. The listener is offered theoretical and practical knowledge and technological procedures with emphasis on the techniques of printing from the top. Practical creative exercises in the form of artistic outputs are also focused on this area.

Educational activities: Type of activities: seminar Number of hours: per week: 3 per level/semester: 39 Form of the course: on-site learning	
Type, volume, methods and workload of the student - additional information Scope, type/method of teaching and organizational form: (full-time): 3 hours per week seminar, total 33 hours per semester, combined form; (primarily full-time). Student workload: 3S, (3 credits): 11x3 hours of direct instruction is 33 hours, 11 hours of lecture, 9 hours of practical instruction on the subject; 9 hours of study of theoretical knowledge on the subject; 40 hours of work on assignments (application of knowledge from instruction to the creation of a set of term papers); 11 hours of consultation and discussion on the created works; 9 hours of documentation, digitization, archiving of the set of term papers and preparation for the defense; 1 defense and reflection of the set of term papers. A total of 90 hours of student work. Teaching methods: Combination of monological, dialogical and practical methods: lecture, instruction, discussion on the presented topic, solving practical tasks, brainstorming within the selected topics, application of theoretical knowledge to practice and discussion of them, polemics, discussion.	
Number of credits: 3	
Recommended semester: 3.	
Educational level: I.	
Prerequisites:	
Course requirements: Course completion requirements: The course is completed by assessment of assignments and homework. The assessment consists of the defence of the term paper, presentation and evaluation of the assignments carried out in class and also homework on the assigned topics. Semester work 20%, midterm and homework assignments 70%, presentation and discussion of semester and midterm work 10%. At least 91 points are required for a final grade of A, at least 81 points for a grade of B, at least 73 points for a grade of C, at least 66 points for a grade of D, and at least 60 points for a grade of E. To pass the course you must obtain a minimum of 60% of the marks. Credit will not be awarded to a student who fails to complete any of the assigned topics. Grades are awarded on a scale of: A (100-91%, excellent - outstanding),	

B (90-81%, very good - above average standard),
 C (80-73%, good - normal reliable work),
 D (72-66%, satisfactory - acceptable results);
 E (65-60%, satisfactory - results meet minimum criteria),
 Fx (59-0%, inadequate - extra work required).

Learning outcomes:

Learning outcomes/ Objectives and learning outcomes:

Learning objectives and outcomes:

The aim of education within the above course is to acquire basic practical and theoretical skills and knowledge in the field of painting.

Upon completion of the course, the student will:

- Masters the theoretical and practical knowledge of the compositional, form, light and coloristic construction of a painting,
- possesses technological knowledge of painting procedures and techniques,
- possesses creative thinking within the framework of painting,
- uses the acquired knowledge in educational practice,
- cooperates in solving painting - art projects,
- organizes and plans own education,
- presents his/her abilities and skills in the field of painting.

Class syllabus:

The course focuses on gaining theoretical and practical knowledge of basic painting processes and techniques with which the candidate can express themselves. It studies the basic principles of composition, image construction, layering and mixing of colors, which are applied to assigned subjects in the areas of still life, portraiture and figuration. The goal of the course is to offer the candidate basic skills and knowledge in working with the medium of painting, with a focus on painting techniques. The candidate is guided to use practical knowledge in pedagogical practice through critical-analytical thinking.

COURSE DESCRIPTION

Academic year: 2023/2024	
University: Comenius University Bratislava	
Faculty: Faculty of Education	
Course ID: PdF.KPg/B-VUZde029/22	Course title: Basics of the first aid
Educational activities: Type of activities: practicals Number of hours: per week: 2 per level/semester: 26 Form of the course: on-site learning	
Number of credits: 2	
Recommended semester: 1., 3., 5.	
Educational level: I.	
Prerequisites:	
Course requirements: Prerequisites for successful completion of the course: The course is completed by assessment, 100% of the interim assessment: (a) a continuous written assessment with a maximum of 80 points aimed at testing knowledge and understanding of general first aid principles as well as basic first aid principles for life-threatening conditions (cessation of breathing, blood circulation), serious injuries (bleeding, burning, scalding, hypothermia, frostbite, bone and joint injuries, injuries to body orifices) and minor injuries (b) by developing an activity on the chosen first aid topic in the form of a simulation of the health problem mentioned above as well as an active performance of a drill on the basic principles of first aid with a maximum of 20 points. A minimum of 91 points is required for a final grade A, a minimum of 81 points for a grade B, a minimum of 73 points for a grade C, a minimum of 66 points for a grade D and a minimum of 60 points for a grade E. Credit will not be awarded to a student who scores less than 40 points on the written midterm and fails to prepare for the activity. A minimum score of 60% is required to pass the course. The rating is awarded on a scale: A (100-91%, excellent - excellent results), excellent performance, the student has excellent knowledge of theoretical knowledge of medical procedures in cases of health threat, can simulate a case of health threat based on the theoretical knowledge and solve the situation when providing first aid in practice B (90-81%, very good - above average standard), excellent performance, the student knows the theoretical knowledge of medical procedures in cases of health threat very well, can simulate a case of health threat only partially on the basis of the theoretical knowledge, but can deal with the situation when providing first aid in practice C (80-73%, good - normal reliable work), good performance, although the student has a good knowledge of theoretical knowledge of medical procedures in cases of health hazards, but cannot simulate a case of a health hazard on their basis, but can partially solve the situation when providing first aid in practice	

D (72-66%, satisfactory - acceptable results), satisfactory performance, the student partially knows the theoretical knowledge of health procedures in cases of health threats, but is unable to simulate a case of a health threat and is only partially able to apply the theory to practice E (65-60%, sufficient - results meet the minimum criteria), satisfactory performance, the student has only minimal knowledge of the theoretical knowledge of health procedures in cases of health threats, is unable to simulate a case of a health threat and is able to apply the theory to practice only partially Fx (59-0%, insufficient - extra work required), insufficient performance, student does not have sufficient knowledge of basic health procedures in health emergencies, nor is he/she able to simulate a health emergency and apply the theory to practice Scale of assessment (preliminary/final): 100/0
Learning outcomes: Learning objectives and outcomes and transferable competences: The aim of the course is to teach students the basics of first aid, cardiopulmonary resuscitation, as well as the management of serious medical conditions. Upon completion of the course, the student will gain theoretical knowledge of medical procedures in cases of health threats to children and adolescents. At the same time, the student will strengthen his/her communication and organizational skills in dealing with serious health emergencies through simulated situations.
Class syllabus: Brief outline of the course: 1. General principles of first aid (the student acquires basic knowledge and knowledge of the general principles of first aid, can recognize basic first aid from rapid medical and technical assistance, can assess the situation without endangering his/her own life, assess the health condition of the affected - the severity and extent, take urgent measures to save life and knows the correct procedure for calling the ambulance service) 2. Positioning and displacement. (the student is familiarized with the basic positions in providing first aid and possible methods of removal, so that the health of the affected person does not further endanger) 3. First aid for life-threatening conditions (respiratory arrest, circulatory arrest) (the student will be able to recognize the signs of respiratory arrest and circulatory arrest and subsequently provide cardiopulmonary resuscitation in both adults and children in the correct way). 4. First aid for serious injuries (bleeding, burns, scalding, hypothermia, frostbite, bone and joint injuries, injuries to body orifices). (the student is able to recognise the risks to health in different degrees of bleeding, burning, scalding, hypothermia, frostbite, bone and joint injuries, injuries to body orifices, to administer appropriate basic first aid in relation to the extent of the injury and consequently to recognise the signs of shock and to provide the correct anti-shock measures) 5. First aid for minor injuries (the student can recognise minor injuries and provide appropriate first aid)

First aid for serious injuries (bleeding, burns, scalding, hypothermia, frostbite, bone and joint injuries, injuries to body orifices). (the student is able to recognise the risks to health in different degrees of bleeding, burning, scalding, hypothermia, frostbite, bone and joint injuries, injuries to body orifices, to administer appropriate basic first aid in relation to the extent of the injury and consequently to recognise the signs of shock and to provide the correct anti-shock measures) 5. First aid for minor injuries (the student can recognise minor injuries and provide appropriate first aid)

COURSE DESCRIPTION

Academic year: 2023/2024	
University: Comenius University Bratislava	
Faculty: Faculty of Education	
Course ID: PdF.KVV/B-VU-de008/22	Course title: Basics of visual communication
Educational activities: Type of activities: lecture + seminar Number of hours: per week: 3 per level/semester: 39 Form of the course: on-site learning	
Type, volume, methods and workload of the student - additional information Scope, type/method of teaching and organizational form: 1 hour lecture, 2 hours seminar; total 33 hours per semester, combined form; (primarily full-time). Student workload: 1P + 2S, (4 credits): 11x3 hours of direct instruction = 33 hours; 22 hours continuous assignment; 22 hours test; 43 hours term paper. Total 120 hours of student work. Teaching methods: Discussion of the presented topic, problem solving by group consultation, creation of digital portfolio, application of theoretical knowledge to the practical procedures of creation, presentation of technical procedures - tutorials by students and teachers.	
Number of credits: 4	
Recommended semester: 4.	
Educational level: I.	
Prerequisites:	
Course requirements: The course is completed by an examination, which consists of a practical presentation/defence of a term paper on a given topic. Interim assignments are also assessed during the semester. Theoretical knowledge of the basics of visual communication 0-10b; preparation of a digital portfolio (in the context of teaching) and communication with the teacher 0-10b; ability to apply theoretical knowledge to implementation (intermediate assignments and term paper) 0-70b; defence and archiving of a set of term papers 0-10b of the total course grade. At least 91 points are required for a final grade of A, at least 81 points for a grade of B, at least 73 points for a grade of C, at least 66 points for a grade of D, and at least 60 points for a grade of E. To pass the course, a minimum of 60% of the marks must be obtained. Credit will not be awarded to a student who fails to complete any of the assigned topics. Grades are awarded on a scale of: A 100-91%, excellent - excellent results, the student can individually and creatively apply the acquired practical and theoretical knowledge of the basics of visual communication, has excellent technical skills in the creation in available vector graphic software, his work is conceptually clearly formulated, reflects the abstract and creative thinking of the student's personality; B 90-81%, very good - above average standard, the student has mastered the acquired principles and knowledge of the basics of visual communication, can work in the available vector graphic software needed to complete the assignment, his/her work is conceptual in nature;	

C 80-73%, good - normal reliable work, the student understands the basic principles of visual communication and basic technical procedures, but is unable to apply them comprehensively and creatively to assignments, conceptual thinking is weaker in the work;

D 72-66%, satisfactory - acceptable results, the student understands only part of the principles and technical procedures presented in the course, but cannot apply them comprehensively and work individually on assignments, creative thinking is absent;

E (65-60%, satisfactory - results meet the minimum criteria), the student knows only a fraction of the principles and technical procedures presented in the course, he/she is unable to apply them even after repeated consultations with the teacher to complete the assignment, creative thinking is absent;

Fx 59-0%, insufficient - extra work is required, student does not acquire even partial knowledge and principles necessary for working on the assignment, cannot create creatively.

Learning outcomes:

Learning objectives and outcomes:

The aim of education within the above course is to offer the student basic skills in working with vector graphics in the sense of working with shape, line, area, colour and shape as a basic building block.

After completing the course, the student will:

- Possesses the basic structural competencies (whether intellectual, technical, creative-sensory) in his/her subject specialization,
- is able to cooperate in solving professional projects in the field of subject specialization focused on the basics of visual communication,
- is able to analyse and reflect the general-pedagogical principles of education and training (in the intent of visual communication) in school practice,
- has basic practical skills in the field of visual communication,
- can actively use digital technologies to support the educational process,
- - understands and can apply the basic concepts and rules of visual communication to pedagogical practice and in the creation of simple promotional material.

Class syllabus:

The course focuses on the acquisition of theoretical and practical knowledge of visual communication, the student is introduced to the rules of visual communication and the possibility of their use in practice, through the solution of specific targeted assignments. The aim of the course is to offer the student basic skills in working with vector graphics in the sense of working with shape, line, surface, colour and form as a basic building block. At the same time, the course includes discussion of visual communication topics that help develop the student's critical thinking.

COURSE DESCRIPTION

Academic year: 2023/2024	
University: Comenius University Bratislava	
Faculty: Faculty of Education	
Course ID: PdF.KPg/B-VUZde031/22	Course title: Child biological development and school hygiene
Educational activities: Type of activities: seminar Number of hours: per week: 2 per level/semester: 26 Form of the course: on-site learning	
Number of credits: 3	
Recommended semester: 1., 3., 5.	
Educational level: I.	
Prerequisites:	
Course requirements: Prerequisite subjects: none Prerequisites for successful completion of the course: The course is completed by assessment (100% of the interim assessment). The subject is finished: (a) a continuous written assessment with a maximum score of 80 points aimed at reviewing knowledge and knowledge of the child's developmental characteristics and the factors that affect the child's biological physiological development and which may be the causes of pathological growth and at the same time the consequences of a lower level of the child's ability to cope with the educational process of school education; reviewing the knowledge and use of methods that assess and diagnose physiologically healthy , resp. pathological biological growth and development of the child and, ultimately, on the issue of prevention and protection of the child's health in all its components of the bio-psycho-social nature of the child's development b) by developing protocols for the assessment and diagnosis of biological development with a maximum score of 20 points as a form of the ability to apply theoretical knowledge about physiologically healthy or pathological biological development of the child to pedagogical practice A minimum of 91 points is required for a final grade A, a minimum of 81 points for a grade B, a minimum of 73 points for a grade C, a minimum of 66 points for a grade D and a minimum of 60 points for a grade E. Credit will not be awarded to a student who scores less than 40 points on the written midterm review and fails to complete a protocol for assessing and diagnosing the child's biological development. A minimum score of 60% is required to pass the course. The rating is awarded on a scale: A (100-91%, proficient - outstanding), excellent performance, the student has an excellent command of the knowledge of physiologically healthy biological development of the child and has an excellent understanding of the environmental factors that cause pathological growth as a result of the child's lower ability to cope with the educational process of the student's schooling, critically assesses the adequacy of the demands of the educational process on the physical and psychological performance of the child, the student can apply the methods of assessment and	

diagnosis of biological development on practical examples and can apply them in the education and training of children

B (90-81%, very good - above average standard), excellent performance, the student has a very good command of the knowledge of the physiologically healthy biological development of the child, knows very well which of the environmental factors are the causes of the development of pathological growth as a result of the child's lower ability to cope with the educational process of the student's schooling, but critical thinking in the field of evaluation of the adequacy of the demands of the educational process on the physical and psychological performance of the child is borderline, but the student can apply the methods of evaluation and diagnosis of biological development on practical examples and can apply them in the education and training of children

C (80-73%, good - normal reliable work), good performance, although the student has a good command of the knowledge of the physiologically healthy biological development of the child, he/she knows well which environmental factors are the causes of the development of pathological growth as a result of the child's lower ability to cope with the educational process of the student's schooling, but critical thinking in the area of evaluation of the adequacy of the demands of the educational process on the physical and psychological performance of the child is absent, but can partially apply the methods of evaluation and diagnosis of biological development on practical examples and can apply them in the education and training of children

D (72-66%, Satisfactory-Acceptable performance), Satisfactory performance, the student partially knows the knowledge of physiologically healthy biological development of the child and partially knows which environmental factors are the causes of the development of pathological growth as a result of the child's lower ability to cope with the educational process of the student's schooling, critical thinking in the field of evaluation of the adequacy of the demands of the educational process on the child's physical and psychological performance is absent but he/she is able to apply the methods of evaluation and diagnosis of biological development in the form of practical examples and apply them in the education of children only partially

E (65-60%, satisfactory - results meet minimum criteria), satisfactory performance, the student has only minimal knowledge of the physiologically healthy biological development of the child, and similarly minimal knowledge of the environmental factors that cause pathological growth as a result of the child's lower ability to cope with the educational process of the student's schooling, critical thinking in the field of evaluation of the adequacy of the demands of the educational process on the child's physical and psychological performance is absent, and is able to apply methods of evaluation and diagnosis of biological development in the form of practical examples and apply them in the education and training of children only partially

Fx (59-0%, insufficient - extra work required), inadequate performance, student does not sufficiently master the basic knowledge of physiologically healthy biological development of the child, at the same time does not sufficiently know which of the environmental factors are the causes of the emergence of pathological growth as a result of the child's lower ability to cope with the educational process of the student's schooling, is neither able to critically evaluate the adequacy of the demands of the educational process on the child's physical and psychological performance, nor is he or she able to apply methods of assessing and diagnosing biological development in the form of practical examples and apply them in the education and training of children

Learning outcomes:

Learning outcomes:

Learning objectives and outcomes and transferable competences:

Upon completion of the course, students should have knowledge and understanding of the biological laws of growth and development and the factors that determine them. They will acquire knowledge of the bio-psycho-social integration of the human organism. Understand the spatio-temporal sequence and interdependence of changes in the structure and function of the human organism.

They will become familiar with critical developmental periods and risk factors interfering with physiological growth and development. They will understand the principles of regulation and adaptation of the organism in the context of environmental influences. At the same time, students will strengthen their mathematical skills and analytical abilities in the development of protocols for the assessment of child biological development. Ultimately, the course will provide students with the ability to evaluate the appropriateness of the demands of the educational process on a child's physical and psychological performance in relation to the child's level of biological maturation

Class syllabus:

Brief outline of the course:

1. Defining ontogeny. Progressive and regressive changes with age. Biological explanation of the concepts of growth and development. The laws of growth and development. Typical and atypical growth and development. (The student can distinguish between physiologically healthy and pathological biological development of a child for the purpose of applying knowledge in the education of children, in the form of effective collaboration with special educators, psychologists, and other practitioners)
2. Factors determining growth and development: genetic, neurohormonal, environmental factors. Genetic factors: heredity, mutations - gene, chromosomal aberrations. Mutagens and teratogens. Mutations. Chromosomal aberrations. (The student knows and understands the endogenous environmental factors that determine the hereditary predisposition of the child to cope with the demands of the educational process on the psychological and physical load of the organism)
3. Environmental factors. Definition of environment, external, internal environment. Neurohormonal regulation. Importance of neural and hormonal regulation as a mechanism of biological adaptation. Determination of growth and developmental processes by environmental factors. Nutrition. Maternal factors. Climatic and geographical factors. Socio-economic level. Morbidity. (The student knows which of the factors act on the biological development of the child and which may be the consequences of the child's lower ability to cope with the educational process of the student's schooling)
4. Ontogenetic development. The division of ontogeny: the biological definition of the different periods. Prenatal, perinatal, postnatal periods. Prenatal period - formation and development of the embryo (gestation), importance of the placenta. Environmental risk factors threatening prenatal development. Perinatal period. Childbirth, newborn at risk. Postnatal period - characteristics of the neonatal, infant, toddler, preschool, junior and senior school age periods in terms of somatic changes (growth, motor development) and risks of developmental disruption. Brief overview of anatomy and physiology of organ systems. (the student distinguishes the age-specific characteristics of the individual systems in the different periods of ontogenesis and is able to use and apply these characteristics in the practice of school education)
5. Methods of assessment of physical growth and development, determination of biological maturity. Adequacy of the demands of the educational process on the child's physical and psychological performance - Biological rhythms. Dynamic stereotype. Fatigue and resumption of work activity. (The student can diagnose the level of development of children of preschool and younger school age, critically evaluate the adequacy of the demands of the educational process on the physical and psychological performance of the child and on the basis of the diagnosis to design and implement an appropriate intervention)
6. Pathologically altered growth and development. Prevention of disorders of somatic development - primary, secondary, tertiary. (the student knows how to prevent pathologically altered growth and development in its beginnings, and knows the basics of prevention and protection of the child's health in all components of the bio-psycho-social nature of the child's development)
7. Principles of the organisation of teaching in terms of physical and mental hygiene. Hygiene of the school environment and conditions for educational activities of pupils. (the student knows the

basic principles of the organisation of teaching and the correct hygiene of the school environment in terms of the physical and mental hygiene of the pupil)

COURSE DESCRIPTION

Academic year: 2023/2024	
University: Comenius University Bratislava	
Faculty: Faculty of Education	
Course ID: PdF.KPg/B-VUZde005/22	Course title: Communication in education
Educational activities: Type of activities: seminar Number of hours: per week: 2 per level/semester: 26 Form of the course: on-site learning	
Number of credits: 3	
Recommended semester: 2., 4., 6.	
Educational level: I.	
Prerequisites:	
Course requirements: Prerequisites for successful completion of the course: 100% pass mark. Assessment: consists of 2 intermediate assessments (40+60, total 100 points). Interim assessment 1: consists of the preparation of a term paper and its oral presentation or practical application in class. This is a prepared micro-performance (alone or in pairs). Semester work for interim assessment 1: consists of a creative assignment for 40b (20+20). This includes preparation of an oral micro-presentation for 10-15 minutes and feedback (20b) and preparation of a visual presentation in a graphics program (20b). Intermediate assessment 2: consists of a review of the knowledge acquired, i.e. a test for 60p. The written exam/test consists of theoretical preparation for the course in basic concepts and study of the literature. Prerequisites: The rating shall be awarded on a scale of A (100-91%, excellent - excellent results with only minimal errors), B (90-81%, very good - above average results with minor errors), C (80-73%, good - normal reliable work, average results), D (72-66%, satisfactory - acceptable results, but significant errors occur), E (65-60%, sufficient - results meet minimum criteria), Fx (59-0%, insufficient - extra work required). For successful completion of the course it is necessary to obtain at least 60% of the points. A minimum of 91 points is required for a final grade of A. For this grade, the student should demonstrate: a creative and original approach in the development of intermediate assignments, excellent professional knowledge and its application in problem solving, excellent orientation in the subject matter, excellent communication skills, responsibility and timely completion of assignments, exceptional activity in the classroom during the semester. A minimum of 81 points is required to obtain a B grade. For this grade, the student should demonstrate: a creative approach in developing ongoing assignments using a model, above average expertise and application of that expertise in problem solving using tutorials, above average orientation to the problem, above average communication skills, responsibility and timely completion of assignments, above average activity in class during the semester.	

For a grade of C at least 73 points. For this grade, the student should demonstrate: the ability to develop intermediate assignments using the given template, good professional knowledge and its application in solving problem problems in a group or with the help of the instructor, good orientation in the subject matter, good communication skills, completion of the assigned tasks, average activity in class during the semester when prompted by the instructor.

For a grade of D at least 66 points. For this grade, the student is expected to demonstrate: the ability to develop intermediate assignments using the assigned template and with the assistance of the instructor, average proficiency and application of knowledge in problem solving in a group setting or with the assistance of the instructor, average orientation to the subject matter, average communication skills, completion of assignments, and basic activity in class during the semester in collaboration with the instructor or other students.

At least 60 points for an E grade. For this assessment, the student should demonstrate: the ability to develop ongoing assignments and with the assistance of the instructor, basic/minimal professional knowledge, basic/minimal orientation to the subject matter, basic communication skills, completion of assigned tasks.

Scale of assessment (preliminary/final): 100/0

Learning outcomes:

Learning objectives and outcomes:

By completing the Communication in education course, the student should:

- Be able to compare student-centered and teacher-centered approaches in communication,
- be able to justify the choice and appropriateness of the communication approaches used in teaching,
- be able to create a presentation with high quality content and visually interesting,
- be able to apply theoretical knowledge in the creation of oral micro output,
- be able to present a micro performance in front of a group and be able to give or receive feedback,
- be able to argue correctly and be able to make a factually correct argument,
- understand the importance of selection and analysis of information and information sources,
- know methods for Developing of critical thinking,
- acquire presentation and communication skills and be able to apply them in practical tasks.

Transferable competences: the student strengthens soft skills such as communication skills through creative tasks in the course, furthermore analytical thinking in evaluating information and working with text, critical thinking and thinking in context in the development of arguments and through their application in discussion, strengthens interpersonal skills within the group - activation and taking initiative and responsibility.

Class syllabus:

Brief outline of the course:

The aim of the course is the practical use of theoretical knowledge about effective communication in the educational process through training and micro-performances. The course is designed to prepare students for the future teaching profession in the field of critical and independent thinking, communication and rhetorical skills, collaboration, creative activity, self-assessment, feedback, etc. Using various activating methods and problem-based tasks, students will actively participate in the teaching and create the content of the course themselves, in which they will use their own potential and develop the inter and intra personal aspects of their own personality.

Topics:

Communication in education in theory - definition of communication, types of communication, information theory and its components. Communication in education - its functions, levels, basic rules, organizational forms. Interaction styles of the teacher. Extralinguistic means of communication, paralinguistic aspects of speech. Verbal communication - monologue, dialogue,

conversation, questioning, argumentation. Organizational forms and space in communication. Types of teaching according to the number of participants. Classroom layout. Communication in education in practice - teachers' inappropriate approaches in Communication in education. Appropriate communication approaches and strategies in teacher work - learner centred approach, humanism, non-directivity. Presentation - structure and arrangement of speech/speech/lecture. Selection and appropriateness of information within an oral presentation. Analysis of speakers. Visualisation and arousal of interest. Organisation of time. Argumentation - composition of argument, types of argument. Logic and errors in argumentation. Types of interviews. Debate - how to conduct a conversation, the structure of a conversation. Division of discussion methods. Feedback - self-evaluation and self-reflection, giving and receiving criticism. Critical thinking and methods to develop critical thinking.

COURSE DESCRIPTION

Academic year: 2023/2024	
University: Comenius University Bratislava	
Faculty: Faculty of Education	
Course ID: PdF.KPg/B-VUZde005/22	Course title: Communication in education
Educational activities: Type of activities: seminar Number of hours: per week: 2 per level/semester: 26 Form of the course: on-site learning	
Number of credits: 3	
Recommended semester: 1., 3., 5.	
Educational level: I.	
Prerequisites:	
Course requirements: Prerequisites for successful completion of the course: 100% pass mark. Assessment: consists of 2 intermediate assessments (40+60, total 100 points). Interim assessment 1: consists of the preparation of a term paper and its oral presentation or practical application in class. This is a prepared micro-performance (alone or in pairs). Semester work for interim assessment 1: consists of a creative assignment for 40b (20+20). This includes preparation of an oral micro-presentation for 10-15 minutes and feedback (20b) and preparation of a visual presentation in a graphics program (20b). Intermediate assessment 2: consists of a review of the knowledge acquired, i.e. a test for 60p. The written exam/test consists of theoretical preparation for the course in basic concepts and study of the literature. Prerequisites: The rating shall be awarded on a scale of A (100-91%, excellent - excellent results with only minimal errors), B (90-81%, very good - above average results with minor errors), C (80-73%, good - normal reliable work, average results), D (72-66%, satisfactory - acceptable results, but significant errors occur), E (65-60%, sufficient - results meet minimum criteria), Fx (59-0%, insufficient - extra work required). For successful completion of the course it is necessary to obtain at least 60% of the points. A minimum of 91 points is required for a final grade of A. For this grade, the student should demonstrate: a creative and original approach in the development of intermediate assignments, excellent professional knowledge and its application in problem solving, excellent orientation in the subject matter, excellent communication skills, responsibility and timely completion of assignments, exceptional activity in the classroom during the semester. A minimum of 81 points is required to obtain a B grade. For this grade, the student should demonstrate: a creative approach in developing ongoing assignments using a model, above average expertise and application of that expertise in problem solving using tutorials, above average orientation to the problem, above average communication skills, responsibility and timely completion of assignments, above average activity in class during the semester.	

For a grade of C at least 73 points. For this grade, the student should demonstrate: the ability to develop intermediate assignments using the given template, good professional knowledge and its application in solving problem problems in a group or with the help of the instructor, good orientation in the subject matter, good communication skills, completion of the assigned tasks, average activity in class during the semester when prompted by the instructor.

For a grade of D at least 66 points. For this grade, the student is expected to demonstrate: the ability to develop intermediate assignments using the assigned template and with the assistance of the instructor, average proficiency and application of knowledge in problem solving in a group setting or with the assistance of the instructor, average orientation to the subject matter, average communication skills, completion of assignments, and basic activity in class during the semester in collaboration with the instructor or other students.

At least 60 points for an E grade. For this assessment, the student should demonstrate: the ability to develop ongoing assignments and with the assistance of the instructor, basic/minimal professional knowledge, basic/minimal orientation to the subject matter, basic communication skills, completion of assigned tasks.

Scale of assessment (preliminary/final): 100/0

Learning outcomes:

Learning objectives and outcomes:

By completing the Communication in education course, the student should:

- Be able to compare student-centered and teacher-centered approaches in communication,
- be able to justify the choice and appropriateness of the communication approaches used in teaching,
- be able to create a presentation with high quality content and visually interesting,
- be able to apply theoretical knowledge in the creation of oral micro output,
- be able to present a micro performance in front of a group and be able to give or receive feedback,
- be able to argue correctly and be able to make a factually correct argument,
- understand the importance of selection and analysis of information and information sources,
- know methods for Developing of critical thinking,
- acquire presentation and communication skills and be able to apply them in practical tasks.

Transferable competences: the student strengthens soft skills such as communication skills through creative tasks in the course, furthermore analytical thinking in evaluating information and working with text, critical thinking and thinking in context in the development of arguments and through their application in discussion, strengthens interpersonal skills within the group - activation and taking initiative and responsibility.

COURSE DESCRIPTION

Academic year: 2023/2024	
University: Comenius University Bratislava	
Faculty: Faculty of Education	
Course ID: PdF.KVV/B-VU-de013/22	Course title: Contexts of visual arts
Educational activities: Type of activities: seminar Number of hours: per week: 3 per level/semester: 39 Form of the course: on-site learning	
Type, volume, methods and workload of the student - additional information Type of activities, scope (number of hours) and methods of educational activities: hours per week, 1 hour lecture, 2 hours seminar, per semester 33 hours, combined method (primarily full-time). Student workload: 3S, (3 credits): 11x3 hours seminar, 20 hours term paper preparation, 20 hours intermediate assignments, 10 hours minor assignments. Teaching methods: lecture, seminar, discussion.	
Number of credits: 3	
Recommended semester: 2., 4.	
Educational level: I.	
Prerequisites:	
Course requirements: The course is completed with a 100% grade. The student will be evaluated continuously for the independent work carried out during the semester and the final thesis. Interim assignments are also assessed during the semester. A minimum of 91 points is required for a final grade A, a minimum of 81 points for a grade B, a minimum of 73 points for a grade C, a minimum of 66 points for a grade D and a minimum of 60 points for a grade E. To pass the course you must obtain a minimum of 60% of the marks. Credit will not be awarded to a student who fails to complete any of the assigned topics and assignments. Semester work 40%, intermediate assignments 30%, debate on semester work 30%.	
Learning outcomes: Learning objectives and outcomes: The aim of education within the relevant subject is to develop students' critical thinking skills in the context of the analysis and interpretation of a work of art. Upon completion of the course, the student will: • is capable of critical and methodical thinking, • has relevant basic knowledge in the field of analysis of the interpretation of a work of art, • is able to take an active approach to questions of basic theoretical issues in the visual and fine arts, expands knowledge of the broader contexts in the field, • is proficient in the fundamentals of communication in the context of the subject content.	
Class syllabus:	

The concepts of visual art and fine art. Visual art - visual society, connection with other art forms. Tradition - modernity - contemporary. Search and formulation of the value of art of the XIX and XX centuries in comparison with earlier artistic styles. The meaning and mission of visual art with an emphasis on the present. Contemporary world view and cultural transformations. The relationship between visual art and society. Visual art as part of global culture and its relation to artistic identity. Its links with other art forms.

COURSE DESCRIPTION

Academic year: 2023/2024	
University: Comenius University Bratislava	
Faculty: Faculty of Education	
Course ID: PdF.KVV/B-VU-de012/22	Course title: Course of drawing and spatial creation in landscape
Educational activities: Type of activities: training session Number of hours: per week: per level/semester: 39s Form of the course: on-site learning	
Type, volume, methods and workload of the student - additional information Scope, type/method of teaching and organizational form: 39 hours of other forms of instruction; 39 hours total per semester, combined; (primarily full-time). Student workload: 39s, (3 credits): 2 x 6 hours and 3 x 9 hours of other forms of teaching = 39 hours; 17 hours of preparation and study of theoretical knowledge on the subject; 19 hours of work on assignments; 13 hours of documentation, digitization, processing of outputs into a portfolio and archiving of a set of works; 1 preparation for defence; 1 defence and reflection of a set of evaluated works. A total of 90 hours of student work. Teaching methods: combination of monological, dialogical and practical methods: lecturing, interpretation, explanation, narration, briefing on the subject; conversation, discussion, polemic on the given topic; application of knowledge from the interpretation to the student's realized works on the assigned topics, which are continuously consulted by the teacher.	
Number of credits: 3	
Recommended semester: 2., 4.	
Educational level: I.	
Prerequisites: PdF.KVV/B-VU-de003/22 - Basics of drawing	
Course requirements: The course is completed with an assessment by the 13th week of the semester, a final presentation and defence of a set of completed works using drawing and spatial creation with a focus on their use in the natural or urban environment. Participation in ongoing consultations of the works is also a prerequisite. Attendance and participation in lecture activities 0-10 points; creation of a minimum number of elaborated drawings by tax 0-40 points; realization of smaller spatial works (land art bozzettes) 0-20 points; realization of larger spatial work 0-20 points; documentation, digitalization, archiving of the set of semester works, their defense and the level of commenting on the evaluated works 0-10 points. A minimum of 91 points is required for a final grade of A, a minimum of 81 points for a grade of B, a minimum of 73 points for a grade of C, a minimum of 66 points for a grade of D, and a minimum of 60 points for a grade of E. To pass the course you must obtain a minimum of 60% of the marks. Credit will not be awarded to a student who fails to complete any of the assigned topics, fails to attend a minimum number of midterm tutorials, or fails to submit the required documentation of a set of term papers.	

Grades are awarded on a scale of: A (100-91%, excellent - outstanding), B (90-81%, very good - above average standard), C (80-73%, good - normal reliable work), D (72-66%, satisfactory - acceptable results), E (65-60%, satisfactory - results meet minimum criteria), Fx (59-0%, inadequate - extra work required).																				
Learning outcomes: Learning objectives and outcomes: The aim of education within the course is to gain theoretical knowledge of the basic characteristics and concepts and practical experience in the field of the artistic medium of drawing and spatial creation with a focus on their use in natural or urban environments. The student after completing the course: • Possesses basic structural competencies (whether intellectual, motor, • creative-sensory) in his/her subject specialization in drawing and spatial creation, • is able to work quickly in the field of drawing and spatial creation in the landscape, • is able to collaborate in solving professional projects in the field of subject specialization.																				
Class syllabus: The course focuses on creative study in nature and urban environments. The aim of the course is to make artistic use of the natural environment and its characteristics in drawing and spatial creation. The course focuses on the artistic elements in plein air such as light, space, whole, detail, texture... . Spatial creation is characterized by land art and intervention in public/urban space. Drawing focuses on basic studies of space/environment.

COURSE DESCRIPTION

Academic year: 2023/2024	
University: Comenius University Bratislava	
Faculty: Faculty of Education	
Course ID: PdF.KPg/B-VUZde035/22	Course title: Developing critical thinking
Educational activities: Type of activities: seminar Number of hours: per week: 2 per level/semester: 26 Form of the course: on-site learning	
Number of credits: 3	
Recommended semester: 2., 4., 6.	
Educational level: I.	
Prerequisites:	
Course requirements: Prerequisite subjects: Prerequisites for successful completion of the course: The course is completed with an assessment, weighted interim/final assessment 100/0. 100% of the continuous assessment includes: approximately 5 assignments (50%) will be given during the semester, 2 midterm tests during the semester (for a total of 30%), and active participation in seminars, engaging in discussions (20%). Students will use the e-learning environment moodle for their studies. For successful completion of the course it is necessary to obtain at least 60% of the points. The rating is awarded on a scale: A (100-91%, excellent - outstanding results), the student actively participated in seminar discussions, completed the midterm tests at an excellent level, and completed the midterm assignments excellently. B (90-81%, very good - above average standard), the student actively participated in seminar discussions, completed midterm tests and assignments at a very good level C (80-73%, good - normal reliable work), the student was less actively involved in seminar discussions, he/she completed the midterm tests and assignments at a good level with slight shortcomings D (72-66%, satisfactory - acceptable results), the student did not actively participate in seminar discussions, he/she completed midterm tests and assignments at a satisfactory level E (65-60%, sufficient - results meet the minimum criteria), the student did not actively participate in discussions in seminars, midterm tests and midterm assignments were done at the minimum level Fx (59-0%, insufficient - extra work required)	
Learning outcomes: Learning outcomes: Learning objectives and outcomes and transferable competences: Students are familiar with the principles of critical thinking, they can prepare their own activities on the basis of universal scenarios on the subject aimed at the Development critical thinking. They	

can assess students' critical thinking, recognize hoaxes and identify relevant facts and ideas. They can apply a variety of methods to develop pupils' critical thinking.

Educational Objectives:

The aim of the seminar is for students to acquire knowledge and skills that will enable them to prepare methodological materials aimed at developing students' critical thinking skills. To familiarize students with universal scenarios of educational activities and the possibilities of assessing critical thinking in education.

Class syllabus:

Brief outline of the course:

Principles of critical thinking, critical arguing, critical debating, critical writing, organizing knowledge. Basic characteristics of hoaxes. Identifying relevant facts and ideas. Methods of Development critical thinking in pupils, universal scenarios of educational activities, preparation of methodological materials. Evaluation of critical thinking.

COURSE DESCRIPTION

Academic year: 2023/2024	
University: Comenius University Bratislava	
Faculty: Faculty of Education	
Course ID: PdF.KPg/B-VUZde035/22	Course title: Developing critical thinking
Educational activities: Type of activities: seminar Number of hours: per week: 2 per level/semester: 26 Form of the course: on-site learning	
Number of credits: 3	
Recommended semester: 1., 3., 5.	
Educational level: I.	
Prerequisites:	
Course requirements: Prerequisite subjects: Prerequisites for successful completion of the course: The course is completed with an assessment, weighted interim/final assessment 100/0. 100% of the continuous assessment includes: approximately 5 assignments (50%) will be given during the semester, 2 midterm tests during the semester (for a total of 30%), and active participation in seminars, engaging in discussions (20%). Students will use the e-learning environment moodle for their studies. For successful completion of the course it is necessary to obtain at least 60% of the points. The rating is awarded on a scale: A (100-91%, excellent - outstanding results), the student actively participated in seminar discussions, completed the midterm tests at an excellent level, and completed the midterm assignments excellently. B (90-81%, very good - above average standard), the student actively participated in seminar discussions, completed midterm tests and assignments at a very good level C (80-73%, good - normal reliable work), the student was less actively involved in seminar discussions, he/she completed the midterm tests and assignments at a good level with slight shortcomings D (72-66%, satisfactory - acceptable results), the student did not actively participate in seminar discussions, he/she completed midterm tests and assignments at a satisfactory level E (65-60%, sufficient - results meet the minimum criteria), the student did not actively participate in discussions in seminars, midterm tests and midterm assignments were done at the minimum level Fx (59-0%, insufficient - extra work required)	
Learning outcomes: Learning outcomes: Learning objectives and outcomes and transferable competences: Students are familiar with the principles of critical thinking, they can prepare their own activities on the basis of universal scenarios on the subject aimed at the Development critical thinking. They	

can assess students' critical thinking, recognize hoaxes and identify relevant facts and ideas. They can apply a variety of methods to develop pupils' critical thinking.

Educational Objectives:

The aim of the seminar is for students to acquire knowledge and skills that will enable them to prepare methodological materials aimed at developing students' critical thinking skills. To familiarize students with universal scenarios of educational activities and the possibilities of assessing critical thinking in education.

Class syllabus:

Brief outline of the course:

Principles of critical thinking, critical arguing, critical debating, critical writing, organizing knowledge. Basic characteristics of hoaxes. Identifying relevant facts and ideas. Methods of Development critical thinking in pupils, universal scenarios of educational activities, preparation of methodological materials. Evaluation of critical thinking.

COURSE DESCRIPTION

Academic year: 2023/2024	
University: Comenius University Bratislava	
Faculty: Faculty of Education	
Course ID: PdF.KVV/B-VU-de009/22	Course title: Didactics of art education 1
Educational activities: Type of activities: practice / lecture + seminar Number of hours: per week: 1 / 2 per level/semester: 13 / 26 Form of the course: on-site learning	
Type, volume, methods and workload of the student - additional information Type of activities, scope (number of hours) and methods of educational activities: 3 hours per week, 1 hour lecture, 1 hour seminar, 1 hour teaching practice, per semester 39 hours, combined method (mostly attendance). Student workload: 2PS, 1X (4 credits): 11x2 hours of direct instruction is 22 hours, 1x11 hours of practice, 30 hours of test preparation, 24 hours of midterm assignments (6 midterm assignments, 4 hours each), term paper 20 hours, practice reflection 13 hours. Teaching methods: discussion on the presented topic, problem solving in groups, brainstorming on selected topics, discussion groups, application of theoretical knowledge to practical examples and discussion.	
Number of credits: 4	
Recommended semester: 3.	
Educational level: I.	
Prerequisites:	
Course requirements: The course is completed by an examination consisting of a written test, a term paper and a debate on a given topic. Interim assignments and reflective practice are also assessed during the semester. A minimum of 91 points is required for a final grade A, a minimum of 81 points for a grade B, a minimum of 73 points for a grade C, a minimum of 66 points for a grade D and a minimum of 60 points for a grade E. To pass the course, a minimum of 60% of the marks must be obtained. Credit will not be awarded to a student who fails to complete any of the assigned topics and assignments. The test represents 30%, intermediate assignments 25%, semester work 20%, reflection on practice 15%, debate on the semester work 10% of the total course grade.	
Learning outcomes: Learning objectives and outcomes: The aim of education within the respective subject is to convey the basic theoretical aspects of artistic expression of children and youth in the context of ontogenesis, philosophical, pedagogical and diagnostic context. Upon completion of the course, the student will: • knows and understands the basic theoretical aspects of children's artistic expression in a historical context,	

- has basic relevant knowledge of children and youth artistic expression in a broader philosophical and psychological context, in the context of contemporary times,
- is familiar with the pedagogical and diagnostic process of children's and young people's artistic expression in relation to the professional competences of an art educator,
- is able to present his/her views on topics related to the artistic expression of children and young people,
- develops his/her communication skills in presenting reflections from practice.

Class syllabus:

The course is aimed at acquiring knowledge about the ontogeny of children's artistic expression in relation to the phylogeny of art. The student will gain an overview of symbolic forms in children's artistic expression, the use of pedagogical diagnostics in the cognition of artistic expression of children and youth. The student will acquire theoretical knowledge about creativity and its application in the artistic expression of children and youth. The seminars will focus on the creation and use of case studies as a possibility of learning about children's artistic expression. Within the pedagogical practice, the student will verify the acquired knowledge in educational practice and will reflect it in written expression.

Educational activities: Type of activities: practice / lecture + seminar Number of hours: per week: 1 / 2 per level/semester: 13 / 26 Form of the course: on-site learning	
Type, volume, methods and workload of the student - additional information Type of activities, scope (number of hours) and methods of educational activities: 3 hours per week, 1 hour lecture, 1 hour seminar, 1 hour teaching practice, per semester 39 hours, combined method (primarily attendance). Student workload: 1P+1S, 10 (4 credits): 11x2 hours of direct instruction is 22 hours, 10 hours of practice, 35 hours of term paper preparation, 28 hours of intermediate assignments, 25 hours of processing reflection from practice. Teaching methods: discussion on the presented topic, problem solving in groups, brainstorming on selected topics, discussion groups, application of theoretical knowledge to practical examples and discussion.	
Number of credits: 4	
Recommended semester: 4.	
Educational level: I.	
Prerequisites: PdF.KVV/B-VU-de009/22 - Didactics of art education 1	
Course requirements: The course is completed by an examination, which consists of a term paper and a debate on a given topic. Interim assignments are also assessed during the semester. A minimum of 91 points is required for a final grade A, a minimum of 81 points for a grade B, a minimum of 73 points for a grade C, a minimum of 66 points for a grade D and a minimum of 60 points for a grade E. To pass the course, a minimum of 60% of the marks must be obtained. Credit will not be awarded to a student who fails to complete any of the assigned topics and assignments. Semester work 30%, intermediate assignments 25%, reflection on practice 25%, debate on semester work 20%.	
Learning outcomes: Learning objectives and outcomes: The aim of education within this subject is to convey methods, forms of art education within the framework of experiential and leisure education with the context of gallery education, regional, traditional and folk culture. Upon completion of the course, the student will: • has a basic relevant knowledge of the artistic expression of children and young people in a broader philosophical and psychological context, in the context of contemporary times, in the context of extra-curricular activities,	

- knows the principles of creating and designing pedagogical environments in the educational environment of the gallery and the out-of-school environment,
- is able to organise pupils' activities, especially in out-of-school and extra-curricular activities,
- knows the basics of pedagogical communication, individual and team work in solving professional and pedagogical problems with an emphasis on art education in the non-educational environment.

Class syllabus:

The course is aimed at conveying methods, forms and means of didactic reality in the context of leisure and interest art education with a focus on regional education and traditional folk culture. The student will gain a basic orientation not only in the pedagogical and artistic terminology, but also knowledge of the contextual specifics of the didactics of art education with a focus on leisure activities. The seminars will focus on the conception of projects in terms of the contemporary understanding of leisure art education with an emphasis on the development of a relationship with the region, nature, architecture, folk craft and folk art. Within the pedagogical practice the student will verify the acquired knowledge in educational practice, in organizations providing leisure art activities.

COURSE DESCRIPTION

Academic year: 2023/2024	
University: Comenius University Bratislava	
Faculty: Faculty of Education	
Course ID: PdF.KH/B-HISde035/22	Course title: Didactics of non-formal History Education
Educational activities: Type of activities: seminar Number of hours: per week: 2 per level/semester: 26 Form of the course: on-site learning	
Type, volume, methods and workload of the student - additional information 2 hours seminar/week; 22 hours total per semester, combined; (primarily full-time) Student workload: 2S (2 credits): 11 x 2 hours of direct instruction = 22 hours; 40 hours producing seminar papers and reflections on the topics covered; 15 hours preparing for the presentation of papers and discussion. A total of 77 hours of student work. Educational methods: E-U-R (evocation-awareness-reflection); knowledge competitions, quizzes; brainwriting; dramatisation; didactic games and other interest activities of historical education; discussion/colloquium on the subject matter; problem-solving exercises; SWOT analysis	
Number of credits: 2	
Recommended semester: 5.	
Educational level: I.	
Prerequisites:	
Course requirements: 100 % of the intermediate verbal and scored marks. During the semester, the student solves assignments focused on the application of the three functions of history education (cognitive, educational, and entertaining) in an informal environment, reflects through creative work on the content of the topics, applies several methods of work and presents them to the team and the application of SWOT analysis. A final discussion/colloquium and a summation of the points obtained conclude the overall assessment. A minimum of 91 points is required for a final grade of A, a minimum of 81 points for a grade of B, a minimum of 73 points for a grade of C, a minimum of 66 points for a grade of D and a minimum of 60 points for a grade of E. Credit will not be awarded to students who obtain less than 15 points in any of the four written examinations. To pass the course, a minimum score of 60% is required. The grade is awarded on a scale: A (100-91%, excellent - outstanding performance, the student has a comprehensive knowledge of the possibilities of applying game principles to history education, has a broad knowledge in a specialised area of the discipline and has motivational tendencies to learn and popularise history through a variety of methods, strategies. He/she is oriented in the current state of knowledge of borderline disciplines, conceptually thinks about the creation of motivational challenges, can actively acquire information and creatively apply it in solving problems-solving tasks, actively expands his/her knowledge and critically reviews it and considers the suitability of its application for pedagogical and history practice),	

B (90-81%, very good - above average standard, the student is oriented in the issue, knows it, can independently acquire new knowledge, and solve professional tasks, but his critical, constructive thinking is borderline when analysing and assessing the planes of normative and reflective didactics),

C (80-73%, good - normal reliable work, although the student can orient himself in the problem, independently search and analyse information, can learn, but he cannot think critically and constructively enough, evaluate the solved problems, and apply the acquired knowledge creatively and conceptually in broader theoretical and practical contexts),

D (72-66%, satisfactory - acceptable results, the student is able to orientate himself in the problem at a basic level, his knowledge is fragmented and incomplete, and at a lower level of satisfaction, he also applies transferable knowledge of the field and related disciplines, he shows more severe deficiencies in the area of factual, conceptual, procedural and metacognitive knowledge),

E (65-60%, sufficient - the results meet the minimum criteria, the student is able to orient himself in the problem only with great difficulty, he knows only the most basic knowledge, he does not demonstrate the ability to think critically and does not apply the acquired knowledge in a systematic way to the solution of practical tasks),

Fx (59-0%, insufficient - extra work is required, the student is unable to navigate the problem, does not master the most basic knowledge, does not demonstrate the ability to argue and think critically)

Learning outcomes:

By completing the course, the student will gain theoretical and practical knowledge of modern history teaching and the equal status of its three functions (cognitive, educational, and deleterious). The student will be able to analyse the needs of contemporary school practice in an individual approach to pupils. He is also versed in the creation of teaching media and the process of critical assessment of educational materials and programmes.

Class syllabus:

We see informal history education as an increase in each student's capacity throughout their educational career. Emphasis is placed on the compatibility of knowledge, so that teacher education is academically challenging but consistently relevant to the individual's motivation and the education system's practical needs.

The course content focuses on the following focal themes:

- History itself and the subject of History from the perspective of pupil motivation. About the past for the future?
- The teacher as an essential element of motivation.
- Examples of motivational strategies.
- Motivational challenges. Types of topics for non-formal learning in school and out-of-school settings. Talent and creative representation of historical artefacts.
- Principles of creating attractive tasks.
- Is educational play a full-fledged teaching method and (historical) education?
- What kinds of games are recommended to be practised in primary and secondary school?
- What can we accomplish by dramatising a historical theme or by the LARP method? (Example scenario: What is the story of Libra?).
- Advantages of teamwork.
- Learning to debate (aspects of constructive discussion).
- History for the public (Public history), the work of the young historian at the stations.

COURSE DESCRIPTION

Academic year: 2023/2024	
University: Comenius University Bratislava	
Faculty: Faculty of Education	
Course ID: PdF.KPg/B-VUZde002/22	Course title: Digital technologies 1
Educational activities: Type of activities: seminar Number of hours: per week: 2 per level/semester: 26 Form of the course: on-site learning	
Number of credits: 3	
Recommended semester: 2., 4.	
Educational level: I.	
Prerequisites:	
Course requirements: Prerequisite subjects: none Prerequisites for successful completion of the course The course is completed by assessment, the weighting of the interim and final assessment is 100/0. # active participation in seminars conducted by both face-to-face and distance learning methods; # processing of partial (distance) deliverables/assignments according to the lecturer's assignment during the semester from the selected subject areas and their submission in electronic form within the set deadline, which are continuously checked and evaluated by the lecturer, constitutes 80% of the total achievable point value; Submission of partial assignments is a condition for the award of credits; # development of a semester project - at the end of the semester, the student develops through the cloud tool Prezi Present an original and visually impressive presentation of the educational content of the selected teaching subject at primary school / high school in the intent of the approbation subjects that the student is studying in the study programs of teaching at the Faculty of Education at Charles University; The structure of the presentation should be based on one of the templates from the library of customizable templates supported by Prezi Present; Personal presentation of the created project in Prezi in front of the whole study group; Successful implementation and defense of the project constitutes 20% of the total achievable point value and is a condition for the award of credits. The rating is awarded on a scale: A (100-91%, excellent - outstanding results), B (90-81%, very good - above average standard), C (80-73%, well - normal reliable work), D (72-66%, satisfactory - acceptable results), E (65-60%, sufficient - results meet minimum criteria), Fx (59-0%, insufficient - extra work required) For successful completion of the educational subject it is necessary to obtain at least 60 % of the score. A minimum of 91 points is required for a final grade of A. For this grade, the student should demonstrate: a creative and original approach in the development of intermediate assignments,	

excellent professional knowledge and its application in problem solving, excellent orientation in the subject matter, excellent communication skills, responsibility and timely completion of assignments, exceptional activity in the classroom during the semester.

A score of at least 81 points is required for a final grade of B. For this grade, the student should demonstrate: a creative approach in developing ongoing assignments using a model, above average expertise and application of that expertise in problem solving using tutorials, above average orientation to the problem, above average communication skills, responsibility and timely completion of assignments, above average activity in class during the semester.

A minimum of 73 points is required for a final grade of C. For this grade, the student should demonstrate: the ability to develop intermediate assignments using the given template, good professional knowledge and its application in solving problem problems in a group or with the help of the instructor, good orientation in the subject matter, good communication skills, completion of the assigned tasks, average activity in class during the semester when prompted by the instructor.

A minimum of 66 points is required for a final grade of D. For this grade, the student is expected to demonstrate: the ability to develop intermediate assignments using the assigned template and with the assistance of the instructor, average proficiency and application in problem solving in a group setting or with the assistance of the instructor, average orientation to the subject matter, average communication skills, completion of assignments, and basic activity in the classroom during the semester in collaboration with the instructor or other students.

A score of at least 60 points is required for a final grade of E. For this assessment, the student should demonstrate: the ability to produce continuous assignments and with the help of the instructor, basic/minimal professional knowledge, basic/minimal orientation to the subject matter, basic communication skills, completion of assigned tasks.

Scale of assessment (preliminary/final): 100/0

Learning outcomes:

Learning outcomes and transferable competences:

The aim of the educational discipline Digital Technologies 1 is to develop digital skills of students of teacher-oriented study programmes at the Faculty of Education of the Charles University (hereinafter referred to as the Faculty of Education of the Charles University) to be able to effectively use an appropriate range of didactic software applications in the context of the concept of design and creation of interactive educational activities, knowledge quizzes and assignments, electronic portfolios, impressive didactic presentations, new interactive forms of teaching material and other pedagogical/school documentation usable in the intent of their future teaching profession at different levels of regional education in the Slovak Republic.

By completing the educational discipline Digital Technologies 1, the student has the competences and digital skills to effectively use the tools of the SMART Notebook software application and the SMART Lumio cloud environment by creating gamification educational/quiz activities, engaging presentations of educational content and new interactive forms of learning material supporting the activation and attention of students participating in the lesson in the school classroom or in home conditions in the case of distance/hybrid education.

By completing the educational discipline, the student also has the competences and digital skills in the field of design and creation of mind maps through the tools of the Mindomo software application (or FreeMind, XMind) applicable in educational activities implemented in schools and educational institutions for the target group of intact pupils, as well as pupils with special educational needs in order to improve their communication skills and critical thinking.

By completing the educational discipline Digital Technologies 1, the student acquires professional digital competencies in the concept of design and creation of impressive non-linear presentations and interactive presentations of educational content implemented through the Prezi Present cloud

platform Prezi by expressing their own visual ideas usable in their own pedagogical activities in schools or educational institutions.

By completing the educational discipline Digital Technologies 1, the student has, last but not least, the competences and digital skills to effectively use the cloud platform Microsoft 365 with an emphasis on software applications Sway, Word and Excel by creating supplementary teaching materials for the needs of school teaching and maintaining the relevant pedagogical documentation. The student masters the basic possibilities of using the online communication platform Microsoft Teams applicable in the implementation of distance learning at the level of regional education

Class syllabus:

The content of the educational discipline Digital Technologies 1 is divided into four thematic headings and relevant sub-topics in order to ensure the achievement of the set partial educational objectives. The content structure of the educational discipline is designed so that the student continuously develops his didactic-technological competences in the field of selected didactic software applications by completing the educational topics organized in the present and distance form and at the same time strengthens his professional training in the subject area.

Due to the rapid development of new didactic software usable in the pedagogical process, the specific content structure of the discipline can be adapted to the current requirements of practice and students.

Application of SMART Notebook software application and SMART Lumio cloud environment in the educational process

We develop professional digital competences by the ability to effectively use the tools of the SMART Notebook desktop application and the SMART Lumio cloud environment through the creation of gamification educational/quiz activities, engaging presentations of educational content and new interactive forms of learning material supporting the activation and attention of pupils (including pupils with special educational needs) participating in the lesson in the school classroom or in the home environment in the case of distance/hybrid education;

We acquire digital skills in working with the SMART response 2 tool supported by the SMART Notebook desktop application and the SMART Lumio cloud environment in the context of creating knowledge questions - selecting one correct answer from multiple answer alternatives, selecting multiple correct answers from multiple answer alternatives, selecting Yes/No answers, free-form questions - in test sessions designed to test the knowledge of pupils of regional education in the Slovak Republic;

We are mastering the methodology of applying knowledge tests communicated to students through SMART response 2 in the SMART Notebook desktop application and gamification activities supported by the cloud environment SMART Lumio to the process of school teaching of subjects at the lower/upper secondary level of education;

We strengthen professional digital competences in the area of working with complex interactive solutions usable in educational situations with an emphasis on the SMART Board interactive whiteboard.

Topics:

Basic functions and calibration of the SMART Board interactive touchscreen/tablet; Symptoms, causes and solutions to some of the problems encountered when using the SMART Board interactive touchscreen/tablet; Installing and updating the SMART Notebook desktop application; Creating a teacher's virtual classroom in the SMART platform;

Creating and editing objects in the SMART Notebook environment; Using basic tools to support the presentation of processed content; Working with multimedia content from the SMART Gallery; Sharing your own content on the SMART Exchange website; Adding links to external educational resources; Adding sound to objects, Animating objects; Using and sharing your own content; Applying graphic content from other software applications - importing and editing objects;

Applying objects from the Lesson Activity Toolkit 2.0; Creating gamification activities in SMART Lab; SMART Response 2 - creating and administering knowledge tests/quizzes;

Principles of Gamification; Gamification Elements in Educational Content; Some Results of Exact Studies on the Application of Gamification in Education; Application of Gamification in Education in Primary and Secondary Schools; Examples of Gamification Activities Used in the Teaching of Science, Social Studies, Art, Education and Vocational Education.

Teacher/student login to SMART Lumio cloud platform account; Managing the library of learning activities; Creating gamification activities in SMART Lumio - SMART Lesson Activity Builder (Lab); Editing activities in edit mode; Making activities available to students - delivery mode; Sharing options for gamification activities;

Setting up and converting a lesson page to a Handout or Workspace activity; Working with predefined graphical activity templates for use in activating student learning, inquiring about student knowledge, or reflecting; Sharing lessons with the created educational materials with students in SMART Lumio.

Within the distance assignment, the student will create a set of interactive learning/quiz activities and digital presentation material for the target group of learners with effective use of the widest possible range of tools, objects, pre-prepared templates, advanced functions, settings and features supported by the SMART Notebook authoring environment in a range of at least 10 presentation pages/activities. In the accompanying document (a separate file of *.docx format) to the created presentation materials and educational activities stored in *.notebook format, the student shall indicate the methodology of their inclusion in the educational activities of the target group of pupils.

Within the distance assignment, the student will create a set of 10 gamification educational/quiz activities for the target group of students with effective use of pre-made templates and tools of the SMART Lumio cloud environment. The condition is that each type of gamification activity should only occur once in the created set of activities. In the accompanying document (a separate file of *.docx format) to the created gamification educational/quiz activities saved by the student, the student shall indicate the methodology of their application in the educational activities of the target group of pupils.

As part of the distance learning assignment, the student will create a 3-page set of pre-prepared content convertible to Handout format activities and a 3-page set of pre-prepared content convertible to Workspace format activities. In the accompanying document (a separate *.docx file) for the created Handout and Workspace activities stored in the SMART Lumio cloud, the student will indicate the methodology of their application to the educational activities of the target group of students.

Creating and using mind maps in the educational process with the support of digital solutions

We develop professional digital competences by competence in the design and creation of mind maps through the tools of the software application Mindomo (or FreeMind/XMind), usable in our own educational activities implemented in schools and school facilities for the target group of intact pupils, as well as pupils with special educational needs in order to improve communication skills and critical thinking;

We are mastering the methodology of applying mind maps communicated to students through Mindomo (or FreeMind/XMind) to the process of school teaching of the subjects of their approbation at primary school / high school;

Topics:

Explanation of terminology in the field of mind/concept mapping; Desktop/cloud software applications for creating mind maps in the educational process at primary/ secondary schools; Functions and types of mind maps; Principles and principles of creating mind maps; Possibilities of using mind maps in the process of preparation for teaching and directly in the classroom;

Familiarization with the user environment of the Mindomo software application (or FreeMind/XMind);

Structuring a mind map; Inserting, editing and formatting nodes; Creating and formatting branches; Encrypted node; Editing multi-line nodes; Creating image nodes; Moving/copying nodes and groups of nodes in the map; Inserting annotations to nodes; Linking nodes with local links - independent linking of ideas; Hypertext linking of nodes to external information sources - links in nodes leading to external sources (web) or to local files on the local disk of the computer; Importing content into the mind map; Exporting the map to the output of different formats; Text search in the subnetwork of the current node; Mind maps and their use when working with pupils with SEN.

As part of the distance assignment, the student will design and create one mind map from any thematic area of school subject teaching in primary/elementary school. The focus of the mind map should be situated in a teaching issue of the student's own choice falling within the educational content of the teaching subject at primary school/SHS in the intent of the approbation subjects that the student studies in the teacher education programmes at the Faculty of Education at the Charles University. In the mind map, tools and functions of the Mindomo (or FreeMind/XMind) application environment will be applied in the intent of the complexity of the explained issue. The student will justify in a brief written form the choice of the processed content/topic in the form of a mind map, their functionality and use in his/her educational activities.

Creation of non-linear presentations of educational content through the Prezi presentation platform supporting teacher's interpretation and systematization of students' knowledge

We acquire professional digital competencies in the concept of design and creation of impressive non-linear presentations of educational content realized through the Prezi Present cloud platform Prezi applicable to our own pedagogical activities;

We are mastering the methodology of applying the presentation of educational content communicated to pupils through Prezi Present to the process of school teaching of subjects of their approbation at primary school / high school;

Topics:

Introduction of the software tool Prezi Present as a presentation platform - creation of trendy, effective presentations; Explanation and clarification of the terms used in the field of creating didactic presentations in the environment of Prezi Present; Possibilities of using the presentation application Prezi Present in the preparation and creation of supporting educational materials effectively usable in the teaching of their own subject; Presentation of examples of presentations used in teaching science, social science, art-educational and vocational educational disciplines; Illustrative comparison of differences between classical (Microsoft PowerPoint) and dynamic (Prezi Present) presentations;

Theoretical background of presentation preparation and the system of selection of presented information; Basic steps of the procedure for creating didactic presentations in Prezi Present; Functionality of the online presentation tool Prezi Present; Creating dynamic presentations in Prezi Present - working with text and graphic objects; Creating topic/subtopic structures, changing the order of topics/subtopics, Creating depth and rotation effects; Inserting additional graphic visuals into a presentation in Prezi Present; Working in edit mode for main topics, subtopics and other presentation content; Creating visual effects and animations of presentation objects;

Use of templates - change the design - colors, background, fonts; Inserting audio tracks on the background of individual topics/subtopics, the whole presentation; 3D presentations; Importing and editing PowerPoint presentations in Prezi Present; Sharing presentations with other users, sharing on social networks, on web portals; Exporting presentations to *.pdf and Portable Prezi (for off-line presentation); Export options and presentation size; Working with Prezi Present in off-line mode.

Within the distance assignment, the student will use the Prezi Present presentation tool to create an original didactic and visually engaging presentation of the educational content for the target group

of students. The focus of the presentation should be situated in a teaching issue of the student's own choice falling within the educational content of the teaching subject at the primary school / secondary school in the intent of the approbation subjects that the student is studying in the study programmes of teaching at the Faculty of Education of the Charles University. The presentation will be at least 30 presentation views (= topics at the highest hierarchical level, subtopics at lower hierarchical levels and stack structure pages) to a minimum hierarchical nesting depth of three.

Use of Microsoft 365 platform in teacher's pedagogical activity

We develop professional digital competencies in the concept of design and creation of responsive presentations with educational content and emphasis on the cloud solution Microsoft Sway usable in educational activities implemented in schools or school facilities;

We are mastering the methodology of applying the presentation of educational content communicated to pupils through Microsoft Sway to the process of school teaching of subjects of their approbation at primary school / secondary school;

We hone professional digital skills to include the ability to effectively use a range of form content controls and ActiveX elements of Microsoft Word in the creation of interactive worksheets, tests and supplementary learning materials for pupils or other classroom agenda documents usable in the context of pedagogical activity;

We are mastering the methodology of applying interactive worksheets communicated to pupils through Microsoft Word to the process of school teaching of subjects of their area of specialization at primary school / high school;

Develop professional digital skills in the creation of large documents (such as letters, invitations, labels) through a mass correspondence tool usable in the maintenance of relevant pedagogical documentation;

We develop professional digital skills in the creation of statistical calculations, compound expressions using functions for finding conditional frequency, sum, or arithmetic mean and techniques for addressing continuous and discontinuous areas in expressions/functions usable in the tabular processing of classroom data (student evaluations in knowledge or sports activities) supported by Microsoft Excel;

We hone professional competencies to include the ability to effectively apply advanced conditions and techniques for conditional formatting of table records using functions;

We extend digital skills to include the ability to effectively apply an advanced filtering tool to large tabular data by defining compound logical conditions (AND/OR), wildcards (*, ?), and a Subtotal function usable in maintaining appropriate pedagogical documentation;

Develop professional digital skills in creating cumulative graphical visualizations of tabulated data in the context of changing attributes of individual chart elements;

We apply other selected tools of the Microsoft 365 cloud platform, with an emphasis on the Microsoft Teams software application for teachers to use in conducting online learning activities.

Topics:

A basic theoretical introduction to Microsoft cloud solutions;

Sway presentation platform - creation of interactive school materials (portfolios), impressive presentations of educational content; Other possibilities of practical use of Microsoft Sway in educational activities; Concept of creating multimedia responsive presentations; Creating a new Sway, creating a Sway by importing an existing file/presentation, creating a Sway based on a template; Articulating presentation content; Options for inserting and formatting supported visuals via tabs; Grouping multimedia content; Influencing the appearance of a presentation; Changing the layout of content; Adapting specific elements to the style of a presentation; Exporting a presentation in *.pdf/*.docx; Additional options for setting up the presentation in Sway; Share Sway output from a personal Microsoft account; Share Sway output from an account assigned by the educational organization;

Editing large text documents in the Microsoft Word environment - standard settings; Using tabs; Text blocks; Columns; Objects in text - equation editor; Tables in text; Editing a document using a style; Creating your own style and editing an existing style. Document Revision. Definition of the terms section and reference and possibilities of their use; Document revision and its use in writing term papers and qualification papers; Document structuring - dividing a document into sections, types of section breaks, page settings in sections, creating a header and footer in a document divided into sections; Possibilities of using a structured document within the agenda of a teaching staff member; Creating references - automatic content creation, content setup, content formatting, numbering figures and tables, creating a list of tables and figures, footnotes and endnotes, cross-references, citations and list of references used, creating a document index; Creating templates - the importance of a template type document. Electronic forms - what are form elements and what is their difference from ActiveX elements, settings of form elements, ActiveX element and its settings, Form security; Application of the acquired experience and skills of working with Microsoft Word text editor in creating documents useful in own pedagogical activities; Creation of large documents - letters, invitations, labels - by means of the tool of mass correspondence useful in the framework of keeping the relevant pedagogical documentation.

Working with tabular data in Microsoft Excel; Inserting data into cells; Predefined and custom data format; Working with cells - moving, cutting, copying; Bulk filling of data and creating expressions/patterns; Applying elementary functions; Modifying function parameters; Modifying table appearance; Sorting tabular data; Data lists - creating custom lists; Increasing values. Rounding; Absolute and relative cell addressing; Hiding table values; Notes in cells; Working with large data - automatic and extended data filter, Subtotal function; Operations between sheets; Conditional formatting of table data; More advanced functions - If, Count, CountIf, SumIf, SumIfS, AverageIfS; Contingency table; Search functions; Creating forms.

We get familiar with the Microsoft Teams online communication platform environment; Creating teams; Creating a pure team in MS Teams; Creating teams from an existing team and basic team customization; Creating a team from an Office 365 Group; Setting up and managing teams; Managing team members; Managing teams in bulk; Guest in a Team Class; Invitation from MS Teams; Channels; Cards; Creating your first online lesson; Creating a link to a lesson; Connecting students to an online lesson; Running a lesson with MS Teams; Preparing a lesson outline; Presenting in MS Teams; Tools available during the implementation of an online lesson on the student's/teacher's side (e.g. Conversation panel; Reporting for a word; Downloading a list of participants, etc.); Course notes - notepad; Uploading files with educational content; Creating a shared file for pupils/students in the virtual classroom; Creating a quiz; Quiz evaluation, Quiz setup. Within the distance task, the student will design and create a document in the form of an electronic workbook in Microsoft Word using a template and applying content controls and ActiveX elements - text field, drop-down field, drop-down list, comma field, option button, command button - usable in the context of teaching subjects of his/her area of specialization at primary school / high school. Within the distance task, the student will create a table of fictitious evaluation of pupils in the framework of knowledge or sports activities implemented in schools or school facilities in the range of at least 20 rows and 10 columns, where the functions of the Microsoft Excel spreadsheet application will be used in the context of the complexity of the explained issue.

In a distance task, the student formats a table of fictitious assessment of pupils in knowledge/sport activities, applying various conditions and techniques of conditional formatting of the table entries in the intent of the difficulty of the explained problem.

In the distance task, the student will create three different graphical visualisations of the data from the table of the previous distance task, in which he/she has processed the assessments achieved in the knowledge/sport activities implemented in schools or school facilities. They will add to the

graphical visualisation the title of the graph, the axis names as well as other parameters of the graph as they wish in the context of the readability of the graph.

In the distance task, the student applies an extended filter to the table from the previous distance task to display the student's name and grade attained in the context of the knowledge/sport activities carried out in the school or school facilities and filters to another location within the same worksheet/workbook when defining specific filter conditions (e.g. grade attained below/above a set value, etc.). Within the framework of the distance task, the student will create through the Microsoft Sway application an original, dynamic and visually impressive presentation of the learning issue for the target group of pupils according to his/her own discretion in the intent of school teaching of the subjects of his/her apprenticeship at primary school/elementary school. The aim of the presentation to be realized by the student is to make it multimedia and at the same time attractive for the target group of pupils in terms of content. The scope of the presentation in Microsoft Sway must consist of at least 25 presentation views - cards with the subject content. To organize the presentation, the student should use its layout into sections, subsections and layers in order to increase the clarity of the presented topic for the student

COURSE DESCRIPTION

Academic year: 2023/2024	
University: Comenius University Bratislava	
Faculty: Faculty of Education	
Course ID: PdF.KPg/B-VUZde002/22	Course title: Digital technologies 1
Educational activities: Type of activities: seminar Number of hours: per week: 2 per level/semester: 26 Form of the course: on-site learning	
Number of credits: 3	
Recommended semester: 1., 3.	
Educational level: I.	
Prerequisites:	
Course requirements: Prerequisite subjects: none Prerequisites for successful completion of the course The course is completed by assessment, the weighting of the interim and final assessment is 100/0. # active participation in seminars conducted by both face-to-face and distance learning methods; # processing of partial (distance) deliverables/assignments according to the lecturer's assignment during the semester from the selected subject areas and their submission in electronic form within the set deadline, which are continuously checked and evaluated by the lecturer, constitutes 80% of the total achievable point value; Submission of partial assignments is a condition for the award of credits; # development of a semester project - at the end of the semester, the student develops through the cloud tool Prezi Present an original and visually impressive presentation of the educational content of the selected teaching subject at primary school / high school in the intent of the approbation subjects that the student is studying in the study programs of teaching at the Faculty of Education at Charles University; The structure of the presentation should be based on one of the templates from the library of customizable templates supported by Prezi Present; Personal presentation of the created project in Prezi in front of the whole study group; Successful implementation and defense of the project constitutes 20% of the total achievable point value and is a condition for the award of credits. The rating is awarded on a scale: A (100-91%, excellent - outstanding results), B (90-81%, very good - above average standard), C (80-73%, well - normal reliable work), D (72-66%, satisfactory - acceptable results), E (65-60%, sufficient - results meet minimum criteria), Fx (59-0%, insufficient - extra work required) For successful completion of the educational subject it is necessary to obtain at least 60 % of the score. A minimum of 91 points is required for a final grade of A. For this grade, the student should demonstrate: a creative and original approach in the development of intermediate assignments,	

excellent professional knowledge and its application in problem solving, excellent orientation in the subject matter, excellent communication skills, responsibility and timely completion of assignments, exceptional activity in the classroom during the semester.

A score of at least 81 points is required for a final grade of B. For this grade, the student should demonstrate: a creative approach in developing ongoing assignments using a model, above average expertise and application of that expertise in problem solving using tutorials, above average orientation to the problem, above average communication skills, responsibility and timely completion of assignments, above average activity in class during the semester.

A minimum of 73 points is required for a final grade of C. For this grade, the student should demonstrate: the ability to develop intermediate assignments using the given template, good professional knowledge and its application in solving problem problems in a group or with the help of the instructor, good orientation in the subject matter, good communication skills, completion of the assigned tasks, average activity in class during the semester when prompted by the instructor.

A minimum of 66 points is required for a final grade of D. For this grade, the student is expected to demonstrate: the ability to develop intermediate assignments using the assigned template and with the assistance of the instructor, average proficiency and application in problem solving in a group setting or with the assistance of the instructor, average orientation to the subject matter, average communication skills, completion of assignments, and basic activity in the classroom during the semester in collaboration with the instructor or other students.

A score of at least 60 points is required for a final grade of E. For this assessment, the student should demonstrate: the ability to produce continuous assignments and with the help of the instructor, basic/minimal professional knowledge, basic/minimal orientation to the subject matter, basic communication skills, completion of assigned tasks.

Scale of assessment (preliminary/final): 100/0

Learning outcomes:

Learning outcomes and transferable competences:

The aim of the educational discipline Digital Technologies 1 is to develop digital skills of students of teacher-oriented study programmes at the Faculty of Education of the Charles University (hereinafter referred to as the Faculty of Education of the Charles University) to be able to effectively use an appropriate range of didactic software applications in the context of the concept of design and creation of interactive educational activities, knowledge quizzes and assignments, electronic portfolios, impressive didactic presentations, new interactive forms of teaching material and other pedagogical/school documentation usable in the intent of their future teaching profession at different levels of regional education in the Slovak Republic.

By completing the educational discipline Digital Technologies 1, the student has the competences and digital skills to effectively use the tools of the SMART Notebook software application and the SMART Lumio cloud environment by creating gamification educational/quiz activities, engaging presentations of educational content and new interactive forms of learning material supporting the activation and attention of students participating in the lesson in the school classroom or in home conditions in the case of distance/hybrid education.

By completing the educational discipline, the student also has the competences and digital skills in the field of design and creation of mind maps through the tools of the Mindomo software application (or FreeMind, XMind) applicable in educational activities implemented in schools and educational institutions for the target group of intact pupils, as well as pupils with special educational needs in order to improve their communication skills and critical thinking.

By completing the educational discipline Digital Technologies 1, the student acquires professional digital competencies in the concept of design and creation of impressive non-linear presentations and interactive presentations of educational content implemented through the Prezi Present cloud

platform Prezi by expressing their own visual ideas usable in their own pedagogical activities in schools or educational institutions.

By completing the educational discipline Digital Technologies 1, the student has, last but not least, the competences and digital skills to effectively use the cloud platform Microsoft 365 with an emphasis on software applications Sway, Word and Excel by creating supplementary teaching materials for the needs of school teaching and maintaining the relevant pedagogical documentation. The student masters the basic possibilities of using the online communication platform Microsoft Teams applicable in the implementation of distance learning at the level of regional education

Class syllabus:

The content of the educational discipline Digital Technologies 1 is divided into four thematic headings and relevant sub-topics in order to ensure the achievement of the set partial educational objectives. The content structure of the educational discipline is designed so that the student continuously develops his didactic-technological competences in the field of selected didactic software applications by completing the educational topics organized in the present and distance form and at the same time strengthens his professional training in the subject area.

Due to the rapid development of new didactic software usable in the pedagogical process, the specific content structure of the discipline can be adapted to the current requirements of practice and students.

Application of SMART Notebook software application and SMART Lumio cloud environment in the educational process

We develop professional digital competences by the ability to effectively use the tools of the SMART Notebook desktop application and the SMART Lumio cloud environment through the creation of gamification educational/quiz activities, engaging presentations of educational content and new interactive forms of learning material supporting the activation and attention of pupils (including pupils with special educational needs) participating in the lesson in the school classroom or in the home environment in the case of distance/hybrid education;

We acquire digital skills in working with the SMART response 2 tool supported by the SMART Notebook desktop application and the SMART Lumio cloud environment in the context of creating knowledge questions - selecting one correct answer from multiple answer alternatives, selecting multiple correct answers from multiple answer alternatives, selecting Yes/No answers, free-form questions - in test sessions designed to test the knowledge of pupils of regional education in the Slovak Republic;

We are mastering the methodology of applying knowledge tests communicated to students through SMART response 2 in the SMART Notebook desktop application and gamification activities supported by the cloud environment SMART Lumio to the process of school teaching of subjects at the lower/upper secondary level of education;

We strengthen professional digital competences in the area of working with complex interactive solutions usable in educational situations with an emphasis on the SMART Board interactive whiteboard.

Topics:

Basic functions and calibration of the SMART Board interactive touchscreen/tablet; Symptoms, causes and solutions to some of the problems encountered when using the SMART Board interactive touchscreen/tablet; Installing and updating the SMART Notebook desktop application; Creating a teacher's virtual classroom in the SMART platform;

Creating and editing objects in the SMART Notebook environment; Using basic tools to support the presentation of processed content; Working with multimedia content from the SMART Gallery; Sharing your own content on the SMART Exchange website; Adding links to external educational resources; Adding sound to objects, Animating objects; Using and sharing your own content; Applying graphic content from other software applications - importing and editing objects;

Applying objects from the Lesson Activity Toolkit 2.0; Creating gamification activities in SMART Lab; SMART Response 2 - creating and administering knowledge tests/quizzes;

Principles of Gamification; Gamification Elements in Educational Content; Some Results of Exact Studies on the Application of Gamification in Education; Application of Gamification in Education in Primary and Secondary Schools; Examples of Gamification Activities Used in the Teaching of Science, Social Studies, Art, Education and Vocational Education.

Teacher/student login to SMART Lumio cloud platform account; Managing the library of learning activities; Creating gamification activities in SMART Lumio - SMART Lesson Activity Builder (Lab); Editing activities in edit mode; Making activities available to students - delivery mode; Sharing options for gamification activities;

Setting up and converting a lesson page to a Handout or Workspace activity; Working with predefined graphical activity templates for use in activating student learning, inquiring about student knowledge, or reflecting; Sharing lessons with the created educational materials with students in SMART Lumio.

Within the distance assignment, the student will create a set of interactive learning/quiz activities and digital presentation material for the target group of learners with effective use of the widest possible range of tools, objects, pre-prepared templates, advanced functions, settings and features supported by the SMART Notebook authoring environment in a range of at least 10 presentation pages/activities. In the accompanying document (a separate file of *.docx format) to the created presentation materials and educational activities stored in *.notebook format, the student shall indicate the methodology of their inclusion in the educational activities of the target group of pupils.

Within the distance assignment, the student will create a set of 10 gamification educational/quiz activities for the target group of students with effective use of pre-made templates and tools of the SMART Lumio cloud environment. The condition is that each type of gamification activity should only occur once in the created set of activities. In the accompanying document (a separate file of *.docx format) to the created gamification educational/quiz activities saved by the student, the student shall indicate the methodology of their application in the educational activities of the target group of pupils.

As part of the distance learning assignment, the student will create a 3-page set of pre-prepared content convertible to Handout format activities and a 3-page set of pre-prepared content convertible to Workspace format activities. In the accompanying document (a separate *.docx file) for the created Handout and Workspace activities stored in the SMART Lumio cloud, the student will indicate the methodology of their application to the educational activities of the target group of students.

Creating and using mind maps in the educational process with the support of digital solutions

We develop professional digital competences by competence in the design and creation of mind maps through the tools of the software application Mindomo (or FreeMind/XMind), usable in our own educational activities implemented in schools and school facilities for the target group of intact pupils, as well as pupils with special educational needs in order to improve communication skills and critical thinking;

We are mastering the methodology of applying mind maps communicated to students through Mindomo (or FreeMind/XMind) to the process of school teaching of the subjects of their approbation at primary school / high school;

Topics:

Explanation of terminology in the field of mind/concept mapping; Desktop/cloud software applications for creating mind maps in the educational process at primary/ secondary schools; Functions and types of mind maps; Principles and principles of creating mind maps; Possibilities of using mind maps in the process of preparation for teaching and directly in the classroom;

Familiarization with the user environment of the Mindomo software application (or FreeMind/XMind);

Structuring a mind map; Inserting, editing and formatting nodes; Creating and formatting branches; Encrypted node; Editing multi-line nodes; Creating image nodes; Moving/copying nodes and groups of nodes in the map; Inserting annotations to nodes; Linking nodes with local links - independent linking of ideas; Hypertext linking of nodes to external information sources - links in nodes leading to external sources (web) or to local files on the local disk of the computer; Importing content into the mind map; Exporting the map to the output of different formats; Text search in the subnetwork of the current node; Mind maps and their use when working with pupils with SEN.

As part of the distance assignment, the student will design and create one mind map from any thematic area of school subject teaching in primary/elementary school. The focus of the mind map should be situated in a teaching issue of the student's own choice falling within the educational content of the teaching subject at primary school/SHS in the intent of the approbation subjects that the student studies in the teacher education programmes at the Faculty of Education at the Charles University. In the mind map, tools and functions of the Mindomo (or FreeMind/XMind) application environment will be applied in the intent of the complexity of the explained issue. The student will justify in a brief written form the choice of the processed content/topic in the form of a mind map, their functionality and use in his/her educational activities.

Creation of non-linear presentations of educational content through the Prezi presentation platform supporting teacher's interpretation and systematization of students' knowledge

We acquire professional digital competencies in the concept of design and creation of impressive non-linear presentations of educational content realized through the Prezi Present cloud platform Prezi applicable to our own pedagogical activities;

We are mastering the methodology of applying the presentation of educational content communicated to pupils through Prezi Present to the process of school teaching of subjects of their approbation at primary school / high school;

Topics:

Introduction of the software tool Prezi Present as a presentation platform - creation of trendy, effective presentations; Explanation and clarification of the terms used in the field of creating didactic presentations in the environment of Prezi Present; Possibilities of using the presentation application Prezi Present in the preparation and creation of supporting educational materials effectively usable in the teaching of their own subject; Presentation of examples of presentations used in teaching science, social science, art-educational and vocational educational disciplines; Illustrative comparison of differences between classical (Microsoft PowerPoint) and dynamic (Prezi Present) presentations;

Theoretical background of presentation preparation and the system of selection of presented information; Basic steps of the procedure for creating didactic presentations in Prezi Present; Functionality of the online presentation tool Prezi Present; Creating dynamic presentations in Prezi Present - working with text and graphic objects; Creating topic/subtopic structures, changing the order of topics/subtopics, Creating depth and rotation effects; Inserting additional graphic visuals into a presentation in Prezi Present; Working in edit mode for main topics, subtopics and other presentation content; Creating visual effects and animations of presentation objects;

Use of templates - change the design - colors, background, fonts; Inserting audio tracks on the background of individual topics/subtopics, the whole presentation; 3D presentations; Importing and editing PowerPoint presentations in Prezi Present; Sharing presentations with other users, sharing on social networks, on web portals; Exporting presentations to *.pdf and Portable Prezi (for off-line presentation); Export options and presentation size; Working with Prezi Present in off-line mode.

Within the distance assignment, the student will use the Prezi Present presentation tool to create an original didactic and visually engaging presentation of the educational content for the target group

of students. The focus of the presentation should be situated in a teaching issue of the student's own choice falling within the educational content of the teaching subject at the primary school / secondary school in the intent of the approbation subjects that the student is studying in the study programmes of teaching at the Faculty of Education of the Charles University. The presentation will be at least 30 presentation views (= topics at the highest hierarchical level, subtopics at lower hierarchical levels and stack structure pages) to a minimum hierarchical nesting depth of three.

Use of Microsoft 365 platform in teacher's pedagogical activity

We develop professional digital competencies in the concept of design and creation of responsive presentations with educational content and emphasis on the cloud solution Microsoft Sway usable in educational activities implemented in schools or school facilities;

We are mastering the methodology of applying the presentation of educational content communicated to pupils through Microsoft Sway to the process of school teaching of subjects of their approbation at primary school / secondary school;

We are mastering the methodology of applying interactive worksheets communicated to pupils through Microsoft Word to the process of school teaching of subjects of their area of specialization at primary school / high school;

Develop professional digital skills in the creation of large documents (such as letters, invitations, labels) through a mass correspondence tool usable in the maintenance of relevant pedagogical documentation;

We develop professional digital skills in the creation of statistical calculations, compound expressions using functions for finding conditional frequency, sum, or arithmetic mean and techniques for addressing continuous and discontinuous areas in expressions/functions usable in the tabular processing of classroom data (student evaluations in knowledge or sports activities) supported by Microsoft Excel;

We hone professional competencies to include the ability to effectively apply advanced conditions and techniques for conditional formatting of table records using functions;

We extend digital skills to include the ability to effectively apply an advanced filtering tool to large tabular data by defining compound logical conditions (AND/OR), wildcards (*, ?), and a Subtotal function usable in maintaining appropriate pedagogical documentation;

Develop professional digital skills in creating cumulative graphical visualizations of tabulated data in the context of changing attributes of individual chart elements;

We apply other selected tools of the Microsoft 365 cloud platform, with an emphasis on the Microsoft Teams software application for teachers to use in conducting online learning activities.

Topics:

A basic theoretical introduction to Microsoft cloud solutions;

Sway presentation platform - creation of interactive school materials (portfolios), impressive presentations of educational content; Other possibilities of practical use of Microsoft Sway in educational activities; Concept of creating multimedia responsive presentations; Creating a new Sway, creating a Sway by importing an existing file/presentation, creating a Sway based on a template; Articulating presentation content; Options for inserting and formatting supported visuals via tabs; Grouping multimedia content; Influencing the appearance of a presentation; Changing the layout of content; Adapting specific elements to the style of a presentation; Exporting a presentation in *.pdf/*.docx; Additional options for setting up the presentation in Sway; Share Sway output from a personal Microsoft account; Share Sway output from an account assigned by the educational organization;

Editing large text documents in the Microsoft Word environment - standard settings; Using tabs; Text blocks; Columns; Objects in text - equation editor; Tables in text; Editing a document using a style; Creating your own style and editing an existing style. Document Revision. Definition of the terms section and reference and possibilities of their use; Document revision and its use in writing term papers and qualification papers; Document structuring - dividing a document into sections, types of section breaks, page settings in sections, creating a header and footer in a document divided into sections; Possibilities of using a structured document within the agenda of a teaching staff member; Creating references - automatic content creation, content setup, content formatting, numbering figures and tables, creating a list of tables and figures, footnotes and endnotes, cross-references, citations and list of references used, creating a document index; Creating templates - the importance of a template type document. Electronic forms - what are form elements and what is their difference from ActiveX elements, settings of form elements, ActiveX element and its settings, Form security; Application of the acquired experience and skills of working with Microsoft Word text editor in creating documents useful in own pedagogical activities; Creation of large documents - letters, invitations, labels - by means of the tool of mass correspondence useful in the framework of keeping the relevant pedagogical documentation.

Working with tabular data in Microsoft Excel; Inserting data into cells; Predefined and custom data format; Working with cells - moving, cutting, copying; Bulk filling of data and creating expressions/patterns; Applying elementary functions; Modifying function parameters; Modifying table appearance; Sorting tabular data; Data lists - creating custom lists; Increasing values. Rounding; Absolute and relative cell addressing; Hiding table values; Notes in cells; Working with large data - automatic and extended data filter, Subtotal function; Operations between sheets; Conditional formatting of table data; More advanced functions - If, Count, CountIf, SumIf, SumIfS, AverageIfS; Contingency table; Search functions; Creating forms.

We get familiar with the Microsoft Teams online communication platform environment; Creating teams; Creating a pure team in MS Teams; Creating teams from an existing team and basic team customization; Creating a team from an Office 365 Group; Setting up and managing teams; Managing team members; Managing teams in bulk; Guest in a Team Class; Invitation from MS Teams; Channels; Cards; Creating your first online lesson; Creating a link to a lesson; Connecting students to an online lesson; Running a lesson with MS Teams; Preparing a lesson outline; Presenting in MS Teams; Tools available during the implementation of an online lesson on the student's/teacher's side (e.g. Conversation panel; Reporting for a word; Downloading a list of participants, etc.); Course notes - notepad; Uploading files with educational content; Creating a shared file for pupils/students in the virtual classroom; Creating a quiz; Quiz evaluation, Quiz setup. Within the distance task, the student will design and create a document in the form of an electronic workbook in Microsoft Word using a template and applying content controls and ActiveX elements - text field, drop-down field, drop-down list, comma field, option button, command button - usable in the context of teaching subjects of his/her area of specialization at primary school / high school. Within the distance task, the student will create a table of fictitious evaluation of pupils in the framework of knowledge or sports activities implemented in schools or school facilities in the range of at least 20 rows and 10 columns, where the functions of the Microsoft Excel spreadsheet application will be used in the context of the complexity of the explained issue.

In a distance task, the student formats a table of fictitious assessment of pupils in knowledge/sport activities, applying various conditions and techniques of conditional formatting of the table entries in the intent of the difficulty of the explained problem.

In the distance task, the student will create three different graphical visualisations of the data from the table of the previous distance task, in which he/she has processed the assessments achieved in the knowledge/sport activities implemented in schools or school facilities. They will add to the

graphical visualisation the title of the graph, the axis names as well as other parameters of the graph as they wish in the context of the readability of the graph.

In the distance task, the student applies an extended filter to the table from the previous distance task to display the student's name and grade attained in the context of the knowledge/sport activities carried out in the school or school facilities and filters to another location within the same worksheet/workbook when defining specific filter conditions (e.g. grade attained below/above a set value, etc.). Within the framework of the distance task, the student will create through the Microsoft Sway application an original, dynamic and visually impressive presentation of the learning issue for the target group of pupils according to his/her own discretion in the intent of school teaching of the subjects of his/her apprenticeship at primary school/elementary school. The aim of the presentation to be realized by the student is to make it multimedia and at the same time attractive for the target group of pupils in terms of content. The scope of the presentation in Microsoft Sway must consist of at least 25 presentation views - cards with the subject content. To organize the presentation, the student should use its layout into sections, subsections and layers in order to increase the clarity of the presented topic for the student

COURSE DESCRIPTION

Academic year: 2023/2024	
University: Comenius University Bratislava	
Faculty: Faculty of Education	
Course ID: PdF.KPg/B-VUZde012/22	Course title: Digital technologies 2
Educational activities: Type of activities: seminar Number of hours: per week: 2 per level/semester: 26 Form of the course: on-site learning	
Number of credits: 3	
Recommended semester: 2., 4., 6.	
Educational level: I.	
Prerequisites: PdF.KPg/B-VUZde002/22 - Digital technologies 1	
Course requirements: Prerequisites: B-VUZde002 / Digital technologies 1 Prerequisites for successful completion of the course: The course is completed by assessment (100% of the interim assessment). # active participation in seminars conducted by both face-to-face and distance learning methods; # processing of partial (distance) deliverables/assignments according to the lecturer's assignment during the semester from the selected subject areas and their submission in electronic form within the set deadline, which are continuously checked and evaluated by the lecturer, constitutes 80% of the total achievable point value; Submission of partial assignments is a condition for the award of credits; # development of a semester project - at the end of the semester, the student develops through the cloud tool Prezi Video an original and visually impressive video presentation of the educational content of the selected teaching subject at primary school / secondary school in the context of the subjects that the student studies in the study programs of teaching at the Faculty of Education of Charles University; The structure of the video presentation should be based on the presentation created in the Prezi Present software application; Personal presentation of the created project in Prezi in front of the whole study group; Successful implementation and defence of the project constitutes 20% of the total achievable point value and is a condition for the award of credits. The rating shall be awarded on a scale of A (100-91%, excellent - outstanding results), B (90-81%, very good - above average standard), C (80-73%, well - normal reliable work), D (72-66%, satisfactory - acceptable results), E (65-60%, sufficient - results meet minimum criteria), Fx (59-0%, insufficient - extra work required) For successful completion of the educational subject it is necessary to obtain at least 60 % of the score. A minimum of 91 points is required for a final grade of A. For this grade, the student should demonstrate: a creative and original approach in the development of intermediate assignments, excellent professional knowledge and its application in problem solving, excellent orientation	

in the subject matter, excellent communication skills, responsibility and timely completion of assignments, exceptional activity in the classroom during the semester.

A score of at least 81 points is required for a final grade of B. For this grade, the student should demonstrate: a creative approach in developing ongoing assignments using a model, above average expertise and application of that expertise in problem solving using tutorials, above average orientation to the problem, above average communication skills, responsibility and timely completion of assignments, above average activity in class during the semester.

A minimum of 73 points is required for a final grade of C. For this grade, the student should demonstrate: the ability to develop intermediate assignments using the given template, good professional knowledge and its application in solving problem problems in a group or with the help of the instructor, good orientation in the subject matter, good communication skills, completion of the assigned tasks, average activity in class during the semester when prompted by the instructor.

A minimum of 66 points is required for a final grade of D. For this grade, the student is expected to demonstrate: the ability to develop intermediate assignments using the assigned template and with the assistance of the instructor, average proficiency and application in problem solving in a group setting or with the assistance of the instructor, average orientation to the subject matter, average communication skills, completion of assignments, and basic activity in the classroom during the semester in collaboration with the instructor or other students.

A score of at least 60 points is required for a final grade of E. For this assessment, the student should demonstrate: the ability to work through assignments and with the help of the instructor, basic/minimal professional knowledge, basic/minimal orientation to the subject matter, basic communication skills, and completion of assigned tasks.

Scale of assessment (preliminary/final): 70/30

Learning outcomes:

Learning outcomes and transferable competences:

The aim of the educational discipline Digital Technologies 2 is to develop digital skills in the field of work with selected software (desktop and cloud) didactic applications and to be able to apply them effectively in the context of their future teaching profession.

By completing the educational discipline Digital Technologies 2, the student has the competences and advanced digital skills to effectively use the tools of the software application ActivInspire and the cloud environment ClassFlow by creating gamification educational/quiz activities, engaging presentations of educational content and new interactive forms of learning material supporting the activation and attention of students participating in the lesson in the school classroom or in home conditions in the case of distance/hybrid education.

By completing the educational discipline Digital Technologies 2, the student acquires advanced professional digital competences in the concept of design and creation of interactive video presentations of educational content implemented through Prezi Present and Prezi Video cloud platform Prezi by expressing their own visual ideas usable in their own pedagogical activities in schools or educational institutions.

By completing the educational discipline, the student acquires competence and advanced digital skills in the concept of design, creation and administration of (gamification) quiz and educational activities and knowledge games with dynamic elements created through the cloud tool Socrative 2.0, Kahoot!, Wizer.me and Google Forms usable in own educational activities implemented in schools and school facilities for the target group of intact pupils as well as pupils with special educational needs.

By completing the educational discipline Digital Technologies 2, the student has, last but not least, competencies and advanced digital skills in the field of vector graphic creation in the environment of the cloud application Prezi Design in the implementation of the work activities of a pedagogical employee of regional education or his/her own professional development.

Class syllabus:

Brief outline of the course

The content of the educational discipline Digital Technologies 2 is divided into four thematic headings and relevant sub-topics in order to ensure the achievement of the set partial educational objectives. The content structure of the educational discipline is designed so that the student continuously develops his didactic-technological competences in the field of selected didactic software applications by completing the educational topics organized in the present and distance form and at the same time strengthens his professional training in the subject area. content structure of the discipline can be adapted to the current requirements of practice and students.

Application of ActivInspire software application and ClassFlow cloud environment in the educational process

We master the principle and methodology of working with selected (Promethean World Ltd) digital didactic resources designed to support interactive teaching of subjects of its approbation in primary and secondary schools;

We develop professional digital competences by the ability to effectively use the software tools of the ActivInspire desktop application and the ClassFlow cloud environment through the creation of gamification educational/quiz activities, engaging presentations of educational content and new interactive forms of learning material supporting the activation and attention of pupils (including pupils with special educational needs) participating in a lesson in the school classroom or in home conditions in the case of distance/hybrid education; In the context of the above activity, the trainee is also expected to learn the methodology for applying the activities developed in the school classroom;

We gain knowledge about desktop digital voting solutions and (trendy) cloud-based applications for creating knowledge tests/quizzes currently available on the market as an interactive didactic means of teaching, advantages and disadvantages of their deployment in the teaching process in the field of regional education;

We acquire digital skills in creating, editing and administering knowledge tests through voting sessions and supported by the ActivInspire software application and ActivExpression2 digital voting device to stimulate pupil activation and attention in the classroom; We use the ExpressPoll voting session; we use the question creation wizard to create test activities in the teacher stimulation; we implement the work with the question set wizard for processing at the pupil's own pace (voting session in the pupil stimulation) in the teaching of the subjects of his/her apprenticeship;

We are mastering the methodology of applying the knowledge tests communicated to pupils through the ActivInspire application and the ActivExpression2 digital voting device to the process of school teaching of the subjects of their approbation in primary/ secondary schools;

Develop skills in statistically processing the results of whole group voting activities into the ActivInspire demonstration workbook, as well as exporting them to Microsoft Excel;

We strengthen professional digital competences in the area of working with complex interactive solutions usable in educational situations with an emphasis on the ActivBoard interactive whiteboard.

Topics:

Design of demonstration workbooks - options for setting up and customizing the ActivInspire work environment; Main toolbar - demonstration for familiarizing yourself with the most commonly used tools - ideas for their use in the creation of interactive educational content; Annotation mode on the desktop; Browsers in ActivInspire; Export/Import (*.flipchart) of demonstration workbooks; Teacher-student collaboration on the whiteboard - dual user mode;

Adding additional graphical content to the ActivInspire demonstration workbook; Importing and exporting asset packages; Defining object properties; Using layers and layering: Blind Map, Magic Tunnel, Magic Ink - ideas for using them when designing educational activities aimed at the target

group of students; Adding and removing links to linked external files/internet resources; Creating and using grid features when designing educational activities; Creating interactive demonstration workbooks - creating containers; Working with actions; Suggestions for their use of selected actions in the creation of interactive materials usable in the educational process; Benefits of using profiles; Annotating the desktop; Using desktop tools; Working in dual user mode; Using mathematical and design tools; Demonstrations of the use of mathematical and design tools in the creation of interactive materials usable in the educational process;

We extend professional digital competencies with the ability to effectively apply gamification educational activities through predefined templates - Sorting into categories, Crossword, Learning Cards, Assigning and Sorting items and other templates supported by the cloud-based ClassFlow application;

Current trends in the application of digital voting solutions for education; Technological principle of digital voting systems; Possibilities of using digital voting systems in school teaching in primary schools / elementary schools ; Methodology of working with digital voting systems; Digital voting solutions - effective support of group cooperation in classrooms stimulating the learning process;

We use the ActivExpression2 digital voting system in the classroom; Components of an intelligent digital voting solution; Registration of ActivExpression2 voting devices in ActivInspire; Voting Browser; Types of voting sessions and test questions supported by the ActivInspire software application and ActivExpression2 voting device; Working with voting session results in ActivInspire - viewing results in different formats; Exporting results from ExpressPoll from prepared questions and from a set of self-paced questions to Microsoft Excel; Suggestions for educational activities and games using ActivExpression2 voting devices to promote student activation and attention in the classroom.

Within the framework of the distance assignment, the student in the ActivInspire environment will develop a set of engaging learning activities, knowledge games, engaging presentations of educational content as new interactive forms of learning material supporting the activation and attention of students in the classroom. In conceptualising the design and development of the task, the learner will make use of as wide a range of available tools, functions, actions and features as possible. Within a developed demonstration workbook of at least 6 pages, the student will be expected to primarily use the container activity, magic ink, magic tunnel, set actions and constraints on objects, and apply the presentation tools of the ActivInspire environment. In the accompanying document (a separate file of *.docx format) to the created presentation materials and educational activities stored in *.flipchart format, the student will indicate the methodology of their inclusion in the educational activities of the target group of pupils.

Within the distance assignment, the student will create a set of 10 gamification educational activities for the target group of students with the effective use of pre-prepared templates and tools of the ClassFlow cloud environment. In the accompanying document (a separate file of *.docx format) to the created gamification activities, the student will include the methodology of their integration into the educational activities of the target group of pupils.

Within the framework of the distance task, the student will create, through the ClassFlow cloud environment, a test activity conceived from 20 test questions of supported types with the potential possibility of its use in the teaching of the subjects of his/her apprenticeship to pupils at primary school / secondary school.

We create video presentations of educational content through the cloud application Prezi Video

We develop professional digital competencies in the design and creation of compelling non-linear video presentations of educational content realized through Prezi Present and Prezi Video cloud platform Prezi by expressing visual ideas applicable to our own pedagogical activities;

We are mastering the methodology of applying video presentation of educational content communicated to pupils through Prezi Video to the process of school teaching of subjects of its approbation at primary school / high school;

We innovate didactic approaches to educational activities implemented in schools or educational institutions through immersive non-linear video presentations created in the cloud platform Prezi.

Topics:

We create a video presentation in the Prezi Video online editor environment from scratch using the Quick record tool - selecting a suitable template, inserting text content and other graphic visuals; supplementing the video presentation with a recording of your own image and sound;

We create a video presentation in the Prezi Video online editor environment by offering reusable videos recorded by other Prezi Video users;

Creating a video presentation based on a Prezi Present; Adding an accompanying commentary; Adding a video with accompanying commentary.

Within the distance assignment, the student will create an original didactic and visually engaging video presentation of educational content of his/her choice for the target group of pupils, using the Prezi cloud platform (Prezi Present and Prezi Video), in a range of at least 20 presentation views, usable in teaching the subjects of his/her specialisation at primary school/junior high school.

We use selected Web 2.0 software tools to obtain feedback from students participating in the school teaching process, in the case of students enrolled in distance (online) learning;

We are expanding the knowledge framework in the field of application of gamification (game-based learning) as one of the innovative and activating methods applied in the educational process at the primary school level;

We are expanding digital skills to include the ability to effectively use Socrative 2.0, a cloud-based application designed to create and manage knowledge/quiz activities in order to get immediate feedback from students participating in a lesson in the classroom or at home in the case of distance/hybrid learning;

We are mastering the methodology of applying knowledge/quiz activities communicated to students through Socrative 2.0 to the process of school teaching of subjects of their area of interest in primary schools;

We extend professional digital competences with the ability to create gamification quiz activities and knowledge games through the online platform Kahoot! into the school learning process in a fun and playful way - transforming traditional knowledge testing through quizzes in an activating form using digital means;

We acquire competencies in the application of the application methodology, in the Kahoot! author-prepared, gamified educational and quiz activities to the process of school teaching of subjects of their approbation in primary school / secondary school;

We develop digital competences by the ability to effectively use the cloud tool Wizer.me for creating multimedia online worksheets with educational content for the target group of primary school pupils;

We are mastering the methodology of applying the processed digital graphic outputs of educational content communicated to students through the cloud tool Wizer.me to the process of school teaching of subjects of their approbation in primary school / secondary school;

We master the principle and methodology of working with the cloud application Google Forms designed for the creation of online knowledge tests and research tools usable in the context of pedagogical activities;

Topics:

Socrative.com - a web-based tool for online testing of student knowledge; Free registration vs. benefits of paid registration for teachers; Creating a teacher/student account; Test administration panel in Socrative 2.0 - Creating a new test - question types for creating your own tests - multiple

choice, yes/no and short open answer; Managing teacher-created tests; Creating a copy of a test - a variant for a parallel group with slightly different questions; Deleting a test; Downloading a test to a document in *.pdf; Editing the created test; Importing a test from another teacher - sharing tests between teachers; Access to the results of all (already) completed tests; Modes of making the test available to pupils - immediate feedback: Instant Feedback; Teacher-controlled test; Selecting the ways of displaying the results; Defining the appearance of the test results - a general overview of all pupils with statistics of pupil's success and questions; Separate *.Separate pdf files for each pupil; Success statistics for each test question; Practical examples of administered tests in the Socrative 2.0 environment for different educational disciplines and learning topics;

For the sake of brevity, the thematic focus of Kahoot! is analogous in content to the Socrative 2.0 application;

Cloud Computing; Google Drive; Viewing Google Docs options; Description of the Google Forms environment - Questions tab; Creating a form; Editing the appearance of the form; Setting up the form as a quiz; Evaluating the data obtained from the form administration - Answers tab; Sending the form to respondents; Setting up Google Form sharing - in Google Drive and in the Google Forms editor; Setting up Google Form sharing for a user with an un-created Google account. As part of the distance task, the student will create a knowledge test with ten multiple choice questions, ten yes/no questions and ten short free-form questions using the online software application Socrative. The focus of the knowledge test should be situated in a curricular issue of the student's choice falling within the educational content of the subject taught at primary/ secondary school, in the context of the subjects of interest that the student is studying in the teacher education programmes at PdF UK. The knowledge test defined in this way will be implemented by the student among his/her classmates in his/her educational group. As part of the distance assignment, the student will create a software application Kahoot! test activity made up of 20 knowledge questions of supported types. The focus of the test activity should be situated in a teaching issue of his/her own choice falling within the educational content of the teaching subject at primary school / high school in the intent of the approbation subjects that the student studies in the study programs of teaching at the Faculty of Education of the Charles University. The test activity defined in this way will be implemented by the student among the classmates of his/her educational group.

Within the distance assignment, the student will design and create an engaging multimedia worksheet with educational content for the target group of pupils in primary school / secondary school in the environment of the cloud tool Wizer.me; To the created digital graphic output (in a separate file format *.docx), the student will provide a methodology for its inclusion in the educational activities of the target group of pupils.

As part of the distance learning assignment, the student will create a knowledge quiz activity with a minimum of 15 questions of supported types via the Google Forms cloud application. The focus of the knowledge quiz should be situated in a teaching issue of the student's own choice falling within the educational content of the teaching subject at primary school / high school in the intent of the approbation subjects that the student is studying in the study programs of teaching at the Faculty of Education at PdF UK. The knowledge quiz defined in this way will be implemented by the student among the classmates of his/her educational group.

Creation of digital graphic outputs in the environment of selected cloud applications

Acquire digital competences by the ability to effectively use the Prezi Design cloud tool of the Prezi cloud platform to create multimedia posters with educational content intended for the target group of pupils in primary schools / secondary schools by expressing their own visual ideas;

We develop digital competences by the ability to effectively use the cloud tool Glogster (edu.Glogster.com) for digital storytelling - creating engaging multimedia posters with educational content - designed for the target group of pupils in primary schools / secondary schools by expressing their own visual ideas;

We are mastering the methodology of applying the processed digital graphic outputs of educational content communicated to students through the cloud tool Prezi Design and Glogster to the school teaching of subjects that the student studies in the study programs of teaching at the Faculty of Education at Charles University.

Topics:

Prezi Design as a comprehensive graphic design and data visualization tool; Template library; Creating and editing content by adding multimedia items in the editor; Adding, moving and layering objects; Using *.ppt, *.pdf and *.doc in Prezi Design; Implementing animated elements into the graphic content you create; Creating visual effects to images by applying masks and filters; Adding links to text objects, graphics and shapes; Multi-page design; Linking text, images, icons and shapes to pages and sections; Sharing content created in Prezi Design with your audience on social media using private or public links; Collaborating in the Prezi Design environment; Adding/removing collaborators; Adding an entire team of collaborators; Collaborating in real time;

Creating and editing engaging data visualizations using maps; Creating a social post - adding and editing content, adding animation to the content of the post being created; Downloading and sharing the created content for publishing purposes;

Creating infographics for visual representation of information and data, Adding and editing content; Creating gif and mp4 videos in the Prezi Design environment; Embedding videos from Prezi Video into Prezi Design; Adding videos to Prezi Design and editing settings; Media integrations in Prezi Design - adding content from Prezi Video to projects.

Within the distance task, the student will design and create in the cloud tool Prezi Design an engaging digital poster with multiMedial educational content usable in teaching in the intent of the approbation subjects, which the student studies in the study programs of teaching at the Faculty of Education of the Charles University; To the created digital graphic output (in a special file format *.docx) the student will provide a methodology for its inclusion in the educational activities of the target group of students.

Within the distance task, the student will design and create in the cloud tool edu.Glogster an engaging digital poster with multiMedial educational content usable in teaching in the intent of the approbation subjects that the student is studying in the study programs of teaching at the Faculty of Education of the Charles University; To the created digital graphic output (in a special file format *.docx) the student will provide a methodology for its inclusion in the educational activities of the target group of students

For this grade, the student should demonstrate: a creative approach in developing ongoing assignments using a model, above average expertise and application of that expertise in problem solving using tutorials, above average orientation to the problem, above average communication skills, responsibility and timely completion of assignments, above average activity in class during the semester.

A minimum of 73 points is required for a final grade of C. For this grade, the student should demonstrate: the ability to develop intermediate assignments using the given template, good professional knowledge and its application in solving problem problems in a group or with the help of the instructor, good orientation in the subject matter, good communication skills, completion of the assigned tasks, average activity in class during the semester when prompted by the instructor.

A minimum of 66 points is required for a final grade of D. For this grade, the student is expected to demonstrate: the ability to develop intermediate assignments using the assigned template and with the assistance of the instructor, average proficiency and application in problem solving in a group setting or with the assistance of the instructor, average orientation to the subject matter, average communication skills, completion of assignments, and basic activity in the classroom during the semester in collaboration with the instructor or other students.

A score of at least 60 points is required for a final grade of E. For this assessment, the student should demonstrate: the ability to work through assignments and with the help of the instructor, basic/minimal professional knowledge, basic/minimal orientation to the subject matter, basic communication skills, and completion of assigned tasks.

Scale of assessment (preliminary/final): 70/30

Learning outcomes:

Learning outcomes and transferable competences:

The aim of the educational discipline Digital Technologies 2 is to develop digital skills in the field of work with selected software (desktop and cloud) didactic applications and to be able to apply them effectively in the context of their future teaching profession.

By completing the educational discipline Digital Technologies 2, the student has the competences and advanced digital skills to effectively use the tools of the software application ActivInspire and the cloud environment ClassFlow by creating gamification educational/quiz activities, engaging presentations of educational content and new interactive forms of learning material supporting the activation and attention of students participating in the lesson in the school classroom or in home conditions in the case of distance/hybrid education.

By completing the educational discipline Digital Technologies 2, the student acquires advanced professional digital competences in the concept of design and creation of interactive video presentations of educational content implemented through Prezi Present and Prezi Video cloud platform Prezi by expressing their own visual ideas usable in their own pedagogical activities in schools or educational institutions.

By completing the educational discipline, the student acquires competence and advanced digital skills in the concept of design, creation and administration of (gamification) quiz and educational activities and knowledge games with dynamic elements created through the cloud tool Socrative 2.0, Kahoot!, Wizer.me and Google Forms usable in own educational activities implemented in schools and school facilities for the target group of intact pupils as well as pupils with special educational needs.

By completing the educational discipline Digital Technologies 2, the student has, last but not least, competencies and advanced digital skills in the field of vector graphic creation in the environment of the cloud application Prezi Design in the implementation of the work activities of a pedagogical employee of regional education or his/her own professional development.

Class syllabus:

Brief outline of the course

The content of the educational discipline Digital Technologies 2 is divided into four thematic headings and relevant sub-topics in order to ensure the achievement of the set partial educational objectives. The content structure of the educational discipline is designed so that the student continuously develops his didactic-technological competences in the field of selected didactic software applications by completing the educational topics organized in the present and distance form and at the same time strengthens his professional training in the subject area. content structure of the discipline can be adapted to the current requirements of practice and students.

Application of ActivInspire software application and ClassFlow cloud environment in the educational process

We master the principle and methodology of working with selected (Promethean World Ltd) digital didactic resources designed to support interactive teaching of subjects of its approbation in primary and secondary schools;

We develop professional digital competences by the ability to effectively use the software tools of the ActivInspire desktop application and the ClassFlow cloud environment through the creation of gamification educational/quiz activities, engaging presentations of educational content and new interactive forms of learning material supporting the activation and attention of pupils (including pupils with special educational needs) participating in a lesson in the school classroom or in home conditions in the case of distance/hybrid education; In the context of the above activity, the trainee is also expected to learn the methodology for applying the activities developed in the school classroom;

We gain knowledge about desktop digital voting solutions and (trendy) cloud-based applications for creating knowledge tests/quizzes currently available on the market as an interactive didactic means of teaching, advantages and disadvantages of their deployment in the teaching process in the field of regional education;

We acquire digital skills in creating, editing and administering knowledge tests through voting sessions and supported by the ActivInspire software application and ActivExpression2 digital voting device to stimulate pupil activation and attention in the classroom; We use the ExpressPoll voting session; we use the question creation wizard to create test activities in the teacher stimulation; we implement the work with the question set wizard for processing at the pupil's own pace (voting session in the pupil stimulation) in the teaching of the subjects of his/her apprenticeship;

We are mastering the methodology of applying the knowledge tests communicated to pupils through the ActivInspire application and the ActivExpression2 digital voting device to the process of school teaching of the subjects of their approbation in primary/ secondary schools;

Develop skills in statistically processing the results of whole group voting activities into the ActivInspire demonstration workbook, as well as exporting them to Microsoft Excel;

We strengthen professional digital competences in the area of working with complex interactive solutions usable in educational situations with an emphasis on the ActivBoard interactive whiteboard.

Topics:

Design of demonstration workbooks - options for setting up and customizing the ActivInspire work environment; Main toolbar - demonstration for familiarizing yourself with the most commonly used tools - ideas for their use in the creation of interactive educational content; Annotation mode on the desktop; Browsers in ActivInspire; Export/Import (*.flipchart) of demonstration workbooks; Teacher-student collaboration on the whiteboard - dual user mode;

Adding additional graphical content to the ActivInspire demonstration workbook; Importing and exporting asset packages; Defining object properties; Using layers and layering: Blind Map, Magic Tunnel, Magic Ink - ideas for using them when designing educational activities aimed at the target

group of students; Adding and removing links to linked external files/internet resources; Creating and using grid features when designing educational activities; Creating interactive demonstration workbooks - creating containers; Working with actions; Suggestions for their use of selected actions in the creation of interactive materials usable in the educational process; Benefits of using profiles; Annotating the desktop; Using desktop tools; Working in dual user mode; Using mathematical and design tools; Demonstrations of the use of mathematical and design tools in the creation of interactive materials usable in the educational process;

We extend professional digital competencies with the ability to effectively apply gamification educational activities through predefined templates - Sorting into categories, Crossword, Learning Cards, Assigning and Sorting items and other templates supported by the cloud-based ClassFlow application;

Current trends in the application of digital voting solutions for education; Technological principle of digital voting systems; Possibilities of using digital voting systems in school teaching in primary schools / elementary schools ; Methodology of working with digital voting systems; Digital voting solutions - effective support of group cooperation in classrooms stimulating the learning process;

We use the ActivExpression2 digital voting system in the classroom; Components of an intelligent digital voting solution; Registration of ActivExpression2 voting devices in ActivInspire; Voting Browser; Types of voting sessions and test questions supported by the ActivInspire software application and ActivExpression2 voting device; Working with voting session results in ActivInspire - viewing results in different formats; Exporting results from ExpressPoll from prepared questions and from a set of self-paced questions to Microsoft Excel; Suggestions for educational activities and games using ActivExpression2 voting devices to promote student activation and attention in the classroom.

Within the framework of the distance assignment, the student in the ActivInspire environment will develop a set of engaging learning activities, knowledge games, engaging presentations of educational content as new interactive forms of learning material supporting the activation and attention of students in the classroom. In conceptualising the design and development of the task, the learner will make use of as wide a range of available tools, functions, actions and features as possible. Within a developed demonstration workbook of at least 6 pages, the student will be expected to primarily use the container activity, magic ink, magic tunnel, set actions and constraints on objects, and apply the presentation tools of the ActivInspire environment. In the accompanying document (a separate file of *.docx format) to the created presentation materials and educational activities stored in *.flipchart format, the student will indicate the methodology of their inclusion in the educational activities of the target group of pupils.

Within the distance assignment, the student will create a set of 10 gamification educational activities for the target group of students with the effective use of pre-prepared templates and tools of the ClassFlow cloud environment. In the accompanying document (a separate file of *.docx format) to the created gamification activities, the student will include the methodology of their integration into the educational activities of the target group of pupils.

Within the framework of the distance task, the student will create, through the ClassFlow cloud environment, a test activity conceived from 20 test questions of supported types with the potential possibility of its use in the teaching of the subjects of his/her apprenticeship to pupils at primary school / secondary school.

We create video presentations of educational content through the cloud application Prezi Video

We develop professional digital competencies in the design and creation of compelling non-linear video presentations of educational content realized through Prezi Present and Prezi Video cloud platform Prezi by expressing visual ideas applicable to our own pedagogical activities;

We are mastering the methodology of applying video presentation of educational content communicated to pupils through Prezi Video to the process of school teaching of subjects of its approbation at primary school / high school;

We innovate didactic approaches to educational activities implemented in schools or educational institutions through immersive non-linear video presentations created in the cloud platform Prezi.

Topics:

We create a video presentation in the Prezi Video online editor environment from scratch using the Quick record tool - selecting a suitable template, inserting text content and other graphic visuals; supplementing the video presentation with a recording of your own image and sound;

We create a video presentation in the Prezi Video online editor environment by offering reusable videos recorded by other Prezi Video users;

Creating a video presentation based on a Prezi Present; Adding an accompanying commentary; Adding a video with accompanying commentary.

Within the distance assignment, the student will create an original didactic and visually engaging video presentation of educational content of his/her choice for the target group of pupils, using the Prezi cloud platform (Prezi Present and Prezi Video), in a range of at least 20 presentation views, usable in teaching the subjects of his/her specialisation at primary school/junior high school.

We use selected Web 2.0 software tools to obtain feedback from students participating in the school teaching process, in the case of students enrolled in distance (online) learning;

We are expanding the knowledge framework in the field of application of gamification (game-based learning) as one of the innovative and activating methods applied in the educational process at the primary school level;

We are expanding digital skills to include the ability to effectively use Socrative 2.0, a cloud-based application designed to create and manage knowledge/quiz activities in order to get immediate feedback from students participating in a lesson in the classroom or at home in the case of distance/hybrid learning;

We are mastering the methodology of applying knowledge/quiz activities communicated to students through Socrative 2.0 to the process of school teaching of subjects of their area of interest in primary schools;

We extend professional digital competences with the ability to create gamification quiz activities and knowledge games through the online platform Kahoot! into the school learning process in a fun and playful way - transforming traditional knowledge testing through quizzes in an activating form using digital means;

We acquire competencies in the application of the application methodology, in the Kahoot! author-prepared, gamified educational and quiz activities to the process of school teaching of subjects of their approbation in primary school / secondary school;

We develop digital competences by the ability to effectively use the cloud tool Wizer.me for creating multimedia online worksheets with educational content for the target group of primary school pupils;

We are mastering the methodology of applying the processed digital graphic outputs of educational content communicated to students through the cloud tool Wizer.me to the process of school teaching of subjects of their approbation in primary school / secondary school;

We master the principle and methodology of working with the cloud application Google Forms designed for the creation of online knowledge tests and research tools usable in the context of pedagogical activities;

Topics:

Socrative.com - a web-based tool for online testing of student knowledge; Free registration vs. benefits of paid registration for teachers; Creating a teacher/student account; Test administration panel in Socrative 2.0 - Creating a new test - question types for creating your own tests - multiple

choice, yes/no and short open answer; Managing teacher-created tests; Creating a copy of a test - a variant for a parallel group with slightly different questions; Deleting a test; Downloading a test to a document in *.pdf; Editing the created test; Importing a test from another teacher - sharing tests between teachers; Access to the results of all (already) completed tests; Modes of making the test available to pupils - immediate feedback: Instant Feedback; Teacher-controlled test; Selecting the ways of displaying the results; Defining the appearance of the test results - a general overview of all pupils with statistics of pupil's success and questions; Separate *.Separate pdf files for each pupil; Success statistics for each test question; Practical examples of administered tests in the Socrative 2.0 environment for different educational disciplines and learning topics;

For the sake of brevity, the thematic focus of Kahoot! is analogous in content to the Socrative 2.0 application;

Cloud Computing; Google Drive; Viewing Google Docs options; Description of the Google Forms environment - Questions tab; Creating a form; Editing the appearance of the form; Setting up the form as a quiz; Evaluating the data obtained from the form administration - Answers tab; Sending the form to respondents; Setting up Google Form sharing - in Google Drive and in the Google Forms editor; Setting up Google Form sharing for a user with an un-created Google account. As part of the distance task, the student will create a knowledge test with ten multiple choice questions, ten yes/no questions and ten short free-form questions using the online software application Socrative. The focus of the knowledge test should be situated in a curricular issue of the student's choice falling within the educational content of the subject taught at primary/ secondary school, in the context of the subjects of interest that the student is studying in the teacher education programmes at PdF UK. The knowledge test defined in this way will be implemented by the student among his/her classmates in his/her educational group. As part of the distance assignment, the student will create a software application Kahoot! test activity made up of 20 knowledge questions of supported types. The focus of the test activity should be situated in a teaching issue of his/her own choice falling within the educational content of the teaching subject at primary school / high school in the intent of the approbation subjects that the student studies in the study programs of teaching at the Faculty of Education of the Charles University. The test activity defined in this way will be implemented by the student among the classmates of his/her educational group.

Within the distance assignment, the student will design and create an engaging multimedia worksheet with educational content for the target group of pupils in primary school / secondary school in the environment of the cloud tool Wizer.me; To the created digital graphic output (in a separate file format *.docx), the student will provide a methodology for its inclusion in the educational activities of the target group of pupils.

As part of the distance learning assignment, the student will create a knowledge quiz activity with a minimum of 15 questions of supported types via the Google Forms cloud application. The focus of the knowledge quiz should be situated in a teaching issue of the student's own choice falling within the educational content of the teaching subject at primary school / high school in the intent of the approbation subjects that the student is studying in the study programs of teaching at the Faculty of Education at PdF UK. The knowledge quiz defined in this way will be implemented by the student among the classmates of his/her educational group.

Creation of digital graphic outputs in the environment of selected cloud applications

Acquire digital competences by the ability to effectively use the Prezi Design cloud tool of the Prezi cloud platform to create multimedia posters with educational content intended for the target group of pupils in primary schools / secondary schools by expressing their own visual ideas;

We develop digital competences by the ability to effectively use the cloud tool Glogster (edu.Glogster.com) for digital storytelling - creating engaging multimedia posters with educational content - designed for the target group of pupils in primary schools / secondary schools by expressing their own visual ideas;

We are mastering the methodology of applying the processed digital graphic outputs of educational content communicated to students through the cloud tool Prezi Design and Glogster to the school teaching of subjects that the student studies in the study programs of teaching at the Faculty of Education at Charles University.

Topics:

Prezi Design as a comprehensive graphic design and data visualization tool; Template library; Creating and editing content by adding multimedia items in the editor; Adding, moving and layering objects; Using *.ppt, *.pdf and *.doc in Prezi Design; Implementing animated elements into the graphic content you create; Creating visual effects to images by applying masks and filters; Adding links to text objects, graphics and shapes; Multi-page design; Linking text, images, icons and shapes to pages and sections; Sharing content created in Prezi Design with your audience on social media using private or public links; Collaborating in the Prezi Design environment; Adding/removing collaborators; Adding an entire team of collaborators; Collaborating in real time;

Creating and editing engaging data visualizations using maps; Creating a social post - adding and editing content, adding animation to the content of the post being created; Downloading and sharing the created content for publishing purposes;

Creating infographics for visual representation of information and data, Adding and editing content; Creating gif and mp4 videos in the Prezi Design environment; Embedding videos from Prezi Video into Prezi Design; Adding videos to Prezi Design and editing settings; Media integrations in Prezi Design - adding content from Prezi Video to projects.

Within the distance task, the student will design and create in the cloud tool Prezi Design an engaging digital poster with multiMedial educational content usable in teaching in the intent of the approbation subjects, which the student studies in the study programs of teaching at the Faculty of Education of the Charles University; To the created digital graphic output (in a special file format *.docx) the student will provide a methodology for its inclusion in the educational activities of the target group of students.

Within the distance task, the student will design and create in the cloud tool edu.Glogster an engaging digital poster with multiMedial educational content usable in teaching in the intent of the approbation subjects that the student is studying in the study programs of teaching at the Faculty of Education of the Charles University; To the created digital graphic output (in a special file format *.docx) the student will provide a methodology for its inclusion in the educational activities of the target group of students

COURSE DESCRIPTION

Academic year: 2023/2024	
University: Comenius University Bratislava	
Faculty: Faculty of Education	
Course ID: PdF.KVV/B-VU-de017/22	Course title: Drawing
Educational activities: Type of activities: lecture + seminar Number of hours: per week: 3 per level/semester: 39 Form of the course: on-site learning	
Type, volume, methods and workload of the student - additional information Scope, type/method of teaching and organizational form: 1 hour lecture, 2 hours seminar; total 33 hours per semester, combined form; (primarily by attendance). Student workload: 1P + 2S, (3 credits): 11x3 hours of direct teaching = 33 hours; 10 hours study of theoretical knowledge on the subject; 26 hours work on assignments (application of knowledge from instruction to the creation of a set of term papers); 5 documentation, digitization, archiving of a set of term papers and preparation for defense; 1 defense and reflection of a set of term papers. A total of 75 hours of student work. Teaching methods: combination of monological, dialogical and practical methods: lecturing, interpretation, explanation, narration, briefing on the subject; conversation, discussion, polemic on the given topic; application of knowledge from the interpretation to the student's works on the assigned topics, which are continuously consulted by the teacher.	
Number of credits: 3	
Recommended semester: 2., 4.	
Educational level: I.	
Prerequisites: PdF.KVV/B-VU-de003/22 - Basics of drawing	
Course requirements: Prerequisites for successful completion of the course: The course is completed with an evaluation by the 13th week of the semester, a final presentation and defense of a set of completed term papers demonstrating the fulfillment of the basic requirements for their proper implementation using drawing strategies and techniques with an emphasis on the issue of building space using line, surface and their combination. Theoretical knowledge in the field of the medium of drawing with emphasis on the issue of building space using line, surface and their combination 0-10 points; ability to apply theoretical knowledge to the realization of a set of drawings on the assigned topics 0-80 points; documentation, digitization, archiving of a set of semester works, their defense and the level of commenting on the evaluated works 0-10 points. A minimum of 91 points is required for a final grade of A, a minimum of 81 points for a grade of B, a minimum of 73 points for a grade of C, a minimum of 66 points for a grade of D, and a minimum of 60 points for a grade of E. To pass the course you must obtain a minimum of 60% of the marks. Credit will not be awarded to a student who fails to complete any of the assigned topics, fails to	

attend a minimum number of midterm tutorials, or fails to submit the required documentation of a set of term papers.

Grades are awarded on a scale of:

A (100-91%, excellent - outstanding),

B (90-81%, very good - above average standard),

C (80-73%, good - normal reliable work),

D (72-66%, satisfactory - acceptable results),

E (65-60%, satisfactory - results meet minimum criteria),

Fx (59-0%, inadequate - extra work required).

Learning outcomes:

Learning outcomes:

Learning objectives and outcomes:

The aim of education within the above course is to acquire theoretical knowledge of more advanced concepts and to improve practical experience in the field of the artistic medium of drawing with emphasis on the issue of building space in two dimensions using line, surface and their combination.

Upon completion of the course, the student will:

- Possesses the basic structural competencies (whether intellectual, motor, creative-sensory) in his/her subject specialization in drawing,
- is able to collaborate in the solution of professional projects in the field of subject specialization in drawing,
- is able to analyse and reflect on the general-pedagogical characteristics of education and teaching in school practice,
- has basic practical skills in the field of the artistic medium of drawing.

Class syllabus:

This course focuses on improving the student's drawing skills. This goal is accomplished through themes focusing on drawing's grasp of space and mimetic perception of shape/object/subject. Using the artistic elements of the medium of drawing, the student will be guided to understand the representation of shape and space in two dimensions.

COURSE DESCRIPTION

Academic year: 2023/2024	
University: Comenius University Bratislava	
Faculty: Faculty of Education	
Course ID: PdF.KPg/B-VUZde037/22	Course title: Educational counselling
Educational activities: Type of activities: seminar Number of hours: per week: 2 per level/semester: 26 Form of the course: on-site learning	
Number of credits: 3	
Recommended semester: 2., 4., 6.	
Educational level: I.	
Prerequisites:	
Course requirements: Prerequisites for successful completion of the course: The course is completed by assessment, 100% of the interim assessment. Students are required to complete a midterm paper for 40 points and a midterm test for 60 points, for a total of 100 points. The condition for successful completion of the course is obtaining at least 60% of the maximum possible grade for the course. The grade is awarded on a scale: The rating is awarded on a scale: A (100-91%, excellent - excellent results with only minimal errors), B (90-81%, very good - above average results with minor errors), C (80-73%, good - normal reliable work, average results), D (72-66%, satisfactory - acceptable results, but significant errors occur), E (65-60%, sufficient - results meet minimum criteria), Fx (59-0%, insufficient - passing the course still requires a significant amount of effort and work on the part of the student). A minimum of 91 points is required for a final grade of A. For this grade, the student should demonstrate: a creative and original approach in the development of intermediate assignments, excellent professional knowledge and its application in problem solving, excellent orientation in the subject matter, excellent communication skills, responsibility and timely completion of assignments, exceptional activity in the classroom during the semester. A score of at least 81 points is required for a final grade of B. For this grade, the student should demonstrate: a creative approach in developing ongoing assignments using a model, above average expertise and application of that expertise in problem solving using tutorials, above average orientation to the problem, above average communication skills, responsibility and timely completion of assignments, above average activity in class during the semester. A minimum of 73 points is required for a final grade of C. For this grade, the student should demonstrate: the ability to develop intermediate assignments using the given template, good professional knowledge and its application in solving problem problems in a group or with the help of the instructor, good orientation in the subject matter, good communication skills, completion of the assigned tasks, average activity in class during the semester when prompted by the instructor.	

A minimum of 66 points is required for a final grade of D. For this grade, the student is expected to demonstrate: the ability to develop intermediate assignments using a given template and with the assistance of the instructor, average proficiency and application in problem solving in a group setting or with the assistance of the instructor, average orientation to the subject matter, average communication skills, completion of assignments, and basic activity in the classroom during the semester in collaboration with the instructor or other students.

A score of at least 60 points is required for a final grade of E. For this assessment, the student should demonstrate: the ability to work through assignments and with the help of the instructor, basic/minimal

Scale of assessment (preliminary/final): 100/0

Learning outcomes:

Learning objectives and outcomes and transferable competences:

The aim of the course Educational Counselling is to provide students with an initial framework of knowledge in the field of the educational counselling system. Upon successful completion of the course, students will be able to navigate the school counseling system. They understand the place and role of the guidance counselor in the guidance system and master the prerequisites for the position of guidance counselor. Know the differences in the responsibilities of the class teacher, guidance counsellor or school counsellor in providing guidance on educational issues. They know the methods of educational counselling. They know strategies for the prevention of problem behaviour and understand their importance. They are able to apply the acquired knowledge in solving specific problem situations in educational practice. They are oriented in school career guidance. They are able to describe and interpret the importance of school cooperation with educational guidance and prevention institutions, social and legal protection bodies and others.

Transferable competences: by analysing, solving and discussing seminar assignments, students will be able to communicate their conclusions, think critically and think in context.

Class syllabus:

1. School guidance system.
2. Framework for the work of the educational advisor, professional and personal qualifications of the educational advisor, education of the educational advisor.
3. The class teacher and his/her role in counselling pupils and legal representatives in education and training.
4. Methods of work in educational counselling.
5. Strategies to prevent problem behaviour of pupils.
6. Addressing the educational difficulties of pupils.
7. Methods and possibilities of intervention of problem behaviour of pupils.
8. Career counselling.
9. Educational counselling in the field of care for gifted pupils.
10. Cooperation of the school with other institutions, family. Social and legal protection of children and youth.

COURSE DESCRIPTION

Academic year: 2023/2024	
University: Comenius University Bratislava	
Faculty: Faculty of Education	
Course ID: PdF.KPg/B-VUZde037/22	Course title: Educational counselling
Educational activities: Type of activities: seminar Number of hours: per week: 2 per level/semester: 26 Form of the course: on-site learning	
Number of credits: 3	
Recommended semester: 1., 3., 5.	
Educational level: I.	
Prerequisites:	
Course requirements: Prerequisites for successful completion of the course: The course is completed by assessment, 100% of the interim assessment. Students are required to complete a midterm paper for 40 points and a midterm test for 60 points, for a total of 100 points. The condition for successful completion of the course is obtaining at least 60% of the maximum possible grade for the course. The grade is awarded on a scale: The rating is awarded on a scale: A (100-91%, excellent - excellent results with only minimal errors), B (90-81%, very good - above average results with minor errors), C (80-73%, good - normal reliable work, average results), D (72-66%, satisfactory - acceptable results, but significant errors occur), E (65-60%, sufficient - results meet minimum criteria), Fx (59-0%, insufficient - passing the course still requires a significant amount of effort and work on the part of the student). A minimum of 91 points is required for a final grade of A. For this grade, the student should demonstrate: a creative and original approach in the development of intermediate assignments, excellent professional knowledge and its application in problem solving, excellent orientation in the subject matter, excellent communication skills, responsibility and timely completion of assignments, exceptional activity in the classroom during the semester. A score of at least 81 points is required for a final grade of B. For this grade, the student should demonstrate: a creative approach in developing ongoing assignments using a model, above average expertise and application of that expertise in problem solving using tutorials, above average orientation to the problem, above average communication skills, responsibility and timely completion of assignments, above average activity in class during the semester. A minimum of 73 points is required for a final grade of C. For this grade, the student should demonstrate: the ability to develop intermediate assignments using the given template, good professional knowledge and its application in solving problem problems in a group or with the help of the instructor, good orientation in the subject matter, good communication skills, completion of the assigned tasks, average activity in class during the semester when prompted by the instructor.	

A minimum of 66 points is required for a final grade of D. For this grade, the student is expected to demonstrate: the ability to develop intermediate assignments using a given template and with the assistance of the instructor, average proficiency and application in problem solving in a group setting or with the assistance of the instructor, average orientation to the subject matter, average communication skills, completion of assignments, and basic activity in the classroom during the semester in collaboration with the instructor or other students.

A score of at least 60 points is required for a final grade of E. For this assessment, the student should demonstrate: the ability to work through assignments and with the help of the instructor, basic/minimal

Scale of assessment (preliminary/final): 100/0

Learning outcomes:

Learning objectives and outcomes and transferable competences:

The aim of the course Educational Counselling is to provide students with an initial framework of knowledge in the field of the educational counselling system. Upon successful completion of the course, students will be able to navigate the school counseling system. They understand the place and role of the guidance counselor in the guidance system and master the prerequisites for the position of guidance counselor. Know the differences in the responsibilities of the class teacher, guidance counsellor or school counsellor in providing guidance on educational issues. They know the methods of educational counselling. They know strategies for the prevention of problem behaviour and understand their importance. They are able to apply the acquired knowledge in solving specific problem situations in educational practice. They are oriented in school career guidance. They are able to describe and interpret the importance of school cooperation with educational guidance and prevention institutions, social and legal protection bodies and others.

Transferable competences: by analysing, solving and discussing seminar assignments, students will be able to communicate their conclusions, think critically and think in context.

Class syllabus:

1. School guidance system.
2. Framework for the work of the educational advisor, professional and personal qualifications of the educational advisor, education of the educational advisor.
3. The class teacher and his/her role in counselling pupils and legal representatives in education and training.
4. Methods of work in educational counselling.
5. Strategies to prevent problem behaviour of pupils.
6. Addressing the educational difficulties of pupils.
7. Methods and possibilities of intervention of problem behaviour of pupils.
8. Career counselling.
9. Educational counselling in the field of care for gifted pupils.
10. Cooperation of the school with other institutions, family. Social and legal protection of children and youth.

COURSE DESCRIPTION

Academic year: 2023/2024	
University: Comenius University Bratislava	
Faculty: Faculty of Education	
Course ID: PdF.KPg/B-VUZde030/22	Course title: Environmetal education
Educational activities: Type of activities: lecture Number of hours: per week: 2 per level/semester: 26 Form of the course: on-site learning	
Number of credits: 3	
Recommended semester: 2., 4., 6.	
Educational level: I.	
Prerequisites:	
Course requirements: Prerequisite subjects: none Prerequisites for successful completion of the course: The course is completed by assessment (100% of the interim assessment). The student will be evaluated on an ongoing basis: a) defending a term paper with the content of current environmental problems on the territory of the Slovak Republic as well as environmental problems that are solved globally with a maximum value of 20 points b) its elaboration in the form of analysis and critical evaluation of the chosen environmental issue, in the form of creating reflections from each presented environmental topic and application of the chosen topic to the education of pupils with a maximum value of 80 points. A minimum of 91 points is required for a final grade A, a minimum of 81 points for a grade B, a minimum of 73 points for a grade C, a minimum of 66 points for a grade D and a minimum of 60 points for a grade E. Credit will not be awarded to a student who obtains less than 40 points in a seminar paper and fails to defend the paper. To pass the course, a minimum score of 60% is required. The rating is awarded on a scale: A (100-91%, excellent - excellent results), excellent performance, the student can work well with professional literature dealing with the issue of current environmental problems not only in the Slovak Republic but also at the global level, can critically evaluate environmental problems in society and create appropriate activating methods for the environmental problem usable in pedagogical practice B (90-81%, very good - above average standard), excellent performance, the student can work with the literature dealing with the issues of current environmental problems not only in the Slovak Republic but also at the global level very well, but critical thinking in the field of environmental science is borderline, but can create appropriate activating methods for the environmental problem usable in pedagogical practice C (80-73%, good - normal reliable work), good performance, the student can work well with literature dealing with current environmental problems not only in the Slovak Republic but also at the global level, but critical thinking in the field of environmental science is partially absent, but can create appropriate activating methods for the environmental problem usable in pedagogical practice	

D (72-66%, satisfactory - acceptable results), satisfactory performance, the student can only partially work with professional literature dealing with current environmental problems not only in the Slovak Republic but also at the global level, critical thinking in the field of environmental science is partially absent and only partially knows how to apply environmental theory in the form of the creation of activating methods in pedagogical practice

E (65-60%, sufficient - the results meet the minimum criteria), sufficient performance, the student can work with the literature dealing with current environmental problems not only in the Slovak Republic but also at the global level at a minimum level, critical thinking in the field of environmental science is absent and his ability to apply environmental theory in the form of creating activating methods in pedagogical practice is minimal

Fx (59-0%, insufficient - additional work required), insufficient performance, student is unable to work with literature dealing with current environmental issues not only in the Slovak Republic but also on a global level, nor critically evaluate environmental issues and is unable to apply environmental theory in the form of creating activating methods to pedagogical practice

Scale of assessment (preliminary/final): 100/0

Learning outcomes:

Learning outcomes and transferable competences:

Upon completion of the course, the student will gain basic information on nature conservation, quality of life assurance and remediation options, which will subsequently enable him/her to solve problems in environmental issues. He will be able to apply all this knowledge to teaching practice; he will strengthen his digital skills in searching for literature on environmental issues on appropriate professional domestic and foreign Internet portals, as well as his communication skills, critical thinking and evaluation of environmental problems in society.

Class syllabus:

Brief outline of the course:

1. Ecology. (the student can distinguish between the concepts of ecology and environmental science, knows the relationships of organisms in the environment and how endogenous and exogenous factors affect the environment)
2. Stability and biodiversity of ecosystems. Protected areas. Regulation of trophic chains. Anthropocentrism, biocentrism and ecocentrism. (the student will learn to perceive the interconnectedness of relationships in nature, the sensitivity of ecosystem stability, how this stability is affected by man himself and ultimately be able to take a stance on the protection of individual ecosystems for the need to maintain balance in nature)
3. Waste management. (the student will get acquainted with the issues of waste management, the creation and regulation of the amount of waste in society, the problem of black dumps but also with the process of recycling as an option for environmental protection)
4. Transport and the greenhouse effect. (the student is able to assess the negative impact of transport use on the environment and is able to adopt the right attitude to dealing with the issue in terms of protecting the environment in which he/she lives)
5. Environmental education in primary schools. Environmental projects of the Slovak Republic. (The student knows how to incorporate environmental education as a cross-cutting theme in the state educational programme, knows how environmental education contributes to the development of the pupil's personality by acquiring the ability to understand, analyse and evaluate the relationships between man and his environment on the basis of knowledge of the laws governing life on Earth, to know and understand the connections between the development of human population and the relationship to the environment in different areas of the world, to understand the connections between local and global problems and their own responsibility in relation to the environment, ultimately the student will also become familiar with the current environmental projects of the

Slovak Republic that support this education at primary school and will be able to bring the environmental problems to the student's mental level by appropriate activating methods)

COURSE DESCRIPTION

Academic year: 2023/2024	
University: Comenius University Bratislava	
Faculty: Faculty of Education	
Course ID: PdF.KPg/B-VUZde016/22	Course title: Ethics and professional ethics
Educational activities: Type of activities: seminar Number of hours: per week: 2 per level/semester: 26 Form of the course: on-site learning	
Number of credits: 3	
Recommended semester: 1., 3., 5.	
Educational level: I.	
Prerequisites:	
Course requirements: Prerequisite subjects: none Prerequisites for successful completion of the course: 100% of the interim grade, which includes 30% class activity (30 points) and 70% project (70 points). For successful completion of the course it is necessary to obtain at least 60% of the points. The rating is awarded on a scale: A (100-94%, excellent - outstanding results), the student reflects correctly and actively both critically and creatively knowledge, including its meaningful integration into the realities of life and pedagogical practice. B (93-86%, very good - above average standard), the student reflects critically on knowledge appropriately, including their meaningful integration into the realities of life and pedagogical practice. C (85-76%, good - routine reliable work), students performed standardly well during the semester, their theoretical knowledge is at a good level, but they lack the ability to critically apply this knowledge. D (75-68%, satisfactory - acceptable results), students were less prepared during the semester, they have slight deficiencies in theoretical knowledge. They cannot critically analyze information. E (67-60%, sufficient - the results meet the minimum criteria), the student has limited theoretical knowledge, is unable to critically analyze this knowledge, is only minimally able to apply the knowledge. Fx (59-0%, insufficient - extra work required). Learning outcomes: Learning objectives and outcomes and transferable competences: The thematic focus of the course introduces students to applied ethics and its disciplinary divisions, to defining the basic concepts of ethics, explaining morality as a social regulator, moral norms and the principles of creating ethical codes. It focuses on the professional ethics of the teaching profession (teacher competences, ethical dilemmas in the teaching profession, etc.) and the importance of a code of ethics in this profession. The aim of the course is to highlight the importance of a favourable	

classroom and school climate and to work with the content of the Convention on the Rights of the Child. Using selected examples from other branches of applied ethics (bioethics, media ethics, etc.) to show the importance of the presence of a code of ethics in the professions, the possibility of using classical ethical concepts and also different alternatives in solving ethical dilemmas.

This knowledge can be used in further studies as well as in real life. The chosen educational methods will contribute to the further development of competences (cognitive area: memory, critical thinking, thinking in context, reasoning; affective area: attitudes and beliefs, values; psychomotor area: digital skills; social area: cooperation, communication).

The course contributes to the gradual development of important professional competences of future teachers by its focus and methods of education.

Scale of assessment (preliminary/final): 100/0

COURSE DESCRIPTION

Academic year: 2023/2024	
University: Comenius University Bratislava	
Faculty: Faculty of Education	
Course ID: PdF.KPg/B-VUZde016/22	Course title: Ethics and professional ethics
Educational activities: Type of activities: seminar Number of hours: per week: 2 per level/semester: 26 Form of the course: on-site learning	
Number of credits: 3	
Recommended semester: 2., 4., 6.	
Educational level: I.	
Prerequisites:	
Course requirements: Prerequisite subjects: none Prerequisites for successful completion of the course: 100% of the interim grade, which includes 30% class activity (30 points) and 70% project (70 points). For successful completion of the course it is necessary to obtain at least 60% of the points. The rating is awarded on a scale: A (100-94%, excellent - outstanding results), the student reflects correctly and actively both critically and creatively knowledge, including its meaningful integration into the realities of life and pedagogical practice. B (93-86%, very good - above average standard), the student reflects critically on knowledge appropriately, including their meaningful integration into the realities of life and pedagogical practice. C (85-76%, good - routine reliable work), students performed standardly well during the semester, their theoretical knowledge is at a good level, but they lack the ability to critically apply this knowledge. D (75-68%, satisfactory - acceptable results), students were less prepared during the semester, they have slight deficiencies in theoretical knowledge. They cannot critically analyze information. E (67-60%, sufficient - the results meet the minimum criteria), the student has limited theoretical knowledge, is unable to critically analyze this knowledge, is only minimally able to apply the knowledge. Fx (59-0%, insufficient - extra work required). Learning outcomes: Learning objectives and outcomes and transferable competences: The thematic focus of the course introduces students to applied ethics and its disciplinary divisions, to defining the basic concepts of ethics, explaining morality as a social regulator, moral norms and the principles of creating ethical codes. It focuses on the professional ethics of the teaching profession (teacher competences, ethical dilemmas in the teaching profession, etc.) and the importance of a code of ethics in this profession. The aim of the course is to highlight the importance of a favourable	

classroom and school climate and to work with the content of the Convention on the Rights of the Child. Using selected examples from other branches of applied ethics (bioethics, media ethics, etc.) to show the importance of the presence of a code of ethics in the professions, the possibility of using classical ethical concepts and also different alternatives in solving ethical dilemmas.

This knowledge can be used in further studies as well as in real life. The chosen educational methods will contribute to the further development of competences (cognitive area: memory, critical thinking, thinking in context, reasoning; affective area: attitudes and beliefs, values; psychomotor area: digital skills; social area: cooperation, communication).

The course contributes to the gradual development of important professional competences of future teachers by its focus and methods of education.

Scale of assessment (preliminary/final): 100/0

Learning objectives and outcomes and transferable competences:

The thematic focus of the course introduces students to applied ethics and its disciplinary divisions, to

defining the basic concepts of ethics, explaining morality as a social regulator, moral norms and the principles of creating ethical codes. It focuses on the professional ethics of the teaching profession (teacher competences, ethical dilemmas in the teaching profession, etc.) and the importance of a code of ethics in this profession. The aim of the course is to highlight the importance of a favourable classroom and school climate and to work with the content of the Convention on the Rights of the Child. Using selected examples from other branches of applied ethics (bioethics, media ethics, etc.) to show the importance of the presence of a code of ethics in the professions, the possibility of using classical ethical concepts and also different alternatives in solving ethical dilemmas.

This knowledge can be used in further studies as well as in real life. The chosen educational methods will contribute to the further development of competences (cognitive area: memory, critical thinking, thinking in context, reasoning; affective area: attitudes and beliefs, values; psychomotor area: digital skills; social area: cooperation, communication). The course contributes to the gradual development of important professional competences of future teachers by its focus and methods of education.

Class syllabus:

Brief outline of the course:

1. Introduction to the subject: defining the basic concepts: ethics and morality.

Ethics and professional ethics: definition of basic terms: applied ethics - sectoral division of applied ethics. Professional ethics as a part of applied ethics.

2. Professional tact and etiquette as a basis for the formation of the code of ethics of individual professions.

3. The teaching profession and the teacher's code of ethics. Status and role of the teacher. Resolving dilemmas in the teaching profession.

4. Positive climate in the classroom, relationships between school climate factors.

5. Convention on the Rights of the Child.

6. A closer definition of bioethics and its areas of interest on concrete examples, the issue of the code of ethics. Classical ethical theories and alternative methods in solving ethical dilemmas.

COURSE DESCRIPTION

Academic year: 2023/2024	
University: Comenius University Bratislava	
Faculty: Faculty of Education	
Course ID: PdF.KPg/B-VUZde024/22	Course title: Family education
Educational activities: Type of activities: seminar Number of hours: per week: 2 per level/semester: 26 Form of the course: on-site learning	
Number of credits: 3	
Recommended semester: 2., 4., 6.	
Educational level: I.	
Prerequisites:	
Course requirements: Prerequisite subjects: none Prerequisites for successful completion of the course: The course is completed by assessment, 100% of the interim assessment. Interim assessment includes: the student will prepare a seminar paper (maximum possible number of points - 40). The seminar paper is a condition for the award of the overall grade. The student completes an intermediate written examination of knowledge (maximum possible points - 60). For successful completion of the course, it is necessary to obtain at least 60% of the points (min. 60 out of 100 points). The rating is awarded on a scale: A (100-91%, excellent - excellent results with only minimal errors), B (90-81%, very good - above average results with minor errors), C (80-73%, good - normal reliable work, average results), D (72-66%, satisfactory - acceptable results, but significant errors occur), E (65-60%, sufficient - results meet minimum criteria), Fx (59-0%, insufficient - passing the course still requires a significant amount of effort and work on the part of the student). A minimum of 91 points is required for a final grade of A. For this grade, the student should demonstrate: a creative and original approach in the development of intermediate assignments, excellent professional knowledge and its application in problem solving, excellent orientation in the subject matter, excellent communication skills, responsibility and timely completion of assignments, exceptional activity in the classroom during the semester. A score of at least 81 points is required for a final grade of B. For this grade, the student should demonstrate: a creative approach in developing ongoing assignments using a model, above average expertise and application of that expertise in problem solving using tutorials, above average orientation to the problem, above average communication skills, responsibility and timely completion of assignments, and above average activity in class during the semester. A minimum of 73 points is required for a final grade of C. For this grade, the student should demonstrate: the ability to develop intermediate assignments using the given template, good professional knowledge and its application in solving problem problems in a group or with the help	

of the instructor, good orientation in the subject matter, good communication skills, completion of the assigned tasks, average activity in class during the semester when prompted by the instructor. A minimum of 66 points is required for a final grade of D. For this grade, the student is expected to demonstrate: the ability to develop intermediate assignments using the assigned template and with the assistance of the instructor, average proficiency and application in problem solving in a group setting or with the assistance of the instructor, average orientation to the subject matter, average communication skills, completion of assignments, and basic activity in the classroom during the semester in collaboration with the instructor or other students.

A score of at least 60 points is required for a final grade of E. For this assessment, the student should demonstrate: the ability to develop continuous assignments and with the help of the instructor, basic/minimal professional knowledge, basic/minimal orientation to the subject matter, basic communication skills, completion of assigned tasks.

Scale of assessment (preliminary/final): 100/0

Learning outcomes:

Learning outcomes:

Learning objectives and outcomes:

The aim of the Family Education course is to convey basic information about the family as an educational institution and about the possible impact of the specifics of family life and family education on the educational process in school. The student is able to define the family as an educational institution, remembers its functions, knows the typology of families. The student can explain the transformations of the family in a historical context and the transformations of the family within its life cycle. The student knows and understands the educational goals, content, methods and means of family education. The student is able to critically evaluate and articulate the specifics of family education in alternative forms of partnership cohabitation. The student is able to categorize styles of family education. Describe and interpret inappropriate approaches in family education and predict their possible effects on student performance in school. The student is able to apply the acquired knowledge in solving educational difficulties of the pupil resulting from the specifics of family life and family education.

Transferable competences: by analysing, proposing solutions and discussing problem problems assigned during seminars, the student is able to communicate his/her conclusions, think critically, think in context.

Class syllabus:

Brief outline of the course:

1. Definition of family (traditional vs. newer concept of family), family typology and functions.
2. Basic demographic changes of the family in historical context (from traditional to postmodern family).
3. Family life cycle. Marriage as an institution. Education for marriage and parenthood.
4. The (un)stable family - the contemporary family and the issue of divorce. Inappropriate approaches in family upbringing in the period of divorce. Pupil in school in the period of parents' divorce process.
5. Alternative forms of cohabitation (cohabitation, mingle, single, "patchwork", homosexual partnerships...) - specifics of family education in alternative forms of cohabitation.
6. Pedagogy of the family. Theory of family education. Objectives, content, methods and means of family education. Styles of family education.
7. Relational attachment as a key prerequisite for harmonious personality development. Pupil's manifestations at school with regard to the type of relational attachment.
8. Alternative family education. Specifics of raising a child in foster care.
9. Different forms of violence in the family and their negative impact on the child's personality.

10. Specifics of family education in families with children with disabilities.

COURSE DESCRIPTION

Academic year: 2023/2024	
University: Comenius University Bratislava	
Faculty: Faculty of Education	
Course ID: PdF.KPg/B-VUZde018/22	Course title: Gender aspects of education
Educational activities: Type of activities: seminar Number of hours: per week: 2 per level/semester: 26 Form of the course: on-site learning	
Number of credits: 3	
Recommended semester: 2., 4., 6.	
Educational level: I.	
Prerequisites:	
Course requirements: Prerequisite subjects: Prerequisites for successful completion of the course: The course is completed with an assessment, weighted interim/final assessment 100/0. 100% of the continuous assessment includes: during the semester there will be approximately 6 - 8 assignments: focused on working with a professional text and its application in an example and the interpretation of the example processed on the basis of the professional text, the analysis of stereotypes in educational texts, the processing of professional literature into an annotation with questions on the read text. Students will use the e-learning environment moodle for their studies. For successful completion of the course it is necessary to obtain at least 60% of the points. The rating is awarded on a scale: A (100-91%, excellent - outstanding results), B (90-81%, very good - above average standard), C (80-73%, well - normal reliable work), D (72-66%, satisfactory - acceptable results), E (65-60%, sufficient - results meet minimum criteria), Fx (59-0%, insufficient - extra work required) A minimum of 91 points is required for a final grade of A. For this grade, the student should demonstrate: a creative and original approach in the development of intermediate assignments, excellent professional knowledge and its application in problem solving, excellent orientation in the subject matter, excellent communication skills, responsibility and timely completion of assignments, exceptional activity in the classroom during the semester. A score of at least 81 points is required for a final grade of B. For this grade, the student should demonstrate: a creative approach in developing ongoing assignments using a model, above average expertise and application of that expertise in problem solving using tutorials, above average orientation to the problem, above average communication skills, responsibility and timely completion of assignments, above average activity in class during the semester. A minimum of 73 points is required for a final grade of C. For this grade, the student should demonstrate: the ability to develop intermediate assignments using the given template, good professional knowledge and its application in solving problem problems in a group or with the help	

of the instructor, good orientation in the subject matter, good communication skills, completion of the assigned tasks, average activity in class during the semester when prompted by the instructor. A minimum of 66 points is required for a final grade of D. For this grade, the student is expected to demonstrate: the ability to develop intermediate assignments using the assigned template and with the assistance of the instructor, average proficiency and application in problem solving in a group setting or with the assistance of the instructor, average orientation to the subject matter, average communication skills, completion of assignments, and basic activity in the classroom during the semester in collaboration with the instructor or other students.

A score of at least 60 points is required for a final grade of E. For this assessment, the student should demonstrate: the ability to work through assignments and with the help of the instructor, basic/minimal professional knowledge, basic/minimal orientation to the subject matter, basic communication skills, and completion of assigned tasks.

Scale of assessment (preliminary/final): 100/0

Learning outcomes:

Learning outcomes:

Learning objectives and outcomes and transferable competences:

Students know the mechanisms to prevent the violation of equal opportunities for women and men (girls and boys) in education; they can identify gender stereotypes and their negative consequences in the educational process. They use methods to deepen gender democracy in school; They perceive the educational process from a gender perspective. They can name and find connections between gender-sensitive education and the cross-cutting theme of education for marriage and parenthood (sex education); apply the gender perspective in relational sex education.

Learning objectives:

Students will acquire knowledge and skills that will enable them to prevent violations of equal opportunities for women and men (girls and boys), eliminate gender stereotypes and their negative consequences in the educational process, deepen gender democracy at school, and perceive the educational process from a gender perspective.

Class syllabus:

Brief outline of the course:

Definition of the terms: gender, sex, gender stereotypes, gender sensitive education, direct and indirect discrimination. Education and training from a gender perspective - theories of gender socialisation, feminist pedagogy, models of gender-sensitive pedagogy. Gender in the pedagogical process. Inequalities in school from a gender perspective. Language - gender insensitivity. Research, projects, development of study materials, methodologies - gender perspective. Gender aspects of marriage and parenthood/sexual relationship education in schools.

Academic year: 2023/2024	
University: Comenius University Bratislava	
Faculty: Faculty of Education	
Course ID: PdF.KH/B-HISde010/22	Course title: General history I.
Educational activities: Type of activities: lecture + seminar Number of hours: per week: 3 per level/semester: 39 Form of the course: on-site learning	
Type, volume, methods and workload of the student - additional information 2 hours lecture + 1-hour seminar/week, 33 hours total per semester, combined; (primarily full-time); 2P+1S (2 credits): 11 x 3 hours of direct instruction = 33 hours; 27 hours of exam preparation; a total of 60 hours of student work; discussion of the topic covered; incident method; experiential methods; e-learning; monologue methods;	
Number of credits: 3	
Recommended semester: 1.	
Educational level: I.	
Prerequisites:	
Course requirements: 80 % of the final exam grade is in the form of a test. 20% of the mark for active participation in discussions throughout the semester, which the student will receive if he/she participates in at least one-third of the discussions. The student will take the test at the end of the semester. A minimum of 91% is required for a final grade of A, a minimum of 81% for a grade of B, a minimum of 73% for a grade of C, a minimum of 66% for a grade of D, and a minimum of 60% for a grade of E. To pass the course, a minimum of 60% of the grade is required. The grade is awarded on a scale: A (100-91%, excellent - outstanding results, the student is knowledgeable and proficient in the subject matter, demonstrates creativity and critical thinking), B (90-81%, very good - above average standard, the student is knowledgeable about the issues, but critical thinking is borderline), C (80-73%, good - normal reliable work, the student does know his/her way around the issue, has learned, but cannot apply the knowledge gained to practice), D (72-66%, satisfactory - acceptable results, the student can orient himself/herself to the problem only at a basic level, his/her knowledge is fragmented, he/she does not demonstrate the ability to think critically and cannot apply the acquired knowledge to practice), E (65-60%, sufficient - the results meet the minimum criteria, the student can orient himself/ herself in the problem only with great difficulty, knows only the most basic knowledge, does not demonstrate the ability to think critically and cannot apply the acquired knowledge to practice), Fx (59-0%, insufficient - extra work is required, the student is unable to navigate the issues, does not master the most basic knowledge, does not demonstrate the ability to think critically)	
Learning outcomes:	

In the course World History I, the student acquires key facts from the prehistoric and ancient history of the world and Slovak provenance with emphasis on the historical development of European civilisation. The student develops historical thinking skills and evaluation of historical and cultural phenomena and contexts in the past with implications for the present. The student is able to analyse ancient civilisations, the causes of their flourishing and decline, and orientates himself/herself to significant personalities. Synthesises information and can update the acquired knowledge about the historical significance of ancient cultures and civilisations. The course is taught to prepare future teachers for their future profession.

Class syllabus:

The course focuses on deepening the knowledge of the development of prehistoric and ancient civilisations, emphasising the development of European society and Slovak provenance. The student will become familiar with the history of prehistory and antiquity through analysing the emergence and decline of individual cultures in the context of their natural conditions or environment. As a future teacher, the student can communicate the acquired knowledge to pupils. The course will concentrate on the following key topics:

- Introduction to the study of the history of prehistory and antiquity. The subject, division, historical sources, and methods of historical research.
- History of prehistory. Basic anthropogenesis. Chronology of the European prehistory, characteristics and periodisation of particular development periods (Paleolithic, Mesolithic, Neolithic, Eneolithic, Bronze Age, Iron Age) and cultures occurring on the territory of Slovakia.
- Characteristics of ancient Mesopotamia. Development of the civilisations of Sumer, Akkad, Babylonia, and Assyria.
- Ancient Near East. Characteristics of the development of ancient Israel, Persian and Elamite empires. A basic chronology and the most important rulers.
- Egypt and its neighbours in the Old, Middle, New and Late Empires. Characteristics of the specific features of Egyptian development. The Hittite and Mitanni empires. The struggle for hegemony in Asia Minor and the Near East. A basic chronology and the most important rulers.
- The Hittites and Mitanni. The struggle for hegemony in Asia Minor and the Near East. A basic chronology, and most important rulers.
- Aegean region - Minoan and Mycenaean civilisation. Homeric epics as a source of knowledge of the "dark period" of Greece, the archaic period of Greece, and the characteristics of conditions in Sparta and Athens.
- The peak of ancient Greek civilisation and the disputes in the Aegean. The Greco-Persian Wars, the Athenian Naval Society, Athenian society in the age of Pericles, characteristics of Sparta and its allies. Causes and periodisation of the Peloponnesian War.
- Theban hegemony, Greece under the domination of Macedonia. The reforms of Philip II and the time of Alexander of Macedon. The Diadochi and the division of the empire after Alexander's death. The emergence of the Hellenistic states and their struggle with Rome. Characteristics of conditions and historical development.
- The area of the western Mediterranean between 800 and 265 BC. Carthage, the Etruscans, the origins and beginnings of Rome, the early period of the Roman Republic, Greek colonisation in the western Mediterranean, and the conquest of Italy by the Romans.
- Emergence of the Roman Empire (264 - 30 BC). Punic wars and conquest of Hellenistic states, crisis and demise of the Republic, reforms of the Gracchus brothers, Marius' reform, Sulla. First and second triumvirate.
- The Roman Empire under the Principate (to 284 A.D.). The rise to power of Rome, barbarian Europe in this period, emphasised the territory of present-day Slovakia.
- Late Roman period (284-395). Characteristics of the Dominate and the whole of that period, up to the division of the Roman Empire. The decline of the Western Roman Empire and the emergence of

the barbarian kingdoms (395-476), migration of peoples, Slavs in the neighbourhood of the Roman Empire.

COURSE DESCRIPTION

Academic year: 2023/2024	
University: Comenius University Bratislava	
Faculty: Faculty of Education	
Course ID: PdF.KH/B-HISde002/22	Course title: General history II.
Educational activities: Type of activities: lecture Number of hours: per week: 2 per level/semester: 26 Form of the course: on-site learning	
Type, volume, methods and workload of the student - additional information Two hours lecture/week; total per semester 22 hours, combined; (primarily full-time). Student workload: 2P (3 credits): 11x 2 hours of direct instruction # 22 hours; 20 hours of preparation for midterm assessment; 35 hours of exam preparation. Total 77 hours of student work. Learning methods: lecture, discussion of the topic, heuristic method, situation analysis method, e-learning.	
Number of credits: 3	
Recommended semester: 2.	
Educational level: I.	
Prerequisites:	
Course requirements: 50% of the interim and 50% of the final assessment. The continuous assessment will consist of a written test in the last lecture, from which the student can obtain a maximum of 40 points, which is 40% of the total grade. 10% of the continuous assessment can be obtained for an active approach during the semester, consisting of asking questions in the discussion after each lecture. The student will take an oral examination during the examination period. In the oral examination, the student will draw two questions, the first on a broad historical issue and the second on a specific problem. The maximum score for both parts of the exam is 50 + 50 points. A minimum of 91 points is required for a final grade of A, a minimum of 81 points for a grade of B, a minimum of 73 points for a grade of C, a minimum of 66 points for a grade of D, and a minimum of 60 points for a grade of E. To pass the course, you must obtain a minimum of 60% of the marks. The grade is awarded on a scale: A (100-91%, excellent - outstanding results, the student is familiar with the subject matter, has mastered it, demonstrates a creative approach and the ability to think critically), B (90-81%, very good - above average standard, the student is knowledgeable about the issues, but critical thinking is borderline), C (80-73%, good - normal reliable work, the student does know his/her way around the subject, has learned the issue, but cannot apply the knowledge gained to practice), D (72-66%, satisfactory - acceptable results, the student can orient himself/herself to the problem only at a basic level, his/her knowledge is fragmented, he/she does not demonstrate the ability to think critically and cannot apply the acquired knowledge to practice),	

E (65-60%, sufficient - the results meet the minimum criteria, the student can navigate the issue only with great difficulty, knows only the most basic knowledge, does not demonstrate the ability to think critically and cannot apply the acquired knowledge to practice),

Fx (59-0%, insufficient - extra work is required, the student is unable to navigate the issues, does not master the most basic knowledge, and does not demonstrate the ability to think critically).

Learning outcomes:

The course aims to introduce the essential characteristics of the medieval world and its specificities from the end of the Western Roman Empire (476) to the discovery of America (1492). Based on the knowledge acquired, students will be able to analyse the basic categories of medieval society and its thought. They will learn about and be able to navigate the complex history of the Middle Ages. They will be able to analyse medieval European society and evaluate its historical and cultural significance for the present. Particular emphasis will be placed on acquiring knowledge in the development of Christianity and Islam. Adequate attention will also be paid to the history of Islam and non-European civilisations.

Class syllabus:

- The demise of the Western Roman Empire. Huns. Vandals. Visigoths. Ostrogoths. Longobards. Burgundians. Avars. Gepids. Bavarians.
- Early Middle Ages to the division of the Carolingian Empire. Treaty of Verdun (843). The emergence of the European "great nations".
- The Byzantine Empire. The Orthodox Church.
- Slavs in the early Middle Ages in the light of the sources. The emergence of Slavic states. The Norman expansion.
- Medieval Christianity. Religious orders - their importance and position in medieval society. The struggle for investiture. Bishoprics. Medieval education. Universities.
- Crusades. The Avignon captivity of the popes and the great schism.
- Mohammed and the rise of the Arab Empire. Life and culture in the Umayyad and Abbasid empires. Umayyad rule in the Iberian Peninsula.
- Political concepts in medieval Europe. History of England, France and the Holy Roman Empire. Hierarchical organisation of medieval society Individual and society. The Mongol Empire.
- Renaissance, humanism. A view of political events in the Apennine Peninsula.
- Extra-European civilisations. Overseas discoveries from 1415 to 1492.
- Economic history of the Middle Ages. Everyday life in the historical process.

COURSE DESCRIPTION

Academic year: 2023/2024	
University: Comenius University Bratislava	
Faculty: Faculty of Education	
Course ID: PdF.KH/B-HISde004/22	Course title: General history III.
Educational activities: Type of activities: lecture Number of hours: per week: 2 per level/semester: 26 Form of the course: on-site learning	
Type, volume, methods and workload of the student - additional information Type, scope and methods of educational activities: 2 hours lecture/week, a total of 24 hours per semester, attendance method Student workload: 2P (3 credits): 13x2 hours of direct instruction # 26 hours; 20 hours of preparation for midterm assessment; 30 hours of practice for the exam. Total 76 hours of student work. Learning methods: lecture, discussion of the topic covered, situation analysis method, fixation of the lectured information through a mid-term test (after the 7th topic), e-learning.	
Number of credits: 3	
Recommended semester: 3.	
Educational level: I.	
Prerequisites:	
Course requirements: 40% of the interim and 60% of the final assessment - test and oral examination. The student will take the test after the seventh topic and the oral examination in the examination period. The written test assesses the knowledge acquired in the first seven lectures. In the midterm evaluation, the test will account for 30%, and 10% will be awarded to the student for active participation in the lectures. This dynamic approach will ask the lecturer at least one question from the ongoing teaching. In the oral exam, the student will pull two questions. One will be on a historical issue, and the other will focus on a figure from early modern history. A minimum of 91 points is required for a final grade of A, a minimum of 81 points for a grade of B, a minimum of 73 points for a grade of C, a minimum of 66 points for a grade of D, and a minimum of 60 points for a grade of E. Credit will not be awarded to a student who accumulates less than 59 points. A (100-91%, excellent - outstanding performance, the student is knowledgeable and proficient in the subject matter, demonstrates creativity and critical thinking skills). Can actively gather information and creatively apply it to solve problems. B (90-81%, very good - above average standard, above average standard, the student is oriented to the issue, has mastery of it, but his/her critical, constructive thinking is weaker when analysing and evaluating historical events). C (80-73%, good-normal reliable work, normal dedicated work, the student knows how to navigate the issues, has learned the material, but cannot evaluate the knowledge gained critically and constructively).	

D (72-66%), satisfactory - acceptable performance, the student can navigate the issues at only a basic level, the student's knowledge is fragmented, and the student does not demonstrate the ability to think critically. He/she has a weak cross-cutting understanding).

E (65-60%, adequate - results meet minimum criteria, the student can navigate the issue with great difficulty, has only the most basic knowledge, and does not demonstrate the ability to think critically. Does not have cross-cutting knowledge).

Fx (59-0%, insufficient - extra work required, student cannot navigate the issues, does not master the most basic knowledge, does not demonstrate the ability to think critically).

Learning outcomes:

The course aims to familiarise students with the period of the Modern Age (1492-1789). The student will acquire knowledge and be able to orientate himself/herself in the issues of the fundamental change of society from the Middle Ages to the modern period and in the modern society itself. The student will be able to analyse and categorise the principles of the functioning of society and its cultural and economic developments. Gain new knowledge of overseas discoveries, the price revolution and changes in modern society's economic and social life. The student will be able to navigate the complex religious situation during and after the Reformation (confessionalisation, disciplinisation). The student will become familiar with the causes and historical place of the phenomenon of absolutism in the history of the early modern period.

Class syllabus:

- How to teach about modernity in schools.
- Early modernism. Explanation of the concept. Chronology.
- Overseas discoveries. The formation of the Spanish colonial dominion. The four voyages of Christopher Columbus. Fernao Magalhaes. The origins of the English and French colonial conquests. The economic and social consequences of overseas discoveries. The price revolution.
- The origins of the Reformation. Martin Luther. The Second Reformation. Ulrich Zwingli. John Calvin.
- Recatholization. Counter-Reformation. Council of Trent. Confessionalization. Disciplinization.
- The Habsburgs in the 16th and 17th centuries. England in the 16th century. France in the 16th century.
- Expansion of the Ottoman Empire in the 16th and 17th centuries.
- Eastern Europe in the 16th and 17th centuries. The emergence of the Polish-Lithuanian Commonwealth. Russia in the 16th and 17th centuries.
- Political, economic and cultural conditions in Europe in the late 16th and early 17th centuries.
- The Thirty Years' War. The English Revolution. The absolutism of Louis XIV.
- Russia under Peter I. Great and Catherine II. Europe 1714 - 1748 (alliance system), the emergence and development of Prussia.
- Colonial expansion in the 17th and 18th centuries. The American Revolution.
- Political, economic and cultural conditions in Europe in the second half of the 17th and 18th centuries. The daily life of people in the modern period.

COURSE DESCRIPTION

Academic year: 2023/2024	
University: Comenius University Bratislava	
Faculty: Faculty of Education	
Course ID: PdF.KH/B-HISde006/22	Course title: General history IV.
Educational activities: Type of activities: lecture Number of hours: per week: 2 per level/semester: 26 Form of the course: on-site learning	
Type, volume, methods and workload of the student - additional information 2 hours lecture/week, 22 hours total per semester, combined form; (primarily in person) Student workload: 2P (3 credits): 11 x 2 hours of direct instruction = 22 hours; 18 hours of preparation for mid-term evaluation; 50 hours of exam preparation; 90 hours of student work in total. Educational methods: monological method, problem-solving exercises; discussion of the subject; discussion of the topic; e-learning	
Number of credits: 3	
Recommended semester: 4.	
Educational level: I.	
Prerequisites:	
Course requirements: 40% of the interim and 60% of the final evaluation. The student takes the test in the middle of Semester, from which he/she may obtain a maximum of 30 points. This represents 30 % of the grade. 10 %. The student will receive a grade for an active approach in lectures, which will consist of the student asking the teacher at least one question from the material covered during the semester. In the examination period, the student will take an oral examination. As part of the oral examination, the student takes one major question focusing on the focal topic and answers five minor questions focusing on a general overview of the period. The rating is awarded on a scale: A (excellent - excellent results, the student is oriented in the issue, has mastered it, demonstrates a creative approach and the ability to think critically), B (very good - above average standard, the student is knowledgeable about the subject matter, but critical thinking is borderline), C (good - normal reliable work, the student does know his/her way around the subject, has learned the subject, but cannot apply the knowledge gained to practice), D (satisfactory - acceptable results, the student can orient himself/herself to the problem only at a basic level, his/her knowledge is fragmented, he/she does not demonstrate the ability to think critically and cannot apply the acquired knowledge to practice), E (sufficient - the results meet the minimum criteria, the student can navigate the issue only with great difficulty, knows only the most basic knowledge, does not demonstrate the ability to think critically and cannot apply the acquired knowledge to practice),	

Fx (insufficient - extra work is required, the student is unable to navigate the issues, does not master the most basic understanding, and does not demonstrate the ability to think critically).

Learning outcomes:

The student acquires the necessary knowledge and understanding of the political, economic and social development of the European and non-European world between 1789 and 1914. After successful completion, the student should be able to navigate the fundamental issues of general modern history. The course is intended to introduce students to general history from the late 18th century, from the Great French Revolution of 1789-1799, to the beginning of World War I. War, to provide a plastic picture of the transformation of the society during the long 19th century. Student Gain in-depth knowledge and understanding of the 19th century period in world history. They will master information that will enable them to think critically and evaluate this period objectively in the context of the history of individual European states. They will be able to navigate through more complex. The student will be able to deal with more complex problems and master the basic historical concepts of political development. History of the 19th century special emphasis on the study of history because it is in this period that social phenomena and processes have directly influenced society's development up to the present day. Student By taking this course, the student can evaluate the significance of this period for more recent history.

Class syllabus:

Introduction to 19th century history
The Industrial Revolution
The Great French Revolution of 1789-1799
The Napoleonic period in France and Europe, Congress of Vienna
The European system 1815-1848 and its defence
Revolutionary events in Europe in the 1820s, 1830s and 1848-1849
The emergence of nation-states (Italy and Germany)
Great Britain and France in the 19th century
Currents of thought and political trends in the 19th century
The USA in the 19th century, the Civil War
Russian Empire to World War I
Eastern Question to World War I
Fundamental trends in the development of European colonialism in the 19th century
Europe on the road to the First World War

COURSE DESCRIPTION

Academic year: 2023/2024	
University: Comenius University Bratislava	
Faculty: Faculty of Education	
Course ID: PdF.KH/B-HISde009/22	Course title: General history V.
Educational activities: Type of activities: lecture Number of hours: per week: 4 per level/semester: 52 Form of the course: on-site learning	
Type, volume, methods and workload of the student - additional information 4 hours of lecture per week/ 44 hours per semester, combined method primarily face-to-face dialogic form of lecture; use of feedback to verify the functionality of the form of transmitted information, fixation of lectured information through continuous evaluation (test after 7 lectures)	
Number of credits: 6	
Recommended semester: 5.	
Educational level: I.	
Prerequisites:	
Course requirements: Prerequisites for successful completion of the course: 30% of the interim and 70% of the final assessment. The student takes a test during the semester and an oral exam during the exam period. At least 91 points are required to obtain a final grade of A, at least 81 points to obtain a B grade, at least 73 points for a C grade, at least 66 points for a D grade, and at least 60 points for an E grade. Credits will not be granted to a student who does not obtain the prescribed number of points in any part of both conditions. To successfully complete the subject, it is necessary to obtain at least 60% of the point evaluation. A (100-91%, excellent – excellent, outstanding results - the student fully orients himself in the issue, while at the same time he is aware of the basic relevance and degree of objectivity of the acquired historical knowledge and, in basic principles, the ways of transferring them into the (teaching) practice of history B (90-81%, very good - above average standard - the student is able to orientate himself in the relevant historical issue, his ability to analyse and apply the acquired knowledge to the current conditions of his world and transfer them to teaching practice is, however, gapped and limited C (80-73%, good – conventional reliable work, the student is able to orientate himself in the historical issues he has just learned, but he is unable to transpose the acquired knowledge entirely on his own to other desirable levels of historical (teacher) education D (72-66%, satisfactory - acceptable results, the student satisfactorily reproduces basic historical knowledge, but in the light of the overall context of the issue, his knowledge is fragmentary, while he does not demonstrate the ability to generalise the learned knowledge E (65-60%, sufficient – the results meet the minimum criteria, the student reproduces basic historical factography only with great difficulty, he only masters its most essential material, he cannot summarise or apply the knowledge gained in practice,	

Fx (59-0%, insufficient – additional work is required, the student does not know how to navigate the issue, does not master basic factography, not even demonstrates the ability to think independently)

Learning outcomes:

The lectures' cross-sectional form reflects teachers' goals in teaching History at the bachelor's level of education. This means that the students of the course will get a basic overview of the essential features, trends and periodisation milestones of the 20th Century Modern History. At the end of the course, they will be able to interpret the main features of the causes of different evaluations of their phenomena or relevant historical processes in various current academic historical schools. They will become more familiar with the mutual ties of the social, economic and political history of the 20th century, and they will be specifically drawn to the European and notice the Central European context of general history, all of which is always mentioned with a reminder of the particularities of the interpretations of these ties in School History Teaching.

Class syllabus:

Cross-sectional analysis of essential features, trends and periodisation milestones of the 20th century modern history:

- basic theoretical problems of 20th century History. (History of the 20th century as so-called "short history" and other perspectives, key historical terminology used in the interpretation of the history of the 20th century and its meaning)
- recapitulation of the war conflict 1914-1918 and the Revolutions in Russia
- the world after the First World War: the Versailles system and its influence on the development of international political and economic relations, the interests of the Powers versus the problems of small states, the rise of large non-European countries, the birth of communist socialism and the German question between the two wars, issues of democracy
- totalitarian states on the path of aggression: Germany and the USSR and the causes of the (European) war, Japan and the war outside Europe
- the end of old Europe - the development, outcome and balance of the Second World War
- the interwar period through the eyes of interdisciplinary research: a view of the interwar society with the help of historical sociology, demography, cultural studies
- the world after the Second World War: from the final negotiations of the Allies to the origin and course of the Cold War, the formation of the Soviet bloc and the practice of communist socialism, the possibilities of the welfare state presented in Western European development, Western European integration and the basic trends and consequences of globalisation.
- the economic boom of European and non-European countries, the disintegration of colonial ideology and the "third world" on the international scene
- from the "golden sixties" to the first economic and cultural upheavals of developed countries and a new stage of military-political confrontation between the West and the East, the results of the Brezhnev USSR and the countries of Central and Eastern Europe during the period of validity of The Brezhnev Doctrine, attempts to reform the Soviet system, the collapse of the USSR, the results of the Chinese communist model and the collapse of the international communist movement
- the end of the Cold War on the international scene and question marks over models of global stability: who were the winners?

COURSE DESCRIPTION

Academic year: 2023/2024	
University: Comenius University Bratislava	
Faculty: Faculty of Education	
Course ID: PdF.KPg/B-VUZde004/22	Course title: General didactics
Educational activities: Type of activities: seminar / lecture Number of hours: per week: 2 / 1 per level/semester: 26 / 13 Form of the course: on-site learning	
Number of credits: 4	
Recommended semester: 2., 4.	
Educational level: I.	
Prerequisites:	
Course requirements: Recommended semester: 1st - 4th semester Level of study: 1st degree Prerequisite subjects: none Prerequisites for successful completion of the course: The course is completed by examination, the weighting of the interim and final assessment is 50/50. Students work on continuous work during the semester (setting objectives, taxonomy of objectives, creation of material aids, creation of didactic test, ...). Intermediate works are evaluated for 20 points. At the end of the intermediate teaching they hand in the semester work - methodical preparation for the teaching unit. The semester work is evaluated for 30 points. During the examination period, they take an oral final examination. The final assessment is worth 50 points. The successful completion of the course is subject to obtaining at least 60 % of the maximum possible grade for the course. The rating is awarded on a scale: A (100-94%, excellent - outstanding results), B (93-86%, very good - above average standard), C (85-76%, well - normal reliable work), D (75-68%, satisfactory - acceptable results), E (67-60%, sufficient - results meet minimum criteria), Fx (59-0%, insufficient - extra work required) Characteristics of student performance: A - excellent results: the student is able to apply procedures in the processes of formulating goals according to different taxonomies of goals. The student can analyze and classify the methods and forms presented in school documents. The student is able to create a portfolio of his/her own outcomes according to the intermediate assignments in accordance with the acquired knowledge and the required criteria. The student can critically, factually assess and evaluate the solutions presented by others, and can evaluate the quality of his/her own work. B - above average standard: the student can apply the procedures in the processes of formulating goals according to different taxonomies of goals. The student can analyze and classify the methods and forms outlined in school documents. Above-average orientation in general didactics, above-	

average communication skills, completion of assigned tasks. Critical evaluation is at borderline level.

C - normal reliable work: the student is able to work out the assigned tasks, average orientation in the problems of general didactics. Can apply the procedures in the processes according to the model and with the teacher's help. Average activity on intermediate assignments.

D - acceptable results: the student is able to work out intermediate tasks with the help of the teacher, average orientation in general didactics, average student activity.

E - the results meet the minimum criteria: the student can define and define basic didactic concepts and elements, but cannot define them in educational contexts. The student is able to develop intermediate tasks only with the help of the teacher. Critical assessment and evaluation are absent.

FX - extra work is required: the student has very little knowledge of basic didactic terminology, cannot apply it in the outputs, there is no application of procedures, correct elaboration of tasks. Critical assessment and evaluation are absent.

Scale of assessment (preliminary/final): 50/50

Learning outcomes:

Learning outcomes:

Learning objectives and outcomes:

The student will acquire knowledge of the importance of general didactics and its essence for successful functioning in the practice of the teaching profession. The student will be able to define the subject and methodological profile of didactics, develop knowledge, competences and attitudes associated with the teaching profession, knowledge and competences of planning and organizing pupils' learning activities. The student is able to define general didactics in the system of pedagogical sciences, list and characterise its functions and significance. Characterise the personality of the pupil and the teacher in educational contexts. Characterise and analyse basic school documents and explain their interrelation, compare their structure. Analyse the curriculum from a didactic point of view, defend and present their solution. Apply procedures in the processes of formulating specific objectives according to different taxonomies of objectives. Recognise the nature and importance of the application of didactic principles in the teaching process. Orient themselves in the theories and concepts of teaching. Can characterise different approaches to the classification of methods and organisational forms of the teaching process. Analyse and classify the methods and forms presented in school documents. Create a portfolio of own outcomes in general didactics in accordance with the acquired knowledge. Be able to critically and factually assess and evaluate the outputs of others.

Transferable competences:

By discussing, solving and presenting the results of continuously assigned tasks, students will develop their analytical and critical thinking, communication skills, interpersonal skills, organizational skills, digital skills, lecturing and metacognitive skills. Students will be able to use the acquired knowledge and competences creatively in the study of other pedagogical disciplines and in their future pedagogical practice.

Class syllabus:

Brief outline of the course:

General didactics as a basic pedagogical discipline studies the educational process in all its complexity. Didactics helps students to develop and become aware of basic pedagogical knowledge, to understand didactic interrelationships in teaching. It emphasizes the basic concepts and theories of teaching, for the formation of students' individual conceptions of teaching. Makes accessible the formation and essence of basic didactic principles, pedagogical documents and objectives in the teaching process. It leads students to confront theory with practice, to understand a concept in relation to a specific educational activity, to the specific work of the teacher, but above all in relation

to the pupil. It characterises the whole process of preparing a teaching unit, through the interaction of teacher and pupils, i.e. through methods, organisational forms and material means.

Topics:

Historical and contemporary conceptions of general didactics. General didactics as a basic pedagogical discipline and its relation to other sciences. The personality of the pupil and the teacher. Basic pedagogical documents. Didactic principles. Pupils' learning styles and teachers' teaching styles. Didactical analysis of the curriculum. Educational objectives, taxonomies of objectives. Theories and concepts of education. Traditional and activating teaching methods. System of organizational forms. Teaching process, its stages and their analysis. Material teaching means - teaching aids, didactic technology and their importance. Assessment, screening, classification.

COURSE DESCRIPTION

Academic year: 2023/2024	
University: Comenius University Bratislava	
Faculty: Faculty of Education	
Course ID: PdF.KPg/B-VUZde004/22	Course title: General didactics
Educational activities: Type of activities: seminar / lecture Number of hours: per week: 2 / 1 per level/semester: 26 / 13 Form of the course: on-site learning	
Number of credits: 4	
Recommended semester: 1., 3.	
Educational level: I.	
Prerequisites:	
Course requirements: Recommended semester: 1st - 4th semester Level of study: 1st degree Prerequisite subjects: none Prerequisites for successful completion of the course: The course is completed by examination, the weighting of the interim and final assessment is 50/50. Students work on continuous work during the semester (setting objectives, taxonomy of objectives, creation of material aids, creation of didactic test, ...). Intermediate works are evaluated for 20 points. At the end of the intermediate teaching they hand in the semester work - methodical preparation for the teaching unit. The semester work is evaluated for 30 points. During the examination period, they take an oral final examination. The final assessment is worth 50 points. The successful completion of the course is subject to obtaining at least 60 % of the maximum possible grade for the course. The rating is awarded on a scale: A (100-94%, excellent - outstanding results), B (93-86%, very good - above average standard), C (85-76%, well - normal reliable work), D (75-68%, satisfactory - acceptable results), E (67-60%, sufficient - results meet minimum criteria), Fx (59-0%, insufficient - extra work required) Characteristics of student performance: A - excellent results: the student is able to apply procedures in the processes of formulating goals according to different taxonomies of goals. The student can analyze and classify the methods and forms presented in school documents. The student is able to create a portfolio of his/her own outcomes according to the intermediate assignments in accordance with the acquired knowledge and the required criteria. The student can critically, factually assess and evaluate the solutions presented by others, and can evaluate the quality of his/her own work. B - above average standard: the student can apply the procedures in the processes of formulating goals according to different taxonomies of goals. The student can analyze and classify the methods and forms outlined in school documents. Above-average orientation in general didactics, above-	

average communication skills, completion of assigned tasks. Critical evaluation is at borderline level.

C - normal reliable work: the student is able to work out the assigned tasks, average orientation in the problems of general didactics. Can apply the procedures in the processes according to the model and with the teacher's help. Average activity on intermediate assignments.

D - acceptable results: the student is able to work out intermediate tasks with the help of the teacher, average orientation in general didactics, average student activity.

E - the results meet the minimum criteria: the student can define and define basic didactic concepts and elements, but cannot define them in educational contexts. The student is able to develop intermediate tasks only with the help of the teacher. Critical assessment and evaluation are absent.

FX - extra work is required: the student has very little knowledge of basic didactic terminology, cannot apply it in the outputs, there is no application of procedures, correct elaboration of tasks. Critical assessment and evaluation are absent.

Scale of assessment (preliminary/final): 50/50

Learning outcomes:

Learning outcomes:

Learning objectives and outcomes:

The student will acquire knowledge of the importance of general didactics and its essence for successful functioning in the practice of the teaching profession. The student will be able to define the subject and methodological profile of didactics, develop knowledge, competences and attitudes associated with the teaching profession, knowledge and competences of planning and organizing pupils' learning activities. The student is able to define general didactics in the system of pedagogical sciences, list and characterise its functions and significance. Characterise the personality of the pupil and the teacher in educational contexts. Characterise and analyse basic school documents and explain their interrelation, compare their structure. Analyse the curriculum from a didactic point of view, defend and present their solution. Apply procedures in the processes of formulating specific objectives according to different taxonomies of objectives. Recognise the nature and importance of the application of didactic principles in the teaching process. Orient themselves in the theories and concepts of teaching. Can characterise different approaches to the classification of methods and organisational forms of the teaching process. Analyse and classify the methods and forms presented in school documents. Create a portfolio of own outcomes in general didactics in accordance with the acquired knowledge. Be able to critically and factually assess and evaluate the outputs of others.

Transferable competences:

By discussing, solving and presenting the results of continuously assigned tasks, students will develop their analytical and critical thinking, communication skills, interpersonal skills, organizational skills, digital skills, lecturing and metacognitive skills. Students will be able to use the acquired knowledge and competences creatively in the study of other pedagogical disciplines and in their future pedagogical practice.

Class syllabus:

Brief outline of the course:

General didactics as a basic pedagogical discipline studies the educational process in all its complexity. Didactics helps students to develop and become aware of basic pedagogical knowledge, to understand didactic interrelationships in teaching. It emphasizes the basic concepts and theories of teaching, for the formation of students' individual conceptions of teaching. Makes accessible the formation and essence of basic didactic principles, pedagogical documents and objectives in the teaching process. It leads students to confront theory with practice, to understand a concept in relation to a specific educational activity, to the specific work of the teacher, but above all in relation

to the pupil. It characterises the whole process of preparing a teaching unit, through the interaction of teacher and pupils, i.e. through methods, organisational forms and material means.

Topics:

Historical and contemporary conceptions of general didactics. General didactics as a basic pedagogical discipline and its relation to other sciences. The personality of the pupil and the teacher. Basic pedagogical documents. Didactic principles. Pupils' learning styles and teachers' teaching styles. Didactical analysis of the curriculum. Educational objectives, taxonomies of objectives. Theories and concepts of education. Traditional and activating teaching methods. System of organizational forms. Teaching process, its stages and their analysis. Material teaching means - teaching aids, didactic technology and their importance. Assessment, screening, classification.

COURSE DESCRIPTION

Academic year: 2023/2024	
University: Comenius University Bratislava	
Faculty: Faculty of Education	
Course ID: PdF.KVV/B-VU-de022/22	Course title: Graphic design
Educational activities: Type of activities: seminar Number of hours: per week: 3 per level/semester: 39 Form of the course: on-site learning	
Type, volume, methods and workload of the student - additional information Scope, type/method of teaching and organizational form: 3 hours per week seminar, total 33 hours per semester, combined form; (primarily by attendance). Student workload: 3S, (3 credits): 11x3 hours of direct instruction = 33 hours; 15 hours preparation of term paper, 20 hours continuous assignments; 7 hours defense and documentation of term paper. Total 75 hours of student work. Teaching methods: lecture, explanation, instruction on the subject; interview, discussion on the topic; use and incorporation of the knowledge from the instruction into the term papers.	
Number of credits: 3	
Recommended semester: 6.	
Educational level: I.	
Prerequisites: PdF.KVV/B-VU-de008/22 - Basics of visual communication	
Course requirements: The course is completed with an evaluation, final presentation and defence of the completed semester works demonstrating the fulfilment of the basic requirements for their correct implementation in the field of visual communication, with emphasis on the issues of logotype, pictogram and font. Theoretical knowledge in the field of visual communication, with emphasis on the issues of logotype, pictogram and typeface 0-10 points; ability to apply theoretical knowledge to the implementation of a set of works in the field of graphic design 0-80; defence, documentation of assessed semester works 0-10 points. In order to obtain the final grade A it is necessary to obtain at least 91 points, to obtain grade B at least 81 points, to obtain grade C at least 73 points, to obtain grade D at least 66 points and to obtain grade E at least 60 points. To pass the course, a minimum of 60% of the marks must be obtained. Credit will not be awarded to a student who fails to complete any of the assigned topics, fails to attend a minimum number of midterm tutorials, or fails to submit the required documentation of a set of term papers. Grades are awarded on a scale of: A (100-91%, excellent - outstanding), B (90-81%, very good - above average standard), C (80-73%, good - normal reliable work),	

D (72-66%, satisfactory - acceptable results), E (65-60%, satisfactory - results meet minimum criteria), Fx (59-0%, inadequate - extra work required).
Learning outcomes: Learning objectives and outcomes: The aim of education within the course is to acquire theoretical knowledge and practical experience in the field of visual communication, with emphasis on the issues of logotype, pictogram and font. After completing the course: • possesses the basic structural competences (whether in the intellectual, motor, creative-sensory level) in his/her subject specialization, • is able to cooperate in solving professional projects in the field of subject specialization focused on graphic design, • is able to analyse and reflect on the general-pedagogical principles of education and teaching (in the intent of visual communication) in school practice, • has basic practical skills in the field of graphic design, • can actively use digital technologies to support the educational process, • - understands and can apply the basic concepts and rules of graphic design to pedagogical practice and in the creation of simple promotional material.
Class syllabus: The course focuses on graphic solutions in the field of visual communication based on the logotype, pictogram and typeface and the expressive elements that make them up. It is assumed that the knowledge from the course Fundamentals of Visual Communication will be used. The course aims to work theoretically and practically with the concept of visual communication as a space for sharing ideas through digital media. The student will be able to make practical use of the acquired knowledge in his/her future teaching activities.

COURSE DESCRIPTION

Academic year: 2023/2024	
University: Comenius University Bratislava	
Faculty: Faculty of Education	
Course ID: PdF.KVV/B-VU-de019/22	Course title: Graphics
Educational activities: Type of activities: seminar Number of hours: per week: 3 per level/semester: 39 Form of the course: on-site learning	
Type, volume, methods and workload of the student - additional information Scope, type/method of teaching and organizational form: 3 hours per week seminar, total 33 hours per semester, combined form; (primarily by attendance). Student workload: 3S, (3 credits): 11x3 hours of direct instruction = 33 hours; 15 hours of studying theoretical knowledge on the issue of graphics, focused on printing in depth; 21 hours of work on assignments (application of knowledge from instruction to the creation of a set of term papers in the form of graphic sheets); 5 documentation, digitization, archiving of a set of term papers and preparation for the defense; 1 defense and reflection of a set of term papers. A total of 75 hours of student work. Teaching methods: Combination of monological, dialogical and practical methods: lecturing, interpretation, explanation, narration, briefing on the subject; interview, discussion, polemic on the given topic; application of knowledge from the interpretation into student's works on the assigned topics, which are continuously consulted by the teacher.	
Number of credits: 3	
Recommended semester: 3., 5.	
Educational level: I.	
Prerequisites: PdF.KVV/B-VU-de005/22 - Basics of graphics	
Course requirements: Course completion requirements: The course is completed with an evaluation by the 13th week of the semester, a final presentation and defense of a set of completed term papers demonstrating the fulfillment of the basic requirements for their proper implementation in the field of graphic media, with an emphasis on the classical graphic techniques that we use in Intaglio. Participation in ongoing consultations of the completed works is also a prerequisite. Theoretical knowledge in the field of graphic media with emphasis on classical graphic techniques used in Intaglio 0-10 points; ability to apply theoretical knowledge to the realization of graphic sheets on the assigned topics using the graphic techniques 0-80 points; documentation, digitization, archiving of a set of semester works, their defense and the level of commenting on the evaluated works 0-10 points. A minimum of 91 points is required for a final grade of A, a minimum of 81 points for a grade of B, a minimum of 73 points for a grade of C, a minimum of 66 points for a grade of D, and a minimum of 60 points for a grade of E. To pass the course you must obtain a minimum of 60% of	

the marks. Credit will not be awarded to a student who fails to complete any of the assigned topics, fails to produce the required number of graphic worksheets at the required level, fails to participate in a minimum number of interim consultations, or fails to submit the required documentation of a set of term papers.

Grades are awarded on a scale:

A (100-91%, excellent - outstanding results)

B (90-81%, very good - above average standard)

C (80-73%, good - normal reliable work)

D (72-66%, satisfactory - acceptable results)

E (65-60%, satisfactory - results meet minimum criteria)

Fx (59-0%, inadequate - extra work required)

Learning outcomes:

Learning objectives and outcomes:

The aim of education within the given course is to gain theoretical knowledge of basic characteristics and concepts and practical experience in the field of graphic media with emphasis on classical graphic techniques used in intaglio printing (mechanical - linear and flat, chemical - linear and flat).

Upon completion of the course, the student will:

- Possesses the basic structural competencies (whether intellectual, motor, creative-sensory) in his/her subject specialization,
- possesses basic practical skills in the visual medium of printmaking with an emphasis on intaglio printing,
- - can present his/her skills and abilities in his/her subject specialisation.

Class syllabus:

The course expands the fundamentals of printmaking to include more detailed attributes of work in this area of art within the individual styles of art history and the most not only world, but also Slovak most important representatives. Theoretical knowledge is applied to the students' work with an emphasis on intaglio classical techniques.

Course ID: PdF.KH/B-HISde034/22	Course title: Historic proseminar
Educational activities: Type of activities: seminar Number of hours: per week: 3 per level/semester: 39 Form of the course: on-site learning	
Type, volume, methods and workload of the student - additional information 3 hours lecture/week, 33 hours total per semester, combined form; (primarily in person) Student workload: 11x 3 hours of direct instruction = 33 hours; 42 hours of preparation for midterm evaluation; Total of 75 hours of student work. Educational methods: discussion of the topic; small group work; problem-solving tasks, e-learning	
Number of credits: 3	
Recommended semester: 1.	
Educational level: I.	
Prerequisites:	
Course requirements: 100% of the intermediate assessment. Seminar paper on a selected topic - processed according to the assignment, which is handed in before the beginning of the examination period. A minimum of 91 points is required for a final grade of A, a minimum of 81 points for a grade of B, a minimum of 73 points for a grade of C, a minimum of 66 points for a grade of D and a minimum of 60 points for a grade of E. Credit will not be awarded to students who obtain less than 15 points in any of the four written examinations. To pass the course, a minimum score of 60% is required. The rating is awarded on a scale: A (100-91%, excellent - excellent results, the student is oriented in the issue, has mastered it, demonstrates a creative approach and the ability to think critically), B (90-81%, very good - above average standard, the student is knowledgeable about the subject matter, but critical thinking is borderline), C (80-73%, good - normal reliable work, the student does know his/her way around the issue, has learned, but cannot apply the knowledge gained to practice), D (72-66%, satisfactory - acceptable results, the student can orient himself/herself to the problem only at a basic level, his/her knowledge is fragmented, he/she does not demonstrate the ability to think critically and cannot apply the acquired knowledge to practice), E (65-60%, sufficient - the results meet the minimum criteria, the student can orient himself/herself in the problem only with great difficulty, knows only the most basic knowledge, does not demonstrate the ability to think critically and cannot apply the acquired knowledge to practice), Fx (59-0%, insufficient - extra work is required, the student is unable to navigate the issues, does not master the most basic knowledge, does not demonstrate the ability to think critically)	
Learning outcomes:	

The student will learn to work practically with professional historical literature and sources and apply a historian's work methods within the course. The course will enable the student to acquire basic knowledge in the field of bibliography, work with historical sources and literature, and the method of citation, which will be used during their studies when writing seminar and thesis papers in future pedagogical and professional work. They will acquire the ability to combine theoretical knowledge with practical skills.																				
Class syllabus: The course will focus on the following key topics: - 1. Libraries and their use for the student of history - 2. Introduction to archives and their functioning - 3. Definition of the topic of the term paper - 4. Professional literature and how it differs from popular literature - 5. Historical periodicals - 6. Working with bibliographies - 7. Working with online library catalogues - 8. Use of digitised historical press and literature - 9. Working with specialist literature - extracts, card catalogue - 10. Bibliographic reference and citation - 11. The writing process - 12. Ethics of a historian's work

COURSE DESCRIPTION

Academic year: 2023/2024	
University: Comenius University Bratislava	
Faculty: Faculty of Education	
Course ID: PdF.KH/B-HISde019/22	Course title: Historical geography
Educational activities: Type of activities: seminar Number of hours: per week: 2 per level/semester: 26 Form of the course: on-site learning	
Type, volume, methods and workload of the student - additional information Two hours seminar/week, 22 hours total per semester, combined; (primarily full-time); 2S (2 credits): 11 x 2 hours of direct instruction = 22 hours; 38 hours of exam preparation; a total of 60 hours of student work; discussion of the topic covered; incident method; experiential methods; e-learning; monologue methods.	
Number of credits: 2	
Recommended semester: 2.	
Educational level: I.	
Prerequisites:	
Course requirements: 80% of the final exam grade is in the form of a test. 20% of the grade for active participation in discussions throughout the semester, which the student will receive if he/she participates in at least one-third of the discussions. The student will take the test at the end of the semester. A minimum of 91% is required for a final grade of A, a minimum of 81% for a grade of B, a minimum of 73% for a grade of C, a minimum of 66% for a grade of D, and a minimum of 60% for a grade of E. You must earn a minimum grade of 60% to pass the course. The grade is awarded on a scale: A (100-91%, excellent - outstanding results, the student is knowledgeable and proficient in the subject matter, demonstrates creativity and critical thinking), B (90-81%, very good - above average standard, the student is familiar with the issues, but critical thinking is borderline), C (80-73%, good - normal reliable work, the student does know his/her way around the issue, has learned, but cannot apply the knowledge gained to practice), D (72-66%, satisfactory - acceptable results, the student can orient himself/herself to the problem only at a basic level, his/her knowledge is fragmented, he/she does not demonstrate the ability to think critically and cannot apply the acquired knowledge to practice), E (65-60%, sufficient - the results meet the minimum criteria, the student can orientate himself/herself in the problem only with great difficulty, he/she knows only the most basic knowledge, does not demonstrate the ability to think critically and cannot apply the acquired knowledge to practice), Fx (59-0%, insufficient - extra work is required, the student is unable to navigate the issues, does not master the most basic knowledge, does not demonstrate the ability to think critically)	
Learning outcomes:	

In the course Historical Geography, the student learns key facts from the historical development of geography in the broadest sense of the word. The student develops critical and historical thinking skills. The student is able to work with historical maps and knows the historical development of historical territories related to the history of Central Europe. Physically orientates oneself in the landscape (environment) by being able to define individual elements and human-geographical relics of the landscape. The student knows the basic orientation of the discipline and its focal problems. The course is taught in the context of preparing future teachers for their profession so that the student can use both historical and contemporary maps in the educational process.

Class syllabus:

The course aims to deepen the knowledge of the cartographic development of prehistory, ancient civilisations, the Middle Ages, modern times and the modern history of European civilisation. It also emphasises the history of the cartography of Slovak provenance. The course includes an introductory survey of the problems of the environmental history of the globalised world. As a future teacher, the student will also be able to communicate the acquired knowledge to pupils - e.g. when working with electronic databases containing historical maps. The course will concentrate on the following key topics:

- What is historical geography; definitions, methods and sources
- Physical-geographical and human-geographical relics of the landscape
- Environmental history - historical development and current trends
- Cartography and the historical development of the earliest maps I (prehistoric and ancient Greece)
- Historical development of maps II (ancient Rome, medieval and modern times)
- History of the cartographic development of the territory of Slovakia from the Middle Ages to the 20th century
- Working with maps of the so-called military mapping
- Development and changes in the geographic-political boundaries of Slovakia
- Historical territories of Central and South-Eastern Europe
- Excursion
- Historical geography in the training of history teachers
- Use of historical geography in practice

COURSE DESCRIPTION

Academic year: 2023/2024	
University: Comenius University Bratislava	
Faculty: Faculty of Education	
Course ID: PdF.KH/B-HISde001/22	Course title: History of Slovakia I.
Educational activities: Type of activities: lecture Number of hours: per week: 2 per level/semester: 26 Form of the course: on-site learning	
Type, volume, methods and workload of the student - additional information 2 hours lecture /week, a total of 22 hours per semester, combined form; (primarily full-time) Student workload: 2L (4 credits): 11x 2 hours of direct teaching # 22 hours; 30 hours preparation for mid-term evaluation; 50 hours exam preparation. Total 102 hours of student work. Learning methods: lecture, discussion of the topic covered; situation analysis method; e-learning.	
Number of credits: 4	
Recommended semester: 2.	
Educational level: I.	
Prerequisites:	
Course requirements: 50% of the interim and 50% of the final evaluation. The continuous assessment will consist of a written test in the last lecture, from which the student can obtain a maximum of 40 points, which is 40% of the total grade. 10% of the continuous assessment can be obtained for an active approach during the semester, which will consist, for example, of asking questions in the discussion after each lecture. The student will take an oral examination during the examination period. In the oral examination, the student will draw two questions, the first on a broad historical issue and the second on a specific problem. The maximum score for both parts of the exam is 50 + 50 points. A minimum of 91 points is required for a final grade of A, a minimum of 81 points for a grade of B, a minimum of 73 points for a grade of C, a minimum of 66 points for a grade of D, and a minimum of 60 points for a grade of E. To pass the course, you must obtain a minimum of 60% of the marks. The rating is awarded on a scale: A (100-91%, excellent - excellent results, the student is oriented in the issue, has mastered it, demonstrates a creative approach and the ability to think critically), B (90-81%, very good - above average standard, the student is familiar with the issues, but critical thinking is borderline), C (80-73%, good - normal reliable work, the student does know his/her way around the subject, has learned the issue, but cannot apply the knowledge gained to practice), D (72-66%, satisfactory - acceptable results, the student can orient himself/herself to the problem only at a basic level, his/her knowledge is fragmented, he/she does not demonstrate the ability to think critically and cannot apply the acquired knowledge to practice), E (65-60%, sufficient - the results meet the minimum criteria, the student can navigate the issue only with great difficulty, knows only the most basic knowledge, does not demonstrate the ability to think critically and cannot apply the acquired knowledge to practice),	

Fx (59-0%, insufficient - extra work is required, the student is unable to navigate the issues, does not master the most basic knowledge, and does not demonstrate the ability to think critically).

Learning outcomes:

The course aims to introduce the essential characteristics of the medieval history of Slovakia. Students will learn about the epoch from the arrival of the Slavs to the Battle of Mohács in 1526. Based on the acquired knowledge, they will be able to analyse the basic categories of medieval society in Slovakia and its composition. They will learn to orientate themselves in political, economic, social, ecclesiastical and cultural issues and to link them by analogy with the present. They will acquire the ability to think critically and evaluate the past objectively. They will be able to analyse this historical period, compare it with developments in other periods and reach synthesising conclusions. Emphasis is placed on orientation to the more complex problems of history. Due attention will also be paid to historical interpretations of individual events, their differentiation, and the acquisition of the ability to think in broader contexts.

Class syllabus:

- Chronology of the development of the Middle Ages in Slovakia.
- The question of the origin of the Slavs and their occurrence on our territory.
- The Empire of Samo. The Principality of Nitra.
- Great Moravia. Personalities of Great Moravia. The Byzantine mission.
- The question of the demise of Great Moravia and the establishment of the Kingdom of Hungary.
- Hungary (especially today's Slovakia) during the reign of the Árpád dynasty.
- Hungary (especially today's Slovakia) during the reign of the Anjou dynasty.
- Louis I, the ideal of a knight king.
- Sigismund of Luxembourg and Matthias Corvinus on the Hungarian throne.
- The Jagiellonian dynasty and the Battle of Mohács.
- Medieval culture in Hungary (especially in today's Slovakia).

COURSE DESCRIPTION

Academic year: 2023/2024	
University: Comenius University Bratislava	
Faculty: Faculty of Education	
Course ID: PdF.KH/B-HISde003/22	Course title: History of Slovakia II.
Educational activities: Type of activities: lecture Number of hours: per week: 2 per level/semester: 26 Form of the course: on-site learning	
Type, volume, methods and workload of the student - additional information 2 hours lecture/week, 22 hours total per semester, combined form; (primarily in person) Student workload: 2P (2 credits): 11 x 2 hours of direct instruction = 22 hours; 10 hours preparation for discussions, 68 hours exam preparation. 100 hours of student work in total. Educational methods: monological method, problem-solving exercises; discussion of the subject; e-learning	
Number of credits: 4	
Recommended semester: 3.	
Educational level: I.	
Prerequisites:	
Course requirements: 40% of the interim and 60% of the final evaluation. The student takes the test in the middle of the semester, from which he/she may obtain a maximum of 30 points. The test will focus on the material covered. In the midterm evaluation, the test will account for 30%, and 10% will be given for the active approach in lectures. This active approach will consist of asking the lecturer at least one question from the ongoing teaching. In the examination period, the student will take an oral examination. In the framework of the oral examination, the student will draw two questions. One question is a review "big" question. The other question focuses on specific personalities and events. The rating is awarded on a scale: A (100-91%, excellent - excellent results, the student is oriented in the issue, has mastered it, demonstrates a creative approach and the ability to think critically), B (90-81%, very good - above average standard, the student is knowledgeable about the subject matter, but critical thinking is borderline), C (80-72%, good - normal reliable work, the student does know his/her way around the subject, has learned the issue, but cannot apply the knowledge gained to practice), D (71-65%, satisfactory - acceptable results, the student can orient himself/herself to the problem only at a basic level, his/her knowledge is fragmented, he/she does not demonstrate the ability to think critically and cannot apply the acquired knowledge to practice), E (65-60%, sufficient - the results meet the minimum criteria, the student can navigate the issue only with great difficulty, knows only the most basic knowledge, does not demonstrate the ability to think critically and cannot apply the acquired knowledge to practice),	

Fx (less than 59%, insufficient - extra work is required, the student is unable to navigate the issues, does not master the most basic knowledge, does not demonstrate the ability to think critically).

Learning outcomes:

The student acquires the necessary knowledge and understanding of Slovakia's political, economic and social development and its inhabitants in modern Hungary between 1526 and 1780. The aim is to acquaint students with the history of Slovakia from the Battle of Mohács to the end of the reign of Maria Theresa, to provide a plastic picture of the transformation of the society during two centuries, the changes in the social structure of the population on the territory of today's Slovakia, to give the influence of European events on the national consciousness process of the Slovak ethnic group, the causes leading to the national revival. The student acquires in-depth knowledge and knowledge about the period of the modern age in Slovak history. The student will receive information based on which he/she will be able to think critically and objectively evaluate this period in the context of Hungarian history. They will be able to navigate more complex problems and historical interpretations and reach synthesising conclusions. The student will consolidate the communication skills necessary for presenting his/her work results.

Class syllabus:

- The Habsburgs and their policy in Hungary in the 16th century (from Ferdinand I to the end of the reign of Rudolf II): The struggles of Ferdinand I and Jan Zápolský for the Hungarian throne
- The reforms of Ferdinand I. and Maximilian I - Revolt of Stefan Bockaj - Dispute of Rudolf II. with his brother Matthias.
- Turkish expansion in Hungary: the Battle of Mohács - Turkish expansion in the first half of the 16th century - The conquests in the second half of the 16th century - The Fifteen Years' War - From the Peace of Zittau to the beginning of the invasion in the 1760s - The defeat of the Turks at Vienna and their gradual expulsion from Hungary.
- Reformation and Counter-Reformation in Slovakia in the 16th and 17th centuries: Penetration of the Reformation into the territory of Hungary - The form of the Reformation doctrine and churches
- Counter-Reformation /the consequences of the Council of Trent and the Jesuit Order in Hungary/
- The organisation of the Evangelical Church - The sharpening of the Recatholization during the reign of Leopold I.
- Hungarian Estates Revolts (from Gabriel Bethlen's Revolt to the Revolt of Francis II Rakoci): Causes of the Estate's Revolts - Revolts as part of the Thirty Years' War (Gabriel Bethlen and George I Rakoci) - Conspiracy of Francis Veseleni - Resistance of Imrich Tököli - Revolt of Francis II Rakoci - Revolt of George II Rakoci - Revolt of Francis II Rakoci.
- Political developments in Hungary after the Peace of Satmar – the reign of Emperor Charles VI and Queen Maria Theresa (1711 - 1780): Reforms of Charles VI - Wars for the Austrian inheritance (Silesian Wars) and the Seven Years' War - Maria Theresa's Enlightenment reforms, foreign policy.
- Economic development in Hungary in the 16th-18th centuries: The development of the feudal economic system - The beginnings of capitalist relations in business and production - Mining and metallurgy in Slovakia - Artisan guilds - The origins of industrial manufactures - Trade and mercantilist politics.
- The population of Hungary and Slovakia - Its ethnic form and social structure - Wallachian colonisation and the migration of Slovaks to the southern regions of Hungary - The status of Slovak ethnicity in Hungary in the 16th-18th centuries.
- Spiritual and thought movements in the 16th-18th centuries: Humanism and reformist religious teachings -The most important Hungarian Renaissance and Baroque writers and thinkers - Reformation and Catholic education

- Science in Slovakia in the 16th-18th centuries - Fine arts and architecture of the Hungarian Renaissance and Baroque, development of Slovak ethnicity, Slovak consciousness in the 16th-18th centuries.

COURSE DESCRIPTION

Academic year: 2023/2024	
University: Comenius University Bratislava	
Faculty: Faculty of Education	
Course ID: PdF.KH/B-HISde005/22	Course title: History of Slovakia III.
Educational activities: Type of activities: lecture Number of hours: per week: 3 per level/semester: 39 Form of the course: on-site learning	
Type, volume, methods and workload of the student - additional information 3 hours lecture/week, 33 hours total per semester, combined form; (primarily in person) Student workload: 11x 3 hours of direct teaching = 33 hours; 66 hours of exam preparation. Total of 100 hours of student work. Educational methods: monological method, discussion on the subject; problem-solving tasks, e-learning	
Number of credits: 4	
Recommended semester: 4.	
Educational level: I.	
Prerequisites:	
Course requirements: 80% of the mark for the final examination is in the form of a test, and 20% is for active participation in discussions throughout the semester, which the student will receive if he/she participates in at least one-third of the discussions. The student will take the test at the end of the semester. A minimum of 91% is required for a final grade of A, a minimum of 81% for a grade of B, a minimum of 73% for a grade of C, a minimum of 66% for a grade of D, and a minimum of 60% for a grade of E. You must earn a minimum grade of 60% to pass the course. The rating is awarded on a scale: A (100-91%, excellent - excellent results, the student is oriented in the issue, has mastered it, demonstrates a creative approach and the ability to think critically), B (90-81%, very good - above average standard, the student is knowledgeable about the subject matter, but critical thinking is borderline), C (80-73%, good - normal reliable work, the student does know his/her way around the subject, has learned the subject, but cannot apply the gained knowledge in practice), D (72-66%, satisfactory - acceptable results, the student can orient himself/herself to the problem only at a basic level, his/her knowledge is fragmented, he/she does not demonstrate the ability to think critically and cannot apply the acquired knowledge to practice), E (65-60%, sufficient - the results meet the minimum criteria, the student can navigate the issue only with great difficulty, knows only the most basic knowledge, does not demonstrate the ability to think critically and cannot apply the acquired knowledge to practice), Fx (59-0%, insufficient - extra work is required, the student is unable to navigate the issues, does not master the most basic knowledge, and does not demonstrate the ability to think critically).	

Learning outcomes:

The course enables the student to gain comprehensive knowledge of Slovak history of the long 19th century (1780 - 1918). The student learns to orient himself to social, cultural, national and political problems and to link them analogically with the present. Acquire the ability to think critically and evaluate the recent past objectively. They will be able to analyse and assess this historical period, compare it with developments in other countries and reach synthesising conclusions. They will be able to navigate complex issues and historical interpretations, distinguish between them and think in context.

Class syllabus:

Students will learn about the history of Slovakia from the end of the 18th to the beginning of the 20th century in a cross-sectional way. It focuses on the key issues of the long 19th-century national history. It combines interpretations of the breakthrough periods, helps uncover taboo topics, and gets to know contemporary society and its personalities. It concentrates on these focal themes:

- The Habsburg Monarchy and the Kingdom of Hungary at the end of the 18th and the first half of the 19th century. The reigns of Joseph II, Leopold II, Francis I and Ferdinand V. The Napoleonic Wars. Metternich's absolutism. Relaxation of feudal relations, the redemption of serfs from serfdom. The beginnings of industrial development. Hungarian reform movement.
- Modernisation of the Slovak nation. The Bernolák's and evangelical conceptions. Personalities.
- The second generation of Slovak revivalists in the 1820s and 1830s. Unification of the Catholic and Evangelical camps. Social activity. The most influential personalities.
- Completion of the Slovak national political programme in the 1840s. Unification of the Štúr's and the youngest Bernolák's generation. Adoption of a unified written language and cultural institutions.
- The 1848/49 revolution in the Habsburg monarchy and the Slovak political programme. The March Revolution. The Slavonic Congress. Slovak volunteer expeditions. Efforts to create a Slovak Crown Land.
- The period of neoabsolutism in the 1850s. Centralism and Germanism. The issue of the written language. The Old Slovaks and the Young Slovaks.
- Political development of the Habsburg monarchy in the Provisional period. The Austro-Hungarian Compromise. Economic development of the monarchy and Hungary after the compromise.
- Slovak politics in the 1860s and 1870s. Memorandum, the Slovak Matica and Slovak grammar schools. Nationality Act. Old and New Slovak School. Prominent personalities.
- Period of political passivity. Efforts of the Hungarian governments to transform the Kingdom of Hungary into a mono-national Hungarian state. Turčiansky Svätý Martin and the Slovak National Party. Czech-Slovak cooperation. Russophilism and Pan-Slavism.
- Differentiation of Slovak political currents at the turn of the 19th and 20th centuries. The Industrial Revolution in the Kingdom of Hungary, Hungarian liberalism, the development of the workers' and social democratic movements. Cooperation of non-Hungarian people in Hungary. The Slovak National Party. Slovak People's Party. The young generation grouped around the magazine Hlas and Prúdy. Agrarian current. Slovak Social Democratic Party.
- Slovaks and the First World War, the establishment of the Czechoslovak Republic. The internationalisation of the Slovak question before the First World War. The main centres of Slovak politics during the First World War. American Slovaks. Czechoslovak cooperation, Czechoslovakia and the legions.

COURSE DESCRIPTION

Academic year: 2023/2024	
University: Comenius University Bratislava	
Faculty: Faculty of Education	
Course ID: PdF.KH/B-HISde008/22	Course title: History of Slovakia IV.
Educational activities: Type of activities: lecture Number of hours: per week: 4 per level/semester: 52 Form of the course: on-site learning	
Type, volume, methods and workload of the student - additional information 4 hours lecture/week, the total for semester 44 hours, combined; (primarily full-time) Student workload: 4P (6 credits): 11 x 4 hours of direct instruction = 44 hours; 53 hours of midterm preparation; 53 hours of preparation for the examination. Total 150 hours of student work. Learning methods: discussion of the topic; problem-solving exercises, e-learning	
Number of credits: 6	
Recommended semester: 5.	
Educational level: I.	
Prerequisites:	
Course requirements: 50% of the interim and 50% of the final evaluation. The student takes a written test during the semester and an oral examination during the examination period. Interim assessment - student passes a written test at the end of the semester and an oral examination during the examination period. The written test assesses the knowledge acquired about historical figures and events in the form of completing the correct answer by adding or circling. Final assessment: The student will choose two questions in the oral exam. The first focuses on a specific historical issue or event, and the second focuses on a historical figure. To receive a final grade of A, a minimum of 91 points is required, and a minimum of 81 points is required for a grade of B, for a grade C at least 73 points, for a grade D at least 66 points, and for a grade E at least 60 points. Credit will not be awarded to students who fail any of the four written examinations and receive less than 15 points. Successful course completion requires a minimum of 60% of the grade. The grade is awarded on a scale: A (100-91%, excellent - excellent results, the student is familiar with the subject matter, he/she has mastered it, demonstrates a creative approach and the ability to think critically), B (90-81%, very good - above average standard, the student is knowledgeable about the subject mastery, but critical thinking is borderline), C (80-73%, good - normal reliable work, the student can orient himself in the problem, he has learned, but he cannot apply the acquired knowledge to practice), D (72-66%, satisfactory - acceptable results, the student can orient himself/herself to the problem only at a basic level, his/her knowledge is fragmented, he/she does not demonstrate the ability to think critically and cannot apply the acquired knowledge to practice),	

E (65-60%, sufficient - the results meet the minimum criteria, the student can navigate the issue only with great difficulty, knows only the most basic knowledge, does not demonstrate the ability to think critically and cannot apply the acquired knowledge to practice),

Fx (59-0%, insufficient - extra work is required, the student is unable to navigate the issues, does not master the most basic knowledge, and does not demonstrate the ability to think critically).

Learning outcomes:

The course enables the student to acquire comprehensive knowledge of the 20th century Slovak history, specifically the period 1918-1992. The student will learn to navigate social, cultural, national and political issues and to relate them analogically to the present. Acquire the ability to think critically and evaluate the recent past objectively. They will be able to analyse and evaluate this historical period, compare it with developments in other countries and reach synthesising conclusions. They will be able to navigate complex issues and historical interpretations, distinguish between them and think in context.

Class syllabus:

Students will learn about the history of Slovakia in the 20th century. It focuses on the key issues of the national history of the 20th century. It brings closer the interpretations of the turning points, helps uncover taboo topics together, and gets to know contemporary society and its personalities. It concentrates on these central themes:

- The 1st Czechoslovak Republic, its origins, place and significance in the history
- Autonomism versus centralism
- The flowering of culture after 1918
- The personalities of the 1st Czechoslovak Republic
- The Slovak state 1939 – 1945, its origins and place in history
- Forms of collaboration in Slovakia
- Persecutions (political opponents, Jews, Gypsies)
- Foreign resistance, domestic resistance and its personalities
- Slovak National Uprising
- Transitional period 1945 – 1948
- The founding period of the communist regime 1948 – 1953
- Persecutions (political trials, forced collectivisation)
- Socialist society
- The attempt at 'socialism with a human face' in 1968
- Normalisation
- Third Resistance
- The Velvet Revolution and the first steps in democracy

COURSE DESCRIPTION

Academic year: 2023/2024	
University: Comenius University Bratislava	
Faculty: Faculty of Education	
Course ID: PdF.KPg/B-VUZde022/22	Course title: History of education
Educational activities: Type of activities: seminar Number of hours: per week: 2 per level/semester: 26 Form of the course: on-site learning	
Number of credits: 3	
Recommended semester: 2., 4., 6.	
Educational level: I.	
Prerequisites:	
Course requirements: Prerequisite subjects: none Prerequisites for successful completion of the course: The course is completed by assessment (100% of the interim assessment). The students' task is to solve 10 continuously assigned problems during the semester and to participate in the presentation and discussion of their solutions in seminars. The solution of each problem is evaluated on a 3-0 point scale according to specific criteria set for each problem. The maximum number of points possible is 30. The rating is awarded on a scale: A (100-94%, excellent - outstanding results), B (93-86%, very good - above average standard), C (85-76%, well - normal reliable work), D (75-68%, satisfactory - acceptable results), E (67-60%, sufficient - results meet minimum criteria), Fx (59-0%, insufficient - extra work required). For successful completion of the course it is necessary to obtain at least 60% of the points. A minimum of 28 points is required for a final grade of A (excellent - outstanding results), a minimum of 25 points is required for a grade of B (very good - above average standard), a minimum of 22 points is required for a grade of C (good - normal reliable work), a minimum of 20 points is required for a grade of D (satisfactory - acceptable results), and a minimum of 18 points is required for a grade of E (satisfactory - results meet the minimum criteria). A grade of FX (Inadequate - extra work required) will be awarded to students scoring 17 points or less. Scale of assessment (preliminary/final): 100/0	
Learning outcomes: Learning outcomes and transferable competences: Upon completion of the course, students will be able to use professional terminology, define the subject, and describe the system of the History of education. They are able to explain the context of the emergence and the main features of the historical currents of educational thought, describe and compare the systems of education and training in different historical periods, explain the views	

and characterize the work of important figures in the history of education and training, critically evaluate them and identify their influence on education and training today.

Working with original historical sources and their contemporary interpretations, students will be able to critically reflect and discuss ethical issues of education and education, the position and roles of the subjects of education and education. In solving, presenting and discussing the results of ongoing assignments, students will develop their analytical and critical thinking, communication, lecturing and metacognitive skills.

Students will be able to use the acquired knowledge and skills creatively in the study of other pedagogical disciplines and in their future pedagogical practice.

Class syllabus:

Brief outline of the course:

The subject, terminology and system of the History of education. Education and education in ancient and medieval times. Education and pedagogical ideas in the period of humanism and the Renaissance. Life, work and pedagogical views of J. A. Comenius. The development of education and pedagogical thinking in the works of selected representatives in the world (Lock. Rousseau, Pestalozzi, Herbart, Tolstoy) and in the territory of present-day Slovakia (Bel, Tešedík, Fándly, Lehocký) in the 17th-19th centuries. Pedagogical trends and schools of the 20th century in the world. Education in Slovakia in the 20th century. Contemporary trends in education.

COURSE DESCRIPTION

Academic year: 2023/2024	
University: Comenius University Bratislava	
Faculty: Faculty of Education	
Course ID: PdF.KVV/B-VU-de001/22	Course title: History of fine arts 1
Educational activities: Type of activities: lecture + seminar Number of hours: per week: 3 per level/semester: 39 Form of the course: on-site learning	
Type, volume, methods and workload of the student - additional information Scope, type/method of teaching and organizational form: (full-time): 1 hour lecture + 2 hours seminar, total 33 hours per semester, combined form; (primarily full-time). Student workload: 1P + 2S, (4credits): 11 x 3 hours of direct instruction is 33 hours; 33 hours of lecture and discussion; 47 hours of seminar paper preparation; 10 hours of presentation preparation; 30 hours of examination preparation. A total of 120 hours of student work. Teaching methods: Combination of monological, discussion methods: lecturing, interpretation, discussion, independent preparation of written work, elaboration and presentation of a selected problem of one of the discussed topics according to the student's choice, combined with a discussion within the seminar, application of theoretical knowledge on selected examples of significant works from the history of art and architecture, occasionally field trip with active participation of students (presentation, discussion).	
Number of credits: 4	
Recommended semester: 1.	
Educational level: I.	
Prerequisites:	
Course requirements: The course is completed by an examination - a written visual cognitive test of the knowledge acquired throughout the semester worth 50 points. The student will be evaluated continuously for activity in seminars and independently prepared seminar work on the assigned topic, realized during the semester (written work and oral presentation with discussion) - max 50 points. A grade of A requires at least 91 points, a grade of B requires at least 81 points, a grade of C requires at least 73 points, a grade of D requires at least 66 points and a grade of E requires at least 60 points. Credit will not be awarded to a student who fails to complete any of the assignments. A minimum score of 26 is required in the written final test. The grade is awarded on a scale: A (100-91%, excellent - outstanding results), the student has an excellent mastery of the material, can theoretically reflect analyze and interpret the artistic heritage of older art,	

B (90-81%, very good - above average standard), the student has an above average command of the material, has demonstrated independent critical thinking and evaluation, and is well versed in the history of older art,
 C (80-73%, good - normal reliable work), the student has an average command of the material, is oriented to the history of fine art, critical thinking is borderline,
 D (72-66%, satisfactory - acceptable performance), the student has demonstrated average knowledge of art history, average ability to reflect and interpret,
 E (65-60%, satisfactory - results meet minimum criteria), the student has demonstrated basic knowledge of art history but minimal ability to interpret works of art . Cannot apply knowledge to practice.
 Fx (59-0%, insufficient - additional work required).

Learning outcomes:

Learning objectives and outcomes:

The aim of education in the above course is for the student to gain an overview and deepen knowledge of the history of fine arts - painting, sculpture and the history of architecture in the time span from prehistoric times to the period of the Great French Revolution.

Upon completion of the course, the student will:

- orientates himself/herself in the discussed topics of the history of art,

COURSE DESCRIPTION

Academic year: 2023/2024	
University: Comenius University Bratislava	
Faculty: Faculty of Education	
Course ID: PdF.KPg/B-VUZde014/22	Course title: History of philosophy 1
Educational activities: Type of activities: seminar Number of hours: per week: 2 per level/semester: 26 Form of the course: on-site learning	
Number of credits: 3	
Recommended semester: 2., 4., 6.	
Educational level: I.	
Prerequisites:	
Course requirements: Prerequisite subjects: none Prerequisites for successful completion of the course: The course is completed with an assessment, the midterm/final assessment ratio is 100/0, which includes a final test in the assessment week of the semester (100% of the assessment). A minimum of 60% of the total mark is required to pass the course. The rating is awarded on a scale: A (100-91%, excellent - outstanding results), B (90-81%, very good - above average standard), C (80-73%, well - normal reliable work), D (72-66%, satisfactory - acceptable results), E (65-60%, sufficient - results meet minimum criteria), Fx (59-0%, insufficient - extra work required) A minimum of 91 points is required for a final grade of A. For this grade, the student should demonstrate: a creative and original approach in the development of assignments, excellent professional knowledge and its application in problem solving, excellent orientation in the subject matter, excellent communication skills, responsibility and timely completion of assignments, exceptional activity in class during the semester. A score of at least 81 points is required for a final grade of B. For this grade, the student should demonstrate: a creative approach in developing assignments using a model, above-average professional knowledge and application of that knowledge in problem solving assignments using tutorials, above-average problem orientation, above-average communication skills, responsibility and timely completion of assignments, and above-average activity in class during the semester. A minimum of 73 points is required for a final grade of C. For this grade, the student should demonstrate: the ability to prepare assignments using the given template, good professional knowledge and its application in solving problem problems in a group or with the help of the teacher, good orientation in the subject, good communication skills, completion of the assigned tasks, average activity in the class during the semester at the invitation of the teacher. A minimum of 66 points is required for a final grade of D. For this grade, the student should demonstrate: the ability to develop assignments using a given template and with the assistance of the	

instructor, average proficiency and application in problem solving in a group or with the assistance of the instructor, average orientation to the problem, average communication skills, completion of assignments, and basic activity in class during the semester in collaboration with the instructor or other students.

A score of at least 60 points is required for a final grade of E. For this assessment, the student should demonstrate: the ability to develop assignments and with the help of the instructor, basic/minimal professional knowledge, basic/minimal orientation to the subject matter, basic communication skills, completion of assigned tasks.

Scale of assessment (preliminary/final): 100/0

Learning outcomes:

Learning outcomes:

Completion of the course will provide students with a certain handle on orientation in the nowadays almost opaque tangle of diverse philosophical directions, movements, orientations and attitudes, will provide them with basic categorical-conceptual equipment and methodological instrumentation useful in other special sciences and disciplines (sociology, pedagogy, political science, psychology, etc.), which will help to bridge their particularism in favour of a global vision and solutions to the problems of the contemporary world. Knowledge of the approaches of different philosophical trends to certain problems will facilitate the students' professional and human orientation in the contemporary world, since many pedagogical, economic, social, legal and political concepts are based on these philosophical trends as their conceptual framework. The course also emphasizes the mapping of these overlaps of philosophy into other components of culture. The problem field thus delineated will help the students to reflect and specify their own position and provide arguments for the vindication of their own positions, thus contributing to better self-knowledge and self-identification. History of Philosophy provides students with the experience of encountering the "other", giving guidance and cultivating habits of coping with it, and thus teaching them tolerance and respect for other points of view. By completing the course, the student develops transferable competencies such as communication skills, analytical skills, abstract thinking skills, critical thinking skills, motivation and the ability to learn, and reasoning in context.

Learning objectives and transferable competences:

To familiarize students with the history of European philosophical thought and to provide them with a basic conceptual and methodological apparatus that they will be able to use in other special sciences such as pedagogy, political science, psychology, or sociology.

Class syllabus:

Brief outline of the course:

History of Philosophy I focuses on the period from Antiquity to the French Enlightenment.

1. Introduction: philosophy and its importance for man; The study of the history of philosophy as an introduction to philosophy; Periodization of the history of philosophy.

2. Ancient Philosophy: the Pre-Socratics (Ionian Philosophy - School of Miletus, Xenophanes, Heracleitos; Philosophy in the West - Pythagoras, Parmenides, Zeno, Empedocles; Reaction of Ionian Philosophy - Anaxagoras, Democritus); Classical Greek Philosophy (Sophists, Socrates, Plato, Aristotle); Hellenistic Period (Stoicism, Epicureanism, Skepticism).

3. Medieval Philosophy: Patristics (Augustine); Early Scholasticism (Eriugena, Anselm of Canterbury, Abaelard); High Scholasticism (Albert the Great, Aquinas, Bonaventure, R. Bacon); Late Scholasticism (Occam, Scotus)

4. Renaissance philosophy: M. Kuzansky; Renaissance Platonism and Aristotelianism (Ficinus, Mirandola, Pompanazzi); Renaissance natural science (Copernicus, Kepler, Galilei)

Renaissance philosophy of nature (Telesio, Bruno); Renaissance social philosophy (Machiavelli, More, Campanella); Renaissance humanism (Erasmus of Rotterdam, Montaigne); Reformation (Luther, Calvin, Münzer, Zwingli) 5. Modern Philosophy: Origins of Modern Empiricism and Mechanistic Materialism (F. Bacon, Hobbes); Modern Rationalism (Descartes, Spinoza, Leibniz); Modern Empiricism (Locke, Berkley, Hume) 6. The Enlightenment in France (Montesquieu, Voltaire, Rousseau, the Encyclopedists, Materialists)

COURSE DESCRIPTION

Academic year: 2023/2024	
University: Comenius University Bratislava	
Faculty: Faculty of Education	
Course ID: PdF.KH/B-HISde011/22	Course title: Introduction to the study of history
Educational activities: Type of activities: lecture Number of hours: per week: 2 per level/semester: 26 Form of the course: on-site learning	
Type, volume, methods and workload of the student - additional information 2 hours lecture/week, 22 hours total per semester, combined form; (primarily in person) Student workload: 2P (2 credits): 11 x 2 hours of direct instruction = 22 hours; 38 hours of exam preparation; 60 hours of student work in total. Educational methods: problem-solving exercises; discussion of the subject; e-learning	
Number of credits: 2	
Recommended semester: 1.	
Educational level: I.	
Prerequisites:	
Course requirements: 10 % of the interim and 90 % of the final evaluation. The student takes the test in the middle of the semester, from which the student may obtain a maximum of 20 points. In the examination period, the student takes an oral examination. In the oral examination, the student will draw two questions. The rating is awarded on a scale: A (excellent - excellent results, the student is oriented in the issue, has mastered it, demonstrates a creative approach and the ability to think critically), B (very good - above average standard, the student is knowledgeable about the subject matter, but critical thinking is borderline), C (good - normal reliable work, the student does know his/her way around the subject, has learned the subject, but cannot apply the knowledge gained to practice), D (satisfactory - acceptable results, the student can orient himself/herself to the problem only at a basic level, his/her knowledge is fragmented, he/she does not demonstrate the ability to think critically and cannot apply the acquired knowledge to practice), E (sufficient - the results meet the minimum criteria, the student can navigate the issue only with great difficulty, knows only the most basic knowledge, does not demonstrate the ability to think critically and cannot apply the acquired knowledge to practice), Fx (insufficient - extra work is required, the student is unable to navigate the issues, does not master the most basic understanding, and does not demonstrate the ability to think critically).	
Learning outcomes: The course focuses on understanding the key concepts of history, its current relevance, acquiring basic knowledge of bibliography, working with historical sources and literature, and citation methods that students will use in their studies when writing Seminar and diploma theses in their	

future pedagogical and professional work. By completing the course, the student will acquire the basic concepts and methods of the historian's work and the prerequisites for their practical use. The student will develop the ability to combine theoretical knowledge with practical skills.

Class syllabus:

- The subject and mission of history
- Procedures and stages of historical research
- Bibliographies
- Study of historical literature
- Writing and documentation
- Classification of historical sources
- Unwritten sources
- Written sources
- Archives and archival aids
- Methods of historical research
- Written processing of research results

Total 52 hours of student work. Learning methods: teaching Latin grammar, translation of Latin texts and sources of historical nature, work with editions, problem-solving exercises; discussion on the subject; e-learning, heuristic method	
Number of credits: 2	
Recommended semester: 2.	
Educational level: I.	
Prerequisites:	
Course requirements: There will be two written examinations of 25 points each during the semester. A minimum of 91 points is required for a final grade of A, a minimum of 81 points for a grade of B, a minimum of 73 points for a grade of C, a minimum of 66 points for a grade of D, and a minimum of 60 points for a grade of E. Credit will not be awarded to a student who accumulates less than 59 points. The grade shall be awarded on a scale: A (100-91%, excellent - excellent results, the student learns the basics of Latin grammar, writes both papers for at least 45 points in total and has an excellent command of Latin sources. B (90-81%, very good - above average standard, the student is knowledgeable about the subject matter, masters the basics of Latin grammar, writes the papers for a minimum of 41 points, and masters the work with Latin sources. C (80-73%, good - normal reliable work, the student can navigate the issues, has learned, but the papers showed deficiencies as he/she scored less than 40 points cumulatively. D (72-66%, satisfactory - acceptable performance, the student can orient himself to the problem at a basic level, his knowledge is fragmented. He scored less than 35 points on the papers. E (65-60%, satisfactory - results meet the minimum criteria, the student can orient himself/herself to the problem only with great difficulty, he/she has only the most basic knowledge. He/she scored less than 29 points in the written examinations. FX (59-0%, insufficient - extra work is required, the student is unable to navigate the subject, does not know the most basic knowledge.	

Learning outcomes:

The student will acquire the basics of Latin grammar by completing the course. The student will acquire basic knowledge of the Latin language, the inflexion of nouns and pronouns and the tense of verbs in the present, past and future tenses. After completing the course, the student will be able to translate simpler texts from Latin into Slovak. The student will learn to work with Latin historical sources and editions.

Class syllabus:

The course focuses on vocabulary, the basics of Latin grammar and working with Latin historical sources.

- An introduction to the study of the Latin language.
- I. Declension. The early age of Roman literature.
- Declension II. The literature of the imperial period.
- I. and II. conjugation. Medieval Latin sources.
- Reinforcement of the syllabus. Editions of medieval documents.
- Conjugations III and IV. Latin sources on the history of medieval and early modern Slovakia.
- The verb esse and its compounds. Latin sources on the history of towns in Slovakia.
- Pronouns. Latin sources for the ecclesiastical history of Slovakia.
- Imperfect verbs of I - IV conjugation. Latin modern sources.
- III. declension. Participium præsens. Futurum of verbs of I. and II. conjugation.
- Repetition, reading of simple texts.

COURSE DESCRIPTION

Academic year: 2023/2024	
University: Comenius University Bratislava	
Faculty: Faculty of Education	
Course ID: PdF.KPg/B-VUZde023/22	Course title: Leisure time education
Educational activities: Type of activities: seminar Number of hours: per week: 2 per level/semester: 26 Form of the course: on-site learning	
Number of credits: 3	
Recommended semester: 2., 4., 6.	
Educational level: I.	
Prerequisites:	
Course requirements: Prerequisite subjects: none Prerequisites for successful completion of the course: 100% pass mark. Assessment: consists of 2 intermediate assessments (40+60, total 100 points). Interim assessment 1: consists of the preparation of a term paper and its oral presentation or practical application in class. Semester work: consists of a creative assignment for 40b (20+20). It includes an electronic portfolio - a plan of experiential activities in the context of leisure education based on a set structure (20b) and its presentation or application of the created activities in the classroom (20b). Intermediate assessment 2: consists of a test of the acquired knowledge, namely a knowledge test for 60p. The written exam/test consists of theoretical preparation for the course in basic concepts and study of the literature. Prerequisites: The rating shall be awarded on a scale of A (100-91%, excellent - excellent results with only minimal errors), B (90-81%, very good - above average results with minor errors), C (80-73%, good - normal reliable work, average results), D (72-66%, satisfactory - acceptable results, but significant errors occur), E (65-60%, sufficient - results meet minimum criteria), Fx (59-0%, insufficient - extra work required). For successful completion of the course it is necessary to obtain at least 60% of the points. A minimum of 91 points is required for a final grade of A. For this grade, the student should demonstrate: a creative and original approach in the development of continuous assignments, excellent professional knowledge and its application in problem solving, excellent orientation to leisure issues, excellent communication skills, responsibility and timely completion of assignments, and exceptional activity in the classroom during the semester. A minimum of 81 points is required to obtain a B grade. For this grade, the student should demonstrate: a creative approach to developing ongoing assignments using a model, above average expertise and application of that expertise to problem solving assignments using consultation, above	

average orientation to leisure issues, above average communication skills, responsibility and timely completion of assignments, and above average activity in class during the semester.

For a grade of C at least 73 points. For this grade, the student should demonstrate: the ability to develop ongoing assignments using the assigned template, good professional knowledge and its application in problem solving in a group or with the assistance of the instructor, good orientation to leisure issues, good communication skills, completion of assignments, average activity in class during the semester as prompted by the instructor.

At least 66 points for a grade D. For this grade, the student is expected to demonstrate: the ability to develop ongoing assignments using the assigned template and with the assistance of the instructor, average proficiency and application of knowledge in problem solving in a group setting or with the assistance of the instructor, average orientation to leisure issues, average communication skills, completion of assignments, and basic activity in the classroom during the semester in collaboration with the instructor or other students.

At least 60 points for an E grade. For this assessment, the student should demonstrate: the ability to develop ongoing assignments and with the assistance of the instructor, basic/minimal vocational knowledge, basic/minimal orientation to leisure issues, basic communication skills, completion of assignments.

Scale of assessment (preliminary/final): 100/0

Learning outcomes:

Learning objectives and outcomes:

By completing the subject Leisure time in education, the student should:

- to know the content of leisure time pedagogy as a scientific discipline: functions, goals and requirements, areas of leisure time education,
- to know the subjects of leisure education and their importance in influencing the leisure time of an individual in society in a meaningful way,
- to be able to apply the acquired knowledge in the creation of leisure activities,
- to be able to create a plan for an activity of interest and to be able to apply it through practical tasks,
- be able to present their creative output to a group,
- be able to justify the appropriateness of the choice of didactic categories in the interest activity plan,
- understand the importance of leisure as a fundamental value in human life.

Transferable competences: the student strengthens soft skills such as communication skills through creative tasks on the course, digital skills - the student realizes the creation of a website as an e-portfolio with the use of feedback, interpersonal skills within the group - activation in the group, taking the initiative and responsibility.

Class syllabus:

Brief outline of the course:

The Leisure time in education is intended to introduce students to the important sphere of leisure through leisure activities, which represent an important value for the individual and which are necessary in the targeted education of children, youth and adults. The Leisure time in education course clarifies the basic pedagogical categories in a direct link between theoretical and practical training. By completing the course, the student will gain knowledge of the basic concepts in the field of leisure pedagogy, of leisure organizations aimed at children, youth, adults, and of activating didactic methods or experiential learning for the creation of leisure activities.

Topics:

Basic concepts of leisure pedagogy. Objectives of leisure education. Didactic process of leisure education and the creation of a plan of activating leisure activities - mission, goals, tasks, principles, content, forms and methods. Educational areas of activity outside the classroom. Interests and

leisure-time education. Problems of education in leisure time. Field work (streetwork), prevention, volunteering. New approaches in leisure time pedagogy. Personality of the pedagogue, social assistant, animator in the processes of education and training in leisure time. Educator and education and training in the school. Institutions and facilities providing leisure and interest activities.

COURSE DESCRIPTION

Academic year: 2023/2024	
University: Comenius University Bratislava	
Faculty: Faculty of Education	
Course ID: PdF.KPg/B-VUZde032/22	Course title: Medial education
Educational activities: Type of activities: lecture + seminar Number of hours: per week: 2 per level/semester: 26 Form of the course: on-site learning	
Number of credits: 3	
Recommended semester: 1., 3., 5.	
Educational level: I.	
Prerequisites:	
Course requirements: Prerequisite subjects: none Prerequisites for successful completion of the course: 100% of the interim grade, which includes 30% class activity (30 points) and 70% project (70 points). For successful completion of the course it is necessary to obtain at least 60% of the points. The rating is awarded on a scale: A (100-94%, excellent - outstanding results), the student reflects correctly and actively both critically and creatively knowledge, including its meaningful integration into the realities of life and pedagogical practice. B (93-86%, very good - above average standard), the student reflects critically on knowledge appropriately, including their meaningful integration into the realities of life and pedagogical practice. C (85-76%, good - routine reliable work), students performed standardly well during the semester, their theoretical knowledge is at a good level, but they lack the ability to critically apply this knowledge. D (75-68%, satisfactory - acceptable results), students were less prepared during the semester, they have slight deficiencies in theoretical knowledge. They cannot critically analyze information. E (67-60%, sufficient - the results meet the minimum criteria), the student has limited theoretical knowledge, is unable to critically analyze this knowledge, is only minimally able to apply the knowledge. Fx (59-0%, insufficient - extra work required).	
Learning outcomes: Learning outcomes: Learning objectives and outcomes and transferable competences: The thematic focus of the course introduces students to applied ethics and its disciplinary divisions, to defining the basic concepts of ethics, explaining morality as a social regulator, moral norms and the principles of creating ethical codes. It focuses on the professional ethics of the teaching profession	

(teacher competences, ethical dilemmas in the teaching profession, etc.) and the importance of a code of ethics in this profession. The aim of the course is to highlight the importance of a favourable classroom and school climate and to work with the content of the Convention on the Rights of the Child. Using selected examples from other branches of applied ethics (bioethics, media ethics, etc.) to show the importance of the presence of a code of ethics in the professions, the possibility of using classical ethical concepts and also different alternatives in solving ethical dilemmas.

This knowledge can be used in further studies as well as in real life. The chosen educational methods will contribute to the further development of competences (cognitive area: memory, critical thinking, thinking in context, reasoning; affective area: attitudes and beliefs, values; psychomotor area: digital skills; social area: cooperation, communication).

The course contributes to the gradual development of important professional competences of future teachers by its focus and methods of education.

Class syllabus:

Brief outline of the course:

1. Introduction to the subject: defining the basic concepts: ethics and morality.

Ethics and professional ethics: definition of basic terms: applied ethics - sectoral division of applied ethics. Professional ethics as a part of applied ethics.

2. Professional tact and etiquette as a basis for the formation of the code of ethics of individual professions.

3. The teaching profession and the teacher's code of ethics. Status and role of the teacher. Resolving dilemmas in the teaching profession.

4. Positive climate in the classroom, relationships between school climate factors.

5. Convention on the Rights of the Child.

6. A closer definition of bioethics and its areas of interest on concrete examples, the issue of the code of ethics. Classical ethical theories and alternative methods in solving ethical dilemmas.

Academic year: 2023/2024	
University: Comenius University Bratislava	
Faculty: Faculty of Education	
Course ID: PdF.KPg/B-VUZde032/22	Course title: Medial education
Educational activities: Type of activities: lecture + seminar Number of hours: per week: 2 per level/semester: 26 Form of the course: on-site learning	
Number of credits: 3	
Recommended semester: 2., 4., 6.	
Educational level: I.	
Prerequisites:	
Course requirements: Prerequisite subjects: none Prerequisites for successful completion of the course: 100% of the interim grade, which includes 30% class activity (30 points) and 70% project (70 points). For successful completion of the course it is necessary to obtain at least 60% of the points. The rating is awarded on a scale: A (100-94%, excellent - outstanding results), the student reflects correctly and actively both critically and creatively knowledge, including its meaningful integration into the realities of life and pedagogical practice. B (93-86%, very good - above average standard), the student reflects critically on knowledge appropriately, including their meaningful integration into the realities of life and pedagogical practice. C (85-76%, good - routine reliable work), students performed standardly well during the semester, their theoretical knowledge is at a good level, but they lack the ability to critically apply this knowledge. D (75-68%, satisfactory - acceptable results), students were less prepared during the semester, they have slight deficiencies in theoretical knowledge. They cannot critically analyze information. E (67-60%, sufficient - the results meet the minimum criteria), the student has limited theoretical knowledge, is unable to critically analyze this knowledge, is only minimally able to apply the knowledge. Fx (59-0%, insufficient - extra work required).	
Learning outcomes: Learning outcomes: Learning objectives and outcomes and transferable competences: The thematic focus of the course introduces students to applied ethics and its disciplinary divisions, to defining the basic concepts of ethics, explaining morality as a social regulator, moral norms and the principles of creating ethical codes. It focuses on the professional ethics of the teaching profession	

(teacher competences, ethical dilemmas in the teaching profession, etc.) and the importance of a code of ethics in this profession. The aim of the course is to highlight the importance of a favourable classroom and school climate and to work with the content of the Convention on the Rights of the Child. Using selected examples from other branches of applied ethics (bioethics, media ethics, etc.) to show the importance of the presence of a code of ethics in the professions, the possibility of using classical ethical concepts and also different alternatives in solving ethical dilemmas.

This knowledge can be used in further studies as well as in real life. The chosen educational methods will contribute to the further development of competences (cognitive area: memory, critical thinking, thinking in context, reasoning; affective area: attitudes and beliefs, values; psychomotor area: digital skills; social area: cooperation, communication).

The course contributes to the gradual development of important professional competences of future teachers by its focus and methods of education.

Class syllabus:

Brief outline of the course:

1. Introduction to the subject: defining the basic concepts: ethics and morality.

Ethics and professional ethics: definition of basic terms: applied ethics - sectoral division of applied ethics. Professional ethics as a part of applied ethics.

2. Professional tact and etiquette as a basis for the formation of the code of ethics of individual professions.

3. The teaching profession and the teacher's code of ethics. Status and role of the teacher. Resolving dilemmas in the teaching profession.

4. Positive climate in the classroom, relationships between school climate factors.

5. Convention on the Rights of the Child.

6. A closer definition of bioethics and its areas of interest on concrete examples, the issue of the code of ethics. Classical ethical theories and alternative methods in solving ethical dilemmas.

COURSE DESCRIPTION

Academic year: 2023/2024	
University: Comenius University Bratislava	
Faculty: Faculty of Education	
Course ID: PdF.KH/B-HISde013/22	Course title: Methodology of Writing a Professional Text in the History
Educational activities: Type of activities: seminar Number of hours: per week: 2 per level/semester: 26 Form of the course: on-site learning	
Type, volume, methods and workload of the student - additional information 2 hours lecture/week, 22 hours total per semester, combined form; (primarily in person) Student workload: 2S (2 credits): 11 x 2 hours of direct instruction = 22 hours; 20 hours preparation of a seminar paper, 5 hours preparing individual assignments for each lesson, 3 hours preparing the presentation; 50 hours of student work in total. Educational methods: monological method, problem-solving exercises; discussion of the subject; e-learning; heuristic method, analysis of the sources	
Number of credits: 2	
Recommended semester: 3.	
Educational level: I.	
Prerequisites:	
Course requirements: 100 % of the interim evaluation. The student submits a term paper at the end of the semester - prepare a professional text according to the assignment. For each lesson, he prepares individual work individual assignments. To obtain the final grade, it is necessary to work actively in each lesson, complete the prescribed assignments, and hand in and present the seminar work. The rating is awarded on a scale: A 100-91% (excellent - excellent results, the student is oriented in the issue, has mastered it, demonstrates a creative approach and the ability to think critically), B 90-81% (very good - above average standard, the student is knowledgeable about the subject matter, but critical thinking is borderline), C 80-73% (good - normal reliable work, the student does know his/her way around the subject, has learned the subject, but cannot apply the knowledge gained to practice), D 72-66% (satisfactory - acceptable results, the student can orient himself/herself to the problem only at a basic level, his/her knowledge is fragmented, he/she does not demonstrate the ability to think critically and cannot apply the acquired knowledge to practice), E 65-60% (sufficient - the results meet the minimum criteria, the student can navigate the issue only with great difficulty, knows only the most basic knowledge, does not demonstrate the ability to think critically and cannot apply the acquired knowledge to practice), Fx less than 59% (insufficient - extra work is required, the student is unable to navigate the issues, does not master the most basic knowledge, does not demonstrate the ability to think critically).	
Learning outcomes:	

The course aims to develop information literacy and professional, methodological and expressive skills of male and female students. After completing the course, the student will: - Knows and can navigate primary and secondary professional and scientific sources. The student can identify and understand the primary and secondary sources in his/her field of study. - The student knows and can apply the principles of authorial ethics. - Can critically evaluate the scholarly quality of online resources. - Can apply the principles of professional writing. - Can structure a professional text by the conventions of the discipline. - Knows how to prepare a presentation, develops communication skills																				
Class syllabus: - Basic requirements for the processing of professional work in history: - Aim and subject of the thesis - Heuristics for historical work - bibliographies, historical literature, sources - Critical study of information sources and their documentation - Preparation of the thesis project, creation of the thesis structure - Preparation and implementation of the professional work - Preparation and implementation of research for the thesis - Processing the results of the thesis research, their analysis, interpretation and synthesis - Final linguistic and formal editing of the thesis

COURSE DESCRIPTION

Academic year: 2023/2024	
University: Comenius University Bratislava	
Faculty: Faculty of Education	
Course ID: PdF.KUK_VV/B-VU-de011/22	Course title: Methodology of writing a professional text in art education
Educational activities: Type of activities: seminar Number of hours: per week: 2 per level/semester: 26 Form of the course: on-site learning	
Type, volume, methods and workload of the student - additional information Type of activities, scope (number of hours) and methods of educational activities: 2 hours seminar/week, 26 hours total per semester; combined method (primarily face-to-face). Student workload: 2S (2credits): 11 x 2 hours of direct instruction is 22 hours, 14 hours of continuous assignments, 14 hours of term work. Teaching methods: discussion and brainstorming on selected topics, case studies, small group work, application of theoretical knowledge to examples of concrete options.	
Number of credits: 2	
Recommended semester: 3.	
Educational level: I.	
Prerequisites:	
Course requirements: The course is continuously evaluated by tasks for independent work and finished with a term paper on the assigned topic - the processing of a professional text according to the assignment. A minimum of 91 points is required for a final grade A, a minimum of 81 points for a grade B, a minimum of 73 points for a grade C, a minimum of 66 points for a grade D and a minimum of 60 points for a grade E. Credit will not be awarded to a student who fails to complete any of the assigned topics and assignments. 100% of the interim assessment. Interim assignments represent 50% and term papers 50% of the total course grade.	
Learning outcomes: Learning objectives and outcomes: The aim of the course is to provide basic information on the methods of writing professional texts in accordance with the conventions of the discipline. The aim of the course is to develop students' information literacy, professional, methodological and expressive skills. Upon completion of the course, the student will: • knows and can navigate in primary and secondary professional and scientific sources in the field of study, • knows and can apply the principles of authorial ethics,	

- can critically evaluate the professional quality of online resources,
- can apply the principles of professional writing,
- can structure a professional text in accordance with the conventions of the discipline.

Class syllabus:

This course is designed to provide students with the skills to write professional texts in accordance with the conventions of the Art Education Teacher Education Department. The student will learn how to approach material such as scientific and professional literature, statistical materials, empirical data, etc.; he/she will acquire the principles of using professional terminology, editing the linguistic and formal aspects of a professional text. The acquired skills will be tested in the development of the structure and concept of a thesis on a given topic in the field of specialisation.

COURSE DESCRIPTION

Academic year: 2023/2024	
University: Comenius University Bratislava	
Faculty: Faculty of Education	
Course ID: PdF.KVV/B-VU-de004/22	Course title: Modelling
Educational activities: Type of activities: lecture + seminar Number of hours: per week: 3 per level/semester: 39 Form of the course: on-site learning	
Type, volume, methods and workload of the student - additional information Type of activities, scope (number of hours) and methods of educational activities: 1 hour lecture, 2 hours seminar; total 33 hours per semester, combined; (mostly full-time). Student workload: 1P + 2S, (3 credits): 11x3 hours of direct teaching = 33 hours; 30 hours of studying theoretical knowledge from the course; 37 hours of work on term papers; 9 hours of documentation, digitization, archiving of term papers; 10 hours of preparation for the exam and defense; 1 hour of defense and reflection of term papers. A total of 120 hours of student work. Teaching methods: combination of monological, dialogical and practical methods: lecturing, interpretation, explanation, narration, instruction on the topic; conversation, discussion, polemic on the topic; application of the knowledge from the interpretation to the student's works on the assigned topics, which are continuously consulted by the teacher.	
Number of credits: 4	
Recommended semester: 1.	
Educational level: I.	
Prerequisites:	
Course requirements: The course is completed by an examination on which the student demonstrates basic theoretical knowledge of sculpture and the final defence of a set of completed semester works demonstrating the fulfilment of the basic requirements for their correct implementation in the field of sculpture with a focus on modelling and casting a clay model in plaster. Participation in continuous consultations of the realized works is also a prerequisite. Theoretical knowledge in the field of sculpture with a focus on modelling and casting a clay model in plaster 0-10 points; ability to apply theoretical knowledge to the realization of drawing and plastic designs 0-60 points; realization of a cast from a clay model 0-20 points; documentation, digitalization, archiving of a set of semester works, their defense and the level of expressing oneself to the evaluated works 0-10 points. A minimum of 91 points is required for a final grade of A, a minimum of 81 points for a grade of B, a minimum of 73 points for a grade of C, a minimum of 66 points for a grade of D, and a minimum of 60 points for a grade of E. To pass the course you must obtain a minimum of 60% of the marks. Credit will not be awarded to a student who fails to complete any of the assigned topics, fails to	

attend a minimum number of midterm tutorials, or fails to submit the required documentation of a set of term papers. Grades are awarded on a scale of: A (100-91%, excellent - outstanding), B (90-81%, very good - above average standard), C (80-73%, good - normal reliable work), D (72-66%, satisfactory - acceptable results), E (65-60%, satisfactory - results meet minimum criteria), Fx (59-0%, inadequate - extra work required).
Learning outcomes: Learning objectives and outcomes: The aim of education within the above course is to acquire basic professional theoretical knowledge and practical experience in modelling with emphasis on the basic principles of spatial modelling. Upon completion of the course, the student will: • knows and understands the basic principles of spatial modelling, • is able to react creatively to given topics, • knows the basic structure and content in terms of theoretical and practical knowledge, is able to apply in school practice, • is oriented in the field, able to analyse and reflect on the issues of sculptural modelling in a historical context, • knows the possibilities and specific ways of application of standard technological procedures related to the process of creation, • possesses basic practical skills in the field of spatial art media.
Class syllabus: The course is aimed at acquiring basic theoretical and practical knowledge of spatial modelling. On individual assignments that offer relief space design and modeling of smaller spatial objects. Students will learn to navigate spatial vision and compositional laws, while verifying the proportionality of the depicted object.

COURSE DESCRIPTION

Academic year: 2023/2024	
University: Comenius University Bratislava	
Faculty: Faculty of Education	
Course ID: PdF.KPg/B-VUZde033/22	Course title: Multicultural education
Educational activities: Type of activities: seminar Number of hours: per week: 2 per level/semester: 26 Form of the course: on-site learning	
Number of credits: 3	
Recommended semester: 2., 4., 6.	
Educational level: I.	
Prerequisites:	
Course requirements: Prerequisite subjects: Prerequisites for successful completion of the course: Weighting of interim and final assessment: 100/0, the course ends with an assessment. Students will develop two interim activities/projects as part of the interim coursework assessed at 40% and 40%. Activity and preparation in seminars is assessed (20%). A total of 100% of the interim assessment. Students will choose one of the activities, work it systematically and develop it into a comprehensive lesson preparation according to this structure: a. Objectives of the activity (what skills and abilities it develops - students will choose an appropriate topic according to their apprenticeship, where they will be able to apply the activity as a cross-cutting theme). b. Target group of the activity (for which pupils it could be used). c. Time and space (how long it would take, any special space requirements). d. Activity flow (a brief scenario of how the student would carry it out). e. Evaluation of the activity (different ways of assessing pupils, self-assessment, etc.). f. Theoretical perspective on the activity (interpretation of the activity based on at least three key words from multicultural education theory). g. Literature used. The evaluation will assess the fulfilment of the principles of multicultural education, the suitability of the activity for teaching within the cross-cutting theme of multicultural education, the systematic nature of the preparation and the interconnectedness of its components. Negative evaluations are given to projects that could reinforce stereotypes and prejudices among pupils or in which students present stereotypical views of other cultures. The rating is awarded on a scale: A (100-91%, excellent - outstanding results), students will produce an original project that is thought through as a coherent whole to develop intercultural understanding, all criteria are met at an excellent level. B (90-81%, very good - above average standard), students creatively develop a project that will assist in developing intercultural understanding, Criteria are met at a very good level.	

C (80-73%, good - normal reliable work), students will produce a project that does not undermine the principles of multicultural education, Criteria are met at a good level.

D (72-66%, satisfactory - acceptable results), students will develop a project that is not internally intertwined but does not violate the principles of multicultural education, the criteria are met satisfactorily.

E (65-60%, sufficient - results meet minimum criteria), students will develop a project that marginally undermines the principles of multicultural education, Criteria are met sufficiently.

Fx (59-0%, insufficient - extra work required), students will develop a project that promotes cultural stereotypes and biases. The project does not meet the minimum criteria.

Learning outcomes:

Learning outcomes:

Learning objectives and outcomes and transferable competences:

Students understand the principles and practices of multicultural education. They know how to work with stereotypes and prejudices in the classroom. They can plan and design multicultural education and integrate it as a cross-curricular topic in the classroom. They develop intercultural understanding. They master the main didactical procedures for the implementation of multicultural education as a cross-cutting theme.

Learning objectives:

To provide students with the basic information needed to understand the principles of multicultural education as a cross-cutting theme in the national curriculum. To teach students how to work with the issue of stereotypes and prejudices, to teach them how to plan and design multicultural education in schools as a cross-cutting theme. To familiarize students with the basic didactic practices in the implementation of multicultural education in education.

Class syllabus:

Brief outline of the course:

The problem facing multicultural education - stereotypes and prejudices in us. Encountering another culture. Culture shock. How we get information about other cultures. How to cope with the arrival of foreigners. What we think about intercultural communication. Migration and values in multicultural education. How to proceed in multicultural education. Assessment in multicultural education.

B (90-81%, very good - above average standard), students creatively develop a project that will assist in developing intercultural understanding, Criteria are met at a very good level.	

C (80-73%, good - normal reliable work), students will produce a project that does not undermine the principles of multicultural education, Criteria are met at a good level.

D (72-66%, satisfactory - acceptable results), students will develop a project that is not internally intertwined but does not violate the principles of multicultural education, the criteria are met satisfactorily.

E (65-60%, sufficient - results meet minimum criteria), students will develop a project that marginally undermines the principles of multicultural education, Criteria are met sufficiently.

Fx (59-0%, insufficient - extra work required), students will develop a project that promotes cultural stereotypes and biases. The project does not meet the minimum criteria.

Learning outcomes:

Learning outcomes:

Learning objectives and outcomes and transferable competences:

Students understand the principles and practices of multicultural education. They know how to work with stereotypes and prejudices in the classroom. They can plan and design multicultural education and integrate it as a cross-curricular topic in the classroom. They develop intercultural understanding. They master the main didactical procedures for the implementation of multicultural education as a cross-cutting theme.

Learning objectives:

To provide students with the basic information needed to understand the principles of multicultural education as a cross-cutting theme in the national curriculum. To teach students how to work with the issue of stereotypes and prejudices, to teach them how to plan and design multicultural education in schools as a cross-cutting theme. To familiarize students with the basic didactic practices in the implementation of multicultural education in education.

Class syllabus:

Brief outline of the course:

The problem facing multicultural education - stereotypes and prejudices in us. Encountering another culture. Culture shock. How we get information about other cultures. How to cope with the arrival of foreigners. What we think about intercultural communication. Migration and values in multicultural education. How to proceed in multicultural education. Assessment in multicultural education.

COURSE DESCRIPTION

Academic year: 2023/2024	
University: Comenius University Bratislava	
Faculty: Faculty of Education	
Course ID: PdF.KVV/B-VU-de020/22	Course title: Painting
Educational activities: Type of activities: lecture + seminar Number of hours: per week: 3 per level/semester: 39 Form of the course: on-site learning	
Type, volume, methods and workload of the student - additional information Scope, type/method of teaching and organizational form: 1 hour per week lecture + 2 hours per week seminar, total 33 hours per semester, combined form; (primarily full-time) Student workload: 1P+2S, (3 credits): 11x3 hours of direct instruction is 33 hours, 10 hours lecture, 40 hours continuous assignments, 30 hours term paper preparation, 9 documentation, archiving of term papers and preparation for presentation; 1 presentation and reflection of term papers. A total of 90 hours of student work. Teaching methods: Combination of monological, dialogical and practical methods: explanation, instruction, discussion on the presented topic, solving practical tasks, brainstorming within the selected topics, application of theoretical knowledge to practice and discussion on them, polemic, discussion.	
Number of credits: 3	
Recommended semester: 4., 6.	
Educational level: I.	
Prerequisites: PdF.KVV/B-VU-de006/22 - Basics of painting	
Course requirements: The course is completed with an assessment consisting of the presentation and defence of the term paper and the presentation of assignments completed in class and homework on the assigned topics. Semester work 20%, intermediate assignments 70%, debate on semester and intermediate work 10%. At least 91 points are required for a final grade of A, at least 81 points for a grade of B, at least 73 points for a grade of C, at least 66 points for a grade of D, and at least 60 points for a grade of E. To pass the course you must obtain a minimum of 60% of the marks. Credit will not be awarded to a student who fails to complete any of the assigned topics and assignments. Grades are awarded on a scale of: A (100-91%, excellent - outstanding), B (90-81%, very good - above average standard), C (80-73%, good - normal reliable work), D (72-66%, satisfactory - acceptable results), E (65-60%, satisfactory - results meet minimum criteria),	

Fx (59-0%, inadequate - extra work required).

Learning outcomes:

Learning objectives and outcomes:

The aim of education in the course is to deepen and broaden the student's theoretical and practical knowledge in the field of painting.

After completing the course:

- deepen and practice theoretical and practical knowledge of compositional, light and coloristic construction of the picture, painting technique,
- is ready for the first realization of own themes and to use the acquired knowledge in educational practice,
- is able to cooperate in solving painting - art projects,
- in the area of subject specialization is able to cooperate in solving professional projects in the field of painting,
- is able to organise and plan his/her own education in the field of painting,
- is able to present his/her abilities and skills in the field of painting.

Class syllabus:

The course focuses on deepening the theoretical and practical knowledge of the basic painting processes and techniques with which the student can express himself. The aim of the course is to offer the student a basic understanding of working in the medium of painting, focusing on the expressive means of painting and compositional practices. The given intention is realized through themes focused on painterly grasp, mimetic perception of form/subject, and figural motif. Emphasis is placed on the realistic depiction of the subject matter with subsequent gradual stylization, colour shift and subsequent use in composition.

COURSE DESCRIPTION

Academic year: 2023/2024	
University: Comenius University Bratislava	
Faculty: Faculty of Education	
Course ID: PdF.KPg/B-VUZde028/22	Course title: Pedagogy of individuals with special educational needs
Educational activities: Type of activities: seminar Number of hours: per week: 2 per level/semester: 26 Form of the course: on-site learning	
Number of credits: 3	
Recommended semester: 1., 3., 5.	
Educational level: I.	
Prerequisites:	
Course requirements: Prerequisite subjects: none Prerequisites for successful completion of the course: The course is completed by assessment, 100% of the interim assessment. Interim assessment includes: the student will prepare a seminar paper (maximum possible number of points - 40). The seminar paper is a condition for the award of the overall grade. The student completes an intermediate written examination of knowledge (maximum possible points - 60). For successful completion of the course, it is necessary to obtain at least 60% of the points (min. 60 out of 100 points). The rating is awarded on a scale: A (100-91%, excellent - excellent results with only minimal errors), B (90-81%, very good - above average results with minor errors), C (80-73%, good - normal reliable work, average results), D (72-66%, satisfactory - acceptable results, but significant errors occur), E (65-60%, sufficient - results meet minimum criteria), Fx (59-0%, insufficient - passing the course still requires a significant amount of effort and work on the part of the student). A minimum of 91 points is required for a final grade of A. For this grade, the student should demonstrate: a creative and original approach in the development of intermediate assignments, excellent professional knowledge and its application in problem solving, excellent orientation in the subject matter, excellent communication skills, responsibility and timely completion of assignments, exceptional activity in the classroom during the semester. A score of at least 81 points is required for a final grade of B. For this grade, the student should demonstrate: a creative approach in developing ongoing assignments using a model, above average expertise and application of that expertise in problem solving using tutorials, above average orientation to the problem, above average communication skills, responsibility and timely completion of assignments, above average activity in class during the semester. A minimum of 73 points is required for a final grade of C. For this grade, the student should demonstrate: the ability to develop intermediate assignments using the given template, good professional knowledge and its application in solving problem problems in a group or with the help	

of the instructor, good orientation in the subject matter, good communication skills, completion of the assigned tasks, average activity in class during the semester when prompted by the instructor. A minimum of 66 points is required for a final grade of D. For this grade, the student is expected to demonstrate: the ability to develop intermediate assignments using the assigned template and with the assistance of the instructor, average proficiency and application in problem solving in a group setting or with the assistance of the instructor, average orientation to the subject matter, average communication skills, completion of assignments, and basic activity in the classroom during the semester in collaboration with the instructor or other students.

A score of at least 60 points is required for a final grade of E. For this assessment, the student should demonstrate: the ability to work through assignments and with the help of the instructor, basic/minimal professional knowledge, basic/minimal orientation to the subject matter, basic communication skills, and completion of assigned tasks.

Scale of assessment (preliminary/final): 100/0

Learning outcomes:

Learning outcomes:

Learning objectives and outcomes and transferable competences:

The aim of the course Pedagogy of Individuals with Special Educational Needs is to make available basic information about the specifics of educating individuals with special educational needs and to prepare the student for pedagogical work in the context of the diversity of the educated population. The student will be able to define the term special educational needs, categorize individuals with special educational needs (SEN) in relation to the current system of special education and in accordance with current legislation. Becomes familiar with basic terminology in special education. Is able to characterize the educational opportunities for individuals with SEN. Can explain the implications of a disability/impairment/threat and/or other SEN in the educational process. Knows and understands the specifics of educating individuals with SEND. Can name and justify selected support measures in the education of children and pupils with SEND. Explain the importance of the teacher's cooperation with other educational and professional staff of the school and the school counselling centre in the care of pupils with SEN included in mainstream education. Know the educational programmes for pupils with SEND and understand the Individual Education Programme document. The student is prepared to address the risks associated with the inclusion of a pupil with SEND in a classroom of able-bodied classmates.

Transferable competences developed during the students' work in the seminars: critical thinking skills, contextual reasoning, communication skills.

Class syllabus:

Brief outline of the course:

General foundations and terminological definition of special education.

Definition of basic terms in special education.

Trends in education, current opportunities and legislative conditions in education of individuals with SEND (with a focus on inclusive education).

Specifics of education and support measures for children and pupils with SEN according to individual categories:

pupils with intellectual disabilities and cognitive impairment; pupils with autism spectrum disorder; pupils with physical disabilities, illnesses and disabilities; pupils with impaired communication skills; pupils with specific learning disabilities; pupils with behavioural disorders; pupils from socially disadvantaged backgrounds; gifted and exceptionally gifted pupils.

Educational programmes and individual educational programme for pupils with SEN.

The position of a pupil with SEN in a class group of intact classmates.

Cooperation of the teacher with other pedagogical and professional staff of the school and the school counselling centre in the care of SEN pupils (inclusive team).

COURSE DESCRIPTION

Academic year: 2023/2024	
University: Comenius University Bratislava	
Faculty: Faculty of Education	
Course ID: PdF.KVV/B-VU-de014/22	Course title: Pedagogy of visual arts
Educational activities: Type of activities: seminar Number of hours: per week: 3 per level/semester: 39 Form of the course: on-site learning	
Type, volume, methods and workload of the student - additional information Type of activities, scope (number of hours) and methods of educational activities: 3 hours seminar/week; combined method (primarily face-to-face). Student workload: 3S (3credits): 11 x 3 hours of direct instruction is 33 hours, 15 hours of continuous assignments, 15 hours of term work, 12 hours of preparation for the final paper on the assigned topic. Teaching methods: discussion and brainstorming on selected topics, case studies, small group work, application of theoretical knowledge to practical examples.	
Number of credits: 3	
Recommended semester: 4.	
Educational level: I.	
Prerequisites: PdF.KVV/B-VU-de009/22 - Didactics of art education 1	
Course requirements: The course is continuously assessed by assignments for independent work and completed with a term paper and a report on the assigned topic. A minimum of 91 points is required for a final grade A, a minimum of 81 points for a grade B, a minimum of 73 points for a grade C, a minimum of 66 points for a grade D and a minimum of 60 points for a grade E. Credit will not be awarded to a student who fails to complete any of the assigned topics and assignments. 100% of the interim assessment. Interim assignments represent 35%, term paper 35%, report on the assigned topic 30% of the total course grade.	
Learning outcomes: Learning objectives and outcomes: The aim of education within the course is to develop students' knowledge of gallery pedagogy and the possibilities of art projects in cultural-educational institutions. Upon completion of the course, the student will: • knows the principles of creation and design in the environment of cultural-educational institutions, • is able to organise the activities of pupils, especially in extra-curricular and extracurricular activities and leisure activities, • knows the basics of pedagogical communication, individual and team work in solving professional and pedagogical problems.	
Class syllabus:	

The course focuses on gallery pedagogy as a specific area of museum pedagogy, with its specific content. It focuses on the search for different forms of communication of the child with the world of art and culture, with an emphasis on the field of visual arts. In the seminar, the student will gain a basic theoretical orientation in the given issue and in practical terms will verify the creation of programs and accompanying materials not only in the field of visual arts and culture, but also in the whole breadth of topics in their mutual confrontation. By completing the course, the student will acquire the competence to lead art and creative activities in the field of gallery and museum education.

COURSE DESCRIPTION

Academic year: 2023/2024	
University: Comenius University Bratislava	
Faculty: Faculty of Education	
Course ID: PdF.KVV/B-VU-de007/22	Course title: Photographic techniques
Educational activities: Type of activities: seminar Number of hours: per week: 3 per level/semester: 39 Form of the course: on-site learning	
Type, volume, methods and workload of the student - additional information Type of activities, scope (number of hours) and methods of educational activities: (full-time): 3 hours per week seminar, total 33 hours per semester, combined form; (primarily full-time). Student workload: 3S, (3 credits): 11x3 hours of direct instruction = 33 hours; 20 hours of lecture, 30 hours of term paper preparation, 30 hours of midterm assignments, 5 hours of preparation for midterm evaluation, 5 hours of preparation for final evaluation. Total 90 hours of student work. Teaching methods: combination of monological, dialogical and practical methods: lecture, briefing, discussion on the presented topic, solving practical tasks, brainstorming on selected topics, application of theoretical knowledge to practice and discussion, polemics.	
Number of credits: 4	
Recommended semester: 3.	
Educational level: I.	
Prerequisites:	
Course requirements: The course is completed with an assessment consisting of a presentation of term papers on assigned topics. Semester work 30%, assignments 50%, seminar work 10%, activity and creativity in class 10%. A minimum of 91 points is required for an A grade, a minimum of 81 points for a B grade, a minimum of 73 points for a C grade, a minimum of 66 points for a D grade and a minimum of 60 points for an E grade. Credit will not be awarded to a student who fails to complete any of the assigned topics. Grades are awarded on a scale of: A (100-91%, excellent - outstanding), B (90-81%, very good - above average standard), C (80-73%, good - normal reliable work), D (72-66%, satisfactory - acceptable results), E (65-60%, satisfactory - results meet minimum criteria), Fx (59-0%, inadequate - extra work required).	
Learning outcomes:	

Learning objectives and outcomes: The aim of the course is to acquire basic skills and theoretical knowledge in the field of photography. Upon completion of the course, the student will: • has basic theoretical knowledge in the field of photography, • is able to cooperate in solving professional projects in the field of subject specialization focused on photography, • has basic knowledge of photographic techniques and technologies, • has basic relevant knowledge of the history of the origin and development of photography, • is familiar with the specifics of analogue and digital photography, • can use the acquired knowledge in pedagogical practice.																				
Class syllabus: The course is aimed at acquiring knowledge of photographic techniques and technological procedures. The student will gain an overview of the similarities and differences between analogue and digital photography. The student will acquire theoretical knowledge of the origins and basic historical development of the photographic medium. Seminars will focus on the production of photographic works, with a view to capitalizing on the acquired technical knowledge and using it creatively in pedagogical practice.

COURSE DESCRIPTION

Academic year: 2023/2024	
University: Comenius University Bratislava	
Faculty: Faculty of Education	
Course ID: PdF.KVV/B-VU-de021/22	Course title: Photography
Educational activities: Type of activities: seminar Number of hours: per week: 3 per level/semester: 39 Form of the course: on-site learning	
Type, volume, methods and workload of the student - additional information Scope, type/method of teaching and organizational form: 3 hours per week seminar, total 33 hours per semester, combined form; (primarily by attendance). Student workload: 3S, (3 credits): 11x3 hours of direct instruction = 33 hours; 15 hours of studying theoretical knowledge on the issue of graphics, focused on printing in depth; 21 hours of work on assignments (application of knowledge from instruction to the creation of a set of term papers in the form of graphic sheets); 5 documentation, digitization, archiving of a set of term papers and preparation for the defense; 1 defense and reflection of a set of term papers. A total of 75 hours of student work. Teaching methods: lecture, briefing, discussion on the presented topic, solving practical tasks, brainstorming on selected topics, application of theoretical knowledge to practice and discussion, polemic, debate.	
Number of credits: 3	
Recommended semester: 4.	
Educational level: I.	
Prerequisites: PdF.KVV/B-VU-de007/22 - Photographic techniques	
Course requirements: The course is completed with an evaluation, final defence of the presented set of works realized in the field of the artistic medium of photography with a focus on the problems of still life, landscape, documentary and reportage. Demonstration of theoretical knowledge in the field of photography 0-10 points; realization of a set of semester works on the assigned topics 0-80 points; documentation, archiving, defense of semester works 0-10 points. To obtain the final grade A, it is necessary to obtain at least 91 points, to obtain grade B at least 81 points, to obtain grade C at least 73 points, to obtain grade D at least 66 points and to obtain grade E at least 60 points. To pass the course, a minimum of 60% of the marks must be obtained. Credit will not be awarded to a student who fails to complete any of the assigned topics, fails to attend a minimum number of midterm tutorials, or fails to submit the required documentation of a set of term papers. Grades are awarded on a scale: A (100-91%, excellent - outstanding results) B (90-81%, very good - above average standard) C (80-73%, good - normal reliable work)	

D (72-66%, satisfactory - acceptable results) E (65-60%, satisfactory - results meet minimum criteria) Fx (59-0%, inadequate - extra work required)						
Learning outcomes: Learning objectives and outcomes: The aim of education within the course is to acquire basic theoretical knowledge and practical experience in the area of photography with a focus on still life, landscape, documentary and reportage. After completing the course: • has basic practical skills and theoretical knowledge in the medium of photography, • is able to work independently with the medium of photography and to create a photographic work at the appropriate formal and content level on a given topic, • is able to document and creatively use photographic images in pedagogical practice.						
Class syllabus: The focus of the course is to acquire knowledge of the history of photography in the 20th century. The student will gain an overview of the basic photographic genres (still life, landscape, documentary, reportage, etc.) while learning how to photograph in these genres. The student will also acquire knowledge of the formal and contextual procedures of creating a photographic image so that he/she is capable of independent artistic expression and is able to present the knowledge and use it in practice.

COURSE DESCRIPTION

Academic year: 2023/2024	
University: Comenius University Bratislava	
Faculty: Faculty of Education	
Course ID: PdF.KPg/B-VUZde003/22	Course title: Psychology for teachers 1
Educational activities: Type of activities: seminar / lecture Number of hours: per week: 2 / 2 per level/semester: 26 / 26 Form of the course: on-site learning	
Number of credits: 4	
Recommended semester: 2., 4.	
Educational level: I.	
Prerequisites:	
Course requirements: Prerequisite subjects: none Prerequisites for successful completion of the course: The course is completed by examination, the weight of the interim and final assessment is 50/50 50% Intermediate assessment: includes a seminar paper (10 points), an intermediate test (40 points). 50% Final assessment: includes a reflective essay (5 points) and a final test (45 points). The student must score at least 50% on each test. For successful completion of the course it is necessary to obtain at least 60% of the points. The rating is awarded on a scale: A (100-91%, excellent - outstanding results), B (90-81%, very good - above average standard), C (80-73%, well - normal reliable work), D (72-66%, satisfactory - acceptable results), E (65-60%, sufficient - results meet minimum criteria), Fx (59-0%, insufficient - extra work required). For a grade of A, the student must be consistently outstanding, capable of independent study, and able to critically compare professional texts in psychology. The student is able to navigate a variety of literary sources, is proficient in the fundamentals of general and developmental psychology, understands the thinking, decision-making and emotional responses of children and adults, and can reflect critically on psychological knowledge. A grade of B indicates that the student has performed above average throughout the semester, has been able to study independently, has mastered basic information related to general and developmental psychology, understands how children and adults think, make decisions, and react emotionally, and reflects on psychological knowledge. A grade of C means that the student has performed standardly well during the semester, his/her theoretical knowledge of the subject is at a good level, but the ability to apply this knowledge or critically evaluate and compare individual psychological findings is lacking. A grade of D means that the student has been less prepared during the semester, has slight deficiencies in theoretical knowledge related to the subject of education and has more problems in independent implementation work, cannot critically analyze information.	

A grade of E means that the student fails in more than one of the assignments, lacks the ability to analyze and compare multiple pieces of knowledge, and fails in critical thinking and application of theoretical knowledge to practice as well as theoretical knowledge.

Scale of assessment (preliminary/final): 50/50

Learning outcomes:

Learning outcomes:

Learning objectives and outcomes and transferable competences:

The aim of Psychology for Teachers 1 is to make available basic information about the general laws of human experience and behaviour so that they can form a platform for understanding the workings of the human psyche and to synthesize psychological knowledge, facts, theories, research approaches into a coherent view of the individual's psyche for the purposes of creative professional application in pedagogical practice. The student after completing the course

- knows the basic concepts of general, cognitive and developmental psychology, basic models and theories of developmental psychology, knows how to differentiate and classify them into individual categories,

- can apply knowledge of general, cognitive and developmental psychology in an educational context,

- knows the laws of psychic development, especially with regard to the needs of lower and upper secondary education,

- knows the laws of development of cognitive processes and their application in the educational process

- can read and understand professional text and psychological research, understand tables and graphs

- finds logical connections in opinions and thoughts

Class syllabus:

Brief outline of the course:

Part of general and cognitive psychology:

1. Introduction to psychology: a brief history of psychology, psychology as a science, the subject of psychological inquiry, the formation of psychological knowledge and psychological methodology. Psychological processes and states.

2. Sensory processes. Perception - characteristics of the process, laws of perception and types of perception.

3. Imagination and attention. Fantasy and memory imagery. Types of ideas and their comparison. Illusions and hallucinations. Types and characteristics of attention.

4. Memory and learning. Theories of memory. Types of memory. Memory processes and information (remembering, retention, reproduction, retrieval). Forgetting, extremes and pathology in memory performance. Characteristics and some theories of learning, types, conditions and principles of learning

5. Thinking, intelligence and speech. Thought operations and forms of thought. Types of thinking. Thinking as problem solving. Thinking and intelligence. Relationship between thinking and language.

6. Dynamics of the psyche: motivation and emotions. Emotional states and feelings. Physiological bases of emotionality. Classification and characteristics of feelings and emotions. Stress, frustration and the experience of conflict. Characteristics and functions of motivation, principles of motivation, energetic basis of the organism, instincts, drives, needs, values, attitudes, aspirations, frustration, volition.

Part of developmental psychology:

7. The subject of investigation and methods of developmental psychology. Subject, aims of developmental psychology; interdisciplinary relations. Assessment of psychological development - basic methods of diagnosing developmental level, developmental screening and scales, psychological tests.
8. Mental development in general - developmental changes and laws, factors of development. Developmental changes and their classification, basic developmental processes. Factors of development - conditions of psychic development, external and internal factors of psychic development and their interrelations; maturation and learning, development and education. Developmental laws.
9. Theoretical models and concepts of psychological development. Periodization of development. Problems of unified classification of psychological development, classification systems. Critical or sensitive developmental stages, developmental crisis. Basic psychological characteristics of developmental phases.
10. The most important theoretical models of psychological development and their critical evaluation - psychoanalytic, humanistic, biodimensional model, Piaget's school, Vygotsky and the Russian school etc. Theoretical concepts of determination of psychological development - nativism and endogenistic theories, empiricism and exogenistic theories, interaction theoretical models.
11. Developmental roles of the different periods - prenatal development, newborn, infant, toddler, pre-school age, younger school age, adolescence, adulthood and old age.

2. Sensory processes. Perception - characteristics of the process, laws of perception and types of perception.
3. Imagination and attention. Fantasy and memory imagery. Types of ideas and their comparison. Illusions and hallucinations. Types and characteristics of attention.
4. Memory and learning. Theories of memory. Types of memory. Memory processes and information (remembering, retention, reproduction, retrieval). Forgetting, extremes and pathology in memory performance. Characteristics and some theories of learning, types, conditions and principles of learning
5. Thinking, intelligence and speech. Thought operations and forms of thought. Types of thinking. Thinking as problem solving. Thinking and intelligence. Relationship between thinking and language.
6. Dynamics of the psyche: motivation and emotions. Emotional states and feelings. Physiological bases of emotionality. Classification and characteristics of feelings and emotions. Stress, frustration and the experience of conflict. Characteristics and functions of motivation, principles of motivation, energetic basis of the organism, instincts, drives, needs, values, attitudes, aspirations, frustration, volition.

Part of developmental psychology:

7. The subject of investigation and methods of developmental psychology. Subject, aims of developmental psychology; interdisciplinary relations. Assessment of psychological development - basic methods of diagnosing developmental level, developmental screening and scales, psychological tests.
8. Mental development in general - developmental changes and laws, factors of development. Developmental changes and their classification, basic developmental processes. Factors of development - conditions of psychic development, external and internal factors of psychic development and their interrelations; maturation and learning, development and education. Developmental laws.
9. Theoretical models and concepts of psychological development. Periodization of development. Problems of unified classification of psychological development, classification systems. Critical or sensitive developmental stages, developmental crisis. Basic psychological characteristics of developmental phases.
10. The most important theoretical models of psychological development and their critical evaluation - psychoanalytic, humanistic, biodimensional model, Piaget's school, Vygotsky and the Russian school ai... Theoretical concepts of determination of psychological development - nativism and endogenistic theories, empiricism and exogenistic theories, interaction theoretical models.
11. Developmental roles of the different periods - prenatal development, newborn, infant, toddler, pre-school age, younger school age, adolescence, adulthood and old age.

COURSE DESCRIPTION

Academic year: 2023/2024	
University: Comenius University Bratislava	
Faculty: Faculty of Education	
Course ID: PdF.KPg/B-VUZde007/22	Course title: Psychology for teachers 2
Educational activities: Type of activities: seminar / lecture Number of hours: per week: 2 / 2 per level/semester: 26 / 26 Form of the course: on-site learning	
Number of credits: 4	
Recommended semester: 3., 5.	
Educational level: I.	
Prerequisites: PdF.KPg/B-VUZde003/22 - Psychology for teachers 1	
Course requirements: Prerequisites: B-VUZde003 / Psychology for teachers 1 Prerequisites for successful completion of the course: The course is completed with an assessment, 100% of the continuous assessment, which includes continuous work - completion of a self-awareness test (15% of the assessment) and a seminar paper (20% of the assessment), completion of a continuous test in personality psychology (30% of the assessment), a reflective essay (5% of the assessment), and a final test (30% of the assessment). Credit will not be awarded to a student who scores less than 50% on any of the four written examinations. To pass the course, you must obtain a minimum of 60 % of the marks. The rating is awarded on a scale: A (100-91%, excellent - outstanding results), B (90-81%, very good - above average standard), C (80-73%, well - normal reliable work), D (72-66%, satisfactory - acceptable results), E (65-60%, sufficient - results meet minimum criteria), Fx (59-0%, insufficient - extra work required) For an A grade, the student must have excellent theoretical knowledge, be able to evaluate and critically analyse it, and use the knowledge flexibly in practically set tasks. For a grade of B, the student must have excellent theoretical knowledge, be able to evaluate and critically analyze it, and have slight deficiencies in the use of knowledge in practically set tasks. For a grade of C, the student must have excellent theoretical knowledge, moderate deficiencies in its evaluation and critical analysis, moderate deficiencies in the use of knowledge in practically set tasks. For a grade D, the student must have basic theoretical knowledge, moderate deficiencies in their evaluation and critical analysis, moderate deficiencies in the use of knowledge in practically set tasks). For an E grade, the student must have basic theoretical knowledge, moderate deficiencies in their evaluation and critical analysis, and major deficiencies in the use of knowledge in practically set tasks.	

Scale of assessment (preliminary/final): 100/0
Learning outcomes: Learning objectives and outcomes and transferable competences: The aim is - Know the principles of personality formation and use them to develop the cognitive, affective and competence of pupils and students; - to build and develop the individual components of the educational process in the context of the personalities of the pupils in the classroom; - in accordance with the personality of the pupils and students, choose an empathetic approach and encourage self-actualizing tendencies; - apply social and emotional competencies to promote their own psychological well-being; - to know the basic psychological problems of education and to be able to work effectively with them in the educational process, - be able to actively acquire information and use it to solve practical tasks in the field.
Class syllabus: Brief outline of the course: Psychology of personality 1. Basic definition and concepts of personality psychology - structure, dynamics. 2. Concepts of the psychoanalytic approach - the structure of personality according to S. Freud, defence mechanisms of A. Freud and their relationship to psychological difficulties in the educational environment (burnout syndrome, depression, etc.). 3. Concepts of individual and analytical psychology - the need for power A. Adler, the need for power in pupils in the educational environment; archetypes of C. Jung, the acceptance of archetypal tendencies and their relation to the educational process. 4. Behaviorism and neobehaviorism - the concept of behaviorism E. Thorndike, J. Watson, operant conditioning B. Skinner in teacher-pupil relationship, social learning of A. Bandura - teacher as a role model. 5. Humanistic psychology - concepts of A. Maslow, V. Frankl, C. Rogers, self-actualization and the promotion of the self-actualizing instinct as the goal of the educational process. Educational psychology 6. Basic definition and concepts of educational psychology. 7. Approach to pupils with special educational needs (specific focus on the intellectually gifted, pupils with Asperger's syndrome, ADHD). 8. Psychohygiene of teachers in educational settings - stress management, attitudes, assertiveness and assertive techniques, teachers' attitudes and biases. 9. Psychological problems in pupils and students - perfectionism, hypersensitivity, stress and anxiety. 10. Psychological aspects of education - intrinsic and extrinsic motivation of pupils, assessment. 11. Psychological aspects of working with gifted individuals in the classroom.

COURSE DESCRIPTION

Academic year: 2023/2024	
University: Comenius University Bratislava	
Faculty: Faculty of Education	
Course ID: PdF.KVV/B-VU-de015/22	Course title: Reflective didactic seminar
Educational activities: Type of activities: seminar Number of hours: per week: 2 per level/semester: 26 Form of the course: on-site learning	
Type, volume, methods and workload of the student - additional information Type of activities, scope (number of hours) and methods of educational activities: 2 hours seminar/week, combined method (primarily face-to-face). Student workload: discussion and brainstorming on selected topics, case studies, small group work, application of theoretical knowledge to practical examples, situation analysis method. Teaching methods: discussion and brainstorming on selected topics, case studies, small group work, application of theoretical knowledge to examples of concrete options.	
Number of credits: 2	
Recommended semester: 1., 3., 5.	
Educational level: I.	
Prerequisites:	
Course requirements: The course is continuously evaluated by assignments for independent work and completed with a term paper on the assigned topic. A minimum of 91 points is required for a final grade A, a minimum of 81 points for a grade B, a minimum of 73 points for a grade C, a minimum of 66 points for a grade D and a minimum of 60 points for a grade E. Credit will not be awarded to a student who fails to complete any of the assigned topics and assignments. 100% of the interim assessment. Interim assignments represent 50% and term papers represent 50% of the total course grade.	
Learning outcomes: Learning objectives and outcomes: The aim of education within the respective subject is to develop the student's reflexive competence in the context of art education. Upon completion of the course, the student will: • knows the pedagogical-diagnostic process of artistic expression of children and youth in relation to the professional competences of an art educator, • knows the principles of creating, designing and evaluating the pedagogical environment in the context of primary education, • is able to present his/her opinions and analyse educational situations related to individual differences of children and young people and their reflection in the teaching process.	

Class syllabus:

The seminar is dedicated to conveying information about reflective teaching and reflection as an opportunity to develop self-assessment and evaluation of the process and product of art education practice in relation to the content focus of the curriculum.

Recommended literature:

Compulsory readings:

DOUŠKOVÁ, A. et al. Reflection and self-reflection as a tool for improving the quality of pedagogical practice. ISBN 978-80-8083-897-3.

KASÁČOVÁ, B. Reflective teaching and reflection in teacher training. UMB in Banská Bystrica, 2005. ISBN 80-8083-046-0.

COURSE DESCRIPTION

Academic year: 2023/2024	
University: Comenius University Bratislava	
Faculty: Faculty of Education	
Course ID: PdF.KH/B-HISde012/22	Course title: Regional history of Slovakia
Educational activities: Type of activities: seminar Number of hours: per week: 2 per level/semester: 26 Form of the course: on-site learning	
Type, volume, methods and workload of the student - additional information 2 hours seminar/week; 22 hours total per semester, combined; (primarily full-time) Student workload: 2S (2 credits): 11 x 2 hours of direct instruction = 22 hours; 20 hours of continuous seminar work on the topics covered; 10 hours of class preparation and field learning; 10 hours of discussion; 15 hours of final presentation and defense of a thesis (project) on a free topic in regional history. A total of 77 hours of student work. Educational methods: E-U-R (evocation-awareness-reflection); analysis of historical sources; walk; group work; role-play method; structured staging; project method; discussion/colloquium on the subject; SWOT analysis	
Number of credits: 2	
Recommended semester: 2.	
Educational level: I.	
Prerequisites:	
Course requirements: 100 % of the intermediate verbal and scored marks. During the semester, the student analyses and reflects verbally, in writing and in pictures the content of the course's thematic focus. The student applies the E-U-R method, discussion, and group work in solving the tasks assigned on an ongoing basis (also in the field during field trips). The output of the final seminar work is presented to a team and is verbally evaluated. The overall assessment is concluded with a discussion/colloquium, a summary of the scores obtained and the application of SWOT analysis. At least 91 points are required for a final grade of A, at least 81 points for a grade of B, at least 73 points for a grade of C, at least 66 points for a grade of D, and at least 60 points for a grade of E. Credit will not be awarded to students who obtain less than 15 points in any of the four written examinations. To pass the course, a minimum score of 60% is required. The grade is awarded on a scale: A (100-91%, excellent - excellent results, the student demonstrates the required results in the application of transferable knowledge in the field of the discipline and related sciences, can apply them in theoretical and practical contexts and in the contexts of local, national, and Central European history. He/she is oriented in the current state of knowledge of borderline scientific disciplines, thinks conceptually, can decipher historical sources, actively obtain information and creatively apply it in solving problem tasks, actively expands his/her knowledge and critically evaluates it and considers the suitability of its application for pedagogical and historical practice),	

B (90-81%, very good - above average standard, the student is oriented in the issue, knows it, can independently acquire new knowledge, and solve professional tasks, but his critical, constructive thinking is borderline when analysing and assessing the planes of normative and reflective didactics),

C (80-73%, good - normal reliable work, although the student can orient himself in the problem, independently search and analyse information, can learn, but he cannot think critically and constructively enough, evaluate the solved problems, and apply the acquired knowledge creatively and conceptually in broader theoretical and practical contexts),

D (72-66%, satisfactory - acceptable results, the student is able to orientate himself in the problem at a basic level, his knowledge is fragmented and incomplete, and at a lower level of satisfaction, he also applies transferable knowledge of the field and related disciplines, in the area of factual, conceptual, procedural and metacognitive knowledge he shows more serious deficiencies),

E (65-60%, sufficient - the results meet the minimum criteria, the student is able to orient himself in the problem only with great difficulty, he knows only the most basic knowledge, he does not demonstrate the ability to think critically and does not apply the acquired knowledge in a systematic way to the solution of practical tasks),

Fx (59-0%, insufficient - extra work is required, the student is unable to navigate the problem, does not master the most basic knowledge, and does not demonstrate the ability to argue and think critically).

Learning outcomes:

The graduate of the course can work with any material of regional "microhistory", understands the necessity of linking local and national history in the study of history, as well as interdisciplinary connections, and can reflect on the importance of regional research - whether historical, ethnographic, sociological, which provides contextual links to the teaching of history. Demonstrates basic skills in processing regional source material and knows the methodology of creating didactic, educational aids for popularising regional history. In addition to applying the cognitive function of history, he/she can also use the educational and deleterious function.

Class syllabus:

The student will become familiar with selected problems of teaching regional history, identify the requirements placed on the education of teachers and pupils in the field of cultural and natural heritage, acquiring knowledge about the application of methods and strategies recommended for learning the "timeless" values of (not only) local history. He/she will experience implementing teamwork in the so-called "revival" of history.

The course content focuses on the following core themes:

- History outdoors - deciphering history in the field in Spatio-temporal coordinates.
- "Reviving" history textbooks in the city of Bratislava. Three walks with a map and a timeline in hand. The importance of object didactics in educational practice.
- Model situations (frameworks) of historical and procedural cognition. Model examples of processing selected topics of regional history.
- Cognition of historical regions of Slovakia, specifics of their development and perspectives.
- Historical and symbolic paths through the regions of Slovakia, regional history in the context of national and Central European history.
- Active perception of interdisciplinary connections in transferable topics of regional history.
- Places of memory; what do the preserved monuments commemorate?
- The place of regional history in the preparation of future history teachers.
- Creation of projects popularising artefacts of regional (local) history.

COURSE DESCRIPTION

Academic year: 2023/2024	
University: Comenius University Bratislava	
Faculty: Faculty of Education	
Course ID: PdF.KPg/B-VUZde034/22	Course title: Rhetoric and communication
Educational activities: Type of activities: seminar Number of hours: per week: 2 per level/semester: 26 Form of the course: on-site learning	
Number of credits: 3	
Recommended semester: 3., 5.	
Educational level: I.	
Prerequisites: PdF.KPg/B-VUZde005/22 - Communication in education	
Course requirements: Prerequisites: B-VUZde005 / Communication in education Prerequisites for successful completion of the course: the course is completed with an evaluation, 100% of the continuous evaluation. Assessment: consists of 2 intermediate assessments (60+40, total 100 points). Interim assessment 1: consists of the development of a semester cooperative work and its oral presentation or practical application in class. This is a prepared micro-team output: the creation of a student conference. Semester work: consists of a creative assignment for 60p (30+30). It includes the preparation of a group simulation of a student conference (30b) together with a professional paper on a selected topic (30b) for approximately 45 minutes. Intermediate assessment 2: consists of the creation of documents for the student conference (40b): poster, invitation, programme, etc. in an electronic environment (web development). Prerequisites: The rating shall be awarded on a scale of A (100-91%, excellent - excellent results with only minimal errors), B (90-81%, very good - above average results with minor errors), C (80-73%, good - normal reliable work, average results), D (72-66%, satisfactory - acceptable results, but significant errors occur), E (65-60%, sufficient - results meet minimum criteria), Fx (59-0%, insufficient - extra work required). For successful completion of the course it is necessary to obtain at least 60% of the points. A minimum of 91 points is required for a final grade of A. For this grade, the student should demonstrate: a creative and original approach in the development of intermediate assignments, excellent professional knowledge and its application in problem solving, excellent orientation in the subject matter, excellent communication skills, responsibility and timely completion of assignments, exceptional activity in the classroom during the semester. A score of at least 81 points is required for a final grade of B. For this grade, the student should demonstrate: a creative approach in developing ongoing assignments using a model, above average expertise and application of that expertise in problem solving using tutorials, above	

average orientation to the problem, above average communication skills, responsibility and timely completion of assignments, above average activity in class during the semester.

A minimum of 73 points is required for a final grade of C. For this grade, the student should demonstrate: the ability to develop intermediate assignments using the given template, good professional knowledge and its application in solving problem problems in a group or with the help of the instructor, good orientation in the subject matter, good communication skills, completion of the assigned tasks, average activity in class during the semester when prompted by the instructor.

A minimum of 66 points is required for a final grade of D. For this grade, the student is expected to demonstrate: the ability to develop intermediate assignments using the assigned template and with the assistance of the instructor, average proficiency and application in problem solving in a group setting or with the assistance of the instructor, average orientation to the subject matter, average communication skills, completion of assignments, and basic activity in the classroom during the semester in collaboration with the instructor or other students.

A score of at least 60 points is required for a final grade of E. For this assessment, the student should demonstrate: the ability to develop continuous assignments and with the help of the instructor, basic/minimal professional knowledge, basic/minimal orientation to the subject matter, basic communication skills, completion of assigned tasks.

Learning outcomes:

Learning objectives and outcomes:

By completing the Rhetoric and Communication course, the student should:

- be able to select information, identify relevant sources on the selected topic,
- be able to justify the choice of specialist sources for the semester thesis,
- understand the importance of selection and analysis of information and information sources,
- be able to work in a team, organise activities to accomplish sub-tasks,
- be able to present intermediate tasks to the group,
- be able to justify and discuss in a group various social topics related to education and training,
- acquire presentation and communication skills and be able to apply them through creative activities in the classroom,
- Know methods for Developing of critical thinking and good reasoning,
- should be able to identify manipulative behaviour.

Transferable competences: the student strengthens soft skills such as communication skills, analytical thinking in evaluating information and working with text, critical thinking and thinking in context in the development of arguments and their application in discussion, interpersonal skills within the group - activation and taking initiative and responsibility, also creative work with e-portfolio (ability to create an interesting website) through creative tasks in the course.

Class syllabus:

Brief outline of the course:

The aim of the course is the practical application of knowledge about effective communication through practicing rhetorical outcomes and teamwork, i.e. through cooperative methods and interactive activities. Using various activating methods and problem-based tasks, students will actively participate in the learning process and create their own course content, in which they will use their own potential and develop the intra and interpersonal aspects of their own personality. An important part of this is a semester-long group project through which students will learn how to organize major events, while developing proper communication and rhetorical skills.

Topics:

Rhetoric - types of speech, practicing presentation skills through micro performances. Content/form/communication skills (verbal and non-verbal) of oral presentation and analysis of speakers. Presentation - structure and organization of speech/speech/lecture. Evaluating information and

finding relevant sources. Simulating a debate. Organisation of time and group cooperation. Visualisation and generating interest in the listener. Argumentation - types of arguments and logical fallacies. Manipulation and manipulation techniques, assertiveness. Types of conversation, discussion - how to conduct a conversation, structuring a conversation. Division of discussion methods. Feedback - self-evaluation and self-reflection. Creating a website and e-portfolio with student outputs. Implementation of student conference - simulation/workshop.

Educational activities: Type of activities: lecture + seminar Number of hours: per week: 2 per level/semester: 26 Form of the course: on-site learning	
Number of credits: 3	
Recommended semester: 3., 5.	
Educational level: I.	
Prerequisites:	
Course requirements: 100% of continuous assessment Assessment: consists of an interim and a final assessment (30+40, 70 points in total). Interim assessment: consists of a 30-item knowledge test to be given in week 6 of the interim course. A written examination/test, consisting of theoretical preparation for the teaching of the individual topics of the teaching units, which will be carried out by the 6th week of continuous teaching and the study of the literature. The final assessment consists of: the semester project and its oral presentation. The semester project consists of: the creation of a project according to a set structure for 40b. It includes idea/problem creation, project planning, project implementation, evaluation and self-reflection of the project = its oral presentation by students (creators of the semester project) in the 11th week of continuous teaching. Prerequisites: The rating shall be awarded on a scale of A (100-91%, excellent - excellent results with only minimal errors), B (90-81%, very good - above average results with minor errors), C (80-73%, good - normal reliable work, average results), D (72-66%, satisfactory - acceptable results, but significant errors occur), E (65-60%, sufficient - results meet minimum criteria), Fx (59-0%, insufficient - extra work required). For successful completion of the course it is necessary to obtain at least 60% of the points. A minimum of 64 points is required for a final grade of A. For this grade, the student should demonstrate: a creative and original approach in the development of intermediate assignments, excellent professional knowledge and its application in problem solving, excellent orientation in the subject matter, excellent communication skills, responsibility and timely completion of assignments, exceptional activity in the classroom during the semester. A score of at least 57 points is required for a final grade of B. For this grade, the student should demonstrate: a creative approach in developing ongoing assignments using a model, above average expertise and application of that expertise in problem solving using tutorials, above	

average orientation to the problem, above average communication skills, responsibility and timely completion of assignments, above average activity in class during the semester.

A minimum of 51 points is required for a final grade of C. For this grade, the student should demonstrate: the ability to develop intermediate assignments using the given template, good professional knowledge and its application in solving problem problems in a group or with the help of the instructor, good orientation in the subject matter, good communication skills, completion of the assigned tasks, average activity in class during the semester when prompted by the instructor.

A minimum of 46 points is required for a final grade of D. For this grade, the student is expected to demonstrate: the ability to develop intermediate assignments using the assigned template and with the assistance of the instructor, average proficiency and application in problem solving in a group setting or with the assistance of the instructor, average orientation to the subject matter, average communication skills, completion of assignments, and basic activity in the classroom during the semester in collaboration with the instructor or other students.

A score of at least 42 points is required for a final grade of E. For this assessment, the student should demonstrate: the ability to produce continuous assignments and with the help of the instructor, basic/minimal professional knowledge, basic/minimal orientation to the subject matter, basic communication skills, completion of assigned tasks.

Scale of assessment (preliminary/final): 100/0

Learning outcomes:

- to know the content of school management as a scientific discipline: the essence of school management in the Slovak Republic at all levels of school management with an emphasis on internal school management and in the context of managerial functions
- be familiar with the basic legal documents and be able to correctly interpret the meanings given in these legal documents that regulate the activities of primary and secondary schools, with an emphasis on the needs of the work of the teaching staff,
- be able to apply the acquired knowledge and knowledge from other disciplines in the focus area: school image, culture and climate, in the area of cooperation with the school management and legal representatives of children/pupils in solving standard, specific and problematic tasks and situations and in the framework of school development,
- be able to creatively use the acquired knowledge and competences in the study of other pedagogical disciplines and in their future school practice.

Transferable competences: the student strengthens soft skills such as communication skills, organizational skills, interpersonal skills within a group - group activation, taking initiative and responsibility, creativity and imagination, critical thinking, analytical skills, problem-solving skills, and others through the creation of a semester project in the course.

Class syllabus:

Basic terminology, options for studying school management, sources of study. Schools and concepts of management. Specifics of school management. The system of school management in the Slovak Republic and the system of internal school management in the context of managerial functions. Legal regulations governing the activities of primary and secondary schools (laws, decrees, working regulations, pedagogical-organisational guidelines). Personality of the head of teaching staff - legal and personality requirements. School image, school culture. School climate.

COURSE DESCRIPTION

Academic year: 2023/2024	
University: Comenius University Bratislava	
Faculty: Faculty of Education	
Course ID: PdF.KH/B-HISde014/22	Course title: Seminar on General History I.
Educational activities: Type of activities: seminar Number of hours: per week: 2 per level/semester: 26 Form of the course: on-site learning	
Type, volume, methods and workload of the student - additional information Two hours seminar/week, 22 hours total per semester, combined; (primarily full-time); 2S (2 credits): 11 x 2 hours of direct instruction = 22 hours; 19 hours of preparation for the midterm evaluation + 19 hours of preparation for the seminar paper; 60 hours of student work in total; discussion of the topic; problem-solving exercises; e-learning; small group work, didactic games.	
Number of credits: 2	
Recommended semester: 1.	
Educational level: I.	
Prerequisites:	
Course requirements: 100 % of continuous assessment. The student will hand in the seminar paper in the examination period, from which he/she can obtain 70% of the total grade. During the semester, he/she also presents a selected topic (30% of the total grade), on which he/she is continuously working, in front of his/her classmates and the lecturer. He/she will provoke a discussion and prepare a didactic game. A final grade of A requires a score of at least 91%, a grade of B requires a score of at least 81%, a grade of C requires a score of at least 73%, a grade of D requires a score of at least 66%, and a grade of E requires a score of at least 60%. A minimum of 60% of the marks must be obtained to pass the course. The grade is awarded on a scale: A (100-91%, excellent - outstanding results, the student is familiar with the subject matter, has mastered it, demonstrates a creative approach and the ability to think critically), B (90-81%, very good - above average standard, the student is knowledgeable about the subject matter, but critical thinking is borderline), C (80-73%, good - normal reliable work, the student does know his/her way around the subject, has learned the subject, but cannot apply the knowledge gained to practice), D (72-66%, satisfactory - acceptable results, the student can orient himself/herself to the problem only at a basic level, his/her knowledge is fragmented, he/she does not demonstrate the ability to think critically and cannot apply the acquired knowledge to practice), E (65-60%, sufficient - the results meet the minimum criteria, the student can orient himself/herself in the problem only with great difficulty, knows only the most basic knowledge, does not demonstrate the ability to think critically and cannot apply the acquired knowledge to practice), Fx (59-0%, insufficient - extra work is required, the student is unable to navigate the issues, does not master the most basic knowledge, does not demonstrate the ability to think critically)	

Learning outcomes:

In the course, the student will thoroughly master the methods of working with contemporary historical sources from the history of antiquity in the years 2000 BC - 476 AD. and their possible use in the pedagogical process at primary or secondary school. The student will be able to deal professionally with written historical sources of different natures (epics, scribes, contemporary historiographical writings, etc.) and will deepen his/her knowledge by analysing contemporary historical sources. They will be able to evaluate the meaning of sources, interpret them and compare them with other sources. In addition, they will learn to think critically, argue more independently and discuss issues.

Class syllabus:

Kurz sa zameriava na prehĺbenie poznania a dôkladnejšie poznanie pramennej bázy starovekých dejín. Študent/-ka sa oboznámi s vývojom v období staroveku prostredníctvom analýzy historických prameňov. Študent/-ka ako budúci pedagóg/-ička tak získa schopnosť sprostredkovať nadobudnuté vedomosti žiakom. Kurz sa sústreďí na tieto ťažiskové témy:

- epos o Gilgamešovi
- Chammurapiho zákonník
- Chetitský zákonník
- Starogrécke báje
- Gortýnske zákony
- Ilias a Odysea
- Herodotove dejiny
- Zákony XII tabúl
- Zápisky o vojne v Galii
- a i.

COURSE DESCRIPTION

Academic year: 2023/2024	
University: Comenius University Bratislava	
Faculty: Faculty of Education	
Course ID: PdF.KH/B-HISde017/22	Course title: Seminar on General History II.
Educational activities: Type of activities: seminar Number of hours: per week: 2 per level/semester: 26 Form of the course: on-site learning	
Type, volume, methods and workload of the student - additional information 2 hours seminar /week, total per semester 22 hours, combined form; (primarily full-time). Student workload: 2S (2 credits): 11 x 2 hours of direct instruction = 22 hours; 3 hours of preparation for a paper; 20 hours preparation of a seminar paper; 15 hours preparation of individual assignments for each hour. Total 60 hours of student work. Learning methods: problem-solving; analysis of medieval sources; discussion of the subject; e-learning, heuristic method, work with text; guided discussion.	
Number of credits: 2	
Recommended semester: 2.	
Educational level: I.	
Prerequisites:	
Course requirements: 100 % of the continuous assessment. In each seminar, students are assigned different assignments. Medieval sources will be read and interpreted. For example, the Chronicle of the Franks, Gregory of Tours, and Einhard's Vita Caroli Magni (Biography of Charlemagne). In addition to various sub-assignments, the most important output will be the students' term papers. At the beginning of the semester, each student will choose the topic of his/her seminar paper. From the fifth two-hour period, students will gradually present the topics of their seminar papers in the form of papers. The papers will be verbally evaluated not only by the teacher but also by other students in discussion. Then the student will complete the seminar paper, which must be a minimum of 15 pages. It must include notes and a list of references used and sources. A minimum of 91 points is required for a final grade of A. a minimum of 81 points for a B grade, a minimum of 73 points for a C grade, and a minimum of 73 points for a grade D, at least 66 points and for grade E at least 60 points. No credits will be awarded to students who obtain less than 15 points in any of the four written examinations. For passing the course, a minimum score of 60% is required. The grade is awarded on a scale: A (100-91%, excellent - excellent results, the student is knowledgeable and proficient in the subject matter and demonstrates a creative approach and the ability to think critically. The student is able to acquire information actively and creatively apply it in solving problem tasks, actively expands his/her knowledge and critically reviews it and considers the appropriateness of its application for pedagogical and history practice. He/she has prepared the seminar work at an excellent level), B (90-81%, very good - above average standard. The student is oriented in the issue, knows it, and can independently solve professional tasks. His/her seminar paper is written at a very good level).	

C (80-73%, good - normal reliable work, the student is safe in reproducing the acquired knowledge, however, he/she applies and synthesises the acquired knowledge only with difficulty. His/her term paper is written at a reasonable level). D (72-66%, satisfactory - acceptable results, the student can orientate himself in the problem only at a basic level, his knowledge is fragmental, he does not demonstrate the ability to think critically, and he cannot apply the acquired knowledge in practice. E (65-60%, satisfactory - the results meet the minimum criteria, the student can orient himself/herself to the problem only with great difficulty, knows only the most basic knowledge, does not demonstrate the ability to think critically and cannot apply the acquired knowledge to practice. His/her seminar work meets only the minimum criteria. Fx (59-0%, insufficient - extra work is required, the student is unable to navigate the issues, does not master the most basic knowledge, and does not demonstrate the ability to think critically. His/her seminar work is not at the required level).
Learning outcomes: The student will be able to work with medieval written sources such as chronicles, annals, documents, charters, etc. The student can analyse them. In the seminar, these sources will not only be read but also interpreted. The information from the sources will also be confronted with the data in the professional literature and discussed. Students will also be introduced to working with editions of sources and with medievalist specialist literature.
Class syllabus: Familiarisation with the focus of the seminar. Students will be asked to think about the topics of their seminar papers. At each subsequent seminar, two students will inform the topics of their seminar papers. - Working with medieval chronicles. Gregory of Tours: <i>Historia Francorum</i>. - Readings from the Chronicle of Gregory of Tours - Book 2 - from the accession of Chlodovicus I. - Interpretation of the information obtained from the Chronicle of Gregory of Tours. - Einhard: <i>Vita Caroli Magni</i>. Interpretation of the biography of Charlemagne. - Work with medievalist literature. - Working with editions of sources. - Marco Polo's travelogue <i>The Million</i>. Interpretation. - Medieval documents. - Electronic medievalist information resources. - Colloquium term papers.
Recommended literature: EINHARDUS: ... a neuniknout budoucímu věku. <i>Vita Caroli Magni</i>. Praha: Set Out, 1999. GREGOR Z TOURS: O boji králů a údělu spravedlivých. Praha: Odeon, 1986. COURSE DESCRIPTION

Academic year: 2023/2024	
University: Comenius University Bratislava	
Faculty: Faculty of Education	
Course ID: PdF.KH/B-HISde021/22	Course title: Seminar on General History III.
Educational activities: Type of activities: seminar Number of hours: per week: 2 per level/semester: 26 Form of the course: on-site learning	
Type, volume, methods and workload of the student - additional information 2 hours seminar /week, a total of 22 hours per semester, combined form; (primarily full-time) Student workload: 2S (2 credits): 11x 2 hours of direct teaching # 22 hours; 20 hours preparation for mid-term evaluation; 18 hours preparation for seminar paper presentation. Total 60 hours of student work. Learning methods: lecture, discussion of the topic covered; situation analysis method; problem-solving tasks; e-learning.	
Number of credits: 2	
Recommended semester: 3.	
Educational level: I.	
Prerequisites:	
Course requirements: 100% of the intermediate assessment. The seminar work will be presented during the lecture period at the colloquium in the form of a paper and then handed in writing. The professional quality of the seminar paper will be evaluated, and the student may receive 70 points, representing 70% of the total grade. 30 points may be awarded for presenting the topic and generating discussion. A minimum of 91 points is required for a final grade of A, a minimum of 81 points for a grade of B, a minimum of 73 points for a grade of C, a minimum of 66 points for a grade of D, and a minimum of 60 points for a grade of E. To pass the course, you must obtain a minimum of 60% of the marks. The rating is awarded on a scale: A (100-91%, excellent - excellent results, the student is oriented in the issue, has mastered it, demonstrates a creative approach and the ability to think critically), B (90-81%, very good - above average standard, the student is familiar with the issues, but critical thinking is borderline), C (80-73%, good - normal reliable work, the student does know his/her way around the subject, has learned the subject, but cannot apply the knowledge gained to practice), D (72-66%, satisfactory - acceptable results, the student can orient himself/herself to the problem only at a basic level, his/her knowledge is fragmented, he/she does not demonstrate the ability to think critically and cannot apply the acquired knowledge to practice), E (65-60%, sufficient - the results meet the minimum criteria, the student can navigate the issue only with great difficulty, knows only the most basic knowledge, does not demonstrate the ability to think critically and cannot apply the acquired knowledge to practice),	

Fx (59-0%, insufficient - extra work is required, the student is unable to navigate the issues, does not master the most basic knowledge, and does not demonstrate the ability to think critically).
Learning outcomes: The seminar aims to learn the methods of working with historical sources from the general history of the early modern period (16th to 18th centuries). Based on the acquired knowledge, students will be able to deal professionally with contemporary sources of different natures and deepen their understanding through their analysis. They will become familiar with and be able to navigate the complex history of the early modern period. They will be able to evaluate the significance of individual historical events, interpret and compare them, and confront them with specialised literature. Particular emphasis is placed on the acquisition of critical thinking and professional argumentation. Adequate attention will be paid to the mutual discussion of selected issues and their contribution to contemporary knowledge.
Class syllabus: - Work with modern historical sources and the methodology of their research. - Editions of modern historical documents. - Humanism and Renaissance in the light of sources. - Sources to the discovery of America, the origins of colonisation and the defense of the rights of the natives. - Analysis of sources on the history of the Reformation in the German lands. Martin Luther. - Sources on the Reformation in other countries. Calvinists and Anglicans. - The Thirty Years' War (1618–1648) in the light of historical sources. - Characteristics of absolutism in the light of historical sources. - Analysis of sources on the history of France in the early modern period. - Sources on the history of Russia in the early modern period and their interpretation. - Sources on the American Revolution (1765–1783). - Colloquium of seminar papers 1. - Colloquium of seminar papers 2.

COURSE DESCRIPTION

Academic year: 2023/2024	
University: Comenius University Bratislava	
Faculty: Faculty of Education	
Course ID: PdF.KH/B-HISde023/22	Course title: Seminar on General History IV.
Educational activities: Type of activities: seminar Number of hours: per week: 2 per level/semester: 26 Form of the course: on-site learning	
Type, volume, methods and workload of the student - additional information 2 hours lecture/week, 22 hours total per semester, combined form; (primarily in person) Student workload: 2S (2 credits): 11 x 2 hours of direct instruction = 22 hours; 3 hours preparation for the paper; 10 hours preparing a review; 15 hours preparing individual assignments for each class; 50 hours of student work in total. Educational methods: problem-solving exercises; discussion of the subject; e-learning; heuristic method, work with text, didactic games (make-up games, quizzes, blind maps), application of theoretical knowledge to practical examples	
Number of credits: 2	
Recommended semester: 4.	
Educational level: I.	
Prerequisites:	
Course requirements: 100 % of the interim evaluation. At the end of the semester, the student will submit a review of the selected scientific publication. The student will prepare and present a paper on the chosen topic during the semester. The student will prepare individual working materials for each class. The student's active participation in each class is required to complete the course successfully. The rating is awarded on a scale: A (excellent - excellent results, the student is oriented in the issue, has mastered it, demonstrates a creative approach and the ability to think critically), B (very good - above average standard, the student is knowledgeable about the subject matter, but critical thinking is borderline), C (good - normal reliable work, the student does know his/her way around the subject, has learned the subject, but cannot apply the knowledge gained to practice), D (satisfactory - acceptable results, the student can orient himself/herself to the problem only at a basic level, his/her knowledge is fragmented, he/she does not demonstrate the ability to think critically and cannot apply the acquired knowledge to practice), E (sufficient - the results meet the minimum criteria, the student can navigate the issue only with great difficulty, knows only the most basic knowledge, does not demonstrate the ability to think critically and cannot apply the acquired knowledge to practice), Fx (insufficient - extra work is required, the student is unable to navigate the issues, does not master the most basic knowledge, and does not demonstrate the ability to think critically).	

Learning outcomes:

The student acquires the necessary knowledge and understanding of political, economic and social developments of the European and non-European world between 1789 and 1914. The student should be able to navigate the fundamental issues of general modern history after successfully completing it. The course is intended to introduce students to general history from the late 18th century, from the Great French Revolution of 1789-1799, to the beginning of World War I. War, to provide a plastic picture of the transformation of the society during the long 19th century. Student Gain in-depth knowledge and understanding of the modern period in world history. Student Gain the communication skills necessary to present his/her work results. The history of The 19th century is given special emphasis in the study of history because it is in this period that the social phenomena and processes have directly influenced the development of society up to the present times. The student will learn to work with sources on the general history between 1789 and 1914, learn how to analyse and interpret historical sources and reconstruct based on these historical events.

Class syllabus:

The course focuses on working with sources on the history of the Long 19th century. The course will concentrate on the following focal topics:

The Enlightenment

The Industrial Revolution

The Great French Revolution

The Napoleonic period in France and Europe, the Congress of Vienna

The European system 1815-1848 and its defence

Revolutionary events in Europe in the 1820s, 1830s and 1848-1849

The emergence of nation-states (Italy and Germany)

Great Britain and France in the 19th century

Currents of thought and political trends in the 19th century

The USA in the 19th century, the Civil War

Russian Empire to World War I

Eastern Question to World War I

Fundamental trends in the development of European colonialism in the 19th century

Europe on the road to the First World War

Recommended literature:

Source editions (correspondence) and contemporary press will be assigned in individual classes.

COURSE DESCRIPTION

Academic year: 2023/2024	
University: Comenius University Bratislava	
Faculty: Faculty of Education	
Course ID: PdF.KH/B-HISde026/22	Course title: Seminar on General History V.
Educational activities: Type of activities: seminar Number of hours: per week: 2 per level/semester: 26 Form of the course: on-site learning	
Type, volume, methods and workload of the student - additional information 2 hours seminar/week, total per semester 22 hours, attendance method 2S (2 credits): 11x 2 hours of direct teaching = 22 hours; 38 hours of preparing for continuous assessment and seminar work. A total of 60 hours of student work. moderated discussion on the subject; ongoing individual and team solutions to partial seminar topics, ongoing outputs in the form of presentations and simulation procedures for solving model situations	
Number of credits: 2	
Recommended semester: 5.	
Educational level: I.	
Prerequisites:	
Course requirements: 100% of the interim assessment. The seminar paper will be delivered during the examination period. At least 91 points are required to obtain a final grade of A, at least 81 points to obtain a B grade, at least 73 points for a C grade, at least 66 points for a D grade, and at least 60 points for an E grade. To successfully complete the subject, it is necessary to obtain at least 60% of the point evaluation. The rating is awarded on a scale: A (100-91%, excellent – excellent, outstanding results, the student fully orients himself in the issues of individual topics while argumentatively and confidently synthesising his knowledge and conclusions from model situations so that their application can be considered generally usable and demonstrable), B (90-81%, very good - above average standard, the student demonstrates that he is fully oriented in the issues of all partial topics, his solution of model situations shows certain non-negligible limits), C (80-73%, good – normal reliable work, the student moves safely in the area of reproducing the information obtained, but only with difficulties applies and synthesises the acquired knowledge when solving model situations), D (72-66%, satisfactory - acceptable results, the student is oriented only on the fundamental causal issue of the influence of ideological doctrines on individual spheres of the political, economic and social life of modern societies, does not demonstrate the ability to apply the acquired knowledge convincingly enough), E (65-60%, sufficient - the results meet the minimum criteria, the student navigates the issue of the influence of ideological doctrines on the daily life of modern societies only with great difficulty and rigidly, so he cannot present separate clear conclusions for practice),	

Fx (59-0%, insufficient – additional work is required, the student does not know how to navigate the issue, does not master the most basic knowledge, and does not demonstrate the ability to think critically

Learning outcomes:

The course aims to develop and deepen the information about the important trends of modern history obtained at the lectures by learning the contradictory optics used by (contemporary and from the relevant time) mutually competing ideologies when evaluating these trends. The graduate can recognise their essential criteria in their evaluation of the past and present. By analysing their respective signs (manifestations), he can independently characterise and evaluate them. In this way, he is prepared for a possible future confrontation between his and the student's attitudes, i.e., for his pedagogical work in the diverse student body of contemporary Slovak society by developing communication skills.

Class syllabus:

Moderated discussion analyses of ideologies and political doctrines that arose and developed during the so-called modern history; analysis of the modifications of these doctrines on specific historical material and with the help of essential theoretical works on the relevant problem:

- „culture - science - ideology": defining ideological currents of the 19th and 20th centuries, their mutual connection, continuity and modifications
- "fraternity - equality - liberty": contradictory principles of the French (and American) revolution
- liberalism in the 19th and liberalism in the 20th century - similarities and changes
- radical social ideologies in the 19th century and their prominent representatives
- social ideologies in the 20th century and the reality of their implementation
- conservatism in the 19th and conservatism in the 20th century
- great churches in modern history: the secularisation of life in the 19th and 20th Centuries and the role of science
- totalitarian ideologies in the 20th Century and their influence

Course ID: PdF.KH/B-HISde016/22	Course title: Seminar on History of Slovakia I.
Educational activities: Type of activities: seminar Number of hours: per week: 2 per level/semester: 26 Form of the course: on-site learning	
Type, volume, methods and workload of the student - additional information 2 hours seminar /week, a total of 22 hours per semester, combined form; (primarily full-time) Student workload: 2S (2 credits): 11x 2 hours of direct teaching # 22 hours; 20 hours preparation for mid-term evaluation; 18 hours preparation for seminar paper presentation. Total 60 hours of student work. Learning methods: lecture, discussion of the topic covered; situation analysis method; problem-solving tasks; e-learning	
Number of credits: 2	
Recommended semester: 2.	
Educational level: I.	
Prerequisites:	
Course requirements: 100% of the intermediate assessment. The seminar work will be presented during the lecture period at the colloquium in the form of a paper and then handed in writing. The professional quality of the seminar paper will be evaluated, and the student may receive 70 points, representing 70% of the total grade. 30 points may be awarded for presenting the topic and generating discussion. A minimum of 91 points is required for a final grade of A, a minimum of 81 points for a grade of B, a minimum of 73 points for a grade of C, a minimum of 66 points for a grade of D, and a minimum of 60 points for a grade of E. To pass the course, you must obtain a minimum of 60% of the marks. The rating is awarded on a scale: A (100-91%, excellent - excellent results, the student is oriented in the issue, has mastered it, demonstrates a creative approach and the ability to think critically), B (90-81%, very good - above average standard, the student is familiar with the issues, but critical thinking is borderline), C (80-73%, good - normal reliable work, the student does know his/her way around the subject, has learned the subject, but cannot apply the knowledge gained to practice), D (72-66%, satisfactory - acceptable results, the student can orient himself/herself to the problem only at a basic level, his/her knowledge is fragmented, he/she does not demonstrate the ability to think critically and cannot apply the acquired knowledge to practice), E (65-60%, sufficient - the results meet the minimum criteria, the student can navigate the issue only with great difficulty, knows only the most basic knowledge, does not demonstrate the ability to think critically and cannot apply the acquired knowledge to practice),	

Fx (59-0%, insufficient - extra work is required, the student is unable to navigate the issues, does not master the most basic knowledge, and does not demonstrate the ability to think critically).

Learning outcomes:

The seminar aims to learn the methods of working with historical sources on the history of Slovakia in the Middle Ages (until 1526). Based on the acquired knowledge, students will be able to professionally handle contemporary sources of various natures (documents, legends, chronicles, annals, etc.) and deepen their understanding through their analysis. They will become familiar with and be able to navigate the complex history of the Middle Ages. They will be able to evaluate the significance of individual historical events, interpret and compare them, and confront them with specialised literature. Particular emphasis is placed on the acquisition of critical thinking and professional argumentation. Adequate attention will be paid to the mutual discussion of the problems of Slovakia in the medieval period.

Class syllabus:

- Chronology of the development of the Middle Ages in Slovakia.
- The question of the origin of the Slavs and their occurrence on our territory.
- The Empire of Samo. The Principality of Nitra.
- Great Moravia. Personalities of Great Moravia. The Byzantine mission.
- The question of the demise of Great Moravia and the establishment of the Kingdom of Hungary.
- Hungary (especially today's Slovakia) during the reign of the Árpád dynasty.
- Hungary (especially today's Slovakia) during the reign of the Anjou dynasty.
- Louis I, the ideal of a knight king.
- Sigismund of Luxembourg and Matthias Corvinus on the Hungarian throne.
- The Jagiellonian dynasty and the Battle of Mohács.
- Medieval culture in Hungary (especially in today's Slovakia).
- Colloquium of seminar papers 1.
- Colloquium of seminar papers 2.

COURSE DESCRIPTION

Academic year: 2023/2024	
University: Comenius University Bratislava	
Faculty: Faculty of Education	
Course ID: PdF.KH/B-HISde020/22	Course title: Seminar on History of Slovakia II.
Educational activities: Type of activities: seminar Number of hours: per week: 2 per level/semester: 26 Form of the course: on-site learning	
Type, volume, methods and workload of the student - additional information 2 hours seminar/week, 22 hours total per semester, combined form; (primarily in person) Student workload: 11x 2 hours of direct instruction = 22 hours; 8 hours preparation of a report; 20 hours preparation of a seminar paper. Total 50 hours of student work. Educational methods: discussion of the topic; small group work; problem-solving by students, e-learning	
Number of credits: 2	
Recommended semester: 3.	
Educational level: I.	
Prerequisites:	
Course requirements: 100% of the intermediate assessment. Seminar paper on a selected topic - processed according to the assignment, which is handed in before the beginning of the examination period. A minimum of 91 points is required for a final grade of A, a minimum of 81 points for a grade of B, a minimum of 73 points for a grade of C, a minimum of 66 points for a grade of D and a minimum of 60 points for a grade of E. Credit will not be awarded to students who obtain less than 15 points in any of the four written examinations. To pass the course, a minimum score of 60% is required. The rating is awarded on a scale: A (100-91%, excellent - excellent results, the student is oriented in the issue, has mastered it, demonstrates a creative approach and the ability to think critically), B (90-81%, very good - above average standard, the student is knowledgeable about the subject matter, but critical thinking is borderline), C (80-73%, good - normal reliable work, the student does know his/her way around the issue, has learned, but cannot apply the knowledge gained to practice), D (72-66%, satisfactory - acceptable results, the student can orient himself/herself to the problem only at a basic level, his/her knowledge is fragmented, he/she does not demonstrate the ability to think critically and cannot apply the acquired knowledge to practice), E (65-60%, sufficient - the results meet the minimum criteria, the student can orient himself/herself in the problem only with great difficulty, knows only the most basic knowledge, does not demonstrate the ability to think critically and cannot apply the acquired knowledge to practice), Fx (59-0%, insufficient - extra work is required, the student is unable to navigate the issues, does not master the most basic knowledge, does not demonstrate the ability to think critically)	

Learning outcomes:

Within the course, the student will thoroughly master the methods of working with historical sources from the history of Slovakia in the years 1526 - 1780 and their possible use in the pedagogical process at primary or secondary school. The student will deepen his/her knowledge by analysing contemporary historical sources. The student will be able to evaluate the significance of the sources, interpret them and compare them with other sources. At the same time, the student will broaden his/her perception of history by adding the dimension of everyday life. In addition, they will learn to think critically, argue more independently and debate issues.

Class syllabus:

The course focuses on deepening knowledge and a more thorough understanding of the source base of the history of Slovakia from the 16th to the 18th century, as well as the history of everyday life. The student will get acquainted with the history of Slovakia in the modern period through the analysis of historical sources, but also with daily life in that period in the processing of specific topics and their presentations. As a future teacher, the student will thus be able to convey the acquired knowledge to pupils. The course will concentrate on the following main topics:

- principles of working with historical sources of Slovak provenance in the modern period
- analysis of sources on the Battle of Mohács in 1526
- working with sources relating to the first rulers of the Habsburg dynasty
- sources on the history of Ottoman expansion
- sources on the history of Bratislava as a coronation city
- sources on the Estates' uprisings in Hungary and Slovakia
- sources on the history of the development of education
- the Janosik tradition in sources
- Maria Theresa and her son Joseph II in historical sources
- Slovak defence writings in the 18th century (J. B. Magin, S. Timon and others)
- hygiene and health care
- catering
- woman (family and society)
- children (family and school)
- social stratification
- religious question and confessionality
- transport
- literature and theatre

COURSE DESCRIPTION

Academic year: 2023/2024	
University: Comenius University Bratislava	
Faculty: Faculty of Education	
Course ID: PdF.KH/B-HISde025/22	Course title: Seminar on History of Slovakia IV.
Educational activities: Type of activities: seminar Number of hours: per week: 2 per level/semester: 26 Form of the course: on-site learning	
Type, volume, methods and workload of the student - additional information 2 hours seminar/week, total per semester 22 hours, combined; (primarily full-time) Student workload: 2S (2 credits): 11x 2 hours of direct instruction = 22 hours; 28 hours seminar paper preparation, 10 hours presentation preparation; Total 60 hours of student work. Learning methods: discussion of the topic; problem-solving exercises, e-learning; small group work	
Number of credits: 2	
Recommended semester: 5.	
Educational level: I.	
Prerequisites:	
Course requirements: 100% of the intermediate assessment. Seminar work will be handed in during the examination period. It is based on relevant literature (at least ten sources) and possibly archival sources. It contains a didactic-historical dimension. The final grade of A is a minimum of 91 points, a minimum of 81 points for a B grade and a minimum of 81 points for a grade C at least 73 points, grade D at least 66 points and grade E at least 60 points. Credit will not be awarded to a student who fails any of the four written in any of the four written examinations. To pass the course, obtaining a minimum of 60% of the grade is necessary. The grade is awarded on a scale: A (100-91%, excellent - excellent results, the student is familiar with the subject matter, he/she has mastered it, demonstrates a creative approach and the ability to think critically), B (90-81%, very good - above average standard, the student is knowledgeable about the subject mastery, but critical thinking is borderline), C (80-73%, good - normal reliable work, the student does know his/her way around the issue, learns, but cannot apply the knowledge gained to practice), D (72-66%, satisfactory - acceptable results, the student can orient himself/herself to the problem only at a basic level, his knowledge is fragmental, he does not demonstrate the ability to think critically and cannot apply the acquired knowledge to practice), E (65-60%, sufficient - the results meet the minimum criteria, the student can orient only with great difficulty, knows only the most basic knowledge, does not demonstrate ability to think critically and cannot apply the acquired knowledge to practice), Fx (59-0%, insufficient - extra work is required, the student is unable to navigate the problem, does not know the most basic knowledge, does not demonstrate the ability to think critically)	

Learning outcomes:

During the course, the student will thoroughly master the methods of working with contemporary historical sources from the history of Slovakia in the years 1918 - 1989 and their possible use in the pedagogical process in primary or secondary school. The student will be able to professionally handle historical sources of different natures (written, audio, video) and deepen his knowledge through analysing contemporary historical sources. The student will be able to evaluate the significance of sources, interpret them and compare them with other sources. In addition, they will learn to think, argue and discuss issues more independently.

Class syllabus:

The course aims to deepen knowledge thoroughly and to a more profound understanding of the source base of the history of Slovakia in the 20th century. The student will become familiar with the history of Slovakia in the 20th century through analysing historical sources. As a future educator, the student will thus be able to convey the acquired knowledge to the pupils. The course will focus on the following key topics:

- Sources on the founding of the Czechoslovak Republic
- Interwar cultural life in the light of historical documents
- Sources on the personalities of the First Czechoslovak Republic
- Analysis of sources on autonomism and centralism
- The establishment of the Slovak state in the light of sources
- Society in the Slovak state (sources on education, culture and social history)
- Personalities of the Slovak State
- Sources on persecutions (political opponents, Jews, Gypsies)
- Sources on the Second Resistance, searching for connections between foreign and domestic resistance
- The transitional years 1945-1948, in the light of historical sources
- Analysis of sources on the persecutions (political trials, forced collectivisation)
- Socialist society and propaganda
- Sources on 1968
- Analysis of sources on normalisation
- Sources on the Third Resistance
- The events of November 1989, in the light of the sources

COURSE DESCRIPTION

Academic year: 2023/2024	
University: Comenius University Bratislava	
Faculty: Faculty of Education	
Course ID: PdF.KH/B-HISde024/22	Course title: Seminar on the Basics of Modern Didactics of History Teaching
Educational activities: Type of activities: seminar Number of hours: per week: 2 per level/semester: 26 Form of the course: on-site learning	
Type, volume, methods and workload of the student - additional information 2 hours seminar/week; 22 hours total per semester, combined; (primarily full-time) Student workload: 2S (2 credits): 11 x 2 hours of direct instruction = 22 hours; 40 hours of seminar paper production; 15 hours of discussion, argumentation, and constructive evaluation of students' interim outcomes. Total 77 hours of student work. Educational methods: instruction; E-U-R (evocation-awareness-reflection); analysis of texts, iconic texts and educational materials; brainstorming; creation of educational aids, e.g. mind maps, construction projects; discussion of the presented seminar work; SWOT analysis	
Number of credits: 2	
Recommended semester: 4.	
Educational level: I.	
Prerequisites:	
Course requirements: 100 % of the intermediate verbal and scored marks. During the semester, the student analyses and reflects on thematic assignments, solve problems, and regularly presents and verifies the outputs in discussions at individual seminar sessions. The quality of the outcomes is assessed collectively and by applying SWOT analysis. The student's ability to use the E-U-R method, skill, and ability to evaluate, create and apply theoretical, practical, emotional and metacognitive levels of knowledge are included in the interim and overall assessment. The conclusion of the continuous assessment is done transparently by discussing and summarising the scores obtained. A minimum of 91 points is required for a final grade of A, a minimum of 81 points for a grade of B, a minimum of 73 points for a grade of C, a minimum of 66 points for a grade of D, and a minimum of 60 points for a grade of E. Credit will not be awarded to students who obtain less than 15 points in any of the four written examinations. To pass the course, a minimum score of 60% is required. The grade is awarded on a scale: A (100-91%, excellent - excellent results, the student has a broad, compact knowledge in the specialised field of the discipline and can apply it in theoretical and practical contexts, is oriented in the current state of knowledge of borderline scientific disciplines, thinks conceptually, can actively acquire information and creatively apply it in solving problem tasks, actively expands his/her knowledge and critically reviews it and considers the suitability of its application for pedagogical and historical practice),	

B (90-81%, very good - above average standard, the student is oriented in the issue, knows it, can independently acquire new knowledge, and solve professional tasks, but his critical, constructive thinking is borderline when analysing and assessing the planes of normative and reflective didactics),

C (80-73%, good - normal reliable work, although the student can orient himself in the problem, independently search and analyse information, can learn, but he cannot think critically and constructively enough, evaluate the issues solved, and apply the acquired knowledge creatively and conceptually in broader theoretical and practical contexts),

D (72-66%, satisfactory - acceptable results, the student is able to orientate himself in the problem at a basic level, his knowledge is fragmented and incomplete, and at a lower level of satisfaction, he also applies transferable knowledge of the field and related disciplines, he shows more severe deficiencies in the area of factual, conceptual, procedural and metacognitive knowledge),

E (65-60%, sufficient - the results meet the minimum criteria, the student is able to orient himself in the problem only with great difficulty, he knows only the most basic knowledge, he does not demonstrate the ability to think critically and does not apply the acquired knowledge in a systematic way to the solution of practical tasks),

Fx (59-0%, insufficient - extra work is required, the student is unable to navigate the problem, does not master the most basic knowledge, does not demonstrate the ability to argue and think critically)

Learning outcomes:

By completing the course, the student will gain an overview of the European dimension of the modernisation of history teaching in Slovakia and the functionality of the current didactic system of history, and he/she will be able to analyse the partial problems of modern didactics and the results of empirical research in contemporary school practice. He is also oriented in the creation of teaching media and the process of critical assessment and design of educational materials and programmes.

Class syllabus:

Students will become familiar with selected problems of modern didactics of history, identify the requirements for teacher education and gain knowledge about the application of methods and strategies recommended for teaching and learning of pupils in primary and secondary schools. Through the creative activity, they will gain experience and insight into the process of modernising history teaching in educational practice.

The content focus of the course concentrates on the following focal themes and activities:

- Presentation of the understanding and application of key concepts of history didactics: "modern" history didactics, methodology, historical consciousness, historical culture, historical knowledge, historical education, historical awareness, historical memory, functional literacy, functional factuality.

- Provide examples of the 'tense' relationship between historical scholarship and history and forms/ methods of popularising historical knowledge (e.g., the 'public history' method).

- Designing (conceptualising) history as a school subject, visions and perspectives, requirements and recommendations of RE and expert commissions for teaching history in the 21st century, updating the selection of history curriculum in the educational field: Human and society - critical analysis and evaluation of educational programmes and recommendations, making own proposals on the topic.

- Guided discussion (or panel discussion) on the functioning didactic system of history education.

- Creation of examples on applying the 3 essential functions of history.

- Apply the "operationalisation" of goals and objectives within an arbitrary selection of history curriculum. What is the theory, and what is the practice?

- Analyse the results of selected empirical research on the state of school history practice.

- Discussion and briefing on the topic: why pay attention to the function of "neurodidactics" in the educational process? What types of tasks and techniques to select in this context for pupils in the teaching and learning process?
- Recognising the practical applicability of the structural elements of the textbook within the classroom.
- Brainstorming the usefulness and application of resources for the implementation of history in a more entertaining way (didactic games, comics, cartoons, collages, graphic diagrams, etc.).

COURSE DESCRIPTION

Academic year: 2023/2024	
University: Comenius University Bratislava	
Faculty: Faculty of Education	
Course ID: PdF.KPg/B-VUZde019/22	Course title: Social psychology for teachers
Educational activities: Type of activities: seminar Number of hours: per week: 2 per level/semester: 26 Form of the course: on-site learning	
Number of credits: 3	
Recommended semester: 2., 4., 6.	
Educational level: I.	
Prerequisites: PdF.KPg/B-VUZde003/22 - Psychology for teachers 1	
Course requirements: Prerequisites: B-VUZde003 Psychology for teachers 1 Prerequisites for successful completion of the course: 100% of the interim assessment. For successful completion of the course it is necessary to obtain at least 60% of the points. Seminar paper (40% of points) - students work in class with pre-prepared record sheets that contain assignments reflecting on a textbook text or a text of research studies focused on the role of the teacher in an interpersonal context. After completing the worksheets, they discuss the authors' responses in small groups with classmates. Students are evaluated at the end of the seminar for the worksheets they have developed and turned in. Test (60% of points) - the test reflects the knowledge acquired from the teacher's brief explanation, which will always take place before working with the record sheets. The test consists of open questions or also questions (A/B/C). The rating is awarded on a scale: A (100-91%, excellent - outstanding results), B (90-81%, very good - above average standard), C (80-73%, well - normal reliable work), D (72-66%, satisfactory - acceptable results), E (65-60%, sufficient - results meet minimum criteria), Fx (59-0%, insufficient - extra work required). For an A grade, students need to continuously submit outstanding performance throughout the semester. Record sheets indicate a high ability of students to reflect on social psychology knowledge in dealing with interpersonal situations in the classroom. They also reflect at a high level on their own attitudes, strengths and weaknesses of their own persona in a hypothetical school group interaction. The knowledge demonstrated in the student's test demonstrates their excellent mastery of theoretical introductions to seminars across a variety of social psychology topics. A grade of B means that students performed very well continuously throughout the semester. The record sheets reflect well on social psychology knowledge in dealing with interpersonal situations in the classroom. They also reflect at a very good level on their own attitudes, strengths and weaknesses of their own persona in a hypothetical school group interaction. The knowledge	

demonstrated in the student's test shows a very good mastery of the theoretical introductions to seminars in the vast majority of social psychology topics.

A grade of C means that the students performed well during the semester, their theoretical knowledge of various educational situations in the school environment and their solutions is at a good level, but there are also shortcomings in the ability to apply this knowledge. The knowledge demonstrated in the student's test shows a good grasp of the theoretical introductions with few errors.

A grade of D indicates that students underperformed during the semester. The record sheets show little motivation to think critically about different social situations and are filled in as if "just out of obligation". One's own attitudes, strengths and weaknesses of one's own persona in a hypothetical school group interaction are only minimally reflected upon. The knowledge demonstrated in the students' test shows a sufficient mastery of the theoretical introductions to the seminars.

A grade of E indicates that students performed minimally during the semester. The record sheets do not show an ability to think critically about various social situations and are filled out only sternly, which limits the student's ability to engage in quality group discussion. The student's own attitudes, strengths and weaknesses are not reflected in the hypothetical school group interaction. The knowledge demonstrated in the test is minimal.

A grade of FX indicates that the student has not sufficiently completed the course requirements and extra work is required.

Scale of assessment (preliminary/final): 100/0

Learning outcomes:

Learning outcomes:

Learning objectives and outcomes and transferable competences:

The goal of the Social Psychology for Teachers course is to (1) introduce students to the issues of social dynamics and social group interaction, specifically in the school classroom; (2) help students identify social psychological phenomena and mechanisms in concrete examples from the school setting.

By critically reflecting on interpersonal situations from the school environment, the student deepens and actively thinks about (a) solutions to these situations and (b) the application of social psychology knowledge in practice. The student may also reflect on how he or she would address the social needs of students, using communication or intervention practices in the school classroom to achieve desired student behavior. The primary goal of the course is to supplement the student's ability to plan and design instruction with an awareness of the social aspects of the classroom, but also to deepen the student's self-awareness of his/her own functioning (strengths/weaknesses) in interpersonal model situations.

The student after completing the course:

- Knows the process of social group formation and its dynamics.
- Can explain the relationship between group phenomena and pupil behaviour in the classroom.
- Can apply the knowledge of social psychology to the process of school classroom management.

Class syllabus:

Brief outline of the course:

1. The pupil in the interaction of social environment and education.
2. Social cognition, the process of forming an impression.
3. Social groups, classification of social groups, group development. group dynamics
4. Social role and social status, role identification and role conflict.
5. Process and types of communication. Teacher-pupil communication.
6. Social behaviour in the school classroom. Social interaction in informal groups.
7. Group norms. Leadership and power.

8. Social impact.
9. Aggressiveness, assertiveness, altruism.
10. Social attitudes.
11. Conflicts and possibilities of their resolution.
12. The use of social psychology knowledge in education and training.

COURSE DESCRIPTION

Academic year: 2023/2024	
University: Comenius University Bratislava	
Faculty: Faculty of Education	
Course ID: PdF.KPg/B-VUZde021/22	Course title: Socio-educational training for teachers
Educational activities: Type of activities: practicals Number of hours: per week: per level/semester: 24s Form of the course: on-site learning	
Number of credits: 2	
Recommended semester: 2., 4., 6.	
Educational level: I.	
Prerequisites: PdF.KPg/B-VUZde003/22 - Psychology for teachers 1	
Course requirements: 100% of continuous assessment Continuous assessment includes the evaluation of the performance of continuous tasks and assignments, which are carried out in an individual or group form in the pre-, during and post-training phase. Before the training, the mid-term evaluation consists of three tasks (reflective essay on expectations related to the self-discovery training = 10%; work with tests and questionnaires = 10%; individual preparation for the role-play = 10%), which are further worked on during the training. In the course of the training, activities and exercises are carried out to facilitate, in particular, a wide range of social-psychological competences: the development of intrapersonal (20%), interpersonal (20%) and social-inclusive competences (20%) of the students (dating activities, role-playing games, cooperative games, trust games, etc.). After the training, the continuous evaluation consists of structured feedback on the events in the training group (10%). The rating is awarded on a scale: A (100-91%, excellent - outstanding results), B (90-81%, very good - above average standard), C (80-73%, well - normal reliable work), D (72-66%, satisfactory - acceptable results), E (65-60%, sufficient - results meet minimum criteria), Fx (59-0%, insufficient - extra work required) For successful completion of the course it is necessary to obtain at least 60% of the points. For an A grade, the student is actively involved in individual activities and shows interest and effort to develop his/her competencies, seeks original and creative solutions to the tasks set, reflects on the emerging changes that training brings, shows himself/herself as a full member of the training group and actively expresses his/her own opinion. B grade means that the student is actively involved in individual activities and shows interest and effort to develop his/her competences, to a lesser extent looks for original and creative solutions to the tasks set, reflects the emerging changes that the training brings, but needs more time and space for their verbalization, manifests himself/herself as a full member of the training group and actively expresses his/her own opinion.	

A C grade is awarded if the student is usually actively involved in individual activities, shows interest and effort to develop his/her competences, but only in some topics and areas, makes little use of his/her personality in finding original and creative solutions to the tasks set, reflects to some extent the emerging changes brought by the training, shows himself/herself as a full member of the training group and actively expresses his/her own opinion.

The grade D means that the student is involved to a limited extent in individual activities and shows only sporadic interest and effort to develop his/her competencies, often with external help looking for original and creative solutions to the tasks, cannot adequately reflect the emerging changes that the training brings, is more passive and more like a marginal member of the training group, although he/she actively expresses his/her own opinion.

Grade E is awarded to a student who behaves passively and minimally participates in individual activities, does not show interest and effort to develop his/her competencies, relies on the group for original and creative solutions to the tasks set, cannot adequately reflect the emerging changes that the training brings, cannot find his/her place in the training group, expresses his/her own opinion sporadically and not always in an appropriate way.

The grade of Fx is given on an exceptional basis, most often due to non-attendance and failure to complete assigned midterm assignments, non-cooperation, refusal to take a stand on required topics and to express one's own opinion.

Scale of assessment (preliminary/final): 100/0

Learning outcomes:

The aim of the Social Psychological Training for Teachers course is to motivate and develop self-knowledge and self-reflection in teacher education students of different study programmes.

The student after completing the course:

- is aware of the importance of self-knowledge, reflection and personal development in teaching practice,
- can define their strengths and weaknesses as well as challenges and pitfalls in their own self-development,
- can name and identify the most general errors in social perception and apply them to teaching practice,
- identifies with the teacher's role, profession and its specifics,
- Through experiential activities, gain experience of active social and experiential learning.

Class syllabus:

The course is implemented through experiential activities and exercises aimed mainly at:

1. The sphere of the external world in the process of self-discovery (the individual's membership in various social groups, the teacher's role in the school classroom and the teacher's team).
2. The area of the inner world in the process of self-knowledge (experiencing, thinking, decision-making, the ways in which our emotions or our body affect us, what hidden beliefs influence our thinking, etc.).
3. The area of the transition zone of self-knowledge (behaviour, communication, etc.).
4. Increasing sensitivity to one's own experience and to the experience and emotions of others.
5. Building a positive self-image in the context of pro-teacher identification.

For an A grade, the student is actively involved in individual activities and shows interest and effort to develop his/her competencies, seeks original and creative solutions to the tasks set, reflects on the emerging changes that training brings, shows himself/herself as a full member of the training group and actively expresses his/her own opinion. B grade means that the student is actively involved in individual activities and shows interest and effort to develop his/her competences, to a lesser extent looks for original and creative solutions to the tasks set, reflects the emerging changes that the training brings, but needs more time and space for their verbalization, manifests himself/herself as a full member of the training group and actively expresses his/her own opinion.	

A C grade is awarded if the student is usually actively involved in individual activities, shows interest and effort to develop his/her competences, but only in some topics and areas, makes little use of his/her personality in finding original and creative solutions to the tasks set, reflects to some extent the emerging changes brought by the training, shows himself/herself as a full member of the training group and actively expresses his/her own opinion.

The grade D means that the student is involved to a limited extent in individual activities and shows only sporadic interest and effort to develop his/her competencies, often with external help looking for original and creative solutions to the tasks, cannot adequately reflect the emerging changes that the training brings, is more passive and more like a marginal member of the training group, although he/she actively expresses his/her own opinion.

Grade E is awarded to a student who behaves passively and minimally participates in individual activities, does not show interest and effort to develop his/her competencies, relies on the group for original and creative solutions to the tasks set, cannot adequately reflect the emerging changes that the training brings, cannot find his/her place in the training group, expresses his/her own opinion sporadically and not always in an appropriate way.

The grade of Fx is given on an exceptional basis, most often due to non-attendance and failure to complete assigned midterm assignments, non-cooperation, refusal to take a stand on required topics and to express one's own opinion.

Scale of assessment (preliminary/final): 100/0

Learning outcomes:

The aim of the Social Psychological Training for Teachers course is to motivate and develop self-knowledge and self-reflection in teacher education students of different study programmes.

The student after completing the course:

- is aware of the importance of self-knowledge, reflection and personal development in teaching practice,
- can define their strengths and weaknesses as well as challenges and pitfalls in their own self-development,
- can name and identify the most general errors in social perception and apply them to teaching practice,
- identifies with the teacher's role, profession and its specifics,
- Through experiential activities, gain experience of active social and experiential learning.

Class syllabus:

The course is implemented through experiential activities and exercises aimed mainly at:

1. The sphere of the external world in the process of self-discovery (the individual's membership in various social groups, the teacher's role in the school classroom and the teacher's team).
2. The area of the inner world in the process of self-knowledge (experiencing, thinking, decision-making, the ways in which our emotions or our body affect us, what hidden beliefs influence our thinking, etc.).
3. The area of the transition zone of self-knowledge (behaviour, communication, etc.).
4. Increasing sensitivity to one's own experience and to the experience and emotions of others.
5. Building a positive self-image in the context of pro-teacher identification.

COURSE DESCRIPTION

Academic year: 2023/2024	
University: Comenius University Bratislava	
Faculty: Faculty of Education	
Course ID: PdF.KPg/B-VUZde009/22	Course title: Teaching practice (A)
Educational activities: Type of activities: practice Number of hours: per week: per level/semester: 1t Form of the course: on-site learning	
Number of credits: 2	
Recommended semester: 2., 4.	
Educational level: I.	
Prerequisites:	
Course requirements: Prerequisite subjects: none Prerequisites for successful completion of the course: The course is completed by assessment (100% of the interim assessment). The student completes an introductory practice seminar with the practice methodologist and a hospitality in a primary or secondary school according to the subject/subject specialization of the practice in the range of 10 - 20 hours. The student will keep a practice portfolio of the hours of hospitalisation, which he/she will submit to the practice methodologist for evaluation in print or electronic form (as agreed with the practice methodologist). The final assessment takes the form of a colloquium. To pass the course, a minimum score of 60% is required. The rating is awarded on a scale: A (100-91%, excellent - excellent results with only minimal errors), B (90-81%, very good - above average results with minor errors), C (80-73%, good - normal reliable work, average results), D (72-66%, satisfactory - acceptable results, but significant errors occur), E (65-60%, sufficient - results meet minimum criteria), Fx (59-0%, insufficient - passing the course still requires a significant amount of effort and work on the part of the student). A - excellent results: the student is able to apply procedures in the processes of formulating goals according to different taxonomies of goals. The student can analyze and classify methods and forms and other didactic categories in practice. The student is able to work effectively with professional sources. The student can critically, factually assess and evaluate the presented solutions of others, can evaluate the quality of his/her own work. B - above average standard: the student can apply the procedures in the processes of formulating goals according to different taxonomies of goals. The student can analyze and classify methods and forms and other didactic categories in practice. Above-average orientation in the problems of general didactics, above-average communication skills, completion of assigned tasks. Critical evaluation is at borderline level.	

C - normal reliable work: the student is able to work out the assigned tasks, average orientation in the problems of general didactics. Can apply the procedures in the processes according to the model and with the teacher's help. Average activity on intermediate assignments.

D - acceptable results: the student is able to work out intermediate tasks with the help of the teacher, average orientation in general didactics, average student activity.

E - the results meet the minimum criteria: the student can define and define basic didactic concepts and elements, but cannot define them in educational contexts. Critical assessment and evaluation are absent. Sufficient level of practical skills and professional knowledge.

FX - extra work is required: the student has very little knowledge of basic didactic terminology, cannot apply it in the outputs, there is no application of procedures, correct elaboration of tasks. Critical assessment and evaluation are absent.

Scale of assessment (preliminary/final): 100/0

Learning outcomes:

Learning outcomes:

Learning objectives and outcomes and transferable competences:

The goal of the Teaching Practicum (A) is to initiate the professional vision of male and female student teachers, particularly in terms of descriptive and identification. After completing the course, the student knows and can navigate in school documentation, can process the record of the educational unit hospitalization, can describe educational phenomena (elements of communication in the learning group, individual differences of pupils, phenomena of the dynamics of the learning group), can identify the individual educational goals, methods, forms, principles and content elements of education. The aim of the course is also to observe and analyse the manifestations of the teacher's personality and the classroom environment. The student will be able to distinguish and evaluate the application of positive and negative evaluation in teaching, be able to identify non-standard educational situations and evaluate the effectiveness of their solution.

Class syllabus:

Brief outline of the course:

Hospitalization activity:

Preparatory phase of the hospitalization - pre-praxis meeting: defining the objectives, methods and focus of the hospitalization.

The implementation phase of hospitalization - own observation of the educational process and processing of the hospitalization portfolio with emphasis on aspects of Communication in education, elements of communication, individual differences of pupils, phenomena of the dynamics of the learning group, educational goals, methods, forms, principles and content elements of education, manifestations of the teacher's personality and the classroom environment, positive and negative evaluations in teaching, non-standard educational situations.

The final phase of the hospitalization - post-hospitalization colloquium: analysis of the practice portfolio, reflection and interpretation of the observed educational phenomena. Familiarisation with the school documentation: state and school curriculum, electronic class book, online student book, Edupage information system. Educational standards, individual education plans, etc.

FX - extra work is required: the student has very little knowledge of basic didactic terminology, cannot apply it in the outputs, there is no application of procedures, correct elaboration of tasks. Critical assessment and evaluation are absent.

Scale of assessment (preliminary/final): 100/0

Learning outcomes:

Learning outcomes and transferable competences:

The goal of Teaching Practice B is to initiate students' professional vision at the level of descriptive and identification. After completing the pedagogical practice B, the student knows and can work with pedagogical documentation, can process the record of the teaching unit hospitalization. Identifies the main objectives, methods, forms and phases of the teaching process. Can describe the elements of communication and classroom dynamics.

Class syllabus:

Brief outline of the course:

The aim of teaching practice B is to enable students to observe the teaching process from the perspective of a future teacher. During the practicum, students observe the teaching process of the practicing teachers and, on the basis of theoretical knowledge of general didactics, analyse the teaching process in its entirety and, in the final reflection, formulate a characterisation of the observed teaching, the working atmosphere, evaluate the pedagogical competence of the practicing teachers, point out the positives and negatives, propose their own solutions and describe suggestions for change, and give their own reflections on the profession of teaching, where they are in relation to the observed teaching process.

Preparatory phase for the practice: pre-practicum seminar, definition of requirements for the implementation of the practice, preparation and study of hospitality sheets, study of didactic literature, pre-hospitalization interview with the trainee teacher.

The implementation phase of the practice: self-observation of the teaching process, processing of hospitality sheets with emphasis on aspects of objectives, methods, Communication in education, teacher and pupils' activities, identification of teaching phases, cognitive functions, pupils' activity and activation, and a comprehensive record of the teaching process.

Evaluation phase of practice: interpretation of observed educational phenomena, analysis of the hospital portfolio, reflection on the pedagogical practice B.

COURSE DESCRIPTION

Academic year: 2023/2024	
University: Comenius University Bratislava	
Faculty: Faculty of Education	
Course ID: PdF.KPg/B-VUZde010/22	Course title: Teaching practice (B)
Educational activities: Type of activities: practice Number of hours: per week: per level/semester: 1t Form of the course: on-site learning	
Number of credits: 2	
Recommended semester: 3., 5.	
Educational level: I.	
Prerequisites:	
Course requirements: Prerequisite subjects: none Prerequisites for successful completion of the course: The course is completed by assessment (100% of the interim assessment). The student will attend a pre-practise seminar with the practice methodologist, and will complete at least 10 hours of hospitalization at a primary or secondary school according to the subject/content specialization. The student will keep a personal portfolio of teaching practice from the hours of hospitalization. The personal portfolio is an indicator of the student's personal commitment and responsibility. The portfolio may be in print or electronic format. The portfolio is submitted by the student to the Practice Methodologist for evaluation, and at the end of the portfolio the student will attend a colloquium to evaluate and reflect on the teaching practice. For successful completion of the course it is necessary to obtain at least 60% of the points. The rating is awarded on a scale: A (100-91%, excellent - outstanding results), B (90-81%, very good - above average standard), C (80-73%, well - normal reliable work), D (72-66%, satisfactory - acceptable results), E (65-60%, sufficient - results meet minimum criteria), Fx (59-0%, insufficient - extra work required). A - excellent results: the student is able to apply procedures in the processes of formulating objectives according to different taxonomies of objectives. The student can analyze and classify methods and forms and other didactic categories in practice. The student is able to work effectively with professional sources. The student can critically, factually assess and evaluate the presented solutions of others, can evaluate the quality of his/her own work. B - above average standard: the student can apply the procedures in the processes of formulating goals according to different taxonomies of goals. The student can analyze and classify methods and forms and other didactic categories in practice. Above-average orientation in the problems of general didactics, above-average communication skills, completion of assigned tasks. Critical evaluation is at borderline level.	

C - normal reliable work: the student is able to work out the assigned tasks, average orientation in the problems of general didactics. Can apply the procedures in the processes according to the model and with the teacher's help. Average activity on intermediate assignments.

D - acceptable results: the student is able to work out intermediate tasks with the help of the teacher, average orientation in general didactics, average student activity.

E - the results meet the minimum criteria: the student can define and define basic didactic concepts and elements, but cannot define them in educational contexts. Critical assessment and evaluation are absent. Sufficient level of practical skills and professional knowledge.

FX - extra work is required: the student has very little knowledge of basic didactic terminology, cannot apply it in the outputs, there is no application of procedures, correct elaboration of tasks. Critical assessment and evaluation are absent.

Scale of assessment (preliminary/final): 100/0

Learning outcomes:

Learning outcomes and transferable competences:

The goal of Teaching Practice B is to initiate students' professional vision at the level of descriptive and identification. After completing the pedagogical practice B, the student knows and can work with pedagogical documentation, can process the record of the teaching unit hospitalization. Identifies the main objectives, methods, forms and phases of the teaching process. Can describe the elements of communication and classroom dynamics.

Class syllabus:

Brief outline of the course:

The aim of teaching practice B is to enable students to observe the teaching process from the perspective of a future teacher. During the practicum, students observe the teaching process of the practicing teachers and, on the basis of theoretical knowledge of general didactics, analyse the teaching process in its entirety and, in the final reflection, formulate a characterisation of the observed teaching, the working atmosphere, evaluate the pedagogical competence of the practicing teachers, point out the positives and negatives, propose their own solutions and describe suggestions for change, and give their own reflections on the profession of teaching, where they are in relation to the observed teaching process.

Preparatory phase for the practice: pre-practicum seminar, definition of requirements for the implementation of the practice, preparation and study of hospitality sheets, study of didactic literature, pre-hospitalization interview with the trainee teacher.

The implementation phase of the practice: self-observation of the teaching process, processing of hospitality sheets with emphasis on aspects of objectives, methods, Communication in education, teacher and pupils' activities, identification of teaching phases, cognitive functions, pupils' activity and activation, and a comprehensive record of the teaching process.

Evaluation phase of practice: interpretation of observed educational phenomena, analysis of the hospital portfolio, reflection on the pedagogical practice B.

COURSE DESCRIPTION

Academic year: 2023/2024	
University: Comenius University Bratislava	
Faculty: Faculty of Education	
Course ID: PdF.KPg/B-VUZde001/22	Course title: Theoretical basics of education
Educational activities: Type of activities: lecture + seminar Number of hours: per week: 2 per level/semester: 26 Form of the course: on-site learning	
Number of credits: 4	
Recommended semester: 1., 3.	
Educational level: I.	
Prerequisites:	
Course requirements: Prerequisite subjects: none Prerequisites for successful completion of the course: The course is completed by examination, 50% of the interim and 50% of the final assessment The interim evaluation includes the following: - continuous work during the semester focused on current issues of education, defining educational goals, concretizing educational principles, identifying educational methods, etc. - 15 points, - term paper focused on a selected area of education - 35 points. The final evaluation includes the following: - final examination in written form - 50 points. The rating is awarded on a scale: A (100-91%, excellent - excellent results with only minimal errors), B (90-81%, very good - above average results with minor errors), C (80-73%, good - normal reliable work, average results), D (72-66%, satisfactory - acceptable results, but significant errors occur), E (65-60%, sufficient - results meet minimum criteria), Fx (59-0%, insufficient - extra work required). For successful completion of the course it is necessary to obtain at least 60% of the points. A minimum of 91 points is required for a final grade of A. For this grade, the student should demonstrate: a creative and original approach in the development of intermediate assignments, excellent professional knowledge and its application in problem solving, excellent orientation in the subject matter, excellent communication skills, responsibility and timely completion of assignments, exceptional activity in the classroom during the semester. A score of at least 81 points is required for a final grade of B. For this grade, the student should demonstrate: a creative approach in developing ongoing assignments using a model, above average expertise and application of that expertise in problem solving using tutorials, above average orientation to the problem, above average communication skills, responsibility and timely completion of assignments, above average activity in class during the semester. A minimum of 73 points is required for a final grade of C. For this grade, the student should demonstrate: the ability to develop intermediate assignments using the given template, good	

professional knowledge and its application in solving problem problems in a group or with the help of the instructor, good orientation in the subject matter, good communication skills, completion of the assigned tasks, average activity in class during the semester when prompted by the instructor. A minimum of 66 points is required for a final grade of D. For this grade, the student is expected to demonstrate: the ability to develop intermediate assignments using a given template and with the assistance of the instructor, average proficiency and application in problem solving in a group setting or with the assistance of the instructor, average orientation to the subject matter, average communication skills, completion of assignments, and basic activity in the classroom during the semester in collaboration with the instructor or other students.

A score of at least 60 points is required for a final grade of E. For this assessment, the student should demonstrate: the ability to prepare continuous assignments and with the help of the instructor, basic/minimal professional knowledge, basic/minimal orientation in the subject matter, basic communication skills, completion of the assigned tasks.

Scale of assessment (preliminary/final): 50/50

Learning outcomes:

Learning outcomes:

Learning objectives and outcomes:

Students will gain knowledge and understanding of the educational and self-educational process in a social context with emphasis on the application of the principles of creative-humanistic education and the presentation of new approaches and perspectives in the development of modern educational theory. On a theoretical-empirical level, students are able to implement a variety of educational activities and activities that can be applied within the profession of teacher/educator/teaching assistant and have the competence to solve basic problem situations in educational practice in collaboration with other professionals.

Transferable competences: the course develops students' analytical, critical, evaluative and creative thinking, reasoning in context and supports the development of their interpersonal skills, self-development and personal and professional growth.

Class syllabus:

Brief outline of the course:

An introduction to the discipline of educational theory. Theoretical foundations and determinants of education. Creative-humanistic education.

Views on education. Education in different historical periods.

School documents and legislation with a focus on education. Educational programme.

Goals of education and their determination.

The concept of education and self-education, functions, conditions and factors of education. The process of education/self-education and its phases.

Educational methods and new trends.

Characteristics and classification of educational principles.

Concretization of the content of educational action: moral education, pro-social education, intellectual education, aesthetic education, work education, physical education, ecological and environmental education, multicultural education, etc.

Organizational forms and means of education.

The personality of the teacher/educator/teaching assistant in the educational process. Educational styles and requirements for the personality of the teacher/educator/teaching assistant. Code of ethics of the teaching profession.

The personality of the child in the educational process. Categorization of factors of personality formation, bio-psycho-social determination of personality development and education.

Educational environment and its importance for a person.

Family and family education. Educational styles in the family. Negative tendencies in family upbringing.
Educational conditions of the school environment. Negative phenomena in the school environment and their prevention.
Education outside the classroom and its specifics.
