COURSE DESCRIPTION

Academic year: 2023/2024	
University: Comenius University Bratislava	
Faculty:	
Course ID: RKCMBF.Bi.BA/K- dKT-025/20	Course title: Biblical Hebrew
Educational activities: Type of activities: course Number of hours: per week: per level/semester: 10s Form of the course: on-site learning	
Number of credits: 5	
Recommended semester: 1.	
Educational level: III.	
Prerequisites:	
Course requirements: Student has to prepare technical translation of a text from the Old Testament and detailed analysis of verbal forms. Student can obtain maximum of 30 points. To be evaluated as passed he/she has to gain at least 15 points.	
Learning outcomes: Doctoral student masters morphology of verbs and correct syntax of the Hebrew language and is able to use this knowledge in exegesis of the original text of the Old Testament and in analysis of the terms from the Hebrew Bible. With the help of dictionaries he/she translates selected Hebrew texts.	
Class syllabus: Selected themes of Hebrew grammar, making use of critical apparatus of BHS or critical edition of the Hebrew text Quinta; translation of selected texts from the Old Testament.	
Recommended literature:	
Languages necessary to complete the course: slovak, hebrew	
Notes:

COURSE DESCRIPTION

Academic year: 2023/2024	
University: Comenius University Bratislava	
Faculty:	
Course ID: RKCMBF.Bi.BA/K- dKT-021/20	Course title: Biblical Sciences
Educational activities: Type of activities: lecture Number of hours: per week: per level/semester: 10s Form of the course: on-site learning	
Number of credits: 5	
Recommended semester: 1.	
Educational level: III.	
Prerequisites:	
Course requirements: The PhD student prepares three topics, from which the teacher determines the one and the student presents it exegetically and defends it in a discussion with others. The rating can reach the most 30 points. At least 15 points must be obtained for a 'pass' grade.	
Learning outcomes: The PhD student defines the content and literary-theological intent of biblical books and determines the historical context of events. He articulates the key themes of the books and synthetically presents them in connection with other writings of the biblical canon. Exegetically analyzes selected texts of books and applies in his exegesis the criteria of diachronic, resp. synchronic exegetical methods. Synthetically presents selected topics from Biblical Theology.	
Class syllabus: Selected questions about the inspiration and biblical canon and history of Israel. Themes and literary genres of Historical literature and Prophecy. Wisdom literature and its key topics. Key topics of Psalms and the exegesis of selected Psalms. Literary and theological characteristics of the New Testament writings and their theological emphasis. Epistolography and the Phenomenon of Pseudepigraphy. Exegesis and theological interpretation of selected biblical texts. Selected topics from the Biblical Theology of the Old and New Testaments.

COURSE DESCRIPTION

Academic year: 2023/2024	
University: Comenius University Bratislava	
Faculty:	
Course ID: RKCMBF.KaP.BA/K- dKT-034/20	Course title: Catechetics
Educational activities: Type of activities: lecture Number of hours: per week: per level/semester: 10s Form of the course: on-site learning	
Number of credits: 5	
Recommended semester: 1.	
Educational level: III.	
Prerequisites:	
Course requirements: During the semester, based on the directives of the teacher, the student independently develops a catechetical project, which is presented at the end of the semester. The final grade is a summary of the catechetical project and its presentation. A minimum of 50% is required to receive a passing grade.	
Learning outcomes: The student chooses his/her own catechetical project, sets goals, selects appropriate methods and procedures, and evaluates the success of the project based on indicators. The student masters the methods of presentation and manages the discussion.	
Class syllabus: Catechetical design and catechetical project. Objectives, methods and procedures of the catechetical project. Indicators of success. Defining and solving a professional problem. Presentation of results and discussion.

COURSE DESCRIPTION

Academic year: 2023/2024	
University: Comenius University Bratislava	
Faculty:	
Course ID: RKCMBF.Do.BA/K-dKT-017/20	Course title: Dogmatic Theology
Educational activities: Type of activities: lecture Number of hours: per week: per level/semester: 10s Form of the course: on-site learning	
Number of credits: 5	
Recommended semester: 2.	
Educational level: III.	
Prerequisites:	
Course requirements: During the semester, the student will prepare 12 presentations from individual areas: dogmatic statements of the Tradition's representatives, the Magisterium's current dogmatic documents, relevant topics from dogmatic theology and current dogmatic mistakes. The student will present them to the subject's other students and answer questions from the lecturer and the students. At least 50% must be obtained to pass.	
Learning outcomes: The student knows important Magisterium's current dogmatic documents, such as Christological and ecclesiological notifications, encyclicals on theological virtues, sacrametological documents and others and their doctrine. He knows the Catholic Church's position on relevant dogmatic topics, which are discussed by current important theologians who make suggestions for their solution. He characterises the widespread current dogmatic mistakes, states in which areas they occur most and what are the causes of their occurrence.	
Class syllabus: Important current dogmatic documents of the Magisterium and their doctrine: Christological and ecclesiological notifications, encyclicals on theological virtues, sacrametological documents and others. The fate of children who died without baptism. Degrees of theological certainty. Method of theological argumentation. The relation of exegesis and theology to the Magisterium in various dogmatic questions. Relevant Christological topics according to Benedict XVI. Current widespread dogmatic mistakes in trinitology, Christology, ecclesiology, angelology, sacrametology and other parts of dogmatic theology and the reasons for their origin.

COURSE DESCRIPTION

Academic year: 2023/2024	
University: Comenius University Bratislava	
Faculty:	
Course ID: RKCMBF.KaP.BA/K-dKT-035/20	Course title: Methodology of Scientific Work
Educational activities: Type of activities: lecture Number of hours: per week: per level/semester: 10s Form of the course: on-site learning	
Number of credits: 5	
Recommended semester: 1.	
Educational level: III.	
Prerequisites:	
Course requirements: During the semester seminar sessions, the student actively participates in discussions, develops a seminar paper and presents it. The final grade is a summary of the seminar paper and its presentation. A minimum of 50% is required to receive a passing grade.	
Learning outcomes: The student will demonstrate the ability to analyze the theoretical problems of cognitive processes in science, their methods, potentials and limits, to think in a structured and disciplined way and to define, explain and independently apply the basic methods of Catholic theology and its individual sub-disciplines according to the choice of the topic of the dissertation or licentiate thesis. The student will adequately handle the assigned subtopic methodologically and in terms of content in the form of a seminar paper, in which he/she will also demonstrate knowledge of the technical means of expression of science (language, structure, bibliographic and citation rules...) and the ability to present its results in an appropriate verbal expression and using appropriate presentation techniques and ICT technologies.	
Class syllabus: Hermeneutical problems of science; Science and faith; Nature, dimensions and methods of the various sub-disciplines of Catholic theology; Types of scientific papers and their structure; Choice of a scientific topic and the scientific question; Definition and search for solutions to a scientific problem; Procedures in the processing of scientific work, research, status quaestionis; Methods of scientific work; Language of scientific work; Techniques of processing scientific work; Bibliographic and citation rules; Indexes; Presentation of results by verbal expression; Handout; Modern presentation techniques; Conducting discussion.
