Number of credits: 3	
Recommended semester: 4., 6.	
Educational level: I.	
Prerequisites:	
Antirequisites: FiF.KAA/A-buAN-218/19	
Course requirements: 1. Active participation in seminars based on a critical perception of the discussed works of popular culture as well as various theoretical texts. End-of-semester, final test in which students must demonstrate their ability to comment on a specific issue related to the individual topics. The test is written and consists of several questions that require an analysis and synthesis of the acquired knowledge as well as effective academic communication in English about the studied works of popular culture. (50% weight). Grading scale: A ≥92% B ≥84% C ≥76% D ≥68% E ≥60% Fx <60% Scale of assessment (preliminary/final): 100/0

Students will learn to view topics through a critical lens and use theoretical frameworks, while developing their communication skills in academic discussions of English speaking cultures. Upon successful completion of the course, students will have acquired better oral and written academic communication skills to discuss popular culture topics and be able to apply these effectively in, for example, curriculum development in secondary school English language teaching, or in translating and interpreting texts that require general knowledge and orientation in popular culture. Student will be able to respond adequately to academic stimuli (both orally and in writing), have appropriate presentation and discussion skills, and read professional literature with comprehension. The course also focuses on	

developing students' personal value attitudes in the spirit of the principles of humanism, tolerance and social awareness.

Class syllabus:

The course focuses on working with works of popular culture from English-speaking areas - film, television, music and performance art - to provide a context for popular production in anglophone contexts, as well as to enable students to critically perceive and discuss major social and cultural issues in these countries. The thematic scope is different each semester and reflects the most resonant themes in contemporary Western society (politics, the role of art in society, issues of individual freedom, the rise of technology and human enhancement, etc.).
