In this seminar, there will be a strong focus on the skill of "Speaking and Communicating in German". Students will be able to experiment with language in a protected environment, which will greatly enhance their confidence in using the German language. In doing so, students will not only deepen their linguistic skills but also strengthen their ability to communicate spontaneously, react to others, and express themselves more clearly and effectively in German in various social situations, both verbally and non-verbally through body language, voice tone, and gestures. In addition, students will increase their cultural knowledge through practical exposure to authentic texts from the Austrian theatre scene during the selection, production, and performance of the stage work. Furthermore, the students increase their self-confidence, their ability to be empathetic as well as their self-reflection by means of theatre pedagogical exercises.	
Class syllabus: This is an interactive seminar focusing on the preparation and performance of a stage play at the end of the semester. The seminar has its foundation in the approaches of Drama Pedagogy. These	

<p>are action-oriented teaching methods that create a dynamically creative and vibrant DaF learning setting, so that students slip into different roles and re-enact authentic communication situations. At the beginning of the seminar, a short introduction to the basics of theatre and theatre pedagogy is given.</p> <p>Warm-up and improvisation exercises to prepare the body and voice as well as to promote spontaneity and creativity are carried out in each unit.</p> <p>Since the practical component of the seminar is of central importance, a stage play is chosen in the first weeks, and the students work intensively towards staging it in the course of the semester. The final performance takes place at the end of the semester.</p>

COURSE DESCRIPTION

Academic year: 2024/2025	
University: Comenius University Bratislava	
Faculty: Faculty of Arts	
Course ID: FiF.KGNŠ/BNE-360/20	Course title: Effective Reading in a Foreign Language - German
Educational activities: Type of activities: seminar Number of hours: per week: 2 per level/semester: 28 Form of the course: on-site learning	
Number of credits: 3	
Recommended semester: 4., 6.	
Educational level: I.	
Prerequisites:	
Course requirements: The seminar is designed as an exercise, so there is feedback on the homework, but without a grade. During the exam period: Writing a reading log (7-10 pages) or a literary or scientific text of approximately 10-15 pages, assigned by the teacher. This reading log will be assessed. The assessment criteria are: Does the reading diary provide information about whether and how the text has been read and understood? Has the knowledge gained from the reading been documented in such a way that it can be recalled without re-reading the text? Is there evidence of deeper engagement with what has been read? Were useful reading strategies chosen and used effectively to achieve the reading goals? Students will be admitted to the examination only if at least 60% of the homework assignments have been satisfactorily completed during the course. Violation of academic ethics will result in the cancellation of points earned in the relevant area. Grading scale: A: 100-91%, B: 90-81%, C: 80-73%, D: 72-66%, E: 65-60%, Fx: 59-0% The instructor will accept a maximum of 2 absences with documented evidence. Scale of assessment (preliminary/final): Weighting of midterm/final grades: 10/90	
Learning outcomes: Graduates of the course know what is meant by reading competence in didactically oriented reading research. They know the different reading goals and have a repertoire of reading strategies. They are able to select and use reading strategies in a targeted way in order to solve problems in reading authentic foreign language texts of a higher level of difficulty (literary texts, scientific texts). They can read without a dictionary and use dictionaries without wasting time. They can record the results of reading and prepare them for further use (e.g. visualisation, summarising, listing). They can engage in reading by asking questions about the text and reading in a reflective way.	
Class syllabus: The seminar is designed to "read through" the topics covered by developing excerpts from texts or short articles (in individual, partner, group work, or collaborative plenary) using appropriate reading strategies. Thus, the acquisition of knowledge about the complex, active process of reading should go hand-in-hand with the practice of reading methods and problem-solving strategies, in order to	

combine reading with reflective reading. The topics are: reading competence, academic reading, reading strategies (non-fiction texts, literary texts, professional texts), reading in a foreign language.
