<b>Antirequisites:</b> FiF.KAA/A-buAN-206/15	
<b>Course requirements:</b> During the teaching part of the semester, active participation in seminar discussions based on reading the required materials and completing sub-tasks - individually or in teams, as well as a short exam test during the semester is a requirement (50%). In the exam period, students will take a final test (50%) Midterm/final assessment weighting: 50/50 Grading scale: A $\geq 92\%$ B $\geq 84\%$ C $\geq 76\%$ D $\geq 68\%$ E $\geq 60\%$ Fx $< 60\%$ Scale of assessment (preliminary/final): 50/50	
<b>Learning outcomes:</b> This course focuses on the reading, analysis, and interpretation of selected works of American literature from the colonial period to the late 19th century. Students will become familiar with major authors and literary movements in American literature through the late 19th century and will be able to understand literary works in their historical and social context. Particular attention is also given to connections with the Central European and contemporary social context, as this is relevant general knowledge applicable in an educational setting. By the end of the learning process, the student understands stylistic differences in relevant periods of American literature as well as their social and historical context, can critically analyze literary works, and apply critical reading practices in analyzing and interpreting representative works.	
<b>Class syllabus:</b> 1. Introduction – essential information about the course.	

2. Beginnings – the Puritan writing of Thomas Hooker (1586-1647), Anne Bradstreet (1612-1672), and Cotton Mather (1663-1728). Religious guidelines, strict moral values and their effect on the texts. Modern scholarship – Paul Boyer & Stephen Nissembaum: Salem Possessed (1974)
3. Away from the religious doctrine, towards democracy and human rights. Thomas Jefferson (1743-1826): Declaration of Independence (1776), Notes on the State of Virginia (1787). Thomas Paine (1737-1809): Common Sense (1776)
4. National literature - Washington Irving (1783-1859): Rip van Winkle (1819), The Legend of Sleepy Hollow (1820). Defining fiction writing. The first success of ‘American’ literature abroad.
5. The American Gothic - Edgar Allan Poe (1809-1849): Annabel Lee (1849), The Tell-Tale Heart (1843). Romantic poetry & short prose.
6. Transcendentalism. Ralph Waldo Emerson (1803-1882): Self-Reliance (1841). ‘To be great is to be misunderstood.’ One of the most influential essays of the 19th century. Henry David Thoreau (1817-1862): On Civil Disobedience (1849). ‘That government is best which governs the least.’ Margaret Fuller (1810-1850): Woman in the 19th Century (1855).
7. American renaissance and Dark Romanticism – Nathaniel Hawthorne (1804-1864) – The Minister’s Black Veil (1836), Young Goodman Brown (1835).
8. American renaissance continued - Herman Melville (1819-1891) – Bartleby the Scrivener (1856). Symbols and their interpretation. Walking in bewitched woods and staring at the wall in Wall Street. Detailed insight in the technique and artistic approach of Hawthorne and Melville.
9. The impact of transcendentalism. Walt Whitman (1819-1892) – Song of Myself (1855). Poetry of endless vigour and exuberance. The sound of the famous barbaric yawp. Emily Dickinson (1830-1886) – selected poems.

## STATE EXAM DESCRIPTION

<b>Academic year:</b> 2025/2026	
<b>University:</b> Comenius University Bratislava	
<b>Faculty:</b> Faculty of Mathematics, Physics and Informatics	
<b>Course ID:</b> FMFI.KDMFI/1-UXX-991/22	<b>Course title:</b> Defence of BSc Thesis
<b>Number of credits:</b> 8	
<b>Educational level:</b> I.	
<b>Course requirements:</b> Examination: state examination Scale of assessment (preliminary/final): 0/100	
<b>Learning outcomes:</b> When designing the bachelor's thesis, the student is able to demonstrate the ability to work creatively in the field of study in which he completed the study program. The student is able to demonstrate adequate knowledge of the issue and apply their skills in the collection, interpretation and processing of basic literature, or its application in practice or is able to solve a partial task related to the student's focus.	
<b>Class syllabus:</b> Course contents: 1. Contribution of the final thesis for the given field of study applied in the collection, interpretation and processing of basic professional literature, or the extent to which the student has mastered the application of theoretical principles in practice and whether the hypotheses presented in the work are verifiable; 2. Originality of the thesis (the final thesis must not have the character of a plagiarism, must not infringe the copyrights of other authors), part of the documentation for the defense of the final thesis as a subject of state examination is the protocol of originality from the central register. 3. Correctness and correctness of citation of used information sources, research results of other authors and author groups, correctness of description of methods and working procedures of other authors or author groups; 4. Compliance of the structure of the final work with the prescribed composition defined by Internal Regulation no. 12/2013; 5. Respecting the recommended scope of the final thesis (the recommended scope of the bachelor's thesis is usually 30 - 40 standard pages - 54,000 to 72,000 characters, including spaces), the adequacy of the scope of the thesis is assessed by its supervisor; 6. Linguistic and stylistic level of work and formal arrangement; 7. The method and form of the defense of the final thesis and the student's ability to adequately respond to comments and questions in the opinions of the supervisor and the opponent. 8. In the teaching of art-educational subjects, the final work and its defense may also include the presentation of artistic outputs and performances.

<b>Learning outcomes:</b> Students are able to take a research-oriented approach to topics related to the digital age. They can effectively search for information on a given topic, assess its relevance, reflect and discuss it. They are able to specify an unexplored area within a chosen topic and find a way to find out something new about it. They use appropriate digital tools in their research that enable them to collect, process and present the necessary data. They are able to create online documents and work collaboratively within them.	
<b>Class syllabus:</b> - exploring current topics related to digital technologies and discussing them - working collaboratively to design, conduct and present your own research or investigation on a chosen topic - using online forms to collect different types of data - processing and interpreting data using digital tools - writing an article that incorporates theoretical background and your own findings - creating a presentation using online tools - presenting the results of your own research

<b>Prerequisites:</b>	
<b>Course requirements:</b> The final grade includes an evaluation for the developed designs of teaching models with the support of technology, a total of a maximum of 60 points and an oral exam, a total of a maximum of 40 points. To advance to the oral exam, the student must obtain at least 30 points for teaching models. To pass the oral exam, the student must obtain at least 20 points. The final grade includes an evaluation for the developed teaching models and an oral exam. In order to obtain an A rating, it is necessary to obtain at least 91 points, to obtain an B rating at least 81 points, to obtain a C rating at least 71 points, to obtain a D rating at least 61 points and to obtain an E rating at least 50 points. Scale of assessment (preliminary/final): 60/40	
<b>Learning outcomes:</b> By completing the course, the student will be able to critically assess the safety, suitability and meaningfulness of the application of digital technologies in the teaching process. Understand the risks, opportunities and limits of integrating digital technologies into teaching and their importance in supporting the learning process. He will be able to assess the quality of digital resources with educational content in the context of teaching needs. Can distinguish between false, misleading or truth-altering information and use procedures to verify the veracity, timeliness and scientific accuracy of published facts and facts. Can design an appropriate and effective application of selected digital technologies in the teaching program.	
<b>Class syllabus:</b> Digital resources and digital technologies vs. educational digital resources and educational technologies; Security in the digital world; BYOD in the teaching process - benefits, challenges, limits and limitations; Digital literacy and its importance in the digital world; Possibilities and limits of the use of digital technologies in support of personalized learning, research and research-oriented teaching; Evaluation of the quality of educational technologies and the possibility of their integration into teaching; Selected digital technologies supporting the teaching process. 1. Digital technologies - historical development, use, present, perspectives. 2. Digital literacy - what we mean by digital literacy, methods and means of development DG, education and DG.	

3. Digital technologies in education - technologies vs. educational technologies, groups of technologies usable in education (Comprehensive educational environment, educational programs, mobile applications, virtual laboratories, applets, modules, accessories ...).
4. Digital technologies in education - educational content, assessment of suitability and adequacy of technology to support teaching, information retrieval, support of special educational needs.
5. Digital technologies in education - tools for communication, cooperation, creation and sharing of results.
6. Digital technologies in education - systems to support education and organization of the educational process.
7. Digital technologies in education - teaching methods and strategies supporting meaningful and appropriate applications of DT in education.
8. Digital technologies in education - social and ethical aspects of the use of DT in education.
9. Digital content creation - available software tools for creating educational content, teaching materials, quizzes, interactive exercises.
10. Security in the digital age - fake news, hoaxes, detectors and algorithms for their detection.
11. Digital content - procedures for verifying the truthfulness, accuracy and timeliness of information available on the Internet.
12. Research in the use of digital technologies in education.

## COURSE DESCRIPTION

<b>Academic year:</b> 2025/2026	
<b>University:</b> Comenius University Bratislava	
<b>Faculty:</b> Faculty of Mathematics, Physics and Informatics	
<b>Course ID:</b> FMFI.KAG/2-MPG-247/22	<b>Course title:</b> Effective Writing of Professional Texts
<b>Educational activities:</b> <b>Type of activities:</b> course <b>Number of hours:</b> <b>per week: 2 per level/semester: 26</b> <b>Form of the course:</b> on-site learning	
<b>Number of credits:</b> 3	
<b>Recommended semester:</b> 5.	
<b>Educational level:</b> I., II.	
<b>Prerequisites:</b>	
<b>Course requirements:</b> The student can obtain 100% of the grade during the semester. The student prepares assignments of various types in various digital tools, he / she needs at least half of the available points to successfully obtain the final grading. Grading: A (100-91), B (90-81), C (80-71), D (70-61), E (60-51), Fx (50-0). Scale of assessment (preliminary/final): Preliminary assessment 100% (homework assignments) / 0% final exam	
<b>Learning outcomes:</b> 1. The graduate will acquire advanced skills needed to work in the LaTeX typographic system. 2. The graduate will acquire basic skills in the computer algebra system wxMaxima. Learns the basic structures and procedures of the environment's language, learns to write simple scripts and generate visualizations of basic mathematical and geometric concepts. 3. The graduate will get acquainted with the methodological procedures of writing longer professional texts, from the stage of preparation to the finalization of the text.	
<b>Class syllabus:</b> 1. LaTeX: Typing mathematical formulae in LaTeX. Drafting texts in LaTeX. Additional document settings in LaTeX, more advanced typesetting concepts (document settings, templates, custom environment definitions, etc.). LaTeX presentations. 2. wxMaxima: Introduction to the environment. Setup and control. Basic programming concepts (variable, cycle, condition, data structures). Basic mathematical concepts and structures (matrices, equations, maps). Rendering and visualization in plane and space (polygons, curves, surfaces). Animation and visualization of processes. 3. Methodology of writing professional texts: basic thought procedures for creating longer professional texts.

## COURSE DESCRIPTION

<b>Academic year:</b> 2025/2026	
<b>University:</b> Comenius University Bratislava	
<b>Faculty:</b> Faculty of Mathematics, Physics and Informatics	
<b>Course ID:</b> FiF.KAA/A-buAN-220/17	<b>Course title:</b> Global Educational Issues
<b>Educational activities:</b> <b>Type of activities:</b> lecture / seminar <b>Number of hours:</b> <b>per week:</b> 1 / 1 <b>per level/semester:</b> 13 / 13 <b>Form of the course:</b> on-site learning	
<b>Number of credits:</b> 3	
<b>Recommended semester:</b> 1., 3., 5.	
<b>Educational level:</b> I., II.	
<b>Prerequisites:</b>	
<b>Course requirements:</b> The course is designed as an intensive course of 28 full-time teaching hours. Since the goal is practical work in the field of global issues in education and intercultural communication, the course requires active class participation, the ability to discuss and argue the issues discussed in English, and to present one's findings on the basis of the materials read and discussed (50% of the total grade). The other 50% of the grade consists of a final written student response to the knowledge, skills, and attitudes acquired, consisting of a narrative response of approximately 1000-1500 words and a questionnaire with questions about the course. Grading scale: A ≥92% B ≥84% C ≥76% D ≥68% E ≥60% Fx <60% Scale of assessment (preliminary/final): 100/0	
<b>Learning outcomes:</b> By the end of the course, the student is familiar with specific topics that are relevant to current issues in global education and is able to discuss and write about societal issues potentially related to the practice of teaching. Students will become familiar not only with the global dimension of the contemporary educational process but also with the basics of intercultural communication.	
<b>Class syllabus:</b> The course focuses on the introduction and theoretical support of topics that are important for future English language teachers, especially with regard to the intercultural dimension of their profession. The topics of the course vary according to the current issues that (not only) foreign language teachers may encounter in their practice - from issues specific to English-speaking areas (race, colonialism) to specific topics that are increasingly resonating also in the Central European area (human rights issues, ethnic orations, approaches to teaching and discussing so-called sensitive topics, e.g. the Holocaust).	

Formally, the course relies on collaboration with academics from international backgrounds as well as NGO staff in relevant fields.

## COURSE DESCRIPTION

<b>Academic year:</b> 2025/2026	
<b>University:</b> Comenius University Bratislava	
<b>Faculty:</b> Faculty of Mathematics, Physics and Informatics	
<b>Course ID:</b> FiF.KAA/A-buAN-220/17	<b>Course title:</b> Global Educational Issues
<b>Educational activities:</b> <b>Type of activities:</b> lecture / seminar <b>Number of hours:</b> <b>per week:</b> 1 / 1 <b>per level/semester:</b> 13 / 13 <b>Form of the course:</b> on-site learning	
<b>Number of credits:</b> 3	
<b>Recommended semester:</b> 2., 4., 6.	
<b>Educational level:</b> I.	
<b>Prerequisites:</b>	
<b>Course requirements:</b> The course is designed as an intensive course of 28 full-time teaching hours. Since the goal is practical work in the field of global issues in education and intercultural communication, the course requires active class participation, the ability to discuss and argue the issues discussed in English, and to present one's findings on the basis of the materials read and discussed (50% of the total grade). The other 50% of the grade consists of a final written student response to the knowledge, skills, and attitudes acquired, consisting of a narrative response of approximately 1000-1500 words and a questionnaire with questions about the course. Grading scale: A ≥92% B ≥84% C ≥76% D ≥68% E ≥60% Fx <60% Scale of assessment (preliminary/final): 100/0	
<b>Learning outcomes:</b> By the end of the course, the student is familiar with specific topics that are relevant to current issues in global education and is able to discuss and write about societal issues potentially related to the practice of teaching. Students will become familiar not only with the global dimension of the contemporary educational process but also with the basics of intercultural communication.	
<b>Class syllabus:</b> The course focuses on the introduction and theoretical support of topics that are important for future English language teachers, especially with regard to the intercultural dimension of their profession. The topics of the course vary according to the current issues that (not only) foreign language teachers may encounter in their practice - from issues specific to English-speaking areas (race, colonialism) to specific topics that are increasingly resonating also in the Central European area (human rights issues, ethnic orations, approaches to teaching and discussing so-called sensitive topics, e.g. the Holocaust).	

Formally, the course relies on collaboration with academics from international backgrounds as well as NGO staff in relevant fields.

<b>Prerequisites:</b>	
<b>Course requirements:</b> Interim Evaluation - 20% active participation in seminars - 20% presentation during class Final Evaluation: - 60% seminar work Grading Scale: A – 92 to 100% B – 84 to 91% C – 76 to 83% D – 69 to 75% E – 60 to 68% FX (failed, no credits awarded) < 60%. Up to 2 absences are allowed without the need for documentation. Violations of academic ethics will be penalized with a reduction in grade and may result in disciplinary proceedings. Scale of assessment (preliminary/final): 40/60 (%)	
<b>Learning outcomes:</b> Student who completes the course will be familiar with selected works of Irish literature and filmography and their artistic context. They will be able to place the works within a broader historical context and critically analyze them. They will possess literary-critical skills, strengthened through detailed analysis of texts in class, and will be capable of using interpretive skills and critical thinking in the realm of Irish studies. The student will be able to identify the fundamental cultural and historical context of Irish culture and apply this knowledge with insight and a critical perspective on the current situation in the EU, Great Britain, and the USA.	
<b>Class syllabus:</b> The aim of the course is to familiarize students with the basic framework of Irish literature and culture of the 20th and 21st centuries. Selected literary works represent key movements in Irish literature and culture. The reading and analysis of the texts and films is complemented by the	

historical and social contexts of Ireland, Great Britain, the EU, and the USA. A “close reading” approach will be the point of departure for the discussion of selected texts and films. Based on their analyses, students present their insights and develop their artistic-critical and presentation skills. One of the course’s content aspects is a critical perspective on the reception of Irish literature in the Slovak (Czech) translation environment.

1. Introduction to the study of Irish literature and film.
2. Ireland in the Sixties. "What do you do with your revolution once you've got it?" The Rocky Road to Dublin (1967), directed by Peter Lennon, cinematography by Raoul Coutard.
3. "History is a Nightmare from which I am trying to Awake." Literary, Historical, and Cultural Context of J. Joyce's Ulysses. 100 Years of James Joyce's Ulysses (2022), directed by Ruán Magan.
4. Reading Joyce's Dublin in Dubliners (1914).
5. Ireland and Hollywood. The Image of Ireland Abroad. The Quiet Man (1952), directed by John Ford.
6. Reading Irish poetry. Yeats, and after Yeats. Poetry as an Agency of Change in a Conservative Cultural Climate. W.B. Yeats, Seamus Heaney, Sinéad Morrissey.
7. Irish Drama in Historical and Cultural Context. Playwrights: Samuel Beckett, G.B. Shaw, Oscar Wilde, J.M. Synge.
8. Struggle for Independence. Tradition of Hunger Strikes in Ireland and Northern Ireland. Hunger (2008), directed by Steve McQueen.
9. Reading Social and Cultural situation in Ireland in Contemporary Irish Fiction: Jan Carson, Claire Keegan, Sally Rooney, Colm Tóibín.
10. Growing up in Ireland: The Quiet Girl (2022), directed by Colin Baird.

<b>Learning outcomes:</b> Students will be able to assess what activities teachers do and how digital technology can help them do this. They are familiar with digital tools for creating attractive educational materials and have their own experience with them. They are able to use digital tools to create learning materials that focus on discovery learning where the activity is in the hands of the learner. They are familiar with frequently used complex learning management systems (LMS). They are able to evaluate the strengths and weaknesses of using an LMS for specific activities of teaching practice and are familiar with alternative software that allows some of these activities to be carried out more efficiently. They are able to create their own website and add different forms of content to it. They are able to reflect on the use of specific digital tools in their future teaching. They are able to find the appropriate digital tools for a given activity, analyse them and, based on this analysis, choose among competing tools the one that additionally meets their needs.	
<b>Class syllabus:</b> Students work on a variety of topics using digital technologies and assess how they perceive their potential in their teaching practice. They publish the products of their work along with a reflection on the topic on their website. The topics they are working on include: The use of digital tools in the classroom Creating your own digital learning materials Working with graphics, photo editing, creating animations Working with video Working with sound Learning management systems

<b>Recommended semester:</b> 4., 6.	
<b>Educational level:</b> I.	
<b>Prerequisites:</b>	
<b>Antirequisites:</b> FiF.KAA/A-buAN-218/19	
<b>Course requirements:</b> 1. Active participation in seminars based on a critical perception of the discussed works of popular culture as well as various theoretical texts. Discussions require the ability to understand an academic text, to evaluate one's own perception of works of popular culture, to find parallels and differences between the Anglophone environment and the Central European context, and also to communicate effectively one's own critical and fact-based opinion. (25% weight) 2. Written and oral assignments and tasks completed at home or in class. The assignments are done individually or in teams with the aim of finding a functional balance between individual and group work. Assignments and tasks take the form of short reactions and responses to the topics covered, summarizing the theoretical background and practical interpretation. (25% weight) 3. End-of-semester, final test in which students must demonstrate their ability to comment on a specific issue related to the individual topics. The test is written and consists of several questions that require an analysis and synthesis of the acquired knowledge as well as effective academic communication in English about the studied works of popular culture. (50% weight). Grading scale: A $\geq 92\%$ B $\geq 84\%$ C $\geq 76\%$ D $\geq 68\%$ E $\geq 60\%$ Fx $< 60\%$ Scale of assessment (preliminary/final): 100/0	
<b>Learning outcomes:</b> Students will gain an overview of anglophone popular culture from different geographical areas and will understand its importance in society as a source of identity of an individual or an entire community or nation, also within the context of different subcultures. Students will learn to view topics through a critical lens and use theoretical frameworks, while developing their communication skills in academic discussions of English speaking cultures. Upon successful completion of the course, students will have acquired better oral and written academic communication skills to discuss popular culture topics and be able to apply these effectively in, for example, curriculum development in secondary school English language teaching, or in translating and interpreting texts that require general knowledge and orientation in popular culture. Student will be able to respond adequately to academic stimuli (both orally and in writing), have appropriate presentation and discussion skills, and read professional literature with comprehension. The course also focuses on	

developing students' personal value attitudes in the spirit of the principles of humanism, tolerance and social awareness.

**Class syllabus:**

The course focuses on working with works of popular culture from English-speaking areas - film, television, music and performance art - to provide a context for popular production in anglophone contexts, as well as to enable students to critically perceive and discuss major social and cultural issues in these countries. The thematic scope is different each semester and reflects the most resonant themes in contemporary Western society (politics, the role of art in society, issues of individual freedom, the rise of technology and human enhancement, etc.).

<b>Number of credits:</b> 5	
<b>Recommended semester:</b> 1.	
<b>Educational level:</b> I., II.	
<b>Prerequisites:</b>	
<b>Course requirements:</b> Continuous evaluation: the course is scored, the maximum number of points for the course is 150. The student gains continuous (weekly) points for solved problem tasks (70 pts), two interm tests (20 pts total), solved project (20 pts), active work during the semester (10 pts), and for solving assigned programming problems on the exam (30 pts). The student must earn a minimum of 58 points during the semester. Detailed grading requirements will be specified by the instructor at the beginning of the semester. Exam: In the form of solving a set of programming problems at the computer. A 92%, B 84%, C 76%, D 68%, E 60%. Scale of assessment (preliminary/final): 70/30 The results of problems solved and active participation in seminars are counted towards the final maximum of 60 points a student can earn during the semester. An additional 10 points can be earned for completing a more complex research-oriented project (within a specified time, essentially before the final exam). The remaining 30 points is the maximum possible score for solving a set of problems on the exam. The time for solving it is usually 120 minutes, directly behind the computer.	
<b>Learning outcomes:</b> Develop a systematic understanding of the basics of programming in a programming language appropriate to the state of knowledge. Develop understanding of basic programming concepts and practices that is characterized by the ability to: <ul style="list-style-type: none"> <li>· program the solution of a given problem, explain the function of the individual elements in it at the level of commands, control structures and the whole. Explain the strategy (algorithm) of the learner's solution, debug the solution, know how to modify it according to the requirements,</li> <li>· analyse the program code (created by themselves or by someone else), verify its behaviour, recognise the basic concepts and procedures in it (also comparing it with other programming environments that students have already encountered in primary and secondary school, including programmable robotic building blocks and toys),</li> <li>· explore a programming solution (created by someone else) using the decomposition method, to verify its behaviour, in various cases,</li> <li>· compare and explain the differences in various solutions of the same or similar problem.</li> </ul>	
<b>Class syllabus:</b>	

the environment and options for direct control, the executor and its settings, the use and modification of settings,  
 elements of the programming language, command with no input, command with one or more inputs, groups of commands and their execution and reexecution,  
 creation of a user's command, its definition, use and modification, use of randomness, generation of random values and their use with various constraints,  
 creating and using an expression as an input to a command,  
 other control structures,  
 conditions and visualizing their changing values, use of conditions in computation,  
 working with multiple sprites, cooperation and communication between multiple sprites, programmed animations,  
 requested input and working with input value; variable and working with it,  
 creating and using composite data, working with a list, data visualisation
