

## Course descriptions

### TABLE OF CONTENTS

1. 457-PhD-A/22	Active Participation in the Scientific Events 1.....	2
2. 458-PhD-A/22	Active Participation in the Scientific Events 2.....	4
3. 468-PhD-A/22	Active Participation in the Scientific Events 3.....	6
4. 469-PhD-A/22	Active Participation in the Scientific Events 4.....	8
5. 953-PhD-A/25	Basics of Didactics.....	10
6. 478-PhD-A/22	Citation Other.....	12
7. 477-PhD-A/22	Citation SCI, SSCI.....	14
8. 488-PhD-A/22	Completing Other Subject of the Offer of Other University Faculties.....	16
9. 489-PhD-A/22	Completion of a Defined Stage of the PhD Scientific Program.....	17
10. 456-PhD-A/21	Elaboration of a Manuscript of a Scientific Publication in a Foreign Language as the First Author.....	18
11. 432-PhD-A/22	English Language and Foreign Language Exam.....	20
12. 470-PhD-A/21	Individual Study of the Scientific Literature.....	22
13. 455-PhD/21	Introduction to Scientific Research.....	24
14. 454-PhD/21	Introduction to Scientific Writing in English Language.....	26
15. 473-PhD-A/22	Obtaining the "Grant FaF UK for Young Scientists" (Principal Investigator).....	28
16. 474-PhD-A/22	Obtaining the "Grant FaF UK for Young Scientists" (Co-investigator of Grant).....	30
17. 472-PhD-A/22	Obtaining the "University Grant for Young Researchers" (Co-investigator of Grant).....	32
18. 471-PhD-A/22	Obtaining the "University Grant for Young Researchers" (Principal Investigator).....	34
19. 476-PhD-A/22	Other Activities (eg. a Member of the Organizing Committee of the Conference).....	36
20. 475-PhD-A/22	Participation in the Implementation of Another Research Project.....	38
21. 451-PhD-A/22	Passing Prescribed Doctoral Lectures and Seminars 1.....	40
22. 452-PhD-A/22	Passing Prescribed Doctoral Lectures and Seminars 2.....	42
23. 453-PhD-A/22	Passing Selected Doctoral Lectures and Seminars.....	44
24. 955-PhD-A/25	Passing a long-term internship abroad.....	46
25. 954-PhD-A/25	Passing a short-term internship abroad.....	48
26. 479-PhD-A/22	Presentation at the Conference of Young Scientists.....	50
27. 465-PhD-A/22	Professional Publication in International or Domestic Journal.....	52
28. 466-PhD-A/22	Published Abstract in English from a Scientific Event.....	54
29. 467-PhD-A/21	Reviewing the Manuscript of an Article Submitted to an Indexed Scientific Journal (Scopus, Wos).....	56
30. 460-PhD-A/21	The Original Publication in Current Contents Journal.....	58
31. 459-PhD-A/21	The Original Publication in Current Contents Journal – First Author.....	60
32. 463-PhD-A/22	The Original Publication in non-Current Contents International or Domestic Journal Indexed in the SCOPUS Database (EPJ is Recommended).....	62
33. 462-PhD-A/21	The Original Publication in non-Current Contents Journal with IF (Impact Factor).....	64
34. 461-PhD-A/21	The Original Publication in non-Current Contents Journal with IF (Impact Factor) - First Author.....	66
35. 464-PhD-A/22	The Original Scientific Publication in non-Current Contents and non-Indexed International or Domestic Journal or Conference Proceeding.....	68

## COURSE DESCRIPTION

<b>Academic year:</b> 2025/2026	
<b>University:</b> Comenius University Bratislava	
<b>Faculty:</b> Faculty of Pharmacy	
<b>Course ID:</b> FaF/457-PhD-A/22	<b>Course title:</b> Active Participation in the Scientific Events 1
<b>Educational activities:</b> <b>Type of activities:</b> <b>Number of hours:</b> <b>per week: per level/semester:</b> <b>Form of the course:</b> on-site learning, distance learning	
<b>Number of credits:</b> 4	
<b>Recommended semester:</b> 1., 2., 3., 4., 5., 6., 7., 8..	
<b>Educational level:</b> III.	
<b>Prerequisites:</b>	
<b>Course requirements:</b> The doctoral student obtains the rating completed with a credit value after submitting the program of scientific events (in which he / she is an active participant) to the supervisor, which is also evidenced by confirmations of the organizers of scientific events about active performance.	
<b>Learning outcomes:</b> the doctoral student under the guidance of the supervisor has demonstrated the ability to work scientifically, ie to create scientific texts that meet the criteria of expertise, scientific and methodological relevance and then present these texts to the audience at a scientific event (conference, scientific seminar, congress).	
<b>Class syllabus:</b> 1. The doctoral student, after consultation with the supervisor, shall develop scientific texts that meet the criteria of professionalism, scientific and methodological relevance. 2. The doctoral student will individually ensure participation in a scientific event (conference, scientific seminar, congress), at which he / she will actively present and present the results of his / her own scientific activity. 3. The doctoral student respects the ethics of publishing, each scientific text is original and the doctoral student presents it only once, while the translation of the content of the original scientific text is not considered as another original scientific text and it is inadmissible for the doctoral student to present it repeatedly.	
<b>Recommended literature:</b> Current sources on the presented issues.	
<b>Languages necessary to complete the course:</b> the language in which the conference is organized	
<b>Notes:</b> Teacher: supervisor	

<b>Past grade distribution</b>	
Total number of evaluated students: 1	
ABS	NEABS
100,0	0,0
<b>Lecturers:</b>	
<b>Last change:</b> 18.04.2022	
<b>Approved by:</b> prof. PharmDr. Adriana Duriš Adameová, DrSc., prof. PharmDr. Ján Klimas, PhD., MPH, prof. RNDr. Peter Mikuš, PhD., prof. PharmDr. Pavel Mučaji, PhD.

## COURSE DESCRIPTION

<b>Academic year:</b> 2025/2026	
<b>University:</b> Comenius University Bratislava	
<b>Faculty:</b> Faculty of Pharmacy	
<b>Course ID:</b> FaF/953-PhD-A/25	<b>Course title:</b> Basics of Didactics
<b>Educational activities:</b> <b>Type of activities:</b> seminar <b>Number of hours:</b> <b>per week: 2 per level/semester: 28</b> <b>Form of the course:</b> on-site learning, distance learning	
<b>Number of credits:</b> 5	
<b>Recommended semester:</b> 1.	
<b>Educational level:</b> III.	
<b>Prerequisites:</b>	
<b>Course requirements:</b> - active participation in seminars - final test To pass successfully the course, the student must achieve at least 60%.	
<b>Learning outcomes:</b> After completing the seminars, the student will understand the principles of teaching and learning and gain knowledge of didactics, a pedagogical discipline whose subject of study is the teaching process. It deals with several areas related to teaching: the content and scope, methods, principles, and forms of teaching, and the interaction between the teacher and the student.	
<b>Class syllabus:</b> The course "Basics of Didactics" is suitable for doctoral students involved in the teaching process during their studies or who would like to pursue a teaching career in the future. The following topics are covered: 1. Basic definitions of the teaching process 8. Organizational forms of education 2. Goals of the teaching process 9. Diagnosis and evaluation of student knowledge 3. Taxonomy of educational objectives 10. Didactic test 4. Content of university education 11. Preparation for teaching 5. Student competencies 12. Concepts of teaching 6. Teaching methods 7. Didactic principles	
<b>Recommended literature:</b> G#TZ Klaus. Didactic Organization of Teaching and Learning Processes: A Textbook for Schools and Adult Education: Peter Lang GmbH, Internationaler Verlag der Wissenschaften, 2003	
<b>Languages necessary to complete the course:</b> English – B2 level	
<b>Notes:</b>	

<b>Past grade distribution</b>

<b>Academic year:</b> 2025/2026	
<b>University:</b> Comenius University Bratislava	
<b>Faculty:</b> Faculty of Pharmacy	
<b>Course ID:</b> FaF/478-PhD-A/22	<b>Course title:</b> Citation Other
<b>Educational activities:</b> <b>Type of activities:</b> <b>Number of hours:</b> <b>per week: per level/semester:</b> <b>Form of the course:</b> on-site learning, distance learning	
<b>Number of credits:</b> 3	
<b>Recommended semester:</b> 1., 2., 3., 4., 5., 6., 7., 8..	
<b>Educational level:</b> III.	
<b>Prerequisites:</b>	
<b>Course requirements:</b> The doctoral student obtains the rating completed with a credit value after submitting the sections (source cover, circulation letters with ISBN or ISSN, source content, paper), in which there is another citation of the doctoral student's scientific work such as SCI and SSCI.	
<b>Learning outcomes:</b> the doctoral student under the guidance of a supervisor has demonstrated the ability of quality scientific work and self-presentation.	
<b>Class syllabus:</b> As part of his / her scientific work, the doctoral student establishes cooperation with scientific authorities of domestic and foreign origin and supports the promotion of the results of his / her own scientific publishing activity in the scientific area, while monitoring the citation of his / her outputs in other databases except SCI and SSCI.	
<b>Recommended literature:</b> Current sources on the presented issues.	
<b>Languages necessary to complete the course:</b> English language	
<b>Notes:</b> Teacher: supervisor

## COURSE DESCRIPTION

<b>Academic year:</b> 2025/2026	
<b>University:</b> Comenius University Bratislava	
<b>Faculty:</b> Faculty of Pharmacy	
<b>Course ID:</b> FaF/456-PhD-A/21	<b>Course title:</b> Elaboration of a Manuscript of a Scientific Publication in a Foreign Language as the First Author
<b>Educational activities:</b> <b>Type of activities:</b> <b>Number of hours:</b> <b>per week: per level/semester:</b> <b>Form of the course:</b> on-site learning, distance learning	
<b>Number of credits:</b> 10	
<b>Recommended semester:</b> 5., 6..	
<b>Educational level:</b> III.	
<b>Prerequisites:</b>	
<b>Course requirements:</b> The doctoral student obtains the rating completed with a credit value after submitting the manuscript of the scientific work in a foreign language to the supervisor, which documents the ability to create a scientific text for publication in a journal with IF. The student is the first author in the manuscript.	
<b>Learning outcomes:</b> a doctoral student under the guidance of a supervisor demonstrates the ability to work scientifically, i. e. a scientific text that meets the criteria of professionalism, scientific and methodological relevance.	
<b>Class syllabus:</b> 1. The doctoral student, after consultation with the supervisor, shall develop scientific texts in a foreign language (English language is recommended) that meet the criteria of professionalism, scientific and methodological relevance. 2. The scientific text of the manuscripts consists of the basic parts: - abstract - introduction - material and methods - results and discussion - literature. 3. The doctoral student respects the ethics of publishing, each scientific text is original.	
<b>Recommended literature:</b> Current sources on the presented issues.	
<b>Languages necessary to complete the course:</b> foreign language, English is recommended	
<b>Notes:</b> Lecturer: supervisor	

<b>Past grade distribution</b>

## COURSE DESCRIPTION

<b>Academic year:</b> 2025/2026	
<b>University:</b> Comenius University Bratislava	
<b>Faculty:</b> Faculty of Pharmacy	
<b>Course ID:</b> FaF/470-PhD-A/21	<b>Course title:</b> Individual Study of the Scientific Literature
<b>Educational activities:</b> <b>Type of activities:</b> <b>Number of hours:</b> <b>per week: per level/semester:</b> <b>Form of the course:</b> on-site learning, distance learning	
<b>Number of credits:</b> 2	
<b>Recommended semester:</b> 1., 2., 3., 4., 5., 6., 7., 8..	
<b>Educational level:</b> III.	
<b>Prerequisites:</b>	
<b>Course requirements:</b> The doctoral student obtains the rating completed with a credit value after submitting a written version thematically corresponding to the topic of the dissertation, research, theoretical introduction or project to the supervisor, the doctoral student obtains the evaluation completed with a credit value. The supervisor provides the evaluation to the doctoral student by making an entry into the AIS and in the study records.	
<b>Learning outcomes:</b> The doctoral student under the guidance of the supervisor will demonstrate the ability to develop a search, theoretical introduction or project that thematically corresponds to the topic of the dissertation.	
<b>Class syllabus:</b> 1. The doctoral student prepares a research, theoretical introduction or project corresponding to the main topic of the dissertation under the guidance of the supervisor 2. The doctoral student presents a case study corresponding to the main topic of the dissertation in the presence of the supervisor	
<b>Recommended literature:</b> Current sources on the studied issues.	
<b>Languages necessary to complete the course:</b> English language	
<b>Notes:</b> Lecturer: supervisor

## COURSE DESCRIPTION

<b>Academic year:</b> 2025/2026	
<b>University:</b> Comenius University Bratislava	
<b>Faculty:</b> Faculty of Pharmacy	
<b>Course ID:</b> FaF/455-PhD/21	<b>Course title:</b> Introduction to Scientific Research
<b>Educational activities:</b> <b>Type of activities:</b> seminar <b>Number of hours:</b> <b>per week: 1 per level/semester: 14</b> <b>Form of the course:</b> on-site learning, distance learning	
<b>Number of credits:</b> 4	
<b>Recommended semester:</b> 1.	
<b>Educational level:</b> III.	
<b>Prerequisites:</b>	
<b>Course requirements:</b> - active participation in seminars – seminar work (40%) - final test (60%). The student must achieve at least 60% of the total assessment to complete the course. Scale of assessment (preliminary/final): 40/60	
<b>Learning outcomes:</b> After completing the seminars, the students can formulate their ideas, search for arguments, and conduct scientific interviews. They will learn to deal with evidence, be creative, inform, analyse, and understand the meaning of scientific research.	
<b>Class syllabus:</b> The focus covers the following areas of scientific research and education: <ul style="list-style-type: none"> <li>- University education</li> <li>- Doctoral studies and PhD degree.</li> <li>- Science, research and observation</li> <li>- Selection of a scientific problem</li> <li>- Scientific research and experience</li> <li>- Experiment and experimenter</li> <li>- The meaning of scientific research</li> <li>- Scientific problem and its solution</li> <li>- Objectives and methods of scientific research</li> <li>- From observation to experiment</li> <li>- Ethics in scientific work</li> <li>- Science, pharmacy and clinical monitoring</li> </ul>

## COURSE DESCRIPTION

<b>Academic year:</b> 2025/2026	
<b>University:</b> Comenius University Bratislava	
<b>Faculty:</b> Faculty of Pharmacy	
<b>Course ID:</b> FaF/454-PhD/21	<b>Course title:</b> Introduction to Scientific Writing in English Language
<b>Educational activities:</b> <b>Type of activities:</b> seminar <b>Number of hours:</b> <b>per week: 1 per level/semester: 14</b> <b>Form of the course:</b> on-site learning, distance learning	
<b>Number of credits:</b> 4	
<b>Recommended semester:</b> 2.	
<b>Educational level:</b> III.	
<b>Prerequisites:</b>	
<b>Course requirements:</b> - active participation in seminars - midterm test (15%) - final test (85%). The student must achieve at least 60% of the total assessment to complete the course. Scale of assessment (preliminary/final): 15/85	
<b>Learning outcomes:</b> After completing the seminars, the students can formulate their ideas, search for arguments, and conduct scientific interviews through academic writing. They will learn to deal with evidence, be creative, inform, analyse, use professional terminology if necessary.	
<b>Class syllabus:</b> The seminars follow the deepening of communicative skills and the acquisition of specific terminology. In addition to selected texts from textbooks, texts from promotional materials, manuals and magazines are used. The following topics are covered: writing professional articles, reports, interviews, lectures, emails, creating abstracts and summaries, presentations on assigned topics.	
<b>Recommended literature:</b> Rejharová, V.: Letter – Writer. Praha: Academia, 1972, Bates, M., Dudley, T.: Nucleus: General Science. ## COURSE DESCRIPTION

<b>Academic year:</b> 2025/2026	
<b>University:</b> Comenius University Bratislava	
<b>Faculty:</b> Faculty of Pharmacy	
<b>Course ID:</b> FaF/476-PhD-A/22	<b>Course title:</b> Other Activities (eg. a Member of the Organizing Committee of the Conference)
<b>Educational activities:</b> <b>Type of activities:</b> <b>Number of hours:</b> <b>per week: per level/semester:</b> <b>Form of the course:</b> on-site learning, distance learning	
<b>Number of credits:</b> 3	
<b>Recommended semester:</b> 1., 2., 3., 4., 5., 6., 7., 8..	
<b>Educational level:</b> III.	
<b>Prerequisites:</b>	
<b>Course requirements:</b> <p>The doctoral student obtains the rating completed with credit value after submitting an invitation to the conference (in which he is a member of the scientific conference organizing committee) and a separate published article on the successful implementation of the conference or a copy of the published summary of papers at the scientific event in the form of proceedings. source cover, circulation letters with ISBN or ISSN, source content, contribution), or the doctoral student obtains the rating completed with a credit value after submitting a confirmation from the head of the pharmacy about the completion of practice in a pharmacy. Completion of pharmacy practice is possible with the holder of a permit to provide pharmacy care, which is a legal entity, and which is also a university providing higher education in the field of pharmacy. The student can complete the subject even if he participates in an internship at a workplace that operates in the field of pharmacy or medicine. A student can be awarded a grade for having passed while representing the faculty at various events organized by the faculty or the university.</p>	
<b>Learning outcomes:</b> <p>The doctoral student under the guidance of the supervisor will demonstrate the ability to prepare, organize and conduct a scientific conference, or the doctoral student under the guidance of a pharmacist or doctor demonstrates the ability to work professionally and scientifically in a pharmacy or in a workplace that operates in the field of pharmacy or medicine or the doctoral student demonstrates the ability to professionally and scientifically present studies and scientific activities carried out at the Faculty of Pharmacy of the Comenius University Bratislava.</p>	
<b>Class syllabus:</b> <p>The doctoral student shall actively participate in the preparation, organization and implementation of the conference in the position of chairman or member of the organizing committee of the scientific conference. 2. After the successful implementation of the conference, the doctoral student will prepare an article with photo documentation, which presents and promotes a scientific event in a journalistic, scientific periodical or proceedings. If a doctoral student completes an internship in a pharmacy, he actively participates in its operation and actively solves scientific questions related to the prescription and dispensing of medicines. If a doctoral student participates in an internship</p>	

<p>at a workplace that operates in the field of pharmacy or medicine, he actively solves professional and scientific topics that the workplace deals with. A doctoral student representing the faculty at events organized by the faculty or the university informs about the studies and scientific research activities carried out at the faculty. The student acquires skills in presenting professional topics.</p>

## COURSE DESCRIPTION

<b>Academic year:</b> 2025/2026	
<b>University:</b> Comenius University Bratislava	
<b>Faculty:</b> Faculty of Pharmacy	
<b>Course ID:</b> FaF/955-PhD-A/25	<b>Course title:</b> Passing a long-term internship abroad
<b>Educational activities:</b> <b>Type of activities:</b> practice <b>Number of hours:</b> <b>per week: per level/semester:</b> 30d <b>Form of the course:</b> on-site learning, distance learning	
<b>Number of credits:</b> 20	
<b>Recommended semester:</b> 1., 2., 3., 4., 5., 6., 7., 8..	
<b>Educational level:</b> III.	
<b>Prerequisites:</b>	
<b>Course requirements:</b> The doctoral student obtains the rating completed with a credit value after submitting proof of completion of a foreign internship on the topic of the dissertation by the receiving institution lasting more than 30 days and a report from the foreign work trip.	
<b>Learning outcomes:</b> The doctoral student, under the guidance of a supervisor and the person responsible for the doctoral student's stay at the receiving workplace, will demonstrate the ability to work professionally and scientifically in the team of the receiving workplace.	
<b>Class syllabus:</b> The doctoral student actively carries out professional and scientific activities at the receiving workplace. He acquires knowledge about new research methods, which he uses in solving the topic of his dissertation. He learns to interpret the obtained results and formulate conclusions from the results of professional activities and research he has carried out. The student acquires skills in presenting professional and scientific topics.	
<b>Recommended literature:</b> Current sources on the presented issue.	
<b>Languages necessary to complete the course:</b> English	
<b>Notes:</b> Teachers: supervisor	
<b>Past grade distribution</b> Total number of evaluated students: 0
