STATE EXAM DESCRIPTION

Academic year: 2025/2026	
University: Comenius University Bratislava	
Faculty: Faculty of Arts	
Course ID: FiF.KPA/A-mDPS-990/11	Course title: Degree Thesis Defence
Number of credits: 0	
Educational level: D	
Course requirements: The student must submit the final thesis within the deadline specified in the schedule of the current academic year for the relevant date of the state exam. Submission of the final thesis within the deadline specified in the schedule of the current academic year for the relevant date of completion of the final exam. The final thesis is submitted in electronic form via AIS. The work must meet the parameters determined by the internal quality system of the Comenius University. The provisions of Article 5 of Internal Regulation No. apply to the evaluation of the final thesis. 9/2020 (Study Regulations of the Faculty of Arts, Charles University). The final thesis consultant will prepare an opinion on the final thesis and will propose an evaluation in the classification of the A-FX thesis. The student has a report available min. 3 working days before the defense. Classification scale: 0-59% -FX, 60-67% -E, 68-75% -D, 76-83% -C, 84-91% -B, 92-100% -A Criteria for the evaluation of the final thesis: 1. The contribution of the final thesis, the fulfillment of the objectives of the thesis in its assignment and the requirements for the content of the final thesis DPŠ given by the internal quality system of Comenius University. Assessed: demonstrates knowledge and skills, the ability to work in the study program, the ability to apply in the collection, interpretation and processing of basic literature; in the case of practically focused final work also mastering the application of theoretical principles in practice and verifiability of hypotheses; 2. Originality of the work (the final work must not have the character of plagiarism, it must not infringe the copyrights of other authors); 3. Correctness and correctness of citation of used information sources, research results of other authors and author groups, correctness of description of methods and working procedures of other authors or author groups; 4. Compliance of the structure of the final work with the prescribed composition defined by the internal quality system of the Comenius University; 5. Respecting the recommended scope of the final work of the DPŠ (minimum scope of the final work of the basic DPŠ module is 27,000 characters including spaces, the minimum scope of the final work of the extension DPŠ module is 36,000 characters including spaces.), The adequacy of the scope of work is assessed by the final thesis consultant; 6. Linguistic and stylistic level of work and formal arrangement. The student orally presents the content, achieved goals and conclusions of the final thesis and answers to the questions and comments of the final thesis consultant, resp. members of the examination board. The committee will comprehensively evaluate the quality of the final thesis, assess the method and form of the defense and the student's ability to fully respond to the comments and questions in the opinion of the final thesis consultant and the opponent. The evaluation is	

achieved from the arithmetic average of the evaluation from the opinion of the final thesis consultant and the evaluation of the examination commission. Scale of assessment (preliminary/final): 0/100
Learning outcomes: The student has mastered the basic requirements of writing a scientific text in compliance with the rules of academic ethics, is able to work creatively in the field of study in which he completed the study program, and has adequate knowledge and understanding of the relevant issues. The student can apply his skills in the collection, interpretation, and processing of basic scientific literature, or even in its application in practice, or has the ability to solve a partial task related to the focus of the bachelor's thesis. After a successful defence of the final thesis, the student is able to logically deal with the theoretical background of the final thesis and respond to questions relating to the relevant issues.
Class syllabus: 1. Presentation of the final thesis to the students before the commission for state exams and those present. 2. Student's response to comments and questions in the review from the final thesis consultant. 3. Student's response to the questions of the commission for the final exams of DPŠ and in the discussion.

COURSE DESCRIPTION

Academic year: 2025/2026	
University: Comenius University Bratislava	
Faculty: Faculty of Arts	
Course ID: FiF.KPs/A-moPS-590/15	Course title: Teacher Training in Psychology 1
Educational activities: Type of activities: practice Number of hours: per week: per level/semester: 20s Form of the course: on-site learning, distance learning	
Number of credits: 3	
Recommended semester: 1.	
Educational level: D	
Prerequisites:	
Course requirements: The student attends an introductory and final seminar with an university tutor and completes an observation practice at one of the contractual schools according to the subject specialization of the practice in a specified number of hours. He keeps a practice diary from the observed lessons. Continuous evaluation includes the completion of observation in class (psychology) to the specified extent and the submission of a predetermined number of processed records from the observed lessons. To successfully complete the course, it is necessary to obtain at least 60% of the total grade. Scale of assessment (preliminary/final): 100/0	
Learning outcomes: The aim of the Teacher Training in Psychology 1 is to support the professional vision of students of supplementary pedagogical studies/teaching. After completing the course, the student will know and be able to orient themselves in school documentation, will understand and be able to describe educational phenomena (elements of communication in a learning group, inter-individual differences of pupils, phenomena of learning group dynamics), and identify individual goals, methods, forms and phases of the teaching process. He/she will be able to make a record of the observation of the lesson. They will be able to think critically and create the basis of an individual attitude and approach to the teaching profession based on the activities of a training teacher.	
Class syllabus: 1. Preparatory phase: Information meeting and introductory seminar before completing the observation practice – goals and methods of observation practice. Observation. Documentation. 2. Implementation phase: Participation and own observation of the educational process. Keeping and compiling a practice diary. 3. Final phase: Final meeting: Evaluation, analysis and reflection of observations.
