COURSE DESCRIPTION

Academic year: 2025/2026	
University: Comenius University Bratislava	
Faculty: Faculty of Arts	
Course ID: FiF.KRom/A-boRO-127/21	Course title: Author and Reader
Educational activities: Type of activities: seminar Number of hours: per week: 2 per level/semester: 28 Form of the course: on-site learning	
Number of credits: 2	
Recommended semester: 4.	
Educational level: I.	
Prerequisites:	
Antirequisites: FiF.KRom/FRa-40/19	
Course requirements: The student receives 100 % of the overall grade within continuous evaluation: 80 % of the grade is composed of the seminar paper and presentation of the selected topic, 20 % active participation in the seminar (reading and commenting on the accompanying texts, discussion on the presented topics). Credits will not be awarded to a student who receives less than 60 % of the overall grade. There are two allowed absences. Grading scale: 100-90: A 89-85: B 84-75: C 74-70: D 69-60: E 59-0: FX Scale of assessment (preliminary/final): Evaluation of the subject (continuous/final) 100/0	
Learning outcomes: Students know the basic French literary-theoretical concepts necessary for systematic work with literary texts, their interpretation and criticism from the point of view of the author and the reader of literary text. They are able to look at a literary text through different types of intentional reading and interpret text with an aim to further use – literary translation and creation of paratexts. They know how the author (authorial strategies) and the reader (publishing strategies) influence the text. They have an overall view on the meaning of literature, the power of words, and its relationship to social force fields. They are able to use the gained knowledge in translation and editing practice, or in pedagogical practice in literature classes.	
Class syllabus: The seminar is held in the form of discussion. Individual topics are studied on the basis of short essays, literary and other French texts, that are discussed in the class and presented on the basis of students' works. Thematic fields:	

1. What is literature in the system: basic French concepts in literary studies, literary theory, history of literature and literary criticism
2. Literary-critical instrumentarium, literary reception
3. Author, identity, and modality of authorial strategy in the text
4. Modalities of writing and categories of the narrator
5. Literary mystification
6. What reading literature means: the process of reading and reading strategies
7. Reading levels and types of a reader
8. Relationship among the author→reader-author1→reader1
9. Genre literature translation
10. Children's literature translation
11. Popular literature translation
12. Literature in the social and the cultural context: force fields, reception, censorship, attitudes of engagement

STATE EXAM DESCRIPTION

Academic year: 2025/2026	
University: Comenius University Bratislava	
Faculty: Faculty of Arts	
Course ID: FiF.KAA/A-bpAN-801/15	Course title: Bachelor's Degree Thesis Defence
Number of credits: 12	
Educational level: I.	
Course requirements: All matters pertaining to state examination are set out in Article 14 of the Study Regulations of the Faculty of Arts. In the bachelor study programmes, the state examination consists only of the defence of the bachelor's thesis. The student chooses the department as a training centre which corresponds to the discipline within which he/she wants to write the final thesis. He/she reports this choice by the deadline set by the department, provided that he/she is able to find a supervisor and a suitable topic in the relevant department. For the successful defence of the bachelor's thesis as the subject of the state examination in the bachelor degree programmes conducted at the Department of British and American Studies, students will receive credits according to the current study plan (currently 12 credits). Requirements for the admission to the defence are as follows: - fulfillment of the requirements of the study plan concerning the prescribed composition of courses and their credit value so that after awarding the credits for the state examination the student obtains the required number of credits for the bachelor's degree; - submission of the bachelor's thesis (electronically via the academic information system AIS) by the thesis submission deadline corresponding to the relevant state examination period according to the academic year schedule set by the faculty. The thesis is evaluated by the standard grading scale (0-59% -FX, 60-67% -E, 68-75% -D, 76-83% -C, 84-91% -B, 92-100% -A) by the supervisor of the thesis and the designated opponent in the assessment reports, which are available to the student no later than 3 working days before the state examination. The supervisor's report shall also include the percentage of compliance results from the originality check protocols (CRZP, Theses), which must be explicitly evaluated by the supervisor with the wording "the thesis shows/does not show signs of plagiarism". The bachelor's thesis will take the following form: The defence will consist of a thesis presentation (the student chooses the form of the defence, the PPT format can also be used) and the student's response to a broader theoretical question, which is assigned to the student by the supervisor upon the bachelor's thesis submission. The supervisor will include this question in the assessment report as one of the points of discussion for the defence; it will also be included in the defence report. The thesis presentation must: - Include a clearly articulated thesis statement, - have a clear and logical structure of argumentation and findings, - reflect a new perspective on the issue as a result of adequate and appropriate work with the findings gained through own research, the conclusions of which the student is able to present and formulate. The criteria for the evaluation (of the defence) of the bachelor's thesis at the Department of British and American Studies are as follows:	

- Quality of the bachelor's thesis (originality, significance of the analysis, clear formulation of the scientific problem and hypotheses under study, scope of the professional and scientific literature used), - the adequacy of the methodological approach to the topic under study, the analysis logically and coherently answers the research questions, - systematic and logical summary of the results of the analysis, - compliance with citation standards (MLA...), - language level of the presentation (academic language at least at B2 level), - quality of the presentation and communication skills. The evaluation of the thesis will include the areas below with the corresponding weighting (out of 100): PART A: CONTENT • Overall structure and organization (adequacy, scope, objectivity, coherence, cohesion) 15 • Theoretical knowledge related to the research topic 15 • Methodology (identifying concepts, research problems, aims, tasks, choosing adequate methods) 15 • Analysis (quality, depth, complexity) 15 • Originality and contribution (degree of originality, own contribution to knowledge) 10 PART B: FORM • Adequate work with information sources (extent, structure, reliability, adequacy, compliance with a citation style) 15 • Language and style 10 • Typography and layout 5 Scale of assessment (preliminary/final): 0/100 (%)
Learning outcomes: • Upon successful completion of the course, students will be familiar with the basic requirements for academic writing and with the rules of academic integrity. • They will have mastered the theory of working with sources and have the skills to compile correct bibliographic entries. • They will have understood the principles of writing a bachelor's thesis, both in terms of form and content, as laid out by the university's regulations. • They will have understood the causes of plagiarism, they will be able to recognize its types and know how to avoid it. • They will have sufficient research skills to obtain, process, and interpret sources. • They will have mastered the basics for writing a Master's thesis. • They will have a deep knowledge of the thesis topic and will be able to approach it both critically and creatively.
Class syllabus: 1. The student presents the bachelor's thesis in front of the state examination committee, the supervisor and the opponent of the bachelor's thesis, and those present. 2. The student responds to the comments and questions in the assessments. 3. The student responds to the questions of the state examination committee or the questions in a broader debate. 4. The student responds to the pre-given general question from the supervisor's assessment. 5. A closed vote of the state examination committee on the evaluation of the bachelor's thesis defence. 6. Announcement of the evaluation (of the thesis defence) of the bachelor's thesis.

STATE EXAM DESCRIPTION

Academic year: 2025/2026	
University: Comenius University Bratislava	
Faculty: Faculty of Arts	
Course ID: FiF.KKSF/A-bpAR-801/15	Course title: Bachelor's Degree Thesis Defence
Number of credits: 12	
Educational level: I.	
Course requirements: The student must submit the bachelor's thesis within the deadline specified in the schedule of the current academic year for the relevant date of the state exam. The bachelor thesis is submitted in electronic form via AIS. The work must meet the parameters determined by the internal quality system of Comenius University. The provisions of Article 14 of Internal Regulation no. 5/2020 (Study Regulations of the Faculty of Arts of Comenius University) apply to the evaluation of the bachelor's thesis. The supervisor of the final thesis and its opponent will prepare evaluations of the bachelor's thesis and propose a grade in the A-FX grading scale, which the student receives a minimum of three working days before the defence. Grading scale: 0 – 59%: FX, 60 – 67%: E, 68 – 75%: D, 76 – 83%: C, 84 – 91%: B, 92 – 100%: A. Bachelor thesis evaluation criteria: 1. The contribution of the bachelor's thesis, the fulfilment of the goals of the thesis in its assignment, and the requirements for the content of the bachelor's thesis given by the internal quality system of Comenius University. The following is assessed: demonstration of knowledge and skills, ability to work creatively in the study program, ability applied in the collection, interpretation, and processing of basic scientific literature; in the case of an empirically oriented bachelor's thesis also mastering the application of theoretical principles in practice and verifiability of hypotheses. 2. Originality of the work (bachelor thesis must not be plagiarized, must not infringe the copyrights of other authors); the documentation for the defence of the bachelor's thesis also includes protocols of originality from the CRZP and Theses systems, to the results of which the thesis supervisor and the opponent express their opinions in their evaluations. 3. Correctness and accuracy of citation of used information sources, research results of other authors and group authors, correctness of the description of methods and working procedures of other authors or group authors. 4. Compliance of the structure of the bachelor's thesis with the prescribed composition defined by the internal quality system of Comenius University. 5. Respecting the recommended length of the bachelor's thesis (the recommended length of the bachelor's thesis is usually 30 – 40 standard pages = 54,000 to 72,000 characters, including spaces), the adequacy of the length of the thesis is assessed by the thesis supervisor. 6. Linguistic and stylistic level of work and formal adjustments. The student orally presents the content, achieved goals, and conclusions of the bachelor's thesis, and answers the questions and comments of the thesis supervisor, opponent, or members of the examination committee. The committee will comprehensively evaluate the quality of the bachelor's thesis, assess the method and form of defence, and the student's ability to adequately respond to comments and questions from the evaluations of the thesis supervisor and the opponent. The student receives their final grade based on the average of the assessment of the thesis supervisor and opponent from their evaluations, and the assessment of the examination committee.	

Scale of assessment (preliminary/final): 0/100.
Learning outcomes: Students know how to write technical texts while adhering to the principles of academic ethics, they are able to work originatively in the given field. They are skilled in collecting, elaborating and interpretation of the basic specialized literature, they are able to make use of it to solve potential practical problems. They can logically operate with the theoretical bases. They know the given field well and are capable of proper reasoning, reacting to remarks and answering questions related to the given topic.

The student orally presents the content, achieved goals, and conclusions of the bachelor's thesis, and answers the questions and comments of the thesis supervisor, opponent, or members of the examination committee. The committee will comprehensively evaluate the quality of the bachelor's thesis, assess the method and form of defence, and the student's ability to adequately respond to comments and questions from the evaluations of the thesis supervisor and the opponent. The student receives their final grade based on the average of the assessment of the thesis supervisor and opponent from their evaluations, and the assessment of the examination committee.	

Scale of assessment (preliminary/final): 0/100
Learning outcomes: The student has mastered the basic requirements of writing a scientific text in compliance with the rules of academic ethics, is able to work creatively in the field of study in which he completed the study program, and has adequate knowledge and understanding of the relevant issues. The student can apply his skills in the collection, interpretation, and processing of basic scientific literature, or even in its application in practice, or has the ability to solve a partial task related to the focus of the bachelor's thesis. After a successful defence of the bachelor's thesis, the student is able to logically deal with the theoretical background of the bachelor's thesis and respond to questions relating to the relevant issues.
Class syllabus: 1. The student presents the bachelor's thesis in front of the committee for state exams, the opponent of the bachelor's thesis, and those present. 2. The student responds to comments and questions in the evaluations. 3. The student responds to the questions of the committee for state exams or the questions in a broader debate.

Prerequisites:	
Antirequisites: FiF.KAA/A-bpSZ-027/16 or FiF.KAA/A-bpSZ-028/15 or FiF.KAA/A-bpSZ-027/15	
Course requirements: The course assumes that students have access to a computer running Windows 8 and higher or a Mac running Windows emulator. Continuous assessment of student performance in class during the semester (30% of the final grade). Assessment includes the student's ability to handle individual class assignments (working with translation software and glossaries) and homework that replicates class work using alternative texts. The course ends with a test, which consists of the translation of 1 standard page of text in translation software from Slovak into the language of the student. The test does not evaluate the translation aspect, but only the technical ability to work with the software. The test usually takes place in the last week of the semester and is available on-site and online. The final test makes up 70% of the evaluation. Classification scale: 100% - 91% - A 90% - 81% - B 80% - 71% - C 70% - 61% - D 60% - 51% - E 50% - 0% - FX Teachers accept a maximum of 2 absences with proven documents . Scale of assessment (preliminary/final): 30% continuous evaluation, 70% final evaluation	
Learning outcomes: After completing the course, the student is able to work with translation software and can apply the acquired knowledge and principles not only on one, but also on several translation softwares. Skills include basic software skills - creating and working with translation memories, project and glossary management as well as advanced knowledge, including working with parallel texts, conversions of various input document formats, and project management of translation teams. Students will be able to identify and overcome potential technical difficulties and solve compatibility problems on their own. The graduate masters the basic principles of post-editing and working with machine translation from various providers.	
Class syllabus: 1. Working with a license and school VPN 2. Creating a project, the principle of operation of the translation memory 3. Uploading an additional document into the project, pre - translation 4. Working with tags, document editing after exporting from CAT 5. Creating a translation memory	

from parallel texts and exporting them 6. Working with glossaries; conversion of external glossary and its import into the terminology database 7. Working with external sources of translation memories; memory conversion and its export via .tmx files 8. Translation of subtitles in the CAT tool, principles of working with .srt and .sub files 9. Project backup; receiving and sending project packages 10. Working on a joint online project 11. Machine translation plug-ins and APIs in CAT tools. 12. Post-editing exercises 13. Scale of assessment (preliminary/final): Evaluation of the subject (continuous/final) 10 %/90 %	
Learning outcomes: Students have theoretical knowledge in the field of French syntax (parsing and analysis of simple sentences and clauses), as well as its specifics in comparison with Slovak. In practical terms students have the skills and confidence to understand and use French polysemantic conjunctions, which helps them to improve their expressive competence. In the same way students are also able to use word order in French and incorporate knowledge from previous seminars when forming sentences. The seminar concludes a look at the linguistic system of French, and students are able to see it in	

a broader context and connect its different levels in terms of their professional practice (translation and interpreting, teaching and editing).					
Class syllabus: 1. Introduction – what is a sentence and what is no longer a sentence? 2. General view of the topic and its terminology 3. Analysis of a simple sentence: the basic structure of a French sentence 4. Types of simple sentences according to modality 5. Compound sentence and juxtaposition 6. Complex sentence (a general view of complex sentence in French) 7. Object subordinate clauses (characteristics and usage) 8. Relative subordinate clauses (the problem of the relative pronoun) 9. Adverbial subordinate clauses (categorisation and view on polysemy of subordinating conjunctions) 10. Indirect interrogative subordinate clauses 11. Complex subordinate clauses without the introductory conjunction (problem of identification) 12. Word order and inversion of the subject in a simple sentence

The student knows the most important terminological resources in his/her language combination and is familiar with terminology management technologies that can be used in the translation process. The student is able to develop his/her own terminology project.	

Class syllabus:

1. Introduction to terminology, basic concepts
2. Term - the basic unit of terminology
3. Conceptual system of terminology
4. Relations between terms
5. Definiteness of the term and interpretation of meaning
6. Equivalence in terminology
7. Principles of terminological work for translators, terminological standards and resources
8. Important terminological databases and their use in translation (IATE, TERMIUM, Slovak Terminological Portal), presentations of terminological projects
9. Technologies for terminology analysis and management, presentations of terminology projects
10. Term abstraction and equivalence, term alignment, terminology project presentations
11. Glossary creation in the translation process
12. Summary and repetition of the seminar content

Educational activities: Type of activities: lecture Number of hours: per week: 2 per level/semester: 28 Form of the course: on-site learning	
Number of credits: 4	
Recommended semester: 4.	
Educational level: I.	
Prerequisites:	
Course requirements: The course is assessed by a combination of continuous assessment (short tests during the semester, always after the lecture: 50% of the final grade) and a final test (50% of the final grade). The questions in the short tests are aimed at recapitulating the basic concepts covered in the lecture, and the tests are administered through an electronic interface (moodle). The questions in the final test are aimed at verifying the extent to which students have mastered and understood basic concepts in the field of interpreting theory and practice. The date of the final test will be announced by the instructor at least two weeks before the deadline, and usually two dates are offered to students, via AIS. Grading Scale: 100% - 91% - A 90% - 81% - B 80% - 71% - C 70% - 61% - D 60% - 51% - E 50% - 0% - FX The instructor will accept a maximum of 2 absences with documented evidence. Scale of assessment (preliminary/final): 50/50 (%)	
Learning outcomes: Upon completion of the course, students will have a basic understanding of key theoretical and practical concepts in the field of interpreting. The body of knowledge builds on, develops, and adds to the basic translational concepts and specifics in the field of interpreting. Students have a clear understanding of the types, genres, and techniques of interpreting, their applications, and the basic models that describe them. They also understand what the basic cognitive and communicative models of interpreting are, know the specifics of both simultaneous and consecutive interpreting, and know their history and prerequisites for successful implementation. They shall have a basic understanding of the deontology of interpreting and the development of the competences necessary for interpreting.	
Class syllabus:	

1. Basic introduction to interpreting, the lecturer and the content of the courses, explanation of the assessment methodology 2. Basic concepts in the theory and practice of interpreting 3. History of interpreting 4. Communication situations in interpreting and their models 5. Cognitive processes in interpreting and their models 6. Consecutive interpreting - theory and practice 7. Simultaneous interpreting - theory and practice 8. The interpreter's personality and the development of interpreting competences 9. Deontology of interpreting (short film and discussion) 10. Interpreting in the EU (invited lecture) 11. Interpreting strategies and crisis situations 12. The future of interpreting, new technologies and their use in interpreting 13.
