Course requirements: Submission of the bachelor's thesis within the deadline specified in the schedule of the current academic year for the relevant date of the state exam. The bachelor thesis is submitted in electronic form via AIS. The thesis must meet the parameters determined by the internal quality system of the Comenius University. The provisions of Article 14 of the Internal Regulation no. 5/2020 (Study Regulations of the Faculty of Arts, Comenius University) apply to the bachelor's thesis evaluation. The supervisor of the final thesis and its opponent will prepare assessments of the bachelor's thesis and propose an evaluation in the A-FX grading scale, which the student has at his/her disposal min. 3 working days before the defence. Bachelor thesis evaluation criteria: The contribution of the bachelor's thesis, the fulfilment of the objectives of the thesis and the requirements for the content of the bachelor's thesis given by the internal quality system of the Comenius University. The following is assessed: demonstration of knowledge and skills, ability to work creatively in the study program, ability applied to collecting, interpreting and processing of basic professional literature; in the case of a practically oriented bachelor's thesis, mastering the application of theoretical principles in practice and verifiability of hypotheses. Originality of the thesis (bachelor's thesis must not be plagiarized, must not infringe the copyrights of other authors); the documentation for the defence of the bachelor's thesis also includes protocols of originality from the CRZP and Theses, to the results of which the thesis supervisor and the opponent express their opinions in their assessments. Correctness of citing the selected information sources, research results of other authors and author's collectives, correctness of description of methods and working procedures of other authors or author's collectives. Compliance of the structure of the bachelor's thesis with the prescribed composition defined by the internal quality system of the Comenius University. Respecting the recommended range of the bachelor's thesis (the recommended range of the bachelor's thesis is usually 30 - 40 standard pages = 54,000 to 72,000 characters, including spaces), the adequacy of the range of the thesis is assessed by the thesis supervisor. Linguistic and stylistic level of the thesis and formal layout. The student orally presents the content, achieved goals and conclusions of the bachelor's thesis and answers the questions and comments of the thesis supervisor, opponent, or members of the examination board. The commission will comprehensively evaluate the quality of the bachelor's thesis, assess the method and form of the defence and the student's ability to adequately respond to comments and questions in the assessments of the thesis supervisor and of the opponent. Part of the colloquial defence of the bachelor's thesis is also the answering of two questions that are related to the theoretical and methodological background of the thesis. The final evaluation will consider the evaluations from the supervisor's and opponent's assessment, the evaluation of the final thesis defence by the commission and the evaluation of answers to	

two questions chosen by the commission. In the case of the Fx mark from the second part of the colloquial defence, the same final mark is given to the student. Scale of assessment (preliminary/final): 0/100 Scale of assessment (preliminary/final): Scale of assessment (preliminary/final): 0/100
Learning outcomes: The student has mastered the basic requirements of writing a professional text in compliance with the rules of academic ethics, he/she is able to work creatively in the field of study in which he/she completed the study program, he/she has adequate knowledge and understanding of the selected issue. He/she can apply his/her skills to collecting, interpreting and processing of basic professional literature, or to their use in practice or has the ability to solve a partial task related to the focus of the bachelor's thesis. Since the goal is practical work in the field of global issues in education and intercultural communication, the course requires active class participation, the ability to discuss and argue the issues discussed in English, and to present one's findings on the basis of the materials read and discussed (50% of the total grade). The other 50% of the grade consists of a final written student response to the knowledge, skills, and attitudes acquired, consisting of a narrative response of approximately 1000-1500 words and a questionnaire with questions about the course. Grading scale: A ≥92% B ≥84% C ≥76% D ≥68% E ≥60% Fx <60% Scale of assessment (preliminary/final): 100/0	
Learning outcomes: By the end of the course, the student is familiar with specific topics that are relevant to current issues in global education and is able to discuss and write about societal issues potentially related to the practice of teaching. Students will become familiar not only with the global dimension of the contemporary educational process but also with the basics of intercultural communication.	
Class syllabus: The course focuses on the introduction and theoretical support of topics that are important for future English language teachers, especially with regard to the intercultural dimension of their profession. The topics of the course vary according to the current issues that (not only) foreign language teachers may encounter in their practice - from issues specific to English-speaking areas (race, colonialism) to specific topics that are increasingly resonating also in the Central European area (human rights issues, ethnic orations, approaches to teaching and discussing so-called sensitive topics, e.g. the Holocaust).	

Formally, the course relies on collaboration with academics from international backgrounds as well as NGO staff in relevant fields.
