Students will gain advanced knowledge of translational theory and terminology, but most importantly, in the practical part, they will be introduced in vivo, both in teams and individually, to translation practices and the key types of translation problems that a literary translator potentially has to deal with. Working with fiction texts of different poetics, we will introduce students to the procedures and stages of translating fiction, namely prose, drama and poetry, and demonstrate the following areas of translation issues in a live translation process: 1. the relevance of the translation concept for the success of translation	

2. the complexity of translating polysemic texts 3. the translation of humour 4. translation of dramatic effect 5. the search for functional equivalence in the identity of a work of fiction 6. the complexity of translating culturally specific texts 7. the problem of multivocality and intentionality 8. translation in intercultural communication 9. translation of intertextual continuations

COURSE DESCRIPTION

Academic year: 2025/2026	
University: Comenius University Bratislava	
Faculty: Faculty of Arts	
Course ID: FiF.KAA/A-mpAN-322/23	Course title: Machine Translation
Educational activities: Type of activities: seminar Number of hours: per week: 2 per level/semester: 28 Form of the course: on-site learning	
Number of credits: 3	
Recommended semester: 2., 4.	
Educational level: II.	
Prerequisites:	
Course requirements: Continuous assessment: During the semester, students work on various assignments (listed in Moodle) which they bring to seminars. In addition, students work on one final project, which forms the largest part of the assessment. For the final project, students demonstrate in an annotated machine translation assessment how they have mastered the pre-editing of the source text and the subsequent evaluation of the machine translation. Grading scale: 0-60-68-76-84-92-100 % = FX-E-D-C-B-A. A maximum of 2 absences are allowed without having to document them. Violations of academic ethics will be sanctioned by a reduction in grade up to and including a petition for disciplinary action, depending on the level of severity. Scale of assessment (preliminary/final): 100/0 (%)	
Learning outcomes: Students will learn about machine translation and the processes and procedures that affect it, as well as those that are affected by it. At the beginning of the semester, they will learn how machine translation works (with a focus on neural machine translation) through additional study materials. Then, throughout the semester, they will explore processes such as pre-editing of the source text for machine translation and then post-editing the source text for machine translation. In addition, students will evaluate the quality of the machine translation output in three forms (questionnaire, form, and mathematical). Thus, the graduate of the course will gain a comprehensive overview of machine translation and related processes.	
Class syllabus: 1. Machine translation - what it is, how it works, background technology 2. Pre-editing the text before translation 3. Impact of pre-editing on post-editing 4. Evaluating the quality of the output 5. Comparing output quality 6. Ethical aspects of machine translation

STATE EXAM DESCRIPTION

Academic year: 2025/2026	
University: Comenius University Bratislava	
Faculty: Faculty of Arts	
Course ID: FiF.KAA/A-mpAN-801/15	Course title: Master's Degree Thesis Defence
Number of credits: 15	
Educational level: II.	
Course requirements: All matters pertaining to state examination are set out in Article 14 of the Study Regulations of the Faculty of Arts. In the master's study programmes, the state examination consists only of the defence of the Master's thesis. The student chooses the department as a training centre which corresponds to the discipline within which he/she wants to write the final thesis. He/she reports this choice by the deadline set by the department, provided that he/she is able to find a supervisor and a suitable topic in the relevant department. For the successful defence of the Master's thesis as the subject of the state examination in the master's degree programmes conducted at the Department of British and American Studies, students will receive credits according to the current study plan (currently 15 credits). Requirements for the admission to the defence are as follows: - fulfillment of the requirements of the study plan concerning the prescribed composition of courses and their credit value so that after awarding the credits for the state examination the student obtains the required number of credits for the master's degree; - submission of the Master's thesis (electronically via the academic information system AIS) by the thesis submission deadline corresponding to the relevant state examination period according to the academic year schedule set by the faculty. The thesis is evaluated by the standard grading scale (0-59% -FX, 60-67% -E, 68-75% -D, 76-83% -C, 84-91% -B, 92-100% -A) by the supervisor of the thesis and the designated opponent in the assessment reports, which are available to the student no later than 3 working days before the state examination. The supervisor's report shall also include the percentage of compliance results from the originality check protocols (CRZP, Theses), which must be explicitly evaluated by the supervisor with the wording "the thesis shows/does not show signs of plagiarism". The Master's thesis will take the following form: The defence will consist of a thesis presentation (the student chooses the form of the defence, the PPT format can also be used) and the student's response to a broader theoretical question, which is assigned to the student by the supervisor upon the Master's thesis submission. The supervisor will include this question in the assessment report as one of the points of discussion for the defence; it will also be included in the defence report. The thesis presentation must: - Include a clearly articulated thesis statement, - have a clear and logical structure of argumentation and findings, - reflect a new perspective on the issue as a result of adequate and appropriate work with the findings gained through own research, the conclusions of which the student is able to present and formulate. The criteria for the evaluation (of the defence) of the Master's thesis at the Department of British and American Studies are as follows:	

- Quality of the Master's thesis (originality, significance of the analysis, clear formulation of the scientific problem and hypotheses under study, scope of the professional and scientific literature used), - the adequacy of the methodological approach to the topic under study, the analysis logically and coherently answers the research questions, - systematic and logical summary of the results of the analysis, - compliance with citation standards (MLA...), - language level of the presentation (academic language at least at B2 level), - quality of the presentation and communication skills. The evaluation of the thesis will include the areas below with the corresponding weighting (out of 100): PART A: CONTENT • Overall structure and organization (adequacy, scope, objectivity, coherence, cohesion) 15 • Theoretical knowledge related to the research topic 15 • Methodology (identifying concepts, research problems, aims, tasks, choosing adequate methods) 15 • Analysis (quality, depth, complexity) 15 • Originality and contribution (degree of originality, own contribution to knowledge) 10 PART B: FORM • Adequate work with information sources (extent, structure, reliability, adequacy, compliance with a citation style) 15 • Language and style 10 • Typography and layout 5 Scale of assessment (preliminary/final): 0/100 (%)
Learning outcomes: • Upon successful completion of the defence, students will be familiar with the basic requirements for academic writing and with the rules of academic integrity. • They will have mastered the theory of working with sources and have the skills to compile correct bibliographic entries. • They will have understood the principles of writing a Master's thesis, both in terms of form and content, as laid out by the university's regulations. • They will have understood the causes of plagiarism, they will be able to recognize its types and know how to avoid it. • They will have sufficient research skills to obtain, process, and interpret sources. • They will have mastered the basics for writing a Master's thesis. • They will have a deep knowledge of the thesis topic and will be able to approach it both critically and creatively.
Class syllabus: 1. The student presents the Master's thesis in front of the state examination committee, the supervisor and the opponent of the Master's thesis, and those present. 2. The student responds to the comments and questions in the assessments. 3. The student responds to the questions of the state examination committee or the questions in a broader debate. 4. A closed vote of the state examination committee on the evaluation of the Master's thesis defence. 5. Announcement of the evaluation (of the thesis defence) of the Master's thesis.

Course requirements: The student must submit the master's thesis within the deadline specified in the schedule of the current academic year for the relevant date of the state exam. The master's thesis is submitted in electronic form via AIS. The work must meet the parameters determined by the internal quality system of Comenius University. The provisions of Article 14 of Internal Regulation no. 5/2020 (Study Regulations of the Faculty of Arts of Comenius University) apply to the evaluation of the master's thesis. The supervisor of the final thesis and its opponent will prepare evaluations of the master's thesis and propose a grade in the A-FX grading scale, which the student receives a minimum of three working days before the defence. Grading scale: 0 – 59%: FX, 60 – 67%: E, 68 – 75%: D, 76 – 83%: C, 84 – 91%: B, 92 – 100%: A. Master's thesis evaluation criteria: 1. The contribution of the master's thesis, the fulfilment of the objectives of the thesis in its assignment, and the requirements for the content of the master's thesis given by the internal quality system of Comenius University. It is assessed whether the student has worked on the chosen topic at the level of scientific study, with a representative selection of scientific literature, with appropriately chosen scientific procedures and hypotheses that can be verified. Demonstration of the ability to work creatively in the study program is evaluated and the degree of demonstration of knowledge and understanding of the diploma thesis is reflected. 2. Originality of the work (master's thesis must not be plagiarized, must not infringe the copyrights of other authors); the documentation for the defence of the master's thesis also includes protocols of originality from the CRZP and Theses systems, to the results of which the thesis supervisor and the opponent express their opinions in their evaluations. 3. Correctness and accuracy of citation of used information sources, research results of other authors and group authors, correctness of the description of methods and working procedures of other authors or group authors. 4. Compliance of the structure of the master's thesis with the prescribed composition defined by the internal quality system of Comenius University. 5. Respecting the recommended length of the master's thesis (the recommended length of the master's thesis is usually 50 – 70 standard pages = 90,000 to 126,000 characters, including spaces), the adequacy of the length of the thesis is assessed by the thesis supervisor. 6. Linguistic and stylistic level of work and formal adjustments. The student orally presents the content, achieved goals, and conclusions of the master's thesis, and answers the questions and comments of the thesis supervisor, opponent, or members of the examination committee. The committee will comprehensively evaluate the quality of the master's thesis, assess the method and form of defence, and the student's ability to adequately respond to comments and questions from the evaluations of the thesis supervisor and the opponent. The	

student receives their final grade based on the average of the assessment of the thesis supervisor and opponent from their evaluations, and the assessment of the examination committee. Scale of assessment (preliminary/final): 0/100.
Learning outcomes: Students can create an academically ethical and contributive scientific study with a rich bibliography. They know a lot about the scrutinized field, they are familiar with the existing literature on the topic and they can react and reason promptly to questions and remarks related to it. They are skilled in processing and interpreting information, on the basis of which they are able to formulate their own hypotheses and deduce conclusions, as well as use them to solve potential practical problems.
Class syllabus: 1. The student presents the master's thesis for the commission for the state examinations, opponent and the others present. 2. The student reacts to the assessments; comments on remarks and answers questions. 3. A discussion takes place, in which the student answers questions of the commission for the state examinations and the others present.
State exam syllabus: Depends on the topic of the master's thesis.

Educational activities: Type of activities: seminar Number of hours: per week: 2 per level/semester: 28 Form of the course: on-site learning	
Number of credits: 3	
Recommended semester: 1.	
Educational level: II.	
Prerequisites:	
Course requirements: There is a mid-semester test (50 points). This is a translation of a Slovak text of normal difficulty (length: approximately 1.5 standard pages) into English. Students can use electronic dictionaries and translation tools, but must work independently. In the second half of the semester, students have to create their own project (50 points) where they translate one text (or texts) of their own choice under the guidance of a teacher who plays the role of a mentor. According to the translation performance also in the second half of the semester, the teacher will then determine the overall grade at the end of the semester. Grading scale: 100-92: A 91-84: B 83-76: C 75-68: D 67-60: E 59-0: FX The instructor will accept a maximum of 2 absences without documentation. Violations of academic ethics may see a grade reduction and maybe even a submission of the case for disciplinary action depending on severity. Exact dates for grading will be announced at the beginning of the semester. Scale of assessment (preliminary/final): 100/0	
Learning outcomes: Students will acquire professional competences in the field of translation into English with a focus on the translation of texts from different fields of knowledge. Students will master key terminology within the field and continue to improve their skills in working with text in a limited time. They have the opportunity in this course to specialize in the field and work independently under the supervision of the instructor. Graduates of this course will be able to translate independently and will be able to collaborate with other members of the translation process.	
Class syllabus:	

In the first half of the semester, students translate one short text (up to 2 NS) of a popular and educational nature before each lesson. The text is provided by the teacher one week in advance. Then, in class, students evaluate their translations with the teacher, emphasizing translation problems, pointing out common mistakes, and tips on how to save time in translation while guaranteeing a certain quality. The texts for translation are always of Slovak origin and cover a variety of subject areas. The choice of topics may change as appropriate.

In the second half of the semester, students work on their own project, where they translate one longer text (or texts) of their own choice under the guidance of the instructor, who acts as a mentor. The length of the text depends on the difficulty, but can be expected to be approximately 10 standard pages. Depending on the translation performance also in the second half of the semester, the teacher will then determine the overall grade at the end of the semester. Texts may be from professional literature, but may also be audiovisual works. The choice of text is finalized only after agreement with the instructor.

Violations of academic ethics will be sanctioned by grade reduction up to and including petition for disciplinary action, depending on the level of severity. Exact dates for midterm grading will be announced at the beginning of the semester. Scale of assessment (preliminary/final): 100/0	
Learning outcomes: Students will gain more practice in English translation with a focus on translating professional texts. They continue to improve their skills in working with longer texts (around 20 to 30 standard pages) as part of their own translation project. Upon completion of the course, students will be able to work completely independently as translators and will be able to have constructive relationships with other people in the translation process.	
Class syllabus:	

From the beginning of the semester, students work on their own project where they translate one longer text (or texts) of their own choice under the guidance of the teacher, who has a role as a mentor. The length of the text depends on the difficulty, but it can be expected to be approximately 20 to 30 standard pages. The text must be of an appropriate level of proficiency. It must not be something very simple. For example, the translation of an academic article or chapter is an ideal basis for a translation project. Texts can be from professional literature, but they can also be audiovisual works. The choice of the text is finalized only after agreement with the teacher. During the semester, students are required to attend classes in order to consult with the teacher about the project.
