Learning outcomes:

Students are able to actively communicate in MSA in both oral and written form. They understand heard and read utterances of various genres and they can translate and create Arabic texts of various types. They can make use of their language skills in journalism, diplomacy, politics, scientific and academic sphere, translation services focused on belles lettres and other texts, possibly even in interpretation services and in various other posts where an active knowledge of the language at C1 level is demanded.

Class syllabus:

The student registers and comes on one of the terms of the state examination determined by the Department. He or she undergoes a written test in Arabic language consisting of three parts: a grammatical one (without the help of a dictionary and other tools except for a pen and paper), a translation of a given Arabic journalistic texts (with the help of a print dictionary) and a composition on a given topic (with the help of a print dictionary). Each part is separated from the next one by a break. The commission decides their assessment privately; out of the presence of students and guests. The course of the state examination and the announcement of results are public. The results are announced together; after examining all students registered for the given term.

State exam syllabus:

Practical usage of MSA within the frame of the covered curricula. Translation from and into Arabic, in which students demonstrate their knowledge of Arabic grammar (morphology and syntax). CA composition on one of the topics determined by the Department and a translation of Arabic journalistic text into Slovak with the help of a print dictionary.

Recommended semester: 1.	
Educational level: II.	
Prerequisites:	
Antirequisites: FiF.KRom/A-mpFR-019/13	
Course requirements: a) during the semester, the student will receive 30 points of the overall evaluation on a continuous basis based on active work in class (research, reading and preparation of texts, reading of theoretical accompanying texts related to the given issue), b) in the examination period, the student will receive 70 points for the final written work (analysis of a linguistic phenomenon in French and in Slovak, according to the phenomena covered). The student will be given a choice of topic to work on according to the teacher's instructions in the examination period. The topics of the written work are regularly updated. Credits will not be awarded to students who receive less than 60 points of the overall evaluation based on the average calculated from their work in class and the final written work. Grading scale: 100-90: A 89-85: B 84-75: C 74-70: D 69-60: E 59-0: FX The teacher will accept a maximum of two absences. The date and topics of the final work will be announced through AIS no later than in the last week of the instruction period. Scale of assessment (preliminary/final): Scale of assessment (preliminary/final): 30/70	
Learning outcomes: Since the student only deals with some selected phenomena of French grammar during the semester, they have a broad knowledge and theoretical understanding of these phenomena, which confronts the description of the phenomena by several grammarians or linguists. Based on the analysis of French texts and the creation of a comparative corpus, the student can grasp the linguistic phenomenon in the context of its functioning in French and its linguistic expression in Slovak. After successfully completing the course, the student is sensitive to the linguistic phenomena of	

French grammar and applies their knowledge in their further linguistic practice (e.g., in translation and interpreting, in teaching French as a foreign language, in editorial work, or in comparing the original and the translation, etc.).

Class syllabus:

During the semester, the seminar focuses on two or three phenomena of the French language, mainly phenomena that cause difficulties for Slovak students regarding their mother tongue. The class syllabus is adapted to the selection of the phenomena in question. The phenomena studied include, for example:

1. The position of adverbs in a sentence
2. The article and its functions within the nominal syntagm
3. The impersonal pronoun “on” and its expression in Slovak
4. Negation in French
5. Expressing the past

A particular linguistic unit is discussed:

1. In practical exercises
2. As a subject of scientific research in scientific texts
3. As the subject of grammatical explanation
4. As a unit of analysis in a French text
5. In the comparison of the original text and its translation (the Slovak expression of the unit)

Learning outcomes: After successfully completing the course, the student can work independently with the Aranea language corpora, focusing on French and Slovak, but may extend the corpus work to other languages given that they have acquired basic universal skills with the tool. They may also use the acquired knowledge when working with other electronic language corpora. Working with the Aranea corpora is aimed at deepening the knowledge and skills in the context of practical proficiency in the French language, so the student sees the corpus as a very good tool in the work of a translator/interpreter (creating glossaries, checking phenomena in context,	

comparing translation solutions in the corpus, etc.), as well as in the work of a foreign language teacher, where the language corpus has a variety of uses (creating exercises, illustrative material, reflexive grammar, etc.).
