COURSE DESCRIPTION

Academic year: 2025/2026	
University: Comenius University Bratislava	
Faculty: Faculty of Education	
Course ID: PdF.KPg/M-VUZde025/22	Course title: Class management
Educational activities: Type of activities: seminar Number of hours: per week: 2 per level/semester: 26 Form of the course: on-site learning	
Number of credits: 2	
Recommended semester: 1., 3.	
Educational level: II.	
Prerequisites:	
Course requirements: Prerequisite subjects: none Prerequisites for successful completion of the course: 100% of the continuous assessment, the course is completed with an assessment Assessment: consists of an interim and a final assessment (20+30, 50 points in total). Intermediate assessment: consists of a critical analysis of domestic and foreign sources - 10 points and the formulation of partial components of the semester project - 10 points. The final assessment consists of: the semester project and its oral presentation. The semester project consists of: the complete creation of a project according to the set structure for 30b. It includes idea/problem creation, project planning, project implementation, evaluation and self-reflection of the project = its oral presentation by students (creators of the semester project) in the 11th week of continuous teaching. Prerequisites: The rating shall be awarded on a scale of A (100-91%, excellent - excellent results with only minimal errors), B (90-81%, very good - above average results with minor errors), C (80-73%, good - normal reliable work, average results), D (72-66%, satisfactory - acceptable results, but significant errors occur), E (65-60%, sufficient - results meet minimum criteria), Fx (59-0%, insufficient - extra work required). For successful completion of the course it is necessary to obtain at least 60% of the points. A minimum of 46 points is required for a final grade of A. For this grade, the student should demonstrate: a creative and original approach in the development of intermediate assignments, excellent professional knowledge and its application in problem solving, excellent orientation in the subject matter, excellent communication skills, responsibility and timely completion of assignments, exceptional activity in the classroom during the semester. A minimum of 41 points is required for a final grade of B. For this grade, the student should demonstrate: a creative approach in developing ongoing assignments using a model, above average expertise and application of that expertise in problem solving using tutorials, above average	

orientation to the subject matter, above average communication skills, responsibility and timely completion of assignments, above average activity in class during the semester.

A minimum of 37 points is required for a final grade of C. For this grade, the student should demonstrate: the ability to prepare intermediate assignments using the given template, good professional knowledge and its application in solving problem problems in a group or with the help of the teacher, good orientation in the subject matter, good communication skills, completion of the assigned tasks, average activity in class during the semester when prompted by the teacher.

A minimum of 33 points is required for a final grade of D. For this grade, the student is expected to demonstrate: the ability to develop intermediate assignments using the assigned template and with the assistance of the instructor, average proficiency and application in problem solving in a group setting or with the assistance of the instructor, average orientation to the subject matter, average communication skills, completion of assignments, and basic activity in the classroom during the semester in collaboration with the instructor or other students.

A minimum of 30 points is required for a final grade of E. For this assessment, the student should demonstrate: the ability to prepare continuous assignments and with the help of the instructor, basic/minimal professional knowledge, basic/minimal orientation in the subject matter, basic communication skills, completion of the assigned tasks.

Learning outcomes:

Learning objectives and outcomes:

By completing the Classroom Management course, the student should:

- Know the basic principles of successful classroom management aimed at conducting a meaningful learning process with minimal disruptive behaviour,
- to acquire knowledge of classroom and classroom management from the position of a classroom teacher in cooperation with other teaching and non-teaching staff,
- to acquire skills in the administration of pedagogical documentation of the class teacher,
- know the competences and job description of the class teacher,
- can analyse the different forms of family-school cooperation and assess their suitability in relation to parents and pupils,
- be able to apply the acquired knowledge and knowledge from other scientific disciplines in the development of a semester project,
- be able to creatively use the acquired knowledge and competences in the study of other pedagogical disciplines and in their future school practice.

Transferable competences: the student strengthens soft skills such as communication skills, organizational skills, interpersonal skills within a group - group activation, taking initiative and responsibility, creativity and imagination, critical thinking, analytical skills, problem-solving skills, and others through the creation of a semester project in the course.

Class syllabus:

Brief outline of the course:

The content focus of the course is divided into two main areas: classroom management from the position of a teacher of any subject and communication with the classroom team from the position of a classroom teacher at the lower and upper secondary level. Classroom management leading to a successfully implemented teaching process and pupils' cooperative action in it with minimization of pupils' disruptive behaviour, thus making it possible to move towards meaningful learning for pupils.

Methodology for managing and coordinating the teaching process - the basic pillars of successful classroom management - planning, creating a productive classroom climate and promoting teamwork in the classroom, arranging the conditions of the learning space, guiding the learning activities of pupils/students, guiding the tasks of pupils/students related to the running of the

classroom, activities to maintain discipline in the classroom, activities to prevent problematic behaviour, classroom rules. Classroom management and the class teacher in the context of legislation - qualifications for classroom management, rights and responsibilities of the class teacher. Roles and activities of the class teacher. Competencies and skills of the class teacher. Personality requirements of a class teacher. Pedagogical documentation of the classroom. Plan, organization and management of classroom lessons and classroom activities. Problem behaviours and baseline documents. The class teacher and educational measures. Communication and cooperation of class teachers with school management, teaching staff, professional staff, with legal representatives of pupils/students, and with representatives of various institutions and organizations. Evaluation of classroom activities.

Particularly for beginning classroom teachers, it is essential to become familiar with the legislation that directly affects the status of the classroom teacher:

Zákon č. 138/2019 Z. z. o pedagogických zamestnancoch a odborných zamestnancoch a o zmene a doplnení niektorých zákonov

Zákon č. 553/2003 Z. z. Zákon o odmeňovaní niektorých zamestnancov pri výkone práce vo verejnom záujme a o zmene a doplnení niektorých zákonov.

Zákon č. 245/2008 Z. z. o výchove a vzdelávaní (školský zákon) a o zmene a doplnení niektorých zákonov.

Vyhláška MŠVVaŠ SR č. 445/2009 Z. z. o rozsahu vyučovacej a výchovnej činnosti pedagogických zamestnancov.

Vyhláška MŠVVaŠ SR č. 361/2019 Z. z. o vzdelávaní v profesijnom rozvoji.

Nariadenie vlády SR č. 201/2019 Z. z. o priamej výchovno-vzdelávacej činnosti (namiesto

Vyhláška MŠVVaŠ SR č. 445/2009 Z. z. o rozsahu vyučovacej a výchovnej činnosti pedagogických zamestnancov).

vyhláška Ministerstva školstva, vedy, výskumu a športu Slovenskej republiky č. 437/2020 Z. z., ktorou sa mení a dopĺňa vyhláška Ministerstva školstva Slovenskej republiky č. 320/2008 Z. z. o základnej škole v znení neskorších predpisov.

Legislation related to the performance of the work of a class teacher:

Zákon č. 357/2009 Z. z. o štátnom jazyku Slovenskej republiky 357/2009.
 Zákon č. 63/1993 Z. z. o štátnych symboloch SR a ich používaní v znení neskorších predpisov.
 Zákon č. 395/2002 Z. z. o archívoch a registratúrach a o doplnení niektorých zákonov.
 Vyhláška č. 326/2008 Z. z. o druhoch a náležitostiach vysvedčení a ostatných školských tlačív vrátane spôsobov ich evidencie a uloženia.
 Vyhláška č. 231/2009 Z. z. o podrobnostiach o organizácii školského roka na základných školách, na stredných školách, na základných umeleckých školách, na praktických školách, na odborných učilištiach a na jazykových školách.
 Vyhláška č. 307/2008 Z. z. o výchove a vzdelávaní žiakov s intelektovým nadaním.

STATE EXAM DESCRIPTION

Academic year: 2025/2026	
University: Comenius University Bratislava	
Faculty: Faculty of Education	
Course ID: PdF.KEOV/M-VOBšt007/16	Course title: Didactics of citizenship education
Number of credits: 3	
Educational level: II.	
State exam syllabus:	
Last change: 16.07.2022	
Approved by: prof. PhDr. Erich Mistrík, CSc., prof. PhDr. Mária Potočárová, PhD.	

COURSE DESCRIPTION

Academic year: 2025/2026	
University: Comenius University Bratislava	
Faculty: Faculty of Education	
Course ID: PdF.KEOV/M-VOBde004/22	Course title: Didactics of civic education I.
Educational activities: Type of activities: lecture + seminar Number of hours: per week: 3 per level/semester: 39 Form of the course: on-site learning	
Type, volume, methods and workload of the student - additional information Lecture+seminar, 3 hours per week (1L+2S), i.e. 33 hours per semester, combined method (mostly full-time) Student workload: 33 hours of direct teaching, 25 hours for intermediate assignments, 20 hours for seminar work, 15 hours for colloquium preparation, 12 hours of guided self-study (work with text and video), 15 hours for seminar preparation. 120 hours in total. Teaching methods: - In the lectures: problem-based interpretation and discussion of the topics covered. - In seminars: group work, annotated presentations, practice of teaching methods, work with text, presentations, role plays, simulation games	
Number of credits: 4	
Recommended semester: 1.	
Educational level: II.	
Prerequisites:	
Course requirements: The course is completed by examination, the weight of the intermediate and final assessment is 50/50. Interim assessment involves the processing of approximately 3-4 (50%) interim assignments. The final assessment includes the preparation of a seminar paper (30% of the assessment) and a colloquium (20%). A grade of A requires a score of at least 95%, a grade of B requires a score of at least 86%, a grade of C requires a score of at least 78%, a grade of D requires a score of at least 69%, and a grade of E requires a score of at least 60%. Credit will not be awarded to a student who obtains less than 60% of the marks. Scale of assessment (preliminary/final): 50/50	
Learning outcomes: Didactics of Civics I .is oriented towards didactic and managerial professional competences and stimulates the personal and social development of future teachers. Students will gain knowledge of the various elements of the discipline didactics. They will understand the logic of the educational cycle, according to which the curriculum of the course is structured, and they will get to know the specific features of civics as a subject in primary and secondary schools. The aim of the course is to familiarize students with the current problems in	

education for citizenship in the past and after 1989 to the present, with the position and objectives of civics in the curricula of elementary, middle and high schools, with educational standards, with the content, performance, methods and forms of work with pupils in the ON classes. To know the new reform changes in the educational process - their meaning and essence. Know how to characterize and analyze the basic pedagogical documents in force. Ability to apply the acquired theoretical knowledge and skills in the formulation of educational objectives, written preparation for teaching, to draw up a thematic lesson plan.

Learn objectives, methods and methods of assessing achievement in civics. By preparing a seminar paper, they will gain experience in project-based learning and learn how to use the knowledge gained to benefit new, activating teaching practices. The course encourages students to search for approaches that meet the needs of society and allow the teacher to use his/her strengths.

Class syllabus:

A: Area of knowledge:

Contact with the school: Departmental didactics . Civics in the curriculum of primary and secondary schools. The present of education for citizenship (after 1989). State educational programmes, civic competences. Educational area Man and society. Cross-cutting themes and civic competences. Citizenship, citizenship education as a "theme".

Identification of educational needs and education for citizenship: Pupil, childhood. Diagnostics in relation to citizenship education. Learning, learning styles. Planning and preparing for teaching: Context for planning. Civics teaching objectives and curriculum. Concepts of the teaching process didactic principles. Preparation for teaching.

Implementation of the teaching activity: Teaching methods. Preparation for the implementation of teaching.. Discipline and classroom climate in civics lessons. Reflection and self-reflection (in relation to observations from teaching practice).

Teaching evaluation and citizenship education - forms of evaluation and their implications.

B: Personal and social development of future teachers - skills and attitudes

Present the results of work to teach group members to navigate the issues.

Reflection activity. Ability to work cooperatively and collaboratively in group tasks (working in small facilitating groups). Demonstrate the ability to link theoretical conclusions and future practice in CE.

Recommended literature:

State educational programmes for primary and secondary schools and their further adjustments. The SPÚ and ŠIOV after 2015.

Curricula/standards of the subject Civics.

COURSE DESCRIPTION

Academic year: 2025/2026	
University: Comenius University Bratislava	
Faculty: Faculty of Education	
Course ID: PdF.KPg/M-VUZde023/22	Course title: Disorders of child development, learning and behaviour
Educational activities: Type of activities: seminar Number of hours: per week: 2 per level/semester: 26 Form of the course: on-site learning	
Number of credits: 2	
Recommended semester: 2., 4.	
Educational level: II.	
Prerequisites:	
Course requirements: Prerequisite subjects: none Prerequisites: 100% of the continuous assessment, the course is completed by assessment. During the semester, students will prepare a seminar paper (max. 30 points), present the seminar paper (max. 10 points) and pass an intermediate didactic test (max. 60 points). The didactic test contains tasks of varying cognitive difficulty, so it stratifies students not only according to the extent of knowledge acquired. The test and the seminar paper are designed to verify the learning outcomes. The rating is awarded on a scale: A (100-91%, excellent - outstanding results), B (90-81%, very good - above average standard), C (80-73%, well - normal reliable work), D (72-66%, satisfactory - acceptable results), E (65-60%, sufficient - results meet minimum criteria), Fx (59-0%, insufficient - extra work required) For successful completion of the course it is necessary to obtain at least 60% of the points from all partial tasks. For an A grade, students need to perform excellently throughout the semester and be capable of independent study. Students are able to navigate through a variety of literature sources, are able to select relevant sources for their studies, are able to navigate the issues of childhood developmental, learning and behavioural disorders, i.e. have basic information on their aetiopathogenesis, epidemiology, diagnosis and differential diagnosis, as well as on possible forms of intervention. A grade of B means that students performed above average throughout the semester, were able to study independently, are proficient in basic information related to childhood developmental disorders, behavioral and learning disorders, and are able to navigate the literature. A grade of C means that the students performed well during the semester, their theoretical knowledge of the subject is at a good level, but their ability to apply this knowledge, critically evaluate and compare individual literary sources and psychological knowledge is lacking. A grade of D means that students were less prepared during the semester, they have slight deficiencies in theoretical knowledge related to the subject of education and greater problems	

in independent implementation work, they are unable to critically analyze information and have problems applying knowledge to practice.

A grade of E means that students fail more than one of the assignments, lack the ability to analyze and compare multiple pieces of knowledge, and fail to think critically, but have mastered most of the theoretical knowledge in the course.

Learning outcomes:

The goal is to familiarize students with the basic classification and manifestations of developmental, behavioral, and learning disorders in childhood and their impact on a child's school functioning. Students will gain a basic understanding of the most General developmental disorders, behavioral and learning disorders occurring primarily in the school-aged child. The ability to navigate the subject matter is essential for future subject specialty teachers at the lower and upper secondary levels, especially in the context of pro-inclusive school policies. They will not only acquire theoretical knowledge, but will also acquire sufficient competence to work with other professionals involved in dealing with developmental, learning and behavioural disorders. It is anticipated that teachers will be confronted with an increasing number of different images of developmental disorders in the years to come, and it is therefore essential to acquire not only the knowledge but also the competences for possible cooperation. Students are familiarised with the issue of normality in child psychology, with the risks of developmental disorders and with international classifications, which will enable them to better understand the origins and manifestations of individual disorders. A good understanding of the subject is a prerequisite for an individualised teacher-pupil relationship with a developmental, learning and behavioural disorder. Such a relationship requires not only empathy, but must also be underpinned by acquired skills. An important goal is to prepare students to participate in the implementation of individual education plans for children with developmental, learning and behavioural disabilities. Most children with developmental, learning and behavioural disorders (with few exceptions) are pupils in mainstream primary schools and it is therefore important that students are able to work competently with the inclusion team, but also with specialists in other fields such as a neurologist, psychologist, speech and language therapist and paediatrician.

Class syllabus:

Brief outline of the course:

1. Introduction to developmental disorders /definition of developmental disorders, precursors of developmental disorders, classification of developmental disorders.
2. Etiology of developmental disorders /pathogenic factors and the complexity of their action, risks in the pre-, peri- and post-natal period, early diagnosis, intervention, stimulation, deprivation/.
3. Psychomotor retardation /general developmental delay/ and mental retardation /intellectual disorders, etiology, classification, possibilities and limitations of intervention.
4. Enuresis, encopresis, tics - psychogenic conditioned disorders in the somatic area. Manifestations, forms, possibilities of intervention.
5. Primary psychogenic communication disorders - barking and mutism /definition, classification, possibilities of intervention/.
6. Pervasive developmental disorders or autism spectrum disorders / autism, Asperger's syndrome, Rett's syndrome, etiology, clinical picture, organization of care.
7. The problem of organicity in child psychology. Cerebral palsy - etiology, clinical picture. Developmental disorder of motor functions.
8. Mild brain dysfunction, present - hyperkinetic syndrome or ADHD
The most significant factors in working with children with ADHD, ADD.
9. Specific learning disabilities - diagnosis and differential diagnosis, remedial programmes in work with children with specific learning disabilities.

10. Emotional disorders in childhood - anxiety disorders and depression in childhood and adolescence.						
11. Behavioural disorders, classification, manifestations and intervention options

COURSE DESCRIPTION

Academic year: 2025/2026	
University: Comenius University Bratislava	
Faculty: Faculty of Education	
Course ID: PdF.KPg/M-VUZde001/22	Course title: Educational diagnostics and evaluation
Educational activities: Type of activities: lecture + seminar Number of hours: per week: 2 per level/semester: 26 Form of the course: on-site learning	
Number of credits: 3	
Recommended semester: 1., 3.	
Educational level: II.	
Prerequisites:	
Course requirements: Prerequisites for successful completion of the course: Weighting of interim and final assessment: 50/50 - the course is completed by examination. During the semester there will be three colloquial midterm evaluations of 10 points each and four midterm assignments of 5b will be worked on. The final exam will be graded 50pts. Credit will not be awarded to a student who receives less than 5 points on any of the three interim assessments and fails to submit all processed distance assignments for at least a 3b. A minimum of 60% of the course grade is required for successful completion of the course. The rating is awarded on a scale: A (100-91%, excellent - excellent results with only minimal errors), B (90-81%, very good - above average results with minor errors), C (80-73%, good - normal reliable work, average results), D (72-66%, satisfactory - acceptable results, but significant errors occur), E (65-60%, sufficient - results meet minimum criteria), Fx (59-0%, insufficient - extra work required). A minimum of 91 points is required for a final grade of A. For this grade, the student should demonstrate: a creative and original approach in the development of intermediate assignments, excellent professional knowledge and its application in problem solving, excellent orientation in the subject matter, excellent communication skills, responsibility and timely completion of assignments, exceptional activity in the classroom during the semester. A score of at least 81 points is required for a final grade of B. For this grade, the student should demonstrate: a creative approach in developing ongoing assignments using a model, above average expertise and application of that expertise in problem solving using tutorials, above average orientation to the problem, above average communication skills, responsibility and timely completion of assignments, above average activity in class during the semester. A minimum of 73 points is required for a final grade of C. For this grade, the student should demonstrate: the ability to develop intermediate assignments using the given template, good professional knowledge and its application in solving problem problems in a group or with the help of the instructor, good orientation in the subject matter, good communication skills, completion of the assigned tasks, average activity in class during the semester when prompted by the instructor.	

A minimum of 66 points is required for a final grade of D. For this grade, the student is expected to demonstrate: the ability to develop intermediate assignments using a given template and with the assistance of the instructor, average proficiency and application in problem solving in a group setting or with the assistance of the instructor, average orientation to the subject matter, average communication skills, completion of assignments, and basic activity in the classroom during the semester in collaboration with the instructor or other students.

A score of at least 60 points is required for a final grade of E. For this assessment, the student should demonstrate: the ability to prepare continuous assignments and with the help of the instructor, basic/minimal professional knowledge, basic/minimal orientation in the subject matter, basic communication skills, completion of the assigned tasks.

Scale of assessment (preliminary/final): 50/50

Learning outcomes:

Learning objectives and outcomes:

- The graduate of the course can react originally, flexibly and fluently to situations that may arise in the teaching process. He/she is able to realistically set the goals and processes of pedagogical diagnosis, while being able to adapt them on the basis of reflection to the educational needs of the pupils.
- It takes a comprehensive approach to pedagogical diagnostics, using both the process of analysis and synthesis in the search for solutions. It uses thinking strategies based on critical appraisal in its decision-making, which relies on facts and clearly formulated information from reliable sources of information.
- He/she is aware of his/her own responsibility and the social and ethical impact of his/her decisions in the process of pedagogical diagnostics. Can make decisions with incomplete information and in the new situations that the teaching process and the current times bring. Is aware of the interdisciplinary scope of pedagogical diagnostics not only in relation to teaching but also in relation to the current needs of society.
- The graduate is able to carry out his/her own microanalysis - reflection of the lesson and take the necessary decisions related to it. He/she is able to carry out action research in the context of teaching.
- The graduate is able to use the acquired knowledge and skills in solving (problem) tasks creatively. He/she can analyse the problem and synthesise new solutions. Actively and flexibly brings new solutions to the assigned task. Can formulate clear conclusions and justifications that can be presented to both the professional community and the general public.
- Graduates of the course are encouraged to adopt a growth-oriented mind-set and lifelong learning. Transferable competences on which the course reflects: development of communication, organisational and digital skills. Fostering analytical, critical, creative and growth-oriented thinking; developing skills related to facilitation and mentoring. Promoting the development of reflective skills, self-reflection and the perception of self-responsibility with personal decisions.

Class syllabus:

Brief outline of the course:

1. Introduction to educational diagnostics:

- Understanding the purpose and goals of pedagogical diagnosis in the context of effective teaching.
- Opportunities for self-discovery and the importance of teacher self-reflection.
- Basic mind-sets (fixed and growth-oriented) in the context of controlling versus autonomous teaching.
- Pedagogical diagnosis in critical motivational moments of the teaching process.

2. The diagnostic process:

- Diagnostic cycle

- Stages of diagnosis
 - Edumetric vs. casuistic approach
 - Implicit and explicit diagnosis
 - Individual, group diagnosis and diagnosis in relation to the norm.
 - Principles of effective pedagogical diagnostics
 - Grades, verbal evaluation and feedback
3. Three units in one: the personality of the pupil in pedagogical diagnostics.
- Perception of the personality of the pupil through three interrelated parts: cognitive, affective and (volitional) behavioural.
 - Cognitive domain: differentiation of cognitive functions and processes, metacognition and executive functions. Working with the possible contents and contexts of the concepts: knowledge, ability, skill, competence and competence.
 - Affective domain: differentiation of affective functions and processes in experiencing (differentiation of emotions and feelings). Working with possible contents and contexts of concepts: attitudes, values, motivational factors.
 - Conative area: manifestations of experiencing and thinking in the pupil's behaviour, volitional processes. Work with possible contents and contexts of the concepts: relationship, action, behaviour, group dynamics.
4. Pedagogical diagnostics and the cognitive area of the pupil's personality.
- Overview of basic methods and forms of diagnosis of knowledge and skills.
 - Principles of didactic test construction (written versus didactic test and adaptive didactic test).
 - Verbal rehearsal versus diagnostic presentation skills.
 - Effective feedback versus verbal evaluation.
 - Pupil self-assessment
 - A global and analytical approach to diagnosis in the cognitive domain.
5. Pedagogical diagnostics and the affective area of the pupil's personality.
- An overview of basic methods and forms of diagnosing student attitudes, values and motivators in school.
 - Possibilities of diagnosing attitudinal and value preferences.
 - Methods of recognizing the motivating factors (interests, passions, internal goal setting) of the learner.
 - Diagnosis of the pupil's learning needs (individual learning preferences).
6. Pedagogical diagnosis and pupil behaviour.
- An overview of basic methods and forms of diagnosing relationships and group dynamics in the classroom.
 - Every student-human being has his/her own reasons why he/she behaves the way he/she does (subconscious or conscious)
 - Setting and assessing the motivational potential of the activity/task.
 - Setting and assessing pupil engagement in relationships with the teacher and in relationships with classmates.
 - Working with conflict in the classroom (teacher as a conflict actor and as a facilitator).
 - Group dynamics of the classroom and its atmosphere, climate and environment.
7. Thinking strategies and key communication skills of the teacher.
- Rules for effective individual and group observation
 - Rules for effective (facilitative) individual and group conversation with pupils.
 - Principles of effective conversation with the parent(s) of the pupil.
 - Basic teacher thinking strategies needed for effective observation and interviewing.
- Colloquial midterm assessment and distance assignments: the student will develop four midterm assignments during the semester (e.g., microanalysis of four different events (video) from the

lesson, didactic test model). They present and discuss their interim assignment in a small group (3-4 students), followed by a class discussion across groups (colloquial interim assessment). Final evaluation: after each lecture and seminar (including the colloquial mid-term evaluation) the student will make a short reflection (what I found interesting, what I learned, what hindered me, what I need to convey differently) in a simple portfolio. The final assessment is done individually through a short conversation between the teacher and the student, focusing on the student's entries in the portfolio. The student's final evaluation is the result of the student's self-evaluation and feedback from the instructor.

COURSE DESCRIPTION

Academic year: 2025/2026	
University: Comenius University Bratislava	
Faculty: Faculty of Education	
Course ID: PdF.KEOV/M-VOBde002/22	Course title: Global and European dimension in education
Educational activities: Type of activities: lecture + seminar Number of hours: per week: 2 per level/semester: 26 Form of the course: on-site learning	
Type, volume, methods and workload of the student - additional information Lecture+seminar, 2 hours per week / total 22 hours per semester, combined (mostly full-time) Student workload: 22 hours of direct instruction, 50 hours of preparation for the final oral exam, 30 hours for the mid-term written paper, 18 hours of guided self-study (work with a political science text). 120 hours in total Teaching methods: In lectures: problem-based interpretation with discussion. In the seminars: group work in the development of projects on the global and European dimension in education in the school environment of primary and secondary schools, annotated presentation of the projects, discussion, polemic, debate.	
Number of credits: 4	
Recommended semester: 3.	
Educational level: II.	
Prerequisites:	
Course requirements: Weighting of interim/final evaluation: 50/50 The interim assessment involves the production of a written work (structured essay) on a specified topic according to specified conditions: (50% of the mark). The final assessment involves the completion of an oral examination focusing on the global and European dimension in education. Education emphasises the global and European context in learning (with). Both dimensions in education provide a space to change attitudes and strengthen awareness of one's own role in the world. They motivate students towards responsibility and lead towards the acquisition of values of active citizenship. To pass the course, a minimum of 60 % of the total score is required. The rating is awarded on a scale: A (100-94%, excellent - outstanding results; the student in the structured essay has demonstrated a level of mastery and alignment of the topic with the specified criteria (knowledge acquired and cognitive skills mobilized) that corresponds to an A grade. In the oral examination, he/she correctly, actively, critically and creatively assimilates both dimensions of learning and is able to integrate them into education for democratic citizenship. Critically reflects on the impact of political, economic, social, environmental, religious, cultural, and historical factors on both dimensions in education. It explains the actorial, theoretical and critical dimensions of responsibility for the contemporary world and the position of Slovakia.	

<p>A structured essay and oral examination are designed to verify the stated learning outcomes.</p> <p>B (93-86%, very good - above average standard; the student reflects adequately and critically on the global and European dimensions in education (in the range of knowledge acquired and cognitive skills mobilised), which in terms of points, percentages correspond to a grade of B. Learning outcomes:

Learning outcomes:

Students are familiar with the integration of the global and European dimension into the system of education for democratic citizenship and the humanities. Explain the impact of globalisation on the field of education. This is followed by the European dimension as a narrower space from European institutions to specific school projects. Making sense of the subject, ways of citation, "development thinking". The world is global, the human community is also in Europe divided into partial cultures, expert communities, ideological camps, classes or strata profiled by economic indicators and the educational activities associated with them. The multiplicity of worldviews they condition requires mediation, without which human existence in this world would become unbearable. The global and European dimension of education is also a mediator; the student respects and knows the aims of education (ISCED 1-3). One of the challenges is to find points of contact between disparate human societies so that the global challenges or problems mentioned above are not faced by isolated groups or even individuals, but (at least on basic issues) by a united humanity.

Class syllabus:

Brief outline of the course:

Evolution of the concepts of global and European dimensions: diversity of concepts and approaches; Globalization in political theory; European Union in the processes of globalization. The European Union, its history and institutions: the Council of Ministers, the European Commission, the European Parliament, the European Court of Justice; The main Community policies: trade, transport, currency, the economy, employment, social policy and the environment, the consumer, security and the courts; The preambles of the states of the European Union: a comparison. European Convention on Human Rights, Charter of Fundamental Rights and Freedoms; Perspectives on European integration processes. The idea of a united Europe. The Slovak Republic and the

European Union. Enlargement of the EU; The phenomenon of refugees and the right to asylum. Implementation of the global and European dimension in the process of education and training. European Commission and Council of Europe programmes focusing on this issue; Global and European dimension through international school projects (e.g. Europe at School, European Clubs, Education for Democracy, One World, etc.).

COURSE DESCRIPTION

Academic year: 2025/2026	
University: Comenius University Bratislava	
Faculty: Faculty of Education	
Course ID: PdF.KEOV/M-VOBde002/22	Course title: Global and European dimension in education
Educational activities: Type of activities: lecture + seminar Number of hours: per week: 2 per level/semester: 26 Form of the course: on-site learning	
Type, volume, methods and workload of the student - additional information Lecture+seminar, 2 hours per week / total 22 hours per semester, combined (mostly full-time) Student workload: 22 hours of direct instruction, 50 hours of preparation for the final oral exam, 30 hours for the mid-term written paper, 18 hours of guided self-study (work with a political science text). 120 hours in total Teaching methods: In lectures: problem-based interpretation with discussion. In the seminars: group work in the development of projects on the global and European dimension in education in the school environment of primary and secondary schools, annotated presentation of the projects, discussion, polemic, debate.	
Number of credits: 4	
Recommended semester: 4.	
Educational level: II.	
Prerequisites:	
Course requirements: Weighting of interim/final evaluation: 50/50 The interim assessment involves the production of a written work (structured essay) on a specified topic according to specified conditions: (50% of the mark). The final assessment involves the completion of an oral examination focusing on the global and European dimension in education. Education emphasises the global and European context in learning (with). Both dimensions in education provide a space to change attitudes and strengthen awareness of one's own role in the world. They motivate students towards responsibility and lead towards the acquisition of values of active citizenship. To pass the course, a minimum of 60 % of the total score is required. The rating is awarded on a scale: A (100-94%, excellent - outstanding results; the student in the structured essay has demonstrated a level of mastery and alignment of the topic with the specified criteria (knowledge acquired and cognitive skills mobilized) that corresponds to an A grade. In the oral examination, he/she correctly, actively, critically and creatively assimilates both dimensions of learning and is able to integrate them into education for democratic citizenship. Critically reflects on the impact of political, economic, social, environmental, religious, cultural, and historical factors on both dimensions in education. It explains the actorial, theoretical and critical dimensions of responsibility for the contemporary world and the position of Slovakia.	

A structured essay and oral examination are designed to verify the stated learning outcomes.

B (93-86%, very good - above average standard; the student reflects adequately and critically on the global and European dimensions in education (in the range of knowledge acquired and cognitive skills mobilised), which in terms of points, percentages correspond to a grade of B. In the structured essay, he demonstrates a very good level of mastery of the topic worked on with the given criteria, and in the oral examination he correctly, critically and creatively assimilates both dimensions of education and is able to integrate them into education for democratic citizenship. Critically reflects on the impact of political, economic, social, environmental, religious, cultural and historical factors on both dimensions in education. Explains the theoretical and critical dimensions of responsibility for the contemporary world and the position of Slovakia.

C (85-76%, good - normal reliable work; student reflects more or less critically in a structured essay and in an oral examination on knowledge of the global and European dimensions in education (to the extent of knowledge acquired and cognitive skills mobilized) that corresponds to a grade of C in terms of points, percentages.

D (75-68%, satisfactory - acceptable results; the student reflects in a limited, moderately critical way on the knowledge of the global and European dimension in education (within the scope of acquired knowledge and mobilised cognitive abilities), in a structured essay and in an oral examination, demonstrating knowledge at grade D.

E (67-60%, sufficient - results meet the minimum criteria, (in the range of knowledge acquired and cognitive abilities mobilised) the student demonstrated only a limited degree of critical reflection on both dimensions in education and on current developments in the discipline in the structured essay and in the oral examination.

Fx (59-0%, insufficient - further work, extra study required).

Scale of assessment (preliminary/final): 50/50

COURSE DESCRIPTION

Academic year: 2025/2026	
University: Comenius University Bratislava	
Faculty: Faculty of Education	
Course ID: PdF.KPg/M-VUZde014/22	Course title: Inclusive education
Educational activities: Type of activities: seminar Number of hours: per week: 2 per level/semester: 26 Form of the course: on-site learning	
Number of credits: 2	
Recommended semester: 1., 3.	
Educational level: II.	
Prerequisites:	
Course requirements: Prerequisites for successful completion of the course: The course ends with an assessment, weighting of the interim and final assessment 100/0 - participation in class or active involvement in discussions (30 points); - group presentation of a selection of topics (30 points) The individual groups will be divided according to the following topics: 1) Inclusive education and the Dalton Plan; 2) Inclusive education and Maria Montessori's Pedagogy; 3) Inclusive education and Susan Kovalik's Integrated Thematic Teaching; 4) Inclusive education and another alternative pedagogical approach of their choice. Each group has to present in an engaging way a general description of the chosen pedagogical approach; present several concrete examples of pedagogical or didactic activities from this approach; demonstrate at least one activity (relevant for the 2nd grade of primary or secondary school) in the classroom; evaluate the usefulness and relevance of this approach for Inclusive education; provide basic information about schools in Slovakia that apply these pedagogical approaches in practice. - group seminar paper on the topic of the presentation (40 points) The seminar paper will be co-authored by all members of the group who will present on the topic. The assignment is to present (approx. 10 standard pages) the pedagogical approach about which the group presented in class and analytically and critically evaluate its usefulness in pedagogical practice in relation to Inclusive education with a focus on the second level of primary and/or secondary schools in the Slovak Republic, or to discuss its advantages, disadvantages and limitations. It is to be a seminar paper based on a critical analysis of the literature. It should therefore not be exclusively descriptive work, but also analytical. The aim is to critically and argumentatively evaluate the usefulness of the approach in relation to Inclusive education. One of the criteria of the thesis is coherence, i.e. the unity of the thesis as a whole. The rating is awarded on a scale: A 100 - 91% (excellent - outstanding results), B 90 - 81% (very good - above average standard), C 80 - 73% (good - normal reliable operation), D 72 - 66% (satisfactory - acceptable results), E 65 - 60% (sufficient - results meet minimum criteria),	

Fx 59% or less (insufficient).

A minimum of 91 points is required for a final grade A, a minimum of 81 points for a grade B, a minimum of 73 points for a grade C, a minimum of 66 points for a grade D and a minimum of 60 points for a grade E. To pass the course, a minimum of 60% of the marks must be obtained.

For a grade of A, the student needs to produce consistently excellent results, be capable of independent study, and be able to reflect on the problems presented. The student can critically evaluate the information presented, identify problems and propose original solutions, can select relevant sources for his/her studies, can analyse and select professional or scientific information, is familiar with theoretical and empirical knowledge in the field of Inclusive education and can apply it in his/her pedagogical practice. At the same time, students are able to work in a team and collaborate on assignments.

A grade of B means that the student achieved above average results throughout the semester, was able to study independently, knows basic information about Inclusive education, can navigate the literature, and can apply the knowledge gained to practice in working with children and students, but there are also shortcomings in his critical and creative thinking. At the same time, students are able to work in a team and collaborate on assignments.

A grade of C means that the student has performed standardly well during the semester, his or her theoretical knowledge of the subject is at a good level, but the ability to apply this knowledge, critically evaluate and compare individual literary sources is lacking. There are more weaknesses in critical and inductive thinking as well as in group work.

The grade D means that the student was less prepared during the semester, has slight deficiencies in theoretical knowledge related to the subject of education and has more problems in independent implementation work, as well as in group work, cannot critically analyze information and has problems applying knowledge to practice.

A grade of E means that the student fails in more than one of the assignments, lacks the ability to analyze and compare multiple pieces of knowledge, and fails to think critically and apply theoretical knowledge to practice, but is proficient in most of the theoretical knowledge in the course.

Scale of assessment (preliminary/final): 100/0

Learning outcomes:

Learning outcomes:

Learning objectives and outcomes and transferable competences:

The aim of the training is for students to understand the differences between school integration and inclusion and to acquire relevant theoretical knowledge and practical skills related to the concept of Inclusive education for children with disabilities or with any social, cultural, linguistic, health and other disadvantages in mainstream education. The graduate will gain insight into the sociological critique of special pedagogy and the potential for using the knowledge of special pedagogy and various other pedagogical approaches in Inclusive education and be able to critically evaluate their usefulness or, conversely, their risks. The student will also be briefly acquainted with the specifics of education (with regard to individual disabilities or disadvantages) in the mainstream school system. They will also be able to assess, analyse and compare information, be able to think critically and evaluate individual examples of good practice and generalise knowledge.

Class syllabus:

Brief outline of the course:

1. Defining Inclusive education and the arguments for and against Inclusive education;
2. Disability and ethnicity as social constructs;
3. The difference between inclusion and integration;
4. The relationship of Inclusive education to special education;
5. Inclusion index and teacher collaboration;

6. The inclusion index and collaboration with parents as a tool for inclusion;
7. National and international legal documents on Inclusive education;
8. Systemic mechanisms leading to segregation of children with special educational needs and Roma children;
9. Examples of good practice of inclusive schools in Slovakia;
10. Examples of good practice in Inclusive education: the Dalton Plan and Inclusive education; Maria Montessori pedagogy and Inclusive education; Susan Kovalik's Integrated Thematic Teaching and Inclusive education; other alternative pedagogical approaches and Inclusive education.

Class syllabus:

Brief outline of the course:

1. Defining Inclusive education and the arguments for and against Inclusive education;
2. Disability and ethnicity as social constructs;
3. The difference between inclusion and integration;
4. The relationship of Inclusive education to special education;
5. Inclusion index and teacher collaboration;

6. The inclusion index and collaboration with parents as a tool for inclusion;
7. National and international legal documents on Inclusive education;
8. Systemic mechanisms leading to segregation of children with special educational needs and Roma children;
9. Examples of good practice of inclusive schools in Slovakia;
10. Examples of good practice in Inclusive education: the Dalton Plan and Inclusive education; Maria Montessori pedagogy and Inclusive education; Susan Kovalik's Integrated Thematic Teaching and Inclusive education; other alternative pedagogical approaches and Inclusive education.

COURSE DESCRIPTION

Academic year: 2025/2026	
University: Comenius University Bratislava	
Faculty: Faculty of Education	
Course ID: PdF.KPg/M-VUZde021/22	Course title: Learning theories and concepts of teaching
Educational activities: Type of activities: lecture + seminar Number of hours: per week: 2 per level/semester: 26 Form of the course: on-site learning	
Number of credits: 3	
Recommended semester: 1., 3.	
Educational level: II.	
Prerequisites:	
Course requirements: Prerequisites for successful completion of the course: The weighting of the interim and final evaluation is 50/50. The course is completed by examination. As part of the interim assessment, students will produce interim work during the semester (basic principles of learning theories and concepts of teaching). Interim papers are assessed for 20 points. As part of the midterm assessment, students will develop and present a midterm paper - a conceptual design of a teaching unit using the chosen teaching concept - in a micro-exercise. The final thesis is assessed for 30 points. At the end of the semester, students will complete a colloquial assessment aimed at analysing, evaluating and critically assessing current didactic learning theories and teaching concepts. The final colloquium is assessed for 50 points. Interim, semester and final grades are included in the course grade. The rating is awarded on a scale: A (100-94%, excellent - outstanding results), B (93-86%, very good - above average standard), C (85-76%, well - normal reliable work), D (75-68%, satisfactory - acceptable results), E (67-60%, sufficient - results meet minimum criteria), Fx (59-0%, insufficient - extra work required) The condition for successful completion of the course is obtaining at least 60 % of the maximum possible course grade. Characteristics of student performance: A (100-91%, excellent - outstanding results) - the student knows, understands and can apply (not only basic) relevant professional terminology in the outputs, can analyze, synthesize and assess it (critically evaluate, develop, enrich with own ideas), is oriented in current learning theories and teaching concepts, can critically analyze and evaluate them. The student is able to critically, factually assess and evaluate solutions presented by others. B (90-81%, very good - above average standard) - the student knows, understands and can apply (not only basic) relevant professional terminology in the outputs, can critically evaluate, develop and enrich it with his/her own ideas, but only in specifically selected problems and not in a generalized	

way, is oriented in current learning theories and teaching concepts, can critically analyze and evaluate them.

C (80-73%, good - normal reliable work) - the student knows, understands and can apply at least the basic relevant professional terminology in the outputs, can apply it appropriately, but lacks development of his/her own ideas, applies it in specific, concrete and not generalizing contexts, is oriented in current learning theories and teaching concepts, but lacks critical evaluation.

D (72-66%, satisfactory - acceptable results) - the student knows, understands and can apply at least the basic relevant professional terminology in the outputs, its correct application is limited and its development with own ideas is absent, the student applies it only in specific, concrete and not generalizing contexts, orientation in the current learning theories and teaching concepts, critical assessment and evaluation is completely absent.

E (65-60%, sufficient - results meet the minimum criteria) - the student has only a limited understanding and can apply the basic relevant professional terminology in the outputs, its application is limited to defined contexts in terms of correctness, there is no critical analysis and development of own ideas, orientation in current learning theories and teaching concepts is limited to specific areas, there is no critical evaluation and generalization.

Fx (59-0%, insufficient - additional work required) - student with significant limitations knows, understands, but cannot coherently apply (even basic) relevant professional terminology in the outcomes, its application is incoherent, limited to limited contexts, orientation in current learning theories and teaching concepts is incoherent, limited to specific areas, their generalizing application is absent.

Scale of assessment (preliminary/final): 50/50

Learning outcomes:

Learning objectives and outcomes:

By completing the course, students will acquire knowledge about pedagogical theories, concepts of learning (to learn). Students will be able to use their knowledge of learning theories in planning and conducting a teaching unit. By completing the course, the student will be competent to carry out analytical, synthesizing and evaluative processes within the framework of (scientifically relevant - practice-supported) theories of didactics, processes of personal-professional development based on cognition and (self-)reflection, will know and be able to apply (in specific micro-course outcomes) the theories, concepts, resources, strategies and methods necessary for this.

Transferable competences:

In solving, presenting and discussing the results of the continuous and semester assignments, students will develop their analytical and critical thinking, communication, lecturing and metacognitive skills. Students will be able to use the acquired knowledge and competences creatively in the study of other pedagogical disciplines and in their future pedagogical practice. Students will know and be able to apply theories, concepts, strategies and methods for the continuous development of intra and interpersonal communicative, organizational, (self-)cognitive competences.

Class syllabus:

Brief outline of the course:

The contents of the course are theories of learning, which can be understood as the basis for the design of teaching in which learning will take place. After an introduction to the learning process, students will be introduced to associative learning theory, behavioural theories of learning, constructivist theories and social learning theories. For each theory, the focus will be on the actual application of knowledge to the planning and delivery of instruction. Students will understand the basic principles and be able to identify and analyse different theories in terms of school and didactic practice.

In addition to traditional theories of learning and concepts of teaching, students will also become familiar with current and alternative theories of the 20th and 21st centuries, which can be classified as modern approaches in education in the theoretical background of Slovak and foreign authors.

Topics:

1. An introduction to learning theories and concepts of teaching. Basic concepts, terminology. Overview of all learning theories.
2. Selected teaching concepts. Introduction to the concepts of teaching; Verbal-narrative teaching; Problem-based teaching; Cooperative teaching; Constructivist and constructionist concepts of teaching; Constructivism and constructionism as a theory of cognition; Foundations of constructivism/constructionism and socio-cognitive constructivism/constructionism in the theories of J. Piaget and L. S. Vygotsky, K.R. Popper. Didactic application in teaching.
3. Transmission versus construction in the implementation of instruction. Basic features of two antagonistic approaches to teaching - Behaviorism vs. constructivism; Deductive, inductive and participatory approaches in teaching.
4. Modern approaches in education - strategies and methods The concept of activating teaching methods; Classification of teaching methods and their characteristics - logical learning procedures; Characteristics of selected methods, Determination of the optimal choice of methods.
5. A review of current and alternative learning theories.

COURSE DESCRIPTION

Academic year: 2025/2026	
University: Comenius University Bratislava	
Faculty: Faculty of Education	
Course ID: PdF.KP/M-VUZde004/22	Course title: Master thesis seminar
Educational activities: Type of activities: seminar Number of hours: per week: 2 per level/semester: 26 Form of the course: on-site learning	
Number of credits: 2	
Recommended semester: 4.	
Educational level: II.	
Prerequisites:	
Course requirements: Prerequisites for successful completion of the course: The course is completed by assessment (100% of the interim assessment). The student's task is to solve the assignments given continuously during the semester and to hand in the final thesis project at the end of the midterm evaluation. The student actively participates in presenting and discussing solutions to the interim assignments in seminars, for which he/she receives points (20%). The solution of each interim assignment, which is handed in on the due date, is evaluated with points (40%). The student receives points (40%) for the final thesis project at the end of the interim assessment. All points will be added together at the end of the interim assessment. To pass the course, a minimum score of 60% is required. The rating is awarded on a scale: A (100-91%, excellent - outstanding results), the student actively works on continuous assignments, participates in the presentation and discussion of the assignments in seminars. Reflects both critically and creatively on interim assignments. He/she is able to produce a final thesis project at an excellent level. B (90-81%, very good - above average standard), the student actively works adequately on the continuous assignments, participates in the presentation and discussion of the given assignments in seminars. He/she reflects adequately on the intermediate assignments and is able to produce a final thesis project at a very good level. C (80-73%, good - normal reliable work), the student has performed standardly well during the semester, their theoretical knowledge is at a good level, but they lack the ability to critically apply this knowledge. The final thesis project is done at a good level. D (72-66%, satisfactory - acceptable results), the student was less prepared during the semester, has slight deficiencies in theoretical knowledge. Cannot critically analyze information. He/she prepared the final thesis project at a satisfactory level. E (66-60%, sufficient - the results meet the minimum criteria), the student has limited theoretical knowledge, is unable to critically analyze this knowledge, is only minimally able to apply the knowledge. Intermediate tasks meet the minimum criteria, as well as the development of the final thesis project. Fx (59-0%, insufficient - extra work required).	

Scale of assessment (preliminary/final): 100/0						
Learning outcomes: Learning outcomes: Learning objectives and outcomes and transferable competences: The aim of the course is to familiarize students theoretically and practically with the principles and procedures that need to be mastered for the successful preparation of a diploma thesis. The student is able to define the topic or research problem of his/her own thesis, can correctly determine the methods of its processing, gains the ability to work selectively and correctly with the professional literature on the chosen topic. He/she is able to process the current state of the solved problem. Knows the individual parts of the final thesis. Is able to select appropriate research tools, evaluate the data obtained and analyse them. In the practical orientation of the thesis, he/she can make recommendations for practice. Is able to prepare and present the results of the thesis and is able to respond to questions on the thesis in discussion.						
Class syllabus: Brief outline of the course: Types of theses. Timetable of thesis processing. Definition of the topic and goal of the thesis. Study of literature. Excerpting material. Theoretical and methodological conception of the thesis. Methodology of problem processing. Methodology of elaboration of the thesis. Formal-compositional requisites of the final thesis. How to prepare for the defence of the thesis.

COURSE DESCRIPTION

Academic year: 2025/2026	
University: Comenius University Bratislava	
Faculty: Faculty of Education	
Course ID: PdF.KP/M-VUZde004/22	Course title: Master thesis seminar
Educational activities: Type of activities: seminar Number of hours: per week: 2 per level/semester: 26 Form of the course: on-site learning	
Number of credits: 2	
Recommended semester: 3.	
Educational level: II.	
Prerequisites:	
Course requirements: Prerequisites for successful completion of the course: The course is completed by assessment (100% of the interim assessment). The student's task is to solve the assignments given continuously during the semester and to hand in the final thesis project at the end of the midterm evaluation. The student actively participates in presenting and discussing solutions to the interim assignments in seminars, for which he/she receives points (20%). The solution of each interim assignment, which is handed in on the due date, is evaluated with points (40%). The student receives points (40%) for the final thesis project at the end of the interim assessment. All points will be added together at the end of the interim assessment. To pass the course, a minimum score of 60% is required. The rating is awarded on a scale: A (100-91%, excellent - outstanding results), the student actively works on continuous assignments, participates in the presentation and discussion of the assignments in seminars. Reflects both critically and creatively on interim assignments. He/she is able to produce a final thesis project at an excellent level. B (90-81%, very good - above average standard), the student actively works adequately on the continuous assignments, participates in the presentation and discussion of the given assignments in seminars. He/she reflects adequately on the intermediate assignments and is able to produce a final thesis project at a very good level. C (80-73%, good - normal reliable work), the student has performed standardly well during the semester, their theoretical knowledge is at a good level, but they lack the ability to critically apply this knowledge. The final thesis project is done at a good level. D (72-66%, satisfactory - acceptable results), the student was less prepared during the semester, has slight deficiencies in theoretical knowledge. Cannot critically analyze information. He/she prepared the final thesis project at a satisfactory level. E (66-60%, sufficient - the results meet the minimum criteria), the student has limited theoretical knowledge, is unable to critically analyze this knowledge, is only minimally able to apply the knowledge. Intermediate tasks meet the minimum criteria, as well as the development of the final thesis project. Fx (59-0%, insufficient - extra work required).	

Scale of assessment (preliminary/final): 100/0

STATE EXAM DESCRIPTION

Academic year: 2025/2026	
University: Comenius University Bratislava	
Faculty: Faculty of Education	
Course ID: PdF.KPg/M-VUZšt009/15	Course title: Master`s thesis defence
Number of credits: 14	
Educational level: II.	
<p>Course requirements:</p> <p>Prerequisite subjects: none</p> <p>Prerequisites for successful completion of the course:</p> <p>The state examination, its conditions and procedural aspects are regulated by the Internal Regulation No.1/2020 Study Regulations of the Faculty of Arts of Charles University, as well as by the Internal Regulation No. 5/2021 Study Regulations of the Charles University.</p> <p>A student may take the state examination (a) after obtaining at least the number of credits necessary for the proper completion of studies after obtaining credits for successful completion of the last state examination and (b) after successful completion of compulsory courses, compulsory elective courses and elective courses in the composition determined by the study programme, except for the state examination and (c) without disciplinary proceedings being conducted against him/her.</p> <p>The student receives 14 credits for the successful defence of the diploma thesis (credits counted in the VUZ study plan).</p> <p>According to the VP 23/2021 Internal Quality Assurance System for Higher Education of the Charles University in Bratislava, the student is evaluated in particular:</p> <ul style="list-style-type: none"> - Demonstrate the student's ability to integrate knowledge, manage complexity, and formulate decisions with incomplete or limited information, while still embracing the social and ethical responsibilities associated with the application of their knowledge and decisions; - Demonstration of the ability to communicate conclusions, findings and rationale clearly and unambiguously to both expert and lay audiences; - elaboration of the chosen topic at the level of a scientific study with a representative selection of literature, with appropriately chosen scientific procedures, hypotheses/research questions that can be verified. At the same time, the thesis must make a contribution to the specific field. <p>The rating is awarded on a scale:</p> <p>A 100 - 91% (excellent - outstanding results),</p> <p>B 90 - 81% (very good - above average standard),</p> <p>C 80 - 73% (good - normal reliable operation),</p> <p>D 72 - 66% (satisfactory - acceptable results),</p> <p>E 65 - 60% (sufficient - results meet minimum criteria),</p> <p>Fx 59% or less (insufficient).</p> <p>A student is evaluated with the FX grade if he/she has fulfilled the requirements for the grade only at a level not exceeding 60% of the total highest possible level of fulfilling the requirements for passing the subject of the state examination - defence of the diploma thesis. In the same way, a student shall be evaluated with an FX if he/she has submitted a thesis in violation of paragraph 7 of Article 56 of the Internal Regulation of the University of Bratislava No. 23/2021 or has submitted a thesis that does not substantially meet the requirements according to paragraph 1 (d), paragraph 2 (d) or paragraph 3 (d) of Article 56 of the Internal Regulation of the University of Bratislava No. 23/2021 Internal Quality Assurance System for Higher Education of the University of Bratislava.</p>	

The details and specifications of the requirements of the final theses for the individual teacher study programmes in combination (approbation) will be specified in the respective Study Programme Descriptions.
<p>Learning outcomes:</p> <p>The learning outcome is in accordance with the Long-term Plan of the CU/PdF, the mission and strategic goals of the CU/PdF, in accordance with the description of the field of study, in accordance with the NKR/SKR/DD, in accordance with the profile of the graduate, in accordance with the learning objectives and learning outcomes in individual subjects of the study plan of the study programme and other relevant documents.</p> <p>The student is able to elaborate the chosen topic at the level of a scientific study with a representative selection of literature, with appropriately chosen scientific procedures and hypotheses/research questions that can be verified. The thesis makes a contribution to the relevant field of study</p>
<p>Class syllabus:</p> <p>Brief outline of the course:</p> <ol style="list-style-type: none"> 1. Contribution of the thesis to the field of study, depending on its nature and degree of study. The evaluation of the thesis takes into account whether the student adequately treats the chosen topic at the level of a scientific study with a representative selection of literature, whether the chosen scientific procedures are adequate and appropriate, and whether he/she adequately works with hypotheses that can be verified. The thesis should make a distinct contribution to the relevant field of study in which the student has completed the degree programme; 2. Originality of the thesis (the thesis must not be plagiarized, must not infringe the copyrights of other authors), the documentation for the defence of the thesis as a subject of the state examination includes originality protocols: from the Central Register and Theses, the results of which are commented on by the supervisor and the opponent in their opinions; 3. Correctness and correctness of citation of used information sources, research results of other authors and author teams, correctness of description of methods and working procedures of other authors or author teams; 4. Compliance of the structure of the thesis with the prescribed structure defined by the Internal Regulation No. 2/2018 Directive of the Rector of Charles University in Bratislava; 5. Respecting the recommended scope of the thesis (the recommended scope of the thesis is usually 50 - 70 standard pages - 90 000 to 126 000 characters including spaces), the adequacy of the scope of the thesis is judged by the supervisor; 6. Linguistic and stylistic level of the work and formal editing; 7. The manner and form of the thesis defence and the student's ability to respond adequately to comments and questions in the supervisor's and opponent's reports. 8. In the study programme focused on the teaching of art-educational subjects, the presentation of artistic outputs and performances may be part of the final thesis and its defence.
State exam syllabus:
<p>Recommended literature:</p> <p>Recommended reading: according to the focus of the thesis topic</p>
<p>Languages necessary to complete the course:</p> <p>Slovak language, in case of language specialisations also the language of the respective subject specialisation</p>

COURSE DESCRIPTION

Academic year: 2025/2026	
University: Comenius University Bratislava	
Faculty: Faculty of Education	
Course ID: PdF.KEOV/M-VOBde003/22	Course title: Media and medial education
Educational activities: Type of activities: lecture + seminar Number of hours: per week: 2 per level/semester: 26 Form of the course: on-site learning	
Type, volume, methods and workload of the student - additional information Lecture + seminar, 2 hours weekly/22 hours per semester, blended learning (mainly face-to-face) Student workload: 22 hours face-to-face learning, 40 hours to complete assignments, 40 hours to complete the final assignment, 18 hours of guided self-study (work with text and video, the analysis of content and means of expression). Total 120 hours. Teaching methods: Lectures - heuristic method, discussion of the topics covered. The presentation of various media content (films, advertisements, etc.) Seminars – group work on given assignments (media content creation), presentations of the outcomes. Individual supervision.	
Number of credits: 4	
Recommended semester: 1.	
Educational level: II.	
Prerequisites:	
Course requirements: Weighting of the continuous/final evaluation: 50/50 The continuous evaluation includes the completion of four assignments (50% of the grade). The assignments will focus on media analysis, the creation of media products and the successful use of new presentation programs. Two of these assignments will involve group outcomes. The final evaluation will consist of a practical demonstration of a media education lesson covering a selected topic, including topic presentation and a reflection of the presentation techniques during the lesson sent in a separate document - justification of the choice of the visual aids used (colours, font, graphic and pictorial elements, etc.), its design and the expected educational effects of the chosen presentation techniques (50% of the evaluation). The assignments are designed to verify the specified learning outcomes. A minimum of 60% of the total score is required for successful completion of the course. The grading scale: A 100-91%, excellent - outstanding results. The student has demonstrated in both the continuous and final assignments a level and range of acquired media competencies and skills in the production of the assigned media products that corresponds to an A grade in terms of points or percentage. B 90-81%, very good - above average standard. In both the continuous and final assignments, the student has demonstrated a level and range of acquired media competencies and skills in the	

production of assigned media products that, in terms of points and percentages, is equivalent to a B grade.

C 80-73%, good - normal reliable work. In both the continuous and final assignments, the student has demonstrated a level and range of acquired media competencies and skills in the creation of assigned media products that, in terms of points and percentages, is equivalent to a grade of C.

D 72-66%, satisfactory - acceptable results. The student has demonstrated a level and range of acquired media competencies and skills in the creation of assigned media products in both the continuous and final assignments that is equivalent to a grade of D in terms of points and percentages, respectively.

E 65-60%, satisfactory. In both the continuous and final assignments, the student has demonstrated a level and range of acquired media competencies and skills in the production of assigned media products that, in terms of points and percentages, is equivalent to an E.

Fx 59-0%, Insufficient. The student has not met the required thresholds for passing the course.

Scale of assessment (preliminary/final): 50/50

Learning outcomes:

Students will acquire competences related to media and digital literacy. Through their application in model situations, they will acquire the ability to independently create selected media products. They will learn certain principles of competent handling of different types of media and their products. They will learn to navigate the media offer, especially electronic information sources, and to assess their quality and credibility. They will learn principles that will enable them to select information more competently. They will learn to take a critical stance and form their own opinion on media content and to distinguish between their own interests and those of media owners and their advertisers. They will be able to evaluate the impact of contemporary media on different areas of social life, culture and politics and to analyse the changes and developments initiated by the media in these areas. They will recognise the contribution of the media to the development of democracy and civil society. They will also acquire presentation skills.

Class syllabus:

Concepts of media education at home and around the world. A reassessment of the currently valid concept of media education in the light of changes that have taken place on the media scene since its implementation into the state educational programme. Objectives of media education differentiated according to the different levels of education (ISCED 1-3) Media and democracy. Media and digital literacy as a prerequisite for active citizenship (as a means to prevent and reduce the risks of exclusion of individuals and groups from society). Ethical and legal regulation of the media. The ambivalent nature of the media. The pictorial turn and the changes it initiated in the media. The anthropological, political and social consequences of these transfers. The impact of the media on the different segments of society with emphasis on the school reality. Identification of the basic planes of the formative effects of the media. Audit of the pros and cons of the selected media, the forms and content of the messages they disseminate. The threat of media and discursive totalitarianism and strategies to counter it effectively. Principles of behaviour on the Internet (netiquette). Principles for designing presentation documents and media campaigns (elections, social advertising) promoting civic engagement and participation.

COURSE DESCRIPTION

Academic year: 2025/2026	
University: Comenius University Bratislava	
Faculty: Faculty of Education	
Course ID: PdF.KPg/M-VUZde002/22	Course title: Methodology of educational research
Educational activities: Type of activities: lecture + seminar Number of hours: per week: 2 per level/semester: 26 Form of the course: on-site learning	
Number of credits: 2	
Recommended semester: 2., 4.	
Educational level: II.	
Prerequisites:	
Course requirements: Prerequisites for successful completion of the course: The course is completed with an assessment of: 100% of the intermediate assessment The interim evaluation includes the following: - semester work in the form of a subject portfolio: proposal (design) of educational research of a quantitative or qualitative nature - 45 points, - assessment of knowledge and selected competences in the form of a written test - 55 points. The rating is awarded on a scale: A (100-94%, excellent - excellent results with only minimal errors), B (93-86%, very good - above average results with minor errors), C (85-76%, good - normal reliable work, average results), D (75-68%, satisfactory - acceptable results, but significant errors occur), E (67-60%, sufficient - results meet minimum criteria), Fx (59-0%, insufficient - extra work required). For successful completion of the course it is necessary to obtain at least 60% of the points. A minimum of 91 points is required for a final grade of A. For this grade, the student should demonstrate: a creative and original approach in the development of intermediate assignments, excellent professional knowledge and its application in problem solving, excellent orientation in the subject matter, excellent communication skills, responsibility and timely completion of assignments, exceptional activity in the classroom during the semester. A score of at least 81 points is required for a final grade of B. For this grade, the student should demonstrate: a creative approach in developing ongoing assignments using a model, above average expertise and application of that expertise in problem solving using tutorials, above average orientation to the problem, above average communication skills, responsibility and timely completion of assignments, above average activity in class during the semester. A minimum of 73 points is required for a final grade of C. For this grade, the student should demonstrate: the ability to develop intermediate assignments using the given template, good professional knowledge and its application in solving problem problems in a group or with the help of the instructor, good orientation in the subject matter, good communication skills, completion of the assigned tasks, average activity in class during the semester when prompted by the instructor. A	

minimum of 66 points is required for a final grade of D. For this grade, the student is expected to demonstrate: the ability to develop intermediate assignments using a given template and with the assistance of the instructor, average proficiency and application in problem solving in a group setting or with the assistance of the instructor, average orientation to the subject matter, average communication skills, completion of assignments, and basic activity in the classroom during the semester in collaboration with the instructor or other students.

A score of at least 60 points is required for a final grade of E. For this assessment, the student should demonstrate: the ability to develop continuous assignments and with the help of the instructor, basic/minimal professional knowledge, basic/minimal orientation to the subject matter, basic communication skills, completion of assigned tasks.

Scale of assessment (preliminary/final): 50/50

Learning outcomes:

Learning objectives and outcomes and transferable competences:

Students will acquire knowledge of the fundamentals of educational research, become familiar with the basic concepts and theoretical-methodological knowledge necessary for designing (planning, implementing and evaluating) in the field of educational research. On a theoretical-empirical level, in the framework of the analysis of individual quantitative and qualitative tools, methods and techniques, they will acquire the knowledge and competences necessary for planning, conducting and evaluating pedagogical research of a quantitative and qualitative nature. Students will acquire the competences to solve and resolve problems in the field of research.

The course develops students' analytical, critical, evaluative, contextual and creative thinking and reasoning in context. In terms of self-reflection, the student is able to evaluate and assess his/her own availability to carry out pedagogical research.

Class syllabus:

Brief outline of the course:

Science and research. Types of research. Validity, reliability and objectivity/objective truth. Subjectivity/subjective truth. Ethical aspects of research. Subjects in research and their specificities. Quantitative and qualitative oriented educational research. Intentions, subjects and objects in pedagogical research, principals in scientific research, observed phenomena and conditions for the implementation of quantitative and qualitatively oriented pedagogical research.

Scientific hypotheses and variables for quantifying the phenomena under study. Operationalization of variables.

Questionnaire design, implementation and evaluation.

Assessment scales - typology, creation and evaluation.

The sociometry method and the measurement of social climate.

Interview design and use. Differences between quantitative and qualitative interviews.

Quantitative and qualitative observation in scientific research.

Content analysis of documents from a quantitative and qualitative point of view.

Data processing, data analysis and interpretation. Statistical-mathematical procedures and triangulation processes. Dissemination of findings. Study design/design

COURSE DESCRIPTION

Academic year: 2025/2026	
University: Comenius University Bratislava	
Faculty: Faculty of Education	
Course ID: PdF.KPg/M-VUZde002/22	Course title: Methodology of educational research
Educational activities: Type of activities: lecture + seminar Number of hours: per week: 2 per level/semester: 26 Form of the course: on-site learning	
Number of credits: 2	
Recommended semester: 1., 3.	
Educational level: II.	
Prerequisites:	
Course requirements: Prerequisites for successful completion of the course: The course is completed with an assessment of: 100% of the intermediate assessment The interim evaluation includes the following: - semester work in the form of a subject portfolio: proposal (design) of educational research of a quantitative or qualitative nature - 45 points, - assessment of knowledge and selected competences in the form of a written test - 55 points. The rating is awarded on a scale: A (100-94%, excellent - excellent results with only minimal errors), B (93-86%, very good - above average results with minor errors), C (85-76%, good - normal reliable work, average results), D (75-68%, satisfactory - acceptable results, but significant errors occur), E (67-60%, sufficient - results meet minimum criteria), Fx (59-0%, insufficient - extra work required). For successful completion of the course it is necessary to obtain at least 60% of the points. A minimum of 91 points is required for a final grade of A. For this grade, the student should demonstrate: a creative and original approach in the development of intermediate assignments, excellent professional knowledge and its application in problem solving, excellent orientation in the subject matter, excellent communication skills, responsibility and timely completion of assignments, exceptional activity in the classroom during the semester. A score of at least 81 points is required for a final grade of B. For this grade, the student should demonstrate: a creative approach in developing ongoing assignments using a model, above average expertise and application of that expertise in problem solving using tutorials, above average orientation to the problem, above average communication skills, responsibility and timely completion of assignments, above average activity in class during the semester. A minimum of 73 points is required for a final grade of C. For this grade, the student should demonstrate: the ability to develop intermediate assignments using the given template, good professional knowledge and its application in solving problem problems in a group or with the help of the instructor, good orientation in the subject matter, good communication skills, completion of the assigned tasks, average activity in class during the semester when prompted by the instructor. A

COURSE DESCRIPTION

Academic year: 2025/2026	
University: Comenius University Bratislava	
Faculty: Faculty of Education	
Course ID: PdF.KPg/M-VUZde017/22	Course title: Personal and social development
Educational activities: Type of activities: seminar Number of hours: per week: per level/semester: 24s Form of the course: on-site learning	
Number of credits: 2	
Recommended semester: 2., 4.	
Educational level: II.	
Prerequisites:	
Course requirements: Prerequisite subjects: none Prerequisites for successful completion of the course: 100% of the continuous assessment, the course is completed by assessment. Continuous assessment includes the evaluation of the performance of continuous tasks and assignments, which are carried out individually or in groups at different stages of the course implementation. Individual assignments focus on the preparation of materials and the development of assignments on which direct teaching will be based. This involves working with various questionnaires and tests, information sources (publications aimed at developing pupils' social-psychological competences) and official school documents (30% of the assessment). Within the group work, space is devoted to specific exercises and simulation of experiential learning in teachers' work (30%) and to the analysis of the objectives, meaning, methods of the cross-cutting theme of Personal and Social Development and its integration into selected educational areas (30%). A reflective essay concludes the continuous assessment (10% of the assessment). The rating is awarded on a scale: A (100-91%, excellent - outstanding results), B (90-81%, very good - above average standard), C (80-73%, good - normal reliable work), D (72-66%, satisfactory - acceptable results), E (65-60%, satisfactory - results meet minimum criteria), Fx (59-0%, inadequate - extra work required). For successful completion of the course it is necessary to obtain at least 60% of the points. A grade A is awarded if the student has acquired knowledge related to the content of the cross-cutting theme, is familiar with methods, techniques and other specifics related to the field of experiential and active social learning, actively engages in individual activities and shows interest and effort to develop his/her competences in the identified key areas, seeks original and creative solutions to the tasks set, reflects the emerging changes that experiential learning brings, manifests himself/herself as a full member of the group and actively expresses his/her own opinion. A B grade is awarded if the student has acquired knowledge related to the content of the cross-cutting theme, is familiar with the methods, techniques and other specifics related to the field of	

experiential and active social learning, actively engages in individual activities and shows interest and effort to develop his/her competences in the identified key areas, to a lesser extent, seeks original and creative solutions to the tasks set, reflects the emerging changes that experiential learning brings but needs more time and space to verbalise them, shows himself as a full member of the group and actively expresses his own opinion.

Grade C will be awarded to a student who has acquired the knowledge related to the content of the cross-cutting topic at an average level, is familiar with the methods, techniques and other specifics related to the field of experiential and active social learning, is usually actively involved in individual activities, shows interest and effort to develop his/her competences, only in some topics and areas, makes little use of his/her personal qualities in finding original and creative solutions to the tasks set, reflects only to some extent the emerging changes brought about by experiential learning, shows himself/herself to be a full member of the group and actively expresses his/her own opinion.

A grade D is awarded if the student has acquired basic knowledge related to the content of the cross-cutting theme, is generally familiar with the methods, techniques and other specifics related to the field of experiential and active social learning, engages to a limited extent in individual activities, and shows only sporadic interest and effort to develop his/her competencies, often only with external help, seeks original and creative solutions to the tasks set, cannot adequately reflect the emerging changes brought about by experiential learning, is more passive and more like a marginal member of the group, even though he or she actively expresses his or her own opinion.

A student receives a grade of E if the student has mastered the basic knowledge related to the content of the cross-cutting topic and is at least partially oriented in the methods, techniques and other specifics related to the field of experiential and active social learning, behaves passively and minimally participates in individual activities, does not show interest and effort to develop his/her competences, relies on the group for original and creative solutions to the tasks set, cannot adequately reflect the emerging changes brought about by experiential learning, cannot find his/her place in the group, expresses his/her own opinion sporadically and not always in an appropriate way. The grade of Fx requires extra work, extra study; this grade is given exceptionally, most often because of non-participation in class and failure to complete the assigned interim assignments, refusal to cooperate in any way, refusal to take a stand on required topics and to express one's own opinion.

Scale of assessment (preliminary/final): 100/0

Learning outcomes:

Learning outcomes

Learning objectives and outcomes and transferable competences:

The aim of the course is to familiarize students with the cross-cutting theme of personal and social development and experiential learning aimed at the development of social-psychological competencies in the school and classroom environment.

The student after completing the course:

- distinguishes the different stages of group development, perceives its variability and can assess the impact of the teacher's role in this area,
- knows the content, methods and objectives of the cross-cutting theme of Personal and Social Development and can identify and propose its integration within his/her study programme,
- can use techniques and strategies of experiential and active social learning leading to the fulfilment of the objectives of the cross-cutting theme, to promote group cohesion and a positive atmosphere in the group,
- is oriented in the available literature and is able to modify the acquired knowledge for the purposes of educational practice,

- Through experiential activities, gain first-hand experience of active social and experiential learning.

Class syllabus:

Brief outline of the course:

1. Cross-cutting theme Personal and social development and national curricula for lower and upper secondary education
2. Objectives, outcomes, content, methods of the cross-cutting theme and its integration into selected educational areas
3. Experiential and active social learning: models and theories of learning, methods and techniques.
4. Experiential and active social learning: space, tools, rules and challenging situations.
5. The school class as a group (the position, status and role of the individual in the group).
6. Group dynamics - group dynamics.

COURSE DESCRIPTION

Academic year: 2025/2026	
University: Comenius University Bratislava	
Faculty: Faculty of Education	
Course ID: PdF.KPg/M-VUZde003/22	Course title: Philosophical anthropology and axiology
Educational activities: Type of activities: lecture Number of hours: per week: 2 per level/semester: 26 Form of the course: on-site learning	
Number of credits: 2	
Recommended semester: 2., 4.	
Educational level: II.	
Prerequisites:	
Course requirements: Prerequisites for successful completion of the course: Midterm/final grade weighting: 100/0, the course is completed with an evaluation. The interim assessment includes two interim didactic tests (50% + 50% of the assessment). To pass the course, a minimum score of 60% is required. The rating is awarded on a scale: And 100-91%, well done - excellent results. In both didactic tests, the student has demonstrated a level of knowledge (the extent of acquired knowledge and mobilised cognitive abilities) that corresponds to an A grade in terms of cumulative points or percentage. Note: The didactic test contains tasks of varying cognitive difficulty, so it stratifies students not only according to the amount of knowledge they have acquired. The tests are designed to verify the specified learning outcomes. B 90-81%, very good - above average standard. In both didactic tests, the student has demonstrated a level of knowledge (the extent of acquired knowledge and mobilised cognitive abilities) that corresponds to a B grade in terms of cumulative points or percentage. C 80-73%, well - normal reliable work. In both didactic tests, the student has demonstrated a level of knowledge (the extent of acquired knowledge and mobilised cognitive abilities) that corresponds to a C grade in terms of cumulative scores or percentages. D 72-66%, satisfactory - acceptable results. In both didactic tests, the student has demonstrated a level of knowledge (the extent of acquired knowledge and mobilised cognitive abilities) that corresponds to a grade D in the aggregate score or percentage. E 65-60%, enough. In both didactic tests, the student has demonstrated a level of knowledge (the extent of acquired knowledge and mobilised cognitive abilities) that corresponds to an E grade in terms of cumulative points and percentages. Fx 59-0%, not enough. The student did not meet the required thresholds for passing the course. Scale of assessment (preliminary/final): 100/0	
Learning outcomes: Learning objectives and outcomes and transferable competences:	

The aim of the course is to convey a wide range of views on man as philosophy has grasped him through its means in different historical periods and cultural contexts. In the course, students will learn not only the basic images, views and concepts of man in their historical-philosophical, but also in their ethical-axiological framework. They will learn about the mutual inspirations and intersections between philosophical and special-scientific conceptions of man. They will become familiar with the motives and arguments of philosophical critiques of scientific conceptions of man. The mission of the course is for students to learn to identify the value background of philosophical thematizations of man and to infer possible axiological implications arising from the acceptance of relevant scientific conceptions of man.

Class syllabus:

Brief outline of the course:

Possibilities of conceptualizing anthropological issues in the sciences and in philosophy. Limits of the scientific way of affirmation of the anthropological problematic. Basic conceptual and methodological problems associated with the thematization of man in philosophy. Typology of philosophical reflections of man according to different expert points of view. Substantial and non-substantial approaches to man and their worldview and pedagogical implications. Philosophical reflection on the relational relations in which man finds himself in the world: man and nature, man and society, man and technology, man and the sphere of the transcendent. Mapping the demarcation lines between the animal and the human, between the human and the posthuman. Philosophical critique of some concepts of normality and ideas about the ideal status of man, which have been entrenched in educational theory and practice. The axiological dimension of human existence. The importance of human knowledge for educational sciences. Education for humanism and respect for human dignity as the most essential mission of education.

COURSE DESCRIPTION

Academic year: 2025/2026	
University: Comenius University Bratislava	
Faculty: Faculty of Education	
Course ID: PdF.KPg/M-VUZde024/22	Course title: Processing and interpretation of statistical data
Educational activities: Type of activities: seminar Number of hours: per week: 2 per level/semester: 26 Form of the course: on-site learning	
Number of credits: 2	
Recommended semester: 2., 4.	
Educational level: II.	
Prerequisites:	
Course requirements: Prerequisite subjects: none Prerequisites for successful completion of the course: The course is completed by assessment, the weighting of the interim and final assessment is 100/0. The student will be assessed by a final test for 30 points of theoretical knowledge and problem solving focused on understanding and interpreting statistical concepts. During the semester, students will submit 5 assignments of 6 points each, which will be focused on solving statistical assignments using MS EXCEL and JASP software from individual topics (descriptive statistics, correlation and regression analysis, sampling, hypothesis testing), and at the end of the semester, the student will submit and present a term paper for 40 points. The term paper will include an independent statistical treatment and interpretation of quantitative research (own or from data taken, for example, from thesis, rigor or PhD theses). The student will submit the thesis electronically in MS Word and MS EXCEL, and prepare the presentation in MS PowerPoint or Prezi. The student will demonstrate through the development and presentation of the term project that he/she is able to independently statistically evaluate quantitative research and interpret them. A minimum of 91 points is required for a final grade A, a minimum of 81 points for a grade B, a minimum of 73 points for a grade C, a minimum of 66 points for a grade D and a minimum of 60 points for a grade E. Credit will not be awarded to a student who scores less than 3 points on any of the 5 assignments. To pass the course, a score of at least 60% is required. The rating is awarded on a scale: A (100-91%, excellent - outstanding results), the student has excellent knowledge of the theoretical knowledge of statistical data processing and can interpret it correctly and clearly; he/she solves problems in a creative way, can react promptly and spontaneously during lectures and systematically prepares assignments for seminars, the student is proactive, asks questions in the context of the problem being solved. He is active in seminars. He brings his own experience and insights from practice to the teaching. His oral and written expression is correct, citationally correct, grammatically flawless. B (90-81%, very good - above average standard), the student has mastered the theoretical knowledge of statistical data processing and can interpret it correctly and clearly with minor shortcomings, has acquired key competences, can respond promptly during lectures to the teacher's	

challenges, the student is self-initiative and asks questions in the context of the problem addressed. His/her written expression in the term paper is correct, grammatically sound and creative. He brings his own experiences and insights from practice to the teaching. The results of his activities are of good quality, with minor shortcomings.

C (80-73%, good - normal reliable work), the student knows the theoretical knowledge of statistical data processing and can interpret them at an average, i.e. good level, has acquired theoretical knowledge and skills using MS EXCEL and JASP software in solving problems, can respond to the teacher's challenges. He/she does not take initiative himself/herself, does not ask questions in the context of the problem being solved. His communication style is not disruptive, but he is unsure of his answer and his speech does not have significant disruptive elements. He transfers experience from practice with problems. His, grammatical speech is of lesser quality.

D (72-66%, Satisfactory-Acceptable performance), the student has mastered the material at a satisfactory level. He/she knows the theory with minor gaps, but cannot apply it to the solution of practical experiences, he/she needs help in interpreting the obtained statistical data. He is not very active during teaching, does not bring new solutions, takes the role of a passive observer. Memorisation rather than critical thinking prevails in the student. Analysis from practice is less constructive. His/her written expression has some inaccuracies to serious deficiencies.

E (65-60%, sufficient - the results meet the minimum criteria), the student has a low level of theoretical knowledge of statistical data processing, responds to the teacher's instructions and prompts with considerable inaccuracies; the student himself is not proactive and does not ask questions in the context of the problem addressed. Applies theoretical knowledge with considerable problems; in practical terms, does not have recommendations for correct solution options. The student is rather in the position of a passive recipient of knowledge and is not active in the seminars. The student is not creative, he relies on numerous quotations without his own opinion. His grammatical expression is not error-free and stylistically correct.

Fx (59-0%, Insufficient - extra work required) this grade will be given if the student fails to meet any of the required minimum criteria and is not allowed to take the final test. This means that the student has not mastered the knowledge and skills to a degree that would enable him/her to meet at least the minimum criteria for a passing grade.

Learning outcomes:

Learning outcomes

Learning objectives and outcomes and transferable competences:

Upon completion of the course, the student will be able to appropriately choose a statistical method in quantitative research. The student will acquire skills in data processing and evaluation and will be able to use MS EXCEL and JASP software appropriately. Understand the meaning of the statistical data obtained and be able to evaluate and interpret the statistical outputs obtained in quantitative research.

Class syllabus:

Brief outline of the course:

Introduction to types of variables and basic statistical theory. Mastering the creation of descriptive statistics files in MS Excel and JASP. Ability to test statistical hypotheses using parametric tests. Analysis of variance - ANOVA. Correlation and regression analysis.

1. Descriptive statistics - description of the statistical population
2. Descriptive statistics - data visualization
3. Correlation and regression analysis
4. Probability
5. Random variables
6. Probability distribution

7. Selective enquiry 8. Estimates of the characteristics of the base set 9. Hypothesis testing 10. Semester project presentation

COURSE DESCRIPTION

Academic year: 2025/2026	
University: Comenius University Bratislava	
Faculty: Faculty of Education	
Course ID: PdF.KPg/M-VUZde018/22	Course title: Psychological analysis of school educational situations
Educational activities: Type of activities: seminar Number of hours: per week: 2 per level/semester: 26 Form of the course: on-site learning	
Number of credits: 2	
Recommended semester: 1., 3.	
Educational level: II.	
Prerequisites:	
Course requirements: Prerequisite subjects: none Prerequisites for passing the course: 100% of continuous assessment Continuous assessment includes the evaluation of the completion of continuous tasks and assignments, which are carried out in an individual or group form. These are mainly experiential activities and exercises aimed at solving school educational situations. Using role-play and cooperative games, the student practises various strategies and techniques for coping with pupils' inappropriate behaviour (max. 30 points). In small groups during class, they develop a proposal for a prevention or intervention program aimed at eliminating or addressing inappropriate school situations (max. 20 points), which they then present (max. 10 points). The student individually produces a seminar paper (on a specific educational problem situation in school) in which he/she proposes a possible solution (max. 30 points). The student will present the seminar paper continuously according to the timetable (max. 10 points). The rating is awarded on a scale: A (100-91%, excellent - outstanding results), B (90-81%, very good - above average standard), C (80-73%, well - normal reliable work), D (72-66%, satisfactory - acceptable results), E (65-60%, sufficient - results meet minimum criteria), Fx (59-0%, insufficient - extra work required). For successful completion of the course it is necessary to obtain at least 60% of the points. For a grade of A, students need to produce excellent results continuously throughout the semester, be able to study independently, be able to navigate a variety of literary sources, and critically select relevant sources for their studies. Students have knowledge of a variety of educational situations in the school environment and how to address them, and are able to apply their knowledge in meaningful ways to create assignments. A grade of B means that the students achieved above average results throughout the semester, were able to study independently, are able to navigate through various literary sources and critically select relevant sources for their studies, have knowledge of various educational situations in the school	

environment and their solutions, and are able to apply their knowledge appropriately to the creation of assignments.

A grade of C means that the students performed well during the semester, their theoretical knowledge of various educational situations in the school environment and their solutions is at a good level, but they have deficiencies in their ability to apply this knowledge, they have deficiencies in the critical evaluation and comparison of literary sources and psychological knowledge.

A grade of D means that students were less prepared during the semester, they have slight deficiencies in theoretical knowledge related to various educational situations in the school environment and their solutions. They have considerable difficulties in independent work, they cannot critically analyse information.

A grade of E means that students fail in more than one of the assignments, lack the ability to analyze and compare multiple pieces of knowledge, but have mastered most of the theoretical knowledge in the course.

A grade of FX indicates that the student has not sufficiently completed the course requirements and extra work is required.

Scale of assessment (preliminary/final): 100/0

Learning outcomes:

Learning outcomes

Learning objectives and outcomes and transferable competences:

The goal is to increase sensitivity to inter-individual differences and group dynamics in the context of dealing with school educational situations and to learn specific strategies and techniques for dealing with these situations.

Students after completing the course:

- understand and orient themselves to the basic background and possible reasons for pupil behaviour at school
- know the different forms of inappropriate behaviour at school
- understand the processes of group dynamics in the school classroom
- know the procedures for dealing with different types of inappropriate behaviour at school
- know the intervention methods used in the prevention and resolution of various educational situations

Upon completion of the course, students will be able to:

- identify inappropriate behaviour of the pupil in the educational environment
- to address the occurrence of various forms of inappropriate pupil behaviour
- sensitively take into account inter-individual differences in group dynamics when dealing with school situations
- design and implement an intervention programme aimed at preventing inappropriate behaviour among pupils
- design and implement an intervention programme to address pupil misbehaviour

Students are competent after completing the course:

- think analytically and critically in the design of prevention and intervention programmes
- communicate adequately in cooperation with the pupil's parents or the pupil himself/herself

Class syllabus:

Brief outline of the course:

1. The basic background of inappropriate behaviour of a child at school and its possible causes.
2. Selected types of inappropriate student behaviour in the educational environment and the possibilities of their identification.
3. The influence of family environment and sibling constellation on children's inappropriate behavior at school.

4. The impact of different types of parenting styles in the family and school environment on child behavior.
5. Dreikurs' theory of mistaken behavioral goals (attention, power, revenge, failure avoidance).
6. Intervention techniques appropriate for addressing particular types of inappropriate behavior.
7. Prevention techniques applicable to the prevention of particular types of inappropriate behaviour. Planning prevention strategies.
8. The dynamics of the school classroom as a social group and its influence on student behavior.
9. Classroom management strategies and techniques.
10. Family and school cooperation. Interview with parents.
11. Practical skills training of students in dealing with educational situations in school.

COURSE DESCRIPTION

Academic year: 2025/2026	
University: Comenius University Bratislava	
Faculty: Faculty of Education	
Course ID: PdF.KPg/M-VUZde018/22	Course title: Psychological analysis of school educational situations
Educational activities: Type of activities: seminar Number of hours: per week: 2 per level/semester: 26 Form of the course: on-site learning	
Number of credits: 2	
Recommended semester: 2., 4.	
Educational level: II.	
Prerequisites:	
Course requirements: Prerequisite subjects: none Prerequisites for passing the course: 100% of continuous assessment Continuous assessment includes the evaluation of the completion of continuous tasks and assignments, which are carried out in an individual or group form. These are mainly experiential activities and exercises aimed at solving school educational situations. Using role-play and cooperative games, the student practises various strategies and techniques for coping with pupils' inappropriate behaviour (max. 30 points). In small groups during class, they develop a proposal for a prevention or intervention program aimed at eliminating or addressing inappropriate school situations (max. 20 points), which they then present (max. 10 points). The student individually produces a seminar paper (on a specific educational problem situation in school) in which he/she proposes a possible solution (max. 30 points). The student will present the seminar paper continuously according to the timetable (max. 10 points). The rating is awarded on a scale: A (100-91%, excellent - outstanding results), B (90-81%, very good - above average standard), C (80-73%, well - normal reliable work), D (72-66%, satisfactory - acceptable results), E (65-60%, sufficient - results meet minimum criteria), Fx (59-0%, insufficient - extra work required). For successful completion of the course it is necessary to obtain at least 60% of the points. For a grade of A, students need to produce excellent results continuously throughout the semester, be able to study independently, be able to navigate a variety of literary sources, and critically select relevant sources for their studies. Students have knowledge of a variety of educational situations in the school environment and how to address them, and are able to apply their knowledge in meaningful ways to create assignments. A grade of B means that the students achieved above average results throughout the semester, were able to study independently, are able to navigate through various literary sources and critically select relevant sources for their studies, have knowledge of various educational situations in the school	

environment and their solutions, and are able to apply their knowledge appropriately to the creation of assignments.

A grade of C means that the students performed well during the semester, their theoretical knowledge of various educational situations in the school environment and their solutions is at a good level, but they have deficiencies in their ability to apply this knowledge, they have deficiencies in the critical evaluation and comparison of literary sources and psychological knowledge.

A grade of D means that students were less prepared during the semester, they have slight deficiencies in theoretical knowledge related to various educational situations in the school environment and their solutions. They have considerable difficulties in independent work, they cannot critically analyse information.

A grade of E means that students fail in more than one of the assignments, lack the ability to analyze and compare multiple pieces of knowledge, but have mastered most of the theoretical knowledge in the course.

A grade of FX indicates that the student has not sufficiently completed the course requirements and extra work is required.

Scale of assessment (preliminary/final): 100/0

Learning outcomes:

Learning outcomes

Learning objectives and outcomes and transferable competences:

The goal is to increase sensitivity to inter-individual differences and group dynamics in the context of dealing with school educational situations and to learn specific strategies and techniques for dealing with these situations.

Students after completing the course:

- understand and orient themselves to the basic background and possible reasons for pupil behaviour at school
- know the different forms of inappropriate behaviour at school
- understand the processes of group dynamics in the school classroom
- know the procedures for dealing with different types of inappropriate behaviour at school
- know the intervention methods used in the prevention and resolution of various educational situations

Upon completion of the course, students will be able to:

- identify inappropriate behaviour of the pupil in the educational environment
- to address the occurrence of various forms of inappropriate pupil behaviour
- sensitively take into account inter-individual differences in group dynamics when dealing with school situations
- design and implement an intervention programme aimed at preventing inappropriate behaviour among pupils
- design and implement an intervention programme to address pupil misbehaviour

Students are competent after completing the course:

- think analytically and critically in the design of prevention and intervention programmes
- communicate adequately in cooperation with the pupil's parents or the pupil himself/herself

Class syllabus:

Brief outline of the course:

1. The basic background of inappropriate behaviour of a child at school and its possible causes.
2. Selected types of inappropriate student behaviour in the educational environment and the possibilities of their identification.
3. The influence of family environment and sibling constellation on children's inappropriate behavior at school.

4. The impact of different types of parenting styles in the family and school environment on child behavior.
5. Dreikurs' theory of mistaken behavioral goals (attention, power, revenge, failure avoidance).
6. Intervention techniques appropriate for addressing particular types of inappropriate behavior.
7. Prevention techniques applicable to the prevention of particular types of inappropriate behaviour. Planning prevention strategies.
8. The dynamics of the school classroom as a social group and its influence on student behavior.
9. Classroom management strategies and techniques.
10. Family and school cooperation. Interview with parents.
11. Practical skills training of students in dealing with educational situations in school.

COURSE DESCRIPTION

Academic year: 2025/2026	
University: Comenius University Bratislava	
Faculty: Faculty of Education	
Course ID: PdF.KEOV/M-VOBde001/22	Course title: Relevant problems of citizenship
Educational activities: Type of activities: lecture + seminar Number of hours: per week: 2 per level/semester: 26 Form of the course: on-site learning	
Type, volume, methods and workload of the student - additional information 2 hours lecture + seminar/week, i.e., 22 hours in total per semester, combined (mostly full-time) Student workload: 11 x 2 hours teaching = 22 hours; 40 hours project work, 58 hours exam preparation. Total 120 hours of work. Teaching methods: - Lecture: lecture combined with discussion of the topic covered; various examples are given for each subject area. Critical reflection and awareness of the possibility of applying this knowledge to school or life practice is essential. Emphasis on discussion, critical reflection on relevant materials (monographs, journals, videos, news, etc.), cooperation. Outcome - submission of project and examination in the examination period.	
Number of credits: 4	
Recommended semester: 2.	
Educational level: II.	
Prerequisites:	
Course requirements: 50% of the interim evaluation + 50% of the final evaluation A group project (2-3 students) analyzing a specific civic issue in contemporary Europe against the backdrop of recent political science, cultural-historical and sociological literature. The project will analyze the nature of the problem, its causes, its impact on Slovakia. One of the assessment criteria will be the students' ability to search relevant literature and work with information. Intermediate assessment: annotation and project - max 50 points. Final assessment: project defense, exam on topics covered in lectures - max 50 points. For successful completion of the course, it is necessary to obtain at least 60% of the points. The grade is awarded on a scale: A (100-94%, excellent - outstanding results), the student reflects correctly and actively both critically and creatively. knowledge, including its meaningful integration into life reality and pedagogical practice. B (93-86%, very good - above average standard), the student reflects appropriately critically on the knowledge, including their meaningful integration into life reality and pedagogical practice.	

<p>C (85-76%, good - normal reliable work), the student performs at a standard level during the semester, the theoretical knowledge is at a good level, but the ability to critically apply this knowledge is lacking.</p> <p>D (75-68%, satisfactory - acceptable performance), the student was less well prepared during the semester, has slight deficiencies in theoretical knowledge. Cannot critically analyze information.</p> <p>E (67-60%, satisfactory - results meet minimum criteria), the student has limited theoretical knowledge, is unable to critically analyze the knowledge, and is only minimally able to apply the knowledge.</p> <p>Fx (59-0%, insufficient - additional work is required).</p> <p>Scale of assessment (preliminary/final): 50/50</p>
<p>Learning outcomes:</p> <p>Students will develop an independent view of civil society, political, cultural and economic movements in contemporary Europe. Students will be able to perceive global contexts. They will be able to apply their knowledge to issues of school citizenship education. The course will deepen the theoretical understanding of citizenship from the undergraduate studies so that students will be able to apply theory to contemporary processes in the world and be able to think theoretically about citizenship independently, with an emphasis on theoretical reflection on the present.</p> <p>The chosen learning methods will contribute to the further development of competences (cognitive area: critical thinking, thinking in context, argumentation; affective area: attitudes and beliefs, values; psychomotor area: digital skills; social area: cooperation, communication).</p> <p>Course objectives: The student will be able to orientate himself/herself in the current issues of citizenship, global contexts, the influence of media and media education in citizenship education. The student will be able to work effectively as a member of a team. The student is able to work with information and communication technologies, to think critically and in context. The course contributes to the progressive development of important professional competences of future teachers in accordance with the profile of the graduate.</p>
<p>Class syllabus:</p> <ol style="list-style-type: none"> 1. Civil society, the state, and the school. Historical forms of citizenship. 2. Opportunities for guidance towards active citizenship in and out of the school environment. 3. Europe and citizenship, globalization. 4. Current socio-political situation at home and abroad.

COURSE DESCRIPTION

Academic year: 2025/2026	
University: Comenius University Bratislava	
Faculty: Faculty of Education	
Course ID: PdF.KPg/M-VUZde016/22	Course title: Religious studies
Educational activities: Type of activities: seminar Number of hours: per week: 2 per level/semester: 26 Form of the course: on-site learning	
Number of credits: 2	
Recommended semester: 1., 3.	
Educational level: II.	
Prerequisites:	
Course requirements: Prerequisite subjects: none Prerequisites for successful completion of the course: The course is completed with a 100% interim assessment, which includes: a presentation of a selected topic (30% of the assessment) and a final colloquium in the assessment week (70% of the assessment). For successful completion of the course, a minimum of 60% of the presentation grade and 60% of the final colloquium grade is required. The rating is awarded on a scale: A (100-91%, excellent - excellent results; students performed excellently during the semester, actively participated in the teaching and showed interest in the subject, they can work independently with the literature and creatively process and present the acquired knowledge, their theoretical knowledge of religious studies is at a high level), B (90-81%, very good - above average standard; students performed very well during the semester, they participated in the teaching, they can work independently with the literature and creatively process and present the acquired knowledge, their theoretical knowledge of religious studies is at a very good level), C (80-73%, good - normal reliable work; students performed standardly well during the semester, they were able to work independently with the literature and to process and present the acquired knowledge in an appropriate way, their theoretical knowledge of religious studies is at a good level), D (72-66%, satisfactory - acceptable results; students have limited ability to work independently with the literature and are able to process and present the acquired knowledge with problems; they have slight deficiencies in theoretical knowledge of religious studies), E (65-60%, sufficient - the results meet the minimum criteria; students have considerable difficulties in working independently with the literature as well as in processing and presenting the acquired knowledge, they have significant deficiencies in theoretical knowledge of religious studies), Fx (59-0%, insufficient - extra work required). Scale of assessment (preliminary/final): 100/0	
Learning outcomes: Learning objectives and outcomes and transferable competences:	

The course will provide students with background information and orientation in the history and present of religions and sufficient background to understand religion as a significant spiritual component of the life of society. By completing the course, students will gain the ability to analyze religion in its interconnectedness as a personal, historical, cultural, ethical, social, and transcendent phenomenon. It will orient them to the world's major religious systems as well as new religious movements. They will be able to use the acquired knowledge effectively in the pedagogical process as part of civics, with an emphasis on education for religious and, in general, attitudinal tolerance. By completing the course, students will develop transferable competencies such as communication skills, analytical skills, creativity and abstract thinking skills, critical thinking skills, motivation and the ability to learn, and reasoning in context.

Learning objectives:

To provide students with the basic information needed to understand religion as a phenomenon that plays a significant role in the life of the individual as well as in society and to familiarize them primarily with the world's dominant religious systems, which are the largest in terms of both number of adherents and geographical representation.

Class syllabus:

Brief outline of the course:

1. Religious studies as a discipline and its key concepts.
2. Hypotheses about the origins of religion; the religious scene of today.
3. Primitive religions: manism and totemism.
4. Ancient religions: Egyptian, Canaanite, Greek, Roman, Celtic and Slavic.
5. Ethnic religions: Taoism, Confucianism and Shintoism.
6. Judaism: doctrine and practice.
7. Christianity: doctrine and practice.
8. Islam: teaching and practice.
9. Hinduism: doctrine and practice.
10. Buddhism: teaching and practice.

For successful completion of the course, a minimum of 60% of the presentation grade and 60% of the final colloquium grade is required. The rating is awarded on a scale: A (100-91%, excellent - excellent results; students performed excellently during the semester, actively participated in the teaching and showed interest in the subject, they can work independently with the literature and creatively process and present the acquired knowledge, their theoretical knowledge of religious studies is at a high level), B (90-81%, very good - above average standard; students performed very well during the semester, they participated in the teaching, they can work independently with the literature and creatively process and present the acquired knowledge, their theoretical knowledge of religious studies is at a very good level), C (80-73%, good - normal reliable work; students performed standardly well during the semester, they were able to work independently with the literature and to process and present the acquired knowledge in an appropriate way, their theoretical knowledge of religious studies is at a good level), D (72-66%, satisfactory - acceptable results; students have limited ability to work independently with the literature and are able to process and present the acquired knowledge with problems; they have slight deficiencies in theoretical knowledge of religious studies), E (65-60%, sufficient - the results meet the minimum criteria; students have considerable difficulties in working independently with the literature as well as in processing and presenting the acquired knowledge, they have significant deficiencies in theoretical knowledge of religious studies), Fx (59-0%, insufficient - extra work required). Scale of assessment (preliminary/final): 100/0	
Learning outcomes: Learning objectives and outcomes and transferable competences:	

The course will provide students with background information and orientation in the history and present of religions and sufficient background to understand religion as a significant spiritual component of the life of society. By completing the course, students will gain the ability to analyze religion in its interconnectedness as a personal, historical, cultural, ethical, social, and transcendent phenomenon. It will orient them to the world's major religious systems as well as new religious movements. They will be able to use the acquired knowledge effectively in the pedagogical process as part of civics, with an emphasis on education for religious and, in general, attitudinal tolerance. By completing the course, students will develop transferable competencies such as communication skills, analytical skills, creativity and abstract thinking skills, critical thinking skills, motivation and the ability to learn, and reasoning in context.

Learning objectives:

To provide students with the basic information needed to understand religion as a phenomenon that plays a significant role in the life of the individual as well as in society and to familiarize them primarily with the world's dominant religious systems, which are the largest in terms of both number of adherents and geographical representation.

Class syllabus:

Brief outline of the course:

1. Religious studies as a discipline and its key concepts.
2. Hypotheses about the origins of religion; the religious scene of today.
3. Primitive religions: manism and totemism.
4. Ancient religions: Egyptian, Canaanite, Greek, Roman, Celtic and Slavic.
5. Ethnic religions: Taoism, Confucianism and Shintoism.
6. Judaism: doctrine and practice.
7. Christianity: doctrine and practice.
8. Islam: teaching and practice.
9. Hinduism: doctrine and practice.
10. Buddhism: teaching and practice.

COURSE DESCRIPTION

Academic year: 2025/2026	
University: Comenius University Bratislava	
Faculty: Faculty of Education	
Course ID: PdF.KP/M-VUZde005/22	Course title: Teaching practice 1 (A)
Educational activities: Type of activities: practice Number of hours: per week: per level/semester: 2t Form of the course: on-site learning	
Number of credits: 2	
Recommended semester: 1.	
Educational level: II.	
Prerequisites:	
Course requirements: Prerequisites for successful completion of the course: The course is completed by assessment (100% of the interim assessment). The student will attend a pre-practise seminar with the practice methodologist of the approbation subject (A), will complete within 2 weeks 30 hours of practice in the approbation subject (A), including 10 hours of tutorials, 10 hours of outcomes and 10 hours of analyses with a trainee teacher in a primary or secondary school according to the subject/content specialisation. From the tutorials and outcomes the student keeps a personal portfolio of teaching practice. The personal portfolio is an indicator of the student's personal commitment and responsibility. The portfolio may be in print or electronic format. The student submits the portfolio to the practice methodologist for evaluation, and at the end of the portfolio the student attends a colloquium to evaluate and reflect on the teaching practice. The rating is awarded on a scale: A (100-91%, excellent - outstanding results), B (90-81%, very good - above average standard), C (80-73%, well - normal reliable work), D (72-66%, satisfactory - acceptable results), E (65-60%, sufficient - results meet minimum criteria), Fx (59-0%, insufficient - extra work required) For successful completion of the course it is necessary to obtain at least 60% of the points. A - excellent results: the student is able to apply procedures in the processes of formulating objectives according to different taxonomies of objectives. The student can analyze and classify methods and forms and other didactic categories in practice. The student is able to work effectively with professional sources. The student can critically, factually assess and evaluate the presented solutions of others, can evaluate the quality of his/her own work. B - above average standard: the student can apply the procedures in the processes of formulating goals according to different taxonomies of goals. The student can analyze and classify methods and forms and other didactic categories in practice. Above-average orientation in the problems of general didactics, above-average communication skills, completion of assigned tasks. Critical evaluation is at borderline level.	

C - normal reliable work: the student is able to work out the assigned tasks, average orientation in the problems of general didactics. Can apply the procedures in the processes according to the model and with the teacher's help. Average activity on intermediate assignments.

D - acceptable results: the student is able to work out intermediate tasks with the help of the teacher, average orientation in general didactics, average student activity.

E - the results meet the minimum criteria: the student can define and define basic didactic concepts and elements, but cannot define them in educational contexts. Critical assessment and evaluation are absent. Sufficient level of practical skills and professional knowledge.

FX - extra work is required: the student has very little knowledge of basic didactic terminology, cannot apply it in the outputs, there is no application of procedures, correct elaboration of tasks. Critical assessment and evaluation are absent.

Scale of assessment (preliminary/final): 100/0

Learning outcomes:

Learning outcomes:

Learning objectives and outcomes and transferable competences:

The aim of pedagogical practice 1A is to orient the student to real school practice, the work of teachers and pupils in the teaching process of the subject (A) in primary and secondary schools. During the practicum the student observes the teaching process of a trainee teacher and, on the basis of theoretical knowledge, analyses the teaching process in its entirety. During the outcomes, the student is able to work out the methodological preparation for the teaching unit, he/she is able to appropriately implement the individual objectives, methods, forms, teaching means and phases into the teaching process.

After completing the pedagogical practice 1 A, the student can orientate in real school practice, in the work of teachers and pupils in primary and secondary school teaching. The student is able to integrate and confront the theoretical and practical component of university training, is able to process the record of the hospitalization of the teaching unit, is able to conduct his/her own teaching outputs and real educational activity in the conditions of primary and secondary school. After completing the pedagogical practice 1 A, the student can apply the requirements of school documentation when designing a teaching unit, can process the preparation for the lesson according to the subject approbation, can interpret and predict educational phenomena, can appropriately implement individual objectives, methods, forms, teaching means and phases in the teaching process. The student can perceive pedagogical and psychological phenomena in a real school situation, register and interpret them accurately.

Class syllabus:

Brief outline of the course:

Hospitalization activity:

Preparatory phase of the hospitalization: pre-practicum seminar, definition of the requirements for the implementation of the practice, preparation and study of the hospitalization sheets, study of the literature, pre-hospitalization interview with the trainee teacher.

Implementation phase of the hospitalization: self-observation of the teaching process, processing of the hospitalization sheets.

Final phase of the hospitalization: interpretation of observed educational phenomena, analysis of the hospitalization portfolio.

Output activity:

Preparatory phase for the output: elaboration of the methodological preparation for teaching, analysis of the methodological preparation for teaching with the trainee teacher,

Implementation phase of the output: implementation of the teaching unit, implementation of the individual objectives, methods, forms, teaching means and phases into the teaching process.

<p>Final phase of the outcome: reflection on own preparation and analysis of teaching with the trainee teacher.</p> <p>Final colloquium of Teaching practice 1 (A):</p> <p>The colloquium conducted with the pedagogical practice methodologist leads students to confront theory with practice, to perceive the concept in relation to the specific educational activity, to the specific work of the teacher, but above all in relation to the pupil.</p>

A - excellent results: the student is able to apply procedures in the processes of formulating objectives according to different taxonomies of objectives. The student can analyze and classify methods and forms and other didactic categories in practice. The student is able to work effectively with professional sources. The student can critically, factually assess and evaluate the presented solutions of others, can evaluate the quality of his/her own work. B - above average standard: the student can apply the procedures in the processes of formulating goals according to different taxonomies of goals. The student can analyze and classify methods and forms and other didactic categories in practice. Above-average orientation in the problems of general didactics, above-average communication skills, completion of assigned tasks. Critical evaluation is at borderline level.	

C - normal reliable work: the student is able to work out the assigned tasks, average orientation in the problems of general didactics. Can apply the procedures in the processes according to the model and with the teacher's help. Average activity on intermediate assignments.

D - acceptable results: the student is able to work out intermediate tasks with the help of the teacher, average orientation in general didactics, average student activity.

E - the results meet the minimum criteria: the student can define and define basic didactic concepts and elements, but cannot define them in educational contexts. Critical assessment and evaluation are absent. Sufficient level of practical skills and professional knowledge.

FX - extra work is required: the student has very little knowledge of basic didactic terminology, cannot apply it in the outputs, there is no application of procedures, correct elaboration of tasks. Critical assessment and evaluation are absent.

Scale of assessment (preliminary/final): 100/0

Learning outcomes:

Learning outcomes

Learning objectives and outcomes and transferable competences:

The aim of Teaching practice 1 (B) is to orient the student to real school practice, the work of teachers and pupils in the teaching process of the subject (B) in primary and secondary schools. During the practicum, the student observes the teaching process of a trainee teacher and, on the basis of theoretical knowledge, analyses the teaching process in its entirety. During the outcomes, the student is able to work out the methodological preparation for the teaching unit, he/she is able to appropriately implement the individual objectives, methods, forms, teaching means and phases into the teaching process.

After completing Teaching practice 1 (B), the student can orientate in real school practice, in the work of teachers and pupils in primary and secondary school teaching. The student is able to integrate and confront the theoretical and practical component of university training, is able to process the record of the hospitalization of the teaching unit, is able to conduct his/her own teaching outputs and real educational activity in the conditions of primary and secondary school. After completing Teaching practice 1 (B), the student can apply the requirements of school documentation in designing a teaching unit, can process the preparation for a lesson according to the subject approbation, can interpret and predict educational phenomena, can appropriately implement individual objectives, methods, forms, teaching means and phases in the teaching process. The student can perceive pedagogical and psychological phenomena in a real school situation, register and interpret them accurately.

Class syllabus:

Brief outline of the course:

Hospitalization activity:

Preparatory phase of the hospitalization: pre-practicum seminar, definition of the requirements for the implementation of the practice, preparation and study of the hospitalization sheets, study of the literature, pre-hospitalization interview with the trainee teacher.

Implementation phase of the hospitalization: self-observation of the teaching process, processing of the hospitalization sheets.

Final phase of the hospitalization: interpretation of observed educational phenomena, analysis of the hospitalization portfolio.

Output activity:

Preparatory phase for the output: elaboration of the methodological preparation for teaching, analysis of the methodological preparation for teaching with the trainee teacher,

Implementation phase of the output: implementation of the teaching unit, implementation of the individual objectives, methods, forms, teaching means and phases into the teaching process.

<p>Final phase of the outcome: reflection on own preparation and analysis of teaching with the trainee teacher.</p> <p>Final colloquium of Teaching practice 1 (B):</p> <p>The colloquium conducted with the pedagogical practice methodologist leads students to confront theory with practice, to perceive the concept in relation to the specific educational activity, to the specific work of the teacher, but above all in relation to the pupil.</p>

COURSE DESCRIPTION

Academic year: 2025/2026	
University: Comenius University Bratislava	
Faculty: Faculty of Education	
Course ID: PdF.KP/M-VUZde006/22	Course title: Teaching practice 1 (B)
Educational activities: Type of activities: practice Number of hours: per week: per level/semester: 2t Form of the course: on-site learning	
Number of credits: 2	
Recommended semester: 1.	
Educational level: II.	
Prerequisites:	
Course requirements: Prerequisites for successful completion of the course: The course is completed by assessment (100% of the interim assessment). The student will attend a pre-practise seminar with the practice methodologist of the approbation subject (B), will complete within 2 weeks 30 hours of practice in the approbation subject (B), including 10 hours of tutorials, 10 hours of outcomes and 10 hours of analyses with a trainee teacher in a primary or secondary school according to the subject/content specialisation. From the tutorials and outcomes the student keeps a personal portfolio of teaching practice. The personal portfolio is an indicator of the student's personal commitment and responsibility. The portfolio may be in print or electronic format. The student submits the portfolio to the practice methodologist for evaluation, and at the end of the portfolio the student attends a colloquium to evaluate and reflect on the teaching practice. The rating is awarded on a scale: A (100-91%, excellent - outstanding results), B (90-81%, very good - above average standard), C (80-73%, well - normal reliable work), D (72-66%, satisfactory - acceptable results), E (65-60%, sufficient - results meet minimum criteria), Fx (59-0%, insufficient - extra work required). For successful completion of the course it is necessary to obtain at least 60% of the points. A - excellent results: the student is able to apply procedures in the processes of formulating objectives according to different taxonomies of objectives. The student can analyze and classify methods and forms and other didactic categories in practice. The student is able to work effectively with professional sources. The student can critically, factually assess and evaluate the presented solutions of others, can evaluate the quality of his/her own work. B - above average standard: the student can apply the procedures in the processes of formulating goals according to different taxonomies of goals. The student can analyze and classify methods and forms and other didactic categories in practice. Above-average orientation in the problems of general didactics, above-average communication skills, completion of assigned tasks. Critical evaluation is at borderline level.	

C - normal reliable work: the student is able to work out the assigned tasks, average orientation in the problems of general didactics. Can apply the procedures in the processes according to the model and with the teacher's help. Average activity on intermediate assignments.

D - acceptable results: the student is able to work out intermediate tasks with the help of the teacher, average orientation in general didactics, average student activity.

E - the results meet the minimum criteria: the student can define and define basic didactic concepts and elements, but cannot define them in educational contexts. Critical assessment and evaluation are absent. Sufficient level of practical skills and professional knowledge.

FX - extra work is required: the student has very little knowledge of basic didactic terminology, cannot apply it in the outputs, there is no application of procedures, correct elaboration of tasks. Critical assessment and evaluation are absent.

Scale of assessment (preliminary/final): 100/0

Learning outcomes:

Learning outcomes

Learning objectives and outcomes and transferable competences:

The aim of Teaching practice 1 (B) is to orient the student to real school practice, the work of teachers and pupils in the teaching process of the subject (B) in primary and secondary schools. During the practicum, the student observes the teaching process of a trainee teacher and, on the basis of theoretical knowledge, analyses the teaching process in its entirety. During the outcomes, the student is able to work out the methodological preparation for the teaching unit, he/she is able to appropriately implement the individual objectives, methods, forms, teaching means and phases into the teaching process.

After completing Teaching practice 1 (B), the student can orientate in real school practice, in the work of teachers and pupils in primary and secondary school teaching. The student is able to integrate and confront the theoretical and practical component of university training, is able to process the record of the hospitalization of the teaching unit, is able to conduct his/her own teaching outputs and real educational activity in the conditions of primary and secondary school. After completing Teaching practice 1 (B), the student can apply the requirements of school documentation in designing a teaching unit, can process the preparation for a lesson according to the subject approbation, can interpret and predict educational phenomena, can appropriately implement individual objectives, methods, forms, teaching means and phases in the teaching process. The student can perceive pedagogical and psychological phenomena in a real school situation, register and interpret them accurately.

Class syllabus:

Brief outline of the course:

Hospitalization activity:

Preparatory phase of the hospitalization: pre-practicum seminar, definition of the requirements for the implementation of the practice, preparation and study of the hospitalization sheets, study of the literature, pre-hospitalization interview with the trainee teacher.

Implementation phase of the hospitalization: self-observation of the teaching process, processing of the hospitalization sheets.

Final phase of the hospitalization: interpretation of observed educational phenomena, analysis of the hospitalization portfolio.

Output activity:

Preparatory phase for the output: elaboration of the methodological preparation for teaching, analysis of the methodological preparation for teaching with the trainee teacher,

Implementation phase of the output: implementation of the teaching unit, implementation of the individual objectives, methods, forms, teaching means and phases into the teaching process.

<p>Final phase of the outcome: reflection on own preparation and analysis of teaching with the trainee teacher.</p> <p>Final colloquium of Teaching practice 1 (B):</p> <p>The colloquium conducted with the pedagogical practice methodologist leads students to confront theory with practice, to perceive the concept in relation to the specific educational activity, to the specific work of the teacher, but above all in relation to the pupil.</p>

COURSE DESCRIPTION

Academic year: 2025/2026	
University: Comenius University Bratislava	
Faculty: Faculty of Education	
Course ID: PdF.KP/M-VUZde008/22	Course title: Teaching practice 2 (B)
Educational activities: Type of activities: practice Number of hours: per week: per level/semester: 3t Form of the course: on-site learning	
Number of credits: 2	
Recommended semester: 4.	
Educational level: II.	
Prerequisites:	
Course requirements: Prerequisites for successful completion of the course: The course is completed by assessment (100% of the interim assessment). The student will attend a pre-praxis seminar with the apprenticeship methodologist (B), complete 45 hours of practice, including 10 hours of exercises, 20 hours of outcomes and 15 hours of analyses with a trainee teacher in an elementary or secondary school according to the subject/content of the apprenticeship. The student keeps a personal portfolio of teaching practice from the tutorials and outcomes. The personal portfolio is an indicator of the student's personal commitment and responsibility. The portfolio may be in print or electronic format. The student submits the portfolio to the Practice Methodologist for evaluation, and at the end of the portfolio the student attends a colloquium to evaluate and reflect on the teaching practice. The rating is awarded on a scale: A (100-91%, excellent - outstanding results), B (90-81%, very good - above average standard), C (80-73%, well - normal reliable work), D (72-66%, satisfactory - acceptable results), E (65-60%, sufficient - results meet minimum criteria), Fx (59-0%, insufficient - extra work required). For successful completion of the course it is necessary to obtain at least 60% of the points. A - excellent results: the student is able to apply procedures in the processes of formulating objectives according to different taxonomies of objectives. The student can analyze and classify methods and forms and other didactic categories in practice. The student is able to work effectively with professional sources. The student can critically, factually assess and evaluate the presented solutions of others, can evaluate the quality of his/her own work. B - above average standard: the student can apply the procedures in the processes of formulating goals according to different taxonomies of goals. The student can analyze and classify methods and forms and other didactic categories in practice. Above-average orientation in the problems of general didactics, above-average communication skills, completion of assigned tasks. Critical evaluation is at borderline level.	

C - normal reliable work: the student is able to work out the assigned tasks, average orientation in the problems of general didactics. Can apply the procedures in the processes according to the model and with the teacher's help. Average activity on intermediate assignments.

D - acceptable results: the student is able to work out intermediate tasks with the help of the teacher, average orientation in general didactics, average student activity.

E - the results meet the minimum criteria: the student can define and define basic didactic concepts and elements, but cannot define them in educational contexts. Critical assessment and evaluation are absent. Sufficient level of practical skills and professional knowledge.

FX - extra work is required: the student has very little knowledge of basic didactic terminology, cannot apply it in the outputs, there is no application of procedures, correct elaboration of tasks. Critical assessment and evaluation are absent.

Scale of assessment (preliminary/final): 100/0

Learning outcomes:

Learning outcomes

Learning objectives and outcomes and transferable competences:

The aim of Teaching practice 2 (B) is orientation to real school practice, the work of teachers and pupils in the teaching process in primary and secondary schools. During the practicum, the student observes the teaching process of a trainee teacher and analyses the teaching process in its entirety on the basis of the theoretical knowledge of the didactics of the subject approbation (B). During the outcomes, the student is able to elaborate the methodological preparation for the teaching unit, he/she is able to appropriately implement individual objectives, methods, forms, teaching means and phases into the teaching process.

After completing Teaching practice 2 (B), the student can orientate in real school practice, in the work of teachers and pupils in primary and secondary school teaching. The student is able to integrate and confront the theoretical and practical component of university training, is able to process the record of the hospitalization of the teaching unit, is able to conduct his/her own teaching outputs and real educational activity in the conditions of primary and secondary school. After completing Teaching practice 2 (B), the student can apply the requirements of school documentation in designing a teaching unit, can process the preparation for a lesson according to the subject specialization, can interpret and predict educational phenomena, can appropriately implement individual objectives, methods, forms, teaching means and phases in the teaching process. The student can perceive pedagogical and psychological phenomena in a real school situation, register and interpret them accurately.

Class syllabus:

Brief outline of the course:

Hospitalization activity:

Preparatory phase of the hospitalization: pre-practicum seminar, definition of the requirements for the implementation of the practice, preparation and study of the hospitalization sheets, study of didactic literature, pre-hospitalization interview with the trainee teacher.

Implementation phase of the hospitalization: self-observation of the teaching process, processing of the hospitalization sheets.

Final phase of the hospitalization: interpretation of observed educational phenomena, analysis of the hospitalization portfolio.

Output activity:

Preparatory phase for the output: elaboration of the methodological preparation for, analysis of the methodological preparation for teaching with the trainee teacher,

Implementation phase of the output: implementation of the teaching unit, implementation of the individual objectives, methods, forms, teaching means and phases into the teaching process.

Final outcome stage: reflection on own preparation and teaching with the trainee teacher.
 Final colloquium of teaching practice 2 (B):
 The colloquium conducted with the methodologist of pedagogical practice of the approbation subject (B) leads students to confront theory with practice, to perceive the concept in relation to the specific educational activity, to the specific work of the teacher, but above all in relation to the pupil.

COURSE DESCRIPTION

Academic year: 2025/2026	
University: Comenius University Bratislava	
Faculty: Faculty of Education	
Course ID: PdF.KPg/M-VUZde015/22	Course title: Textbook and educational resources creation and evaluation
Educational activities: Type of activities: seminar Number of hours: per week: 2 per level/semester: 26 Form of the course: on-site learning	
Number of credits: 2	
Recommended semester: 1., 3.	
Educational level: II.	
Prerequisites:	
Course requirements: Prerequisite subjects: none Prerequisites for successful completion of the course: the course is completed with an assessment (100% of the continuous assessment). During the semester, the student's task is to solve continuously assigned tasks and to participate in the presentation and discussion of their solutions in seminars. The solution of each problem is evaluated with points. The maximum possible number of points for all assignments combined is 30. The rating is awarded on a scale: A minimum of 28 points is required for a final grade A (excellent - outstanding results), a minimum of 25 points for a grade B (very good - above average standard), a minimum of 22 points for a grade C (good - normal reliable work), a minimum of 20 points for a grade D (satisfactory - acceptable results) and a minimum of 18 points for a grade E (satisfactory - results meet the minimum criteria). A grade of FX (Inadequate - extra work required) will be awarded to students who score 17 points or less. To pass the course, a minimum score of 60% is required. Scale of assessment (preliminary/final): 100/0	
Learning outcomes: Learning objectives and outcomes and transferable competences: After completing the course, students will be able to explain the functions and individual elements of the textbook structure, describe the system of its creation and the current textbook policy in the Slovak Republic. They will be able to analyse, critically reflect on and discuss the elements of quality of a particular textbook defined in individual assignments. Students will be able to explain the background to the creation of various educational resources and define the specifics of the creation and use of digital educational resources in teaching. They will be able to search for digital educational content in its central repositories and open educational resources. Students will develop their analytical and critical thinking, communication, lecturing and metacognitive skills while solving, presenting and discussing the results of ongoing assignments. Students will be able to use the acquired knowledge and skills creatively in the study of other didactic disciplines and in their future teaching practice.	
Class syllabus:
